

<b>CASWELL COUNTY SCHOOLS BOARD OF EDUCATION POLICY</b>	<b><u>CURRICULUM AND INSTRUCTION</u> Comprehensive Health Education Program</b>	<b>627</b>
---	---	------------

The board is committed to a sound, comprehensive health education program that provides students with accurate information and encourages them to be responsible for their own health and behavior. The board recognizes the primary role of parents in providing for the health and well being of their children and seeks to involve parents as provided in this policy. The comprehensive health education program provided by the school system will meet the requirements of the Basic Education Program (BEP), as articulated in G.S. 115C-81(e1) and aligned state-adopted standards. The board may, in its discretion, expand on the subject areas to be included in the program and on the instructional objectives to be met.

**A. COMPREHENSIVE HEALTH EDUCATION PROGRAM**

A comprehensive health education program must be taught to students from kindergarten through ninth grade. As required by law, the health education program must include age-appropriate instruction on bicycle safety, nutrition, dental health, environmental health, family living, consumer health, disease control, growth and development, first aid and emergency care, mental and emotional health, drug and alcohol abuse prevention, preventing sexually transmitted diseases (STDs), including HIV/AIDS and other communicable diseases, and reproductive health and safety education.

As required by law, reproductive health and safety education in seventh grade and beyond will include age-appropriation instruction on sexual abstinence until marriage, STDs, the human reproductive system, effective contraceptive methods for preventing pregnancy and awareness of sexual assault and sexual abuse.

**B. PARENTAL OPPORTUNITIES TO REVIEW MATERIALS AND WITHHOLD CONSENT FOR STUDENT PARTICIPATION**

Each year before students participate in reproductive health and safety education or in other separate instruction on the prevention of STDs, including HIV/AIDS, or the avoidance of out-of-wedlock pregnancy, the principal or designee shall provide and notify parents of a reasonable opportunity to review the materials and objectives that will be used in instruction. A copy of all objectives and materials will be available for review in the media center of each school where these subjects will be taught.

--	--	---

The principal or designee shall also notify parents of the right to withhold or withdraw consent for their child’s participation in all reproductive health and safety education instruction or in specific topics such as STDs, the effectiveness and safety of contraceptive methods and awareness of sexual assault and sexual abuse. Parents may also withhold consent to student participation in other separate instruction on the prevention of STDs, including HIV/AIDS, or the avoidance of out-of-wedlock pregnancy. Any parent wishing to withhold or withdraw consent must do so in writing to the principal.

**C. STANDARDS FOR INSTRUCTION**

For reproductive health and safety education, teachers shall follow the instructional objectives and only use the age-appropriate materials that have been made available to parents for review in accordance with this policy. Information conveyed during instruction will be objective and based upon scientific research that is peer reviewed and accepted by professionals and credentialed experts in the field of sexual health education.

A determination of what is an appropriate education for a student with disabilities must be made in accordance with the student’s individualized education program, following all procedures as provided in the *North Carolina Procedures Governing Programs and Services for Children with Disabilities*.
