INTERVENTION STRATEGIES

Goals

- Work closely with building principals and teaching staff to further enhance the language arts initiative providing resources as needed and offering support to the program
- Analyze data from in house benchmarks and the spring state assessments to identify areas of need and successes to share with staff and the Board of Education as well as to inform instructional decisions and classroom implementation.
- Continue to meet as a District Team inclusive of Principals, Technology Network Data Specialist, CST Director, Reading Specialist, and others, both formal and informal, to assist in progress monitoring of our instructional programs.
- Maintain the development of and implementation of the evaluation, observation, and walkthrough schedule to meet the needs of those staff to be evaluated and monitor fidelity of instructional practices within the classrooms.
- Coordinate with the District Technology Network and Data Specialist enhancing curriculum and instruction through technology support and development.
- Continue to work with staff in the absence of a Supervisor of Curriculum and Instruction particularly with maintaining all curricular updates, state and federal mandates, and staff development
- Monitor the District's curriculum programming and support those areas that will need development and revisions based on the District's Curriculum Cycle in preparation for QSAC in January 2019
- Provide ongoing professional development opportunities to administration and staff both locally and out-of-district specifically through PD opportunities at the SRI/ETTC.
- Turnkey information from Superintendent's Roundtable, county meetings, NJ DOE Broadcasts, and other providers to support instructional growth and District student learning outcomes development
- Oversee the implementation of a full-day preschool program for all district three and four-year-old children via the PEEA state funded grant
