

HEMS Students Create Art in Math Class

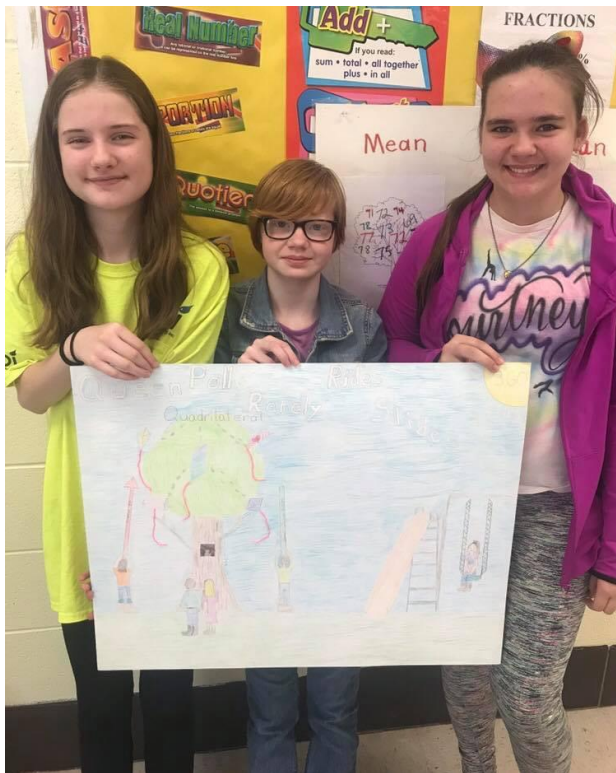

The students in Andrea Justice's 6th grade at Hurley Elementary/Middle School created Quadrilateral Family Tree Posters. This was an assignment I added to my CIP daily lessons. I told them that they could design their posters however they wanted as long as the family tree was in the correct order. Also, they had to include 360° and Queen Polly Rarely Rides Scooters somewhere on their poster.

6.13 The student will describe and identify properties of quadrilaterals.

*1st Place
