

On February 15, 2017, Grundy High School's Taylor Hartford was awarded the Harry F. Byrd Jr. Leadership Award. This award went to one student in each congressional district. In order to receive this prestigious award, students must display integrity, leadership, discipline, and work ethic. Hartford, an academic standout, had to compete against over 200 applicants for this award. She plans on attending Virginia Tech in the fall in order to pursue her dream of veterinary medicine.
