

Twin Valley High School

Twin Valley High School's student, Kimberly Lester, finished off her junior year cross country run with an impressive 13th place showing at the 1A state finals. With the success of both cross country teams this year, it leaves us all here at TVHS excited for what's in store for the upcoming season!

A Panther's Time reporter caught up with Kim and asked her what the competition was like at the state level. "It was so hard, everyone was extremely competitive. Also, it was really cold and the course was definitely harder than normal." Kim stated.

Another question posed to Kim was about the excitement of getting to compete at such a high level of competition. "I was honored to get to compete against so many good athletes."

We asked Kim about her expectations for next season? "Well, we are losing a very strong runner in Kaylee Horton, but we are also gaining a few new very strong runners. So, I believe that our team is capable of much success!"
