

Christian County Public Schools

Middle School Session

Two Options this year ☺ Space is limited

Mind Craft 9-12noon	Drones and Rockets 1-4pm
<p>World building is a vital component of game design, making this STEM Camp perfect for aspiring designers and Minecraft lovers alike.</p> <p>Whether your student is a veteran or new to the game, this is their chance to explore and create without limits, learning critical thinking and logic skills along the way. Join us for a journey to new worlds!</p>	<p>Cornell University Cooperative Extension Office developed Drone Discovery. It is a hands-on engineering design challenge that explores the science behind drones and how they can solve real world problems. <i>Rockets to the Rescue</i>, which explores the field of aerospace engineering. Youth learn engineering concepts, develop math skills, learn about nutrition and help solve a relevant, global issue.</p>
