

# RED APPLE AWARD

A privately funded \$1,000.00 Red Apple Award will be available to be shared by one classroom teacher from each of the Butler R-V School campuses. This award will be in recognition of help and support given to a student by the classroom teacher which goes above and beyond the scope of instruction as part of each *normal* classroom teaching day.

During the year, you, as a parent will be an eye witness to many of these extraordinary efforts if your child has been the recipient of these measures. If you would like to express your appreciation to your child's teacher for those extra efforts that created gains in an area where your child had a deficit, resulting in a happier, more confident and academically successful student, you may do so by nominating her/him for this award. You may obtain a copy of the Red Apple Award nomination application either from the Butler R-V School website or in the respective office at either school campus. The awards will be presented at the annual teacher reception in May. Thank you for your appreciative participation in this annual Red Apple Award for deserving Butler R-V teachers.
