

Christian County Public Schools

Elementary Session

Two Options this year ☺ Space is limited

Digital Gaming 101 9-12noon	Solar Cars 1-4pm
How would you like to make your very own video game? Sound impossible? Well, it isn't. Using a simple (free) program, students will learn basic steps of creating a simple video game, and use what they have learned to design fun interactive games and stories. Come ready to imagine, create, and play!	Explore the cutting edge of automotive technology with this futuristic car. Construct a high-tech car and use a tablet or smartphone to control the cars wheels and direction. Through all of the experiments students will learn firsthand about the forward-looking technologies of driverless vehicles
