

## **Employment Contracts**

Licensed staff may be placed on a temporary or a teacher contract.

Temporary contracts are issued in a variety of situations. Because they are temporary, they include an ending date. For example, a teacher who is employed in an interim position to fill a family leave vacancy would be issued a temporary contract.

Teacher contracts are issued for one year. The principal makes a recommendation to the Superintendent to offer a contract for the next school year. Teachers must receive notice of a non-renewal by **June 1** of a given contract year.
