General information

What is Oregon income tax withholding?

Oregon income tax withholding refers to the amount of Oregon personal income taxes that are withheld from your paychecks to cover your anticipated Oregon tax liability for the year. By law, your employer must withhold a portion of your wages based on your allowances and send the funds to the Department of Revenue.

How is the amount of Oregon income tax withholding determined?

You report your marital status, withholding allowances, and any additional amount you want withheld to your employer by completing Form OR-W-4. This information, along with Publication 150-206-436, *Oregon Withholding Tax Formulas*, which estimates the tax due on your wages, is used by your employer to withhold a specific amount per pay period.

If you have too much tax withheld, you may have a refund when you file your tax return. If you have too little tax withheld, you may owe tax when you file your tax return, including penalty and interest. See Publication OR-17 for penalty and interest information.

Why has Oregon created Form OR-W-4?

In prior years, Oregon employees were able to use the federal Form W-4 to determine and claim Oregon withholding. However, due to federal tax law and form changes, **the federal form no longer calculates Oregon withholding correctly.** Form(s) W-4 that are submitted to your employer after January 1, 2020 can't be used to calculate Oregon withholding. Instead, use Form OR-W-4 to help you calculate allowances for Oregon income tax withholding.

Form OR-W-4 is designed to estimate the amount of tax you'll need to have withheld for Oregon. Your 2020 tax return may still result in a tax due or refund. For a more accurate calculation, use the **Oregon Withholding Calculator** at www.oregon.gov/dor to calculate your allowances for Oregon.

How often do I need to complete Form OR-W-4?

Complete a new Form OR-W-4 when you start a new job and whenever you have a change in your personal or financial situation that affects your tax situation. This includes changes in your income, marital status, and number of dependents.

What will happen if I don't complete Form OR-W-4?

Your employer will refer to the most recently submitted version of Form OR-W-4 or Form W-4 when determining withholding. If you don't complete Form OR-W-4, your employer will withhold for Oregon based upon the following order:

- An Oregon-only version of the federal Form W-4 for a year prior to 2020.
- Federal Form W-4 for a year prior to 2020.
- Eight percent of your wages or other income requiring withholding.

Specific information

Two-earners or multiple jobs. If you and your spouse work or if you have more than one job, complete the following steps on the Form OR-W-4 for the **highest paying job** only:

- Enter the allowances from **Worksheet C**, line C5 on Form OR-W-4, line 2.
- Enter the additional per-period amount to withhold, if any, from **Worksheet C**, line C8 on Form OR-W-4, line 3.

For all other (lower-paying) jobs, skip the worksheets and **claim -0- allowances** on Form OR-W-4 line 2, and **-0- additional amount to be withheld** on line 3.

If you (including your spouse) have **more than two jobs**, use the online calculator for more accurate results.

Wages or adjusted gross income (AGI) that exceed the threshold. Do you expect to have wages or AGI on your 2020 return that are **more than \$100,000** (or **\$200,000** if using the married filing jointly or the qualifying widow(er) filing status)? Consider using the online calculator to determine the correct amounts to claim on your Form OR-W-4. Otherwise, skip the worksheets. Check the appropriate box on line 1 for your marital status and enter -0- on line 2. You may owe additional tax when you file your return.

Helpful tip: AGI. Your AGI is your total income minus federal adjustments to income. The amount on your 2019 federal Form 1040, line 7, may help you estimate your 2020 AGI.

Mid-year changes. If you're changing your allowances part-way through the year and you claimed too many allowances for the first part of the year, use the online calculator to determine the additional amount you need withheld to make up for the shortage you had during the first part of the year. Otherwise, you may owe tax, penalties, and interest when you file your return. See Publication OR-17 for penalty and interest information.

Pension or annuity payments. Form OR-W-4 can be used to designate the amount of withholding on your pension or annuity payments. Generally, whenever Form OR-W-4 or the instructions refer to jobs or wages, substitute these terms with "pension or annuity" or "pension or annuity payment."

If you've opted out of federal withholding, you're automatically opted out from Oregon withholding also. See Publication OR-ESTIMATE to determine the amount of estimated tax payments you need to make.

If you elect to have Oregon withholding and your pension or annuity payment is required to be withheld at a certain percentage, you aren't able to claim allowances on Form OR-W-4, line 2. However, you're able to claim additional withholding on Form OR-W-4, line 3 in addition to the percentage. If your withholding isn't required to be withheld at a certain percentage, you're able to claim amounts on Form OR-W-4, lines 2 and 3.

Exemption from withholding. If you're exempt from withholding, skip the worksheets. Complete line 4 and sign Form OR-W-4. For wages, the exemption ends on February 15th of the year following the election. For commercial annuities, employer deferred compensation plans, and individual retirement plans the exemption ends once revoked. See additional instructions for line 4 on page 2.

Part-year and nonresidents. If you're a part-year or nonresident of Oregon, complete the applicable worksheets based on amounts that will be included in the Oregon column of your Oregon return.

Nonresident alien. If all or a portion of your wages are exempt from federal withholding, these wages are also completely or partially exempt from Oregon withholding. Submit federal Form 8233 to your employer to exempt all or part of your wages.

If any portion of your wages are not exempt, submit Form OR-W-4 to your employer. As a nonresident alien, you don't qualify to claim certain items on your Oregon return. Follow the instructions below when completing Form OR-W-4:

- **Line 1.** Check the "single" box regardless of your marital status.
- **Line 2.** Usually, you should claim -0- withholding allowances. However, if you complete the worksheets, follow the instructions below.
 - Complete Worksheet B using amounts that will be listed on your Oregon return.
 - Once you have completed all applicable worksheets, subtract 1 allowance from the amount listed on lines A4, B15, or C5.
- **Line 4.** Don't claim exempt for having no tax liability or for the portion of your wages exempted under federal Form 8233.

Sign and date Form OR-W-4. Submit Form OR-W-4 (page 1) to your employer. Don't complete the employer's name, FEIN, and address boxes. Your employer will complete these. Keep the worksheets (pages 2-4) with your tax records.

Note: You may be assessed a penalty of \$500 if you file an erroneous withholding statement where there was no reasonable basis for the instruction to the employer.

Worksheet instructions

Worksheet A—Personal allowances

Line A3. Dependents. List the total of all qualifying children and qualifying relatives you are able to claim as a dependent on your Oregon return. See the "Exemption credit" section of Publication OR-17 for qualifications.

Worksheet B—Deductions, adjustments, credits, and nonwage income

Line B1. If you have large amounts of nonwage income, such as interest, dividends, or self-employment income, consider making estimated tax payments using Publication OR-ESTIMATE. Otherwise, you may owe additional tax.

Line B2. Additions are items the federal government doesn't tax but Oregon does. See Publication OR-17 for a list of additions and instructions.

Line B4. Enter your anticipated 2020 Oregon deductions. If you don't know your anticipated 2020 deductions, enter the standard deduction for your anticipated filing status.

The 2020 **standard deduction** for each filing status is:

- \$2,315 for single or married filing separately.
- \$3,725 for head of household.
- \$4,630 for married filing jointly or qualifying widow(er).

If you qualify for an **additional standard deduction amount** because you or your spouse are age 65 or older or blind, and you don't plan to itemize your deductions, enter your total estimated standard deduction amount for 2020.

Itemized deductions include items such as medical expenses in excess of 10% of your adjusted gross income, state and local taxes (limited to \$10,000, and excluding Oregon income taxes), qualifying home mortgage interest, charitable contributions, and certain miscellaneous deductions. If you plan to itemize your deductions, enter your estimated **Oregon itemized deductions**. See Schedule OR-A for additional information.

Line B7. Adjustments to income are claimed on your federal return and reduce your federal taxable income. See federal Form 1040 instructions for details on claiming adjustments to income on your federal return and see Publication OR-17 for details on claiming these items on your Oregon return.

Subtractions are items the federal government taxes but Oregon doesn't. See Publication OR-17 for a list of subtractions and instructions. Don't include your federal tax subtraction.

Line B10. Divide line B9 by \$2,800. Round to one decimal place. For example, round 4.84 to 4.8 and 4.85 to 4.9. This calculation converts the amount from line B9 into allowances.

Line B11. Credits reduce the amount of tax you must pay. Standard and carryforward credits can reduce your tax down to zero but can't be refunded to you. However, refundable credits can reduce your tax down to zero and also result in a refund of any remaining amount. See Publication OR-17 for a list of credits and instructions.

Enter an estimate of the credits you will claim on your 2020 Oregon return. Don't include your exemption credits.

Line B12. Divide line B11 by \$210. Round using one decimal place. For example, round 4.84 to 4.8 and 4.85 to 4.9. This calculation converts the amount from B11 into allowances.

Line B13. Add lines B10 and B12. Round to the nearest whole number closest to zero by eliminating the decimal value. For example, round 4.3 or 4.8 to 4 and round -3.3 or -3.7 to -3.

Example 1. Roger entered -3.1 on line B10. He entered 2.4 on line B12. He will enter -0- on line B13 (-3.1 + 2.4 = -0.7, which is rounded to -0-).

Line B15. If the result on line B15 is less than zero, consider making quarterly estimated tax payments to avoid a tax liability and penalties and interest when you file your return. See Publication OR-ESTIMATE for information on how to make quarterly estimated payments.

Worksheet C—Two earners / multiple jobs

Line C5. For your highest paying job, enter the result of **Worksheet C**, line C5 on Form OR-W-4, line 2. For all of your lower paying jobs, claim zero allowances.

Line C8. For your highest paying job, enter the result of **Worksheet C**, line C8 on Form OR-W-4, line 3. Round to the nearest whole dollar. For all of your lower paying jobs, claim zero as the additional amount to have withheld.

Example 2. Todd is completing this form in January and has entered \$824 on line C7. For his highest paying job, he is paid every two weeks and has 25 paychecks left for the year. Todd will enter \$33 on line C8 and Form OR-W-4, line 3 ($\$824 \div 25 = \32.96 , which is rounded up to the nearest whole dollar).
