

Report cards as well as emergency contact info update sheets were sent home today with our students.

Fifth grade students will also receive a notice regarding immunizations.

To ensure accuracy in your child's record it is important that the **emergency contact information sheets** be returned by **ALL STUDENTS**. If there are changes, you can simply write those changes on the document and return. If there are no changes, you should mark the document "**No Changes**" and return it.

Report cards do not need to be returned.
