DISTRICT TECHNOLOGY PLAN CHECKLIST

Cover Page

This page must contain the following:

- district name,
- name and signature of district superintendent,
- name and signature of technology coordinator,
- mailing address, phone and fax numbers, and e-mail address of district technology coordinator,
- district home page URL, and
- effective dates covered by the plan or the year covered by the annual update.

District Profile

This section must include the following:

- number of schools in the district,
- number of students enrolled in district schools,
- percentage of students eligible for free and reduced lunches,
- number of English as a Second Language (ESL) students,
- number of dropouts,
- graduation rate, and
- district E-rate discount.

Executive Summary

This section must be a concise description of the entire technology plan.

District Needs Assessment

This section must describe the district's current technology needs, current technology inventory, and current technology support strategies. All goals should specifically address your district's needs.

District Vision and Mission Statements

These overarching statements should address the district's needs, including assistive technology needs, and should be aligned with the 2003–08 state technology plan as well as the No Child Left Behind legislation.

Plans for the Five Individual Technology Dimensions

The narrative of the district's plans for the individual Technology Dimensions *must* be organized on the basis of the following five sections, which *must be labeled and ordered as shown here*:

- Technology Dimension 1: Learners and Their Environment**
- Technology Dimension 2: Professional Capacity**
- Technology Dimension 3: Instructional Capacity**
- Technology Dimension 4: Community Connections**
- Technology Dimension 5: Support Capacity**

- In each of the above sections, the narrative for the technology dimension *must* be organized on the basis of the following seven sections, which *must be titled and lettered as shown here*:

- A. Snapshot of Current Technology Use in District**

- B. Overall Goal for This Dimension**

- C. Objectives, Strategies, and Action List to Reach Goal**

- D. Implementation Action Steps for Districts and Schools**

- E. Funding Considerations for District and Schools**

- F. Evaluation of Objectives** (including baseline data sources and ongoing data sources)

- G. Current Best Practices in District** (if applicable)

- Cumulative Benchmarks**

This section must contain a list of benchmarks expected to be met during the year. Include a timeline and method for assessing benchmarks periodically.

- Acknowledgements**

This section must contain a list stakeholders that shows a wide diversity of school and community members who contributed to the planning process.

- Bibliography**

This section should provide full publication information and specific page references for all secondary sources utilized.

- Required Appendixes**

- Appendix 1: No Child Left Behind Action Plan**

Provide narratives for each of the eleven items in part C of the “Guidelines for District Technology Plans” section of the *South Carolina State Technology Plan 2003–08*.

- Appendix 2: Teacher Technology Proficiency Proviso Professional Development Plan**

Guidelines for district professional development plans can be found at <http://www.myscschools.com/offices/technology/announce/proviso140.htm>.

- Appendix 3: Acceptable Use Policy**

- Appendix 4: How E-Rate Areas Have Been Addressed**

See part B of the “Guidelines for District Technology Plans” section of the *South Carolina State Technology Plan 2003–08* for the five E- rate areas.

- Appendix 5: Report on Last Year’s Progress toward Goals, Objectives, Strategies, Benchmarks, Actions, and Outcomes**

- Other Vital Appendixes**

*I verify that all above components for the [name of district] _____
technology plan have been addressed.* Please print.

Technology coordinator's name: _____
Please print.

Technology coordinator's signature: _____
Date signed

Superintendent's name: _____

District Profile

- **13 Schools plus 3 Additional Sites**
 - 7 Elementary Schools
 - Bells Elementary
 - Black Street Elementary
 - Cottageville Elementary
 - Edisto Beach Elementary
 - Forest Hills Elementary
 - Hendersonville Elementary
 - Northside Elementary
 - 3 Middle Schools
 - Colleton Middle School
 - Forest Circle Middle School
 - Ruffin Middle School
 - 1 High School
 - Colleton County High School
 - 1 Technology and Vocational School
 - Thunderbolt Career and Technology School
 - 1 Alternative School
 - Colleton Annex Learning Center
 - 3 Additional Sites
 - District Office
 - Technology Center
 - Special Services

- **6615 Total Students Enrolled in Colleton School District**

- **70% of those students on Free and Reduced Lunch Status**

- **5 Students that are English as a Second Language (ESL) students**

- **118 Dropouts for the 02-03 School Year**

- **55% graduation rate for the 03-04 School Year**

- **Colleton School District had an 84% E-rate discount**

Executive Summary

For the next three years the Colleton County School District's Technology Plan will focus on six general technology areas, Network WAN/LAN Infrastructure, Workstations, Software, Support, Training and Others. The first of these six areas, Network WAN/LAN Infrastructure, will include the district's plan to address all E-Rate areas such as switches, routers, servers, WAN connectivity speeds, and cabling. The second of these five areas, Desktop Workstations, will include the district's plan for purchasing new units as well as the plan for upgrading and disposing of current workstations. The district's plan for the third of these six areas, Software, will include planned network and workstation software upgrades (i.e. Novell 6.5, SASI, Tranquility, Intouch, IntegratePro, Accelerated Reader, Screen Door, Microsoft Windows, Microsoft Office, etc.) The district's plan in the area of Software will also include information on new software purchases for academic and administrative purposes. The fourth area, Support, will include Colleton School District's plan to support its technology for the next three years, which will incorporate plans for computer and network training, in-house technology support, as well as limited plans for outsourcing network/workstation/training support. The fifth area includes all aspects of Training. Technical Training for support staff as well as training for teachers and administrators will be covered. The final area, Other, will include the school district's plans to address technology needs in the areas of projection units, network printers, network copiers, phone dialers, school security camera systems, digital cameras, smartboards, PDAs, and any other new or relevant technologies that may present themselves in the next three years.

Colleton County's Technology Plan will be closely aligned with the state's plan. Every effort will be made by this school district to insure that the state's plan is referenced and followed for the next 3 years.

The Colleton County School District Technology Plan will also provide the following:

- ❑ Information on how Colleton County School District will address Proviso 1.40, the state Teacher Technology Proficiency proviso.
- ❑ Information on the 5 areas stipulated in the Telecommunications Act of 1996 (E-Rate Funding)
- ❑ Information on how the district's technology plan affects the No Child Left Behind Act or vice versa.

District Needs Assessment

The latest district needs assessment was conducted during the summer of 2004 by the district needs assessment team. Needs were categorized in the following 6 areas.

Summary of District Needs Assessment

- Network WAN/LAN Infrastructure (Hardware)
 - WAN telecommunication lines MUST be upgraded.
 - The team recommends a 100 Mb Ethernet connection between the following:
 - CCHS and PRTC
 - PRTC and TTC
 - TTC and the state hub (Internet)
 - Currently a 3 Mb ATM circuit. Recommend moving this circuit to a 6 Mb ATM circuit until an Ethernet circuit can be secured.
 - The team recommends a 10 Mb Ethernet connection between the following:
 - PRTC and all other district sites
 - Current E-RATE equipment be installed within the next year.
 - Routers
 - Switches
 - Servers
 - Additional E-RATE equipment be obtained through the E-RATE process.
 - Wireless solutions be explored for some buildings and labs. Wireless cloud around CCHS and TCTC.
- Workstations
 - All Windows 95 / Pentium II computers be removed from Inventory.
 - Replace with new Windows XP computers
 - Move all district computers to the current “**district standard**” (Pentium IV) Make adjustments to the district standard as required. Minimum P4.

Base Unit: OptiPlex GX270,2.80GHz,Pentium4,1M Cache,Gigabit NIC,Small Desktop,533 Front Side Bus (221-6180)
Memory: 256MB, Non-ECC,333MHz DDR 2x128,Dell OptiPlex (311-2863)
Keyboard: Dell PS/2 Keyboard in Gray, NoHot Keys, Optiplex (310-1515)
Monitor: Dell E773s,16.0 Inch Viewable Image Size, OptiPlex, Precision Workstation, Latitude D-Family,Gray (320-1582)
Video Card: Integrated Video - Intel DVMT,GX260/GX270 (320-0428)
Hard Drive: 40GB EIDE, 7200 RPM, ATA/100 Hard Drive, GX260 (340-8889)
Floppy Disk Drive: 3.5 Inch,1.44MB,Floppy Drive Dell OptiPlex GX270 and GX280 Small Desktop or Minitower (340-8733)
Operating System: Windows XP Professional Service Pack 1,NTFS,with MediaDell OptiPlex,English,Factory Install (420-2119)
Mouse: Dell USB 2-Button Optical Mouse with Scroll (310-4126)
NIC: Integrated Intel Gigabit NIC, 10/100/1000, with Alert Standards Format, GX260/GX270 (430-0353)
CD-ROM or DVD-ROM Drive: 48X CD-ROM, EIDE, Small Desktop or Minitower, GX260 and GX270 (313-1159)
Sound Card: Integrated Sound Blaster Compatible AC97 Sound, OptiPlex (313-8170)
Speakers: Internal Chassis Speaker Option, Optiplex GX240/270 (313-1495)
Documentation Diskette: OptiPlex Resource CD (313-7168)

Factory Installed Software: Energy Star Labeling for OptiPlex (if applicable) (310-4721)
Feature: No Chassis Stand (310-7700)
Service: Type 3 Contract - Next Business Day Parts and Labor On-Site Response, Initial Year (902-4620)
Service: Type 3 Contract - Next Business Day Parts and Labor On-Site Response, 2YR Extended (902-4622)
Installation: Standard On-Site Installation Declined (900-9987)
Misc: Mouse Pad (310-3559)

- Dispose of all outdated workstations
- Once all substandard computers have been replaced plans will be developed to provide for additional computers to be installed in classrooms, labs, media centers, and administrative offices.

- Support
 - Additional computer technicians **MUST** be hired within the next several years.
 - One Network Specialist **MUST** be hired within the next year.
 - One Full Time Technology Specialist **MUST** be hired within the next several years at Colleton County High School.
 - On-Site Technology/Curriculum Software Specialists should be hired at each site before 2007-08.
 - Outsourcing of some technical support may be necessary but not desired.

- Software
 - Network Software infrastructure software **MUST** be upgraded.
 - Novell 5.1 upgraded to Novell 6.5
 - Certificate Server installed and configured
 - BorderManager Upgraded
 - ZfD (Zenworks for Desktops) upgraded to the latest version for all desktops
 - ZfS (Zenworks for Servers) bought and deployed throughout the district
 - Network Support Software that **MUST** be Upgraded
 - Firewall Hardware and Software
 - Antivirus Software
 - Spam Filtering Software
 - Porno Filtering Software
 - Packet Filtering Software
 - E-Mail Software
 - Instant Messaging Software
 - Network Support Software that needs to be purchased
 - Network Maintenance Software (i.e. HP Openview)
 - Curriculum Software that **MUST** be Upgraded
 - **ALL School's Software MUST be STANDARDIZED with every site having the same software at the same version.**
 - Orchard
 - Larson's Math
 - Star Reader and Star Math
 - Benchmarking
 - SAT Prep Software
 - CCC
 - Accelerated Reader

- Administrative Software that MUST be Upgraded
 - Tranquility to Clarity
 - SASI
 - Follett
 - Intouch
 - Integrate Pro
 - Accounting

- Training
 - Tech Support Staff Training Needed
 - Network Maintenance Training
 - A+ and Net + Training
 - Cisco Training
 - MCSE Certification Training
 - Certified Dell Technician Training
 - CNE, Dell, Cisco Certification Training
 - SASI Certification Training
 - MOUS Certification Training
 - Teacher/District Staff Training Needed
 - Proviso 1.40 Requirements
 - Curriculum Software Training
 - Administrative Software Training
 - Internet Training
 - Administrative Software Training

- Others
 - Projection Units
 - Additional Computer Projection Units needed at all sites
 - Printers
 - All schools should have a minimum of 1 network printer.
 - Most schools need to upgrade all copy machines to network capable copy machines.
 - Phone Dialers
 - All schools should have a minimum of 1 phone dialer for messaging to parents.
 - School Security Camera Systems
 - All schools should have a camera system for hallways and other high traffic areas
 - These camera systems should be a “digital” type, not VCR type.
 - Colleton County High School should increase their camera system by 16 cameras per year until ALL areas are covered. (Approx. 120 cameras)
 - Digital Cameras
 - Each school should have adequate digital cameras for teacher and staff use.
 - Smartboards
 - Every school’s computer labs should have a smart board installed.
 - One extra smartboard should be available at each school for teachers’ use.
 - PDA’s
 - The use PDAs should be incorporated into the curriculum

- PDA use for administration and teachers should be increased
- Phone Systems
 - Outdated phone systems MUST be replaced
 - Colleton County High School's phone system MUST be upgraded
 - Other school's and site's phone systems upgraded as funds become available.
- Other New and Emerging Technology
 - The district MUST look at all new and emerging technology to see if it is relevant to the educational process.

District Vision and Mission Statements

The mission of the Colleton County School District...located in a progressive rural community in the heart of the Lowcountry...is to guarantee an excellent education for all students by providing a challenging curriculum, outreach and alternative programs, highly qualified and accountable staff, excellent facilities and an environment conducive to learning.

Technology Beliefs

We believe:

- The use of technology as a tool integrated throughout the curriculum supports higher order thinking skills, communication skills, collaboration, and problem solving, which are critical elements of the district's strategic plan.
- Student access to technology is essential to meet the educational development needs of the twenty-first century.
- Students, teachers, and administrators must be able to process and manage information through the skillful use of technology.
- The creation of local area networks, wide area networks, and access to the information superhighway are vital for schools to provide efficient, effective technology based curricula for their students.
- The demands of the workplace require educational institutions to educate and train students in the use of a wide range of technology in order to better prepare students for highly skilled and well paying jobs.
- Technology provides a means to meet the diverse learning needs of students.
- Technology provides motivation for students and facilitates their active involvement in activity based learning.
- Technological resources will have a positive impact upon student achievement and motivation.
- Instructional strategies are driven by the district's strategic plan.
- Innovations in modern technology create a demand for a life-long learning process.

Our School District's Vision and Mission for Technology

It is the vision and mission of Colleton County School District to make our rural school district as competitive in the area of technology education as can be found in the largest, urban school districts of this nation. Colleton County intends to completely close the "Technology Gap" that exists between the wealth urban school districts and the poorer rural districts of South Carolina.

Plans for the Five Individual Technology Dimensions

TECHNOLOGY DIMENSION 1

LEARNERS AND THEIR ENVIRONMENT

GOAL

Colleton County School District will use research-proven strategies to provide home, school, and community environments conducive to our students achieving technological literacy by the end of the eighth grade and to raise the overall level of academic achievement.

SNAPSHOT OF CURRENT TECHNOLOGY USE

Colleton County School district current technology use for learners and their environment include:

- Internet access for all classrooms.
- Well equipped computer labs at all schools.
- Technology driven media centers.
- WAN access to network remediation software via 100 Mb connections at all schools which includes:
 - Orchard
 - Larson's Math
 - Star Reader and Star Math
 - Benchmarking
 - SAT Prep Software
 - CCC
 - Accelerated Reader
- Intouch Software (via the Internet) for student and parent access to student records (i.e. Grades, Transcripts, Attendance, Discipline, etc.)

OPERATIONAL PLAN

I. OBJECTIVES AND STRATEGIES

GOAL: Colleton County School District will use research-proven strategies to provide home, school, and community environments conducive to our students achieving technological literacy by the end of the eighth grade and to raise the overall level of academic achievement.

OBJECTIVES	STRATEGIES
1.1 Increased access to computer workstations by students.	A. Provide additional computers to all schools using

I. OBJECTIVES AND STRATEGIES

GOAL: *Colleton County School District will use research-proven strategies to provide home, school, and community environments conducive to our students achieving technological literacy by the end of the eighth grade and to raise the overall level of academic achievement.*

OBJECTIVES	STRATEGIES
	<p>a variety of funding sources.</p> <p>B. Add additional computer labs to all schools.</p> <p>C. Add additional computers to media centers.</p>
<p>1.2 Students will engage in authentic learning activities that are aligned with state standards and that integrate technology, including assistive technology, into the core content.</p>	<p>A. Develop technology-enhanced learning activities aligned with state standards in core content areas</p> <p>B. Appoint or hire school-wide school technology coaches to offer guidance to schools, educate teachers, and help ensure that lesson plans and activities incorporate a variety of technologies, including those appropriate for students with special needs</p>
<p>1.3 Students will select the appropriate tools to complete authentic, real-life multidisciplinary tasks and will demonstrate technology competence by the end of the eighth grade.</p>	<p>A. Create and use lesson activities in which students employ a variety of technology tools, including assistive technology, to complete authentic multidisciplinary tasks</p> <p>B. Measure student technology proficiency by using surveys and performance-based assessments</p> <p>C. Provide all students, including those with special needs, access to a range of high and low technology solutions, including software, peripherals, and other tools to increase student communication, participation, and collaboration</p>
<p>1.4 Colleton County School District will provide students with an enhanced learning environment through technological tools, including assistive technology, that are designed to promote high</p>	<p>A. Establish school and community learning environments that enable students to use technology for real-world problem solving and research</p> <p>B. Adopt grade-level-appropriate technology standards and integrate them into the curriculum</p>

I. OBJECTIVES AND STRATEGIES

GOAL: *Colleton County School District will use research-proven strategies to provide home, school, and community environments conducive to our students achieving technological literacy by the end of the eighth grade and to raise the overall level of academic achievement.*

OBJECTIVES	STRATEGIES
academic achievement.	<p>to enable students to fully participate in today’s information-rich global society</p> <p>C. Adopt grade-level-appropriate technology standards and integrate them into the curriculum to prepare students to function in an information-rich global society</p>

II. ACTION LIST

- Colleton County School District will emphasize access to an on-line database of technology-infused lesson plans and classroom examples across the core content areas in alignment with the state academic standards, through the SCTLC Web portal, the MarcoPolo “Internet Content for the Classroom” Web site (<http://www.marcopolo-education.org/>), and other digital resources.
- Colleton County School District will provide access to effective, research-based assistive technologies—including software, peripherals, and other tools to increase student communication, collaboration, and engagement—that will support inclusion of students with disabilities in the core content courses at all grade levels.
- Colleton County School District will develop strategies to ensure that school improvement plans address the use of technology, including assistive technology, to support a shared learning environment that includes educators, parents, and community members.
- Colleton County School District will ensure improved student achievement test scores in the core content areas, increased student access to technology (shown by the SDE Technology Counts on-line survey), and increased student access to technology outside the school environment (shown by the 2002 TAGLIT on-line survey).
- Students themselves will be given opportunities to assess the effectiveness of technology tools, including the range of assistive technology, being used for classroom activities.
- Colleton County School District will complete initial and ongoing assessments to measure increased availability of technology opportunities and resources.
- Educators and parents will complete initial and follow-up assessments to ensure that the use of technology, including the range of assistive technology tools, is effective in enhancing

II. ACTION LIST

student learning.

- Colleton County School District Technology Center will identify best practices of seamless technology integration that will be disseminated via on-line resources such as the SCTL Web portal and the *South Carolina Technology News* e-magazine, conferences and workshops, and the South Carolina Association for Educational Technology (SCAET) technology project awards.
- Colleton County School District will develop methods of recognizing student technology achievement, including the use of assistive technology, using resources such as CPU (Computer Power Users) and TNT (Teachers 'N Technology).

III. IMPLEMENTATION ACTION STEPS

Colleton County School District

- Assign school technology coaches or form district-wide technology integration specialist teams to offer guidance to schools
- Assign assistive technology coaches to educate teachers and help ensure that lesson plans and activities incorporate a variety of technologies in ways that make them accessible to individuals special needs
- Offer professional development courses using innovative delivery strategies
- Begin working with teachers in the classroom to create lesson plans that incorporate a variety of technologies into authentic multidisciplinary tasks
- Recognize exemplary technology teachers and students
- Hold technology fairs that showcase exemplary student technology projects to the community
- Encourage home and community involvement in the public school system by electronic communications and other media

CCSD Schools

- Implement an on-line system for displaying student work such as e-mail projects, on-line projects, and so forth
- Recognize exemplary student technology projects
- Hold "technology nights" that showcase exemplary student technology projects and technology teachers to the community
- Provide access to technology resources, including assistive technology, during nontraditional school hours
- Include goals and strategies for technology and assistive technology development in school improvement plans
- Encourage home and community involvement in the public school system through the use of electronic communications and other media

IV. FUNDING CONSIDERATIONS

Colleton County School District

- Technology professional development
- Technology course development
- Technology staff
- Recognition programs
- Teacher and student portfolio materials
- Technology resources to support standards-based learning across the curriculum

Colleton County Schools

- Technology professional development
- Technology course development
- Technology staff
- Recognition programs
- Teacher and student portfolio materials
- Technology resources to support standards-based learning across the curriculum

V. EVALUATION

TECHNOLOGY DIMENSION 2

PROFESSIONAL CAPACITY

GOAL

Colleton County School District will provide curriculum development and professional development to increase the competency of all South Carolina educators so that research-proven strategies and the effective integration of instructional technology systems can be used to increase student achievement.

SNAPSHOT OF CURRENT TECHNOLOGY USE

Currently, Colleton County School District uses a wide variety of curriculum and professional development strategies. Graduate level courses are offered through The Citadel in the areas of technology curriculum. Training sessions are periodically scheduled for all staff members in the area of technology.

OPERATIONAL PLAN

I. OBJECTIVES AND STRATEGIES

GOAL: Colleton County School District will provide curriculum development and professional development to increase the competency of all South Carolina educators so that research-proven strategies and the effective integration of instructional technology systems can be used to increase student achievement.

OBJECTIVES

STRATEGIES

2.1 CCSD will enable educators to achieve and demonstrate proficiency in integrating state-recommended instructional technology standards (ISTE NETS-A, ISTE NETS-S, and ISTE NETS-T) into their specific area of professional practice to increase student achievement.

- A. Encourage an initial teacher certification process that requires demonstration of proficiency in integrating instructional technology standards
- B. Adopt a process that requires teachers to demonstrate ongoing proficiency in integrating instructional technology standards
- C. Adopt a state educator professional

I. OBJECTIVES AND STRATEGIES

GOAL: Colleton County School District will provide curriculum development and professional development to increase the competency of all South Carolina educators so that research-proven strategies and the effective integration of instructional technology systems can be used to increase student achievement.

OBJECTIVES	STRATEGIES
	<p>development program to aid districts in satisfying the requirements of the teacher technology proficiency proviso</p> <p>D. Include in district technology plans a professional development program that provides a guide for teachers to progress from their current levels of ability in using technology, including appropriate assistive technology, to full proficiency</p> <p>E. Require district and school administrators to demonstrate technology proficiencies based upon the state-recommended standards for administrators (ISTE NETS-A)</p>
<p>2.2 CCSD will provide the schools with full-time multidimensional technology leadership whose focus is to ensure that technology is making a significant instructional and administrative impact for students, teachers, and administrators.</p>	<p>A. Appoint or hire full-time technology coaches to assist with basic technology skills and the integration of the technology into classroom instruction in every school</p> <p>B. Require that technology coaches provide direct training and consultation to teachers in their classrooms, with special emphasis on helping administrators, teachers, and students meet the state-recommended technology standards (ISTE NETS-A, ISTE NETS-T, ISTE NETS-S) as well as helping students to meet the state’s content standards in all areas</p>
<p>2.3 CCSD will collaborate in planning for professional development, ensuring that teachers and district staff are trained to use technology, including assistive technology, to enhance learning.</p>	<p>A. Develop and submit a technology plan that (1) is directed by the district’s technology leadership, (2) is designed for the district and for each school in the district as applicable, and (3) calls for site-based input from technology committees or teams in each building</p> <p>B. Include in district technology plans professional development for district staff and</p>

I. OBJECTIVES AND STRATEGIES

GOAL: Colleton County School District will provide curriculum development and professional development to increase the competency of all South Carolina educators so that research-proven strategies and the effective integration of instructional technology systems can be used to increase student achievement.

OBJECTIVES	STRATEGIES
	<p>teachers to be part of assistive technology assessment teams</p> <p>C. Include in district technology plans the training needed to ensure the accessibility of electronic and information technology to students with special needs</p> <p>D. Include in district technology plans the training needed for school and district staff to evaluate soft ware in order to make decisions that ensure the promotion of higher-order thinking skills for all students, including those with special needs</p>
<p>2.4 CCSD will provide schools with information and training in technology integration so that teachers can use research-based best-practice instructional methods throughout the curriculum.</p>	<p>A. Offer professional development activities and training in a variety of ways (i.e., on-site, off-site, on-line, self-paced, and combinations of these methods) to address the technology needs of staff, paying special attention to high-need schools and schools serving economically disadvantaged populations, including students with special needs</p> <p>B. Provide a list of professional development opportunities on the SCTLTC (South Carolina: Teaching, Learning, Connecting) Web portal at http://www.sctlc.com and publicize other recognized professional opportunities for educators</p> <p>C. Provide professional development opportunities focused on aligning state technology standards with state content standards</p> <p>D. Develop alliances with subject, grade, or position-specific professional organizations to promote technology integration throughout the</p>

I. OBJECTIVES AND STRATEGIES

GOAL: Colleton County School District will provide curriculum development and professional development to increase the competency of all South Carolina educators so that research-proven strategies and the effective integration of instructional technology systems can be used to increase student achievement.

OBJECTIVES	STRATEGIES
	<p style="text-align: center;">K-12 curriculum</p> <p>E. Increase the availability of technology professional development tools to teachers: access to laptop computers and presentation devices, Internet access at the classroom level, interactive on-line access to state curriculum standards and lesson plans, access to Web-based and/or CD-ROM-based training opportunities, and access to state-of-the art training centers in their particular geographic areas</p> <p>F. Develop an extensive statewide network of professional development providers who have the skills and experience necessary to prepare teachers for effective technology use</p>
<p>2.5 CCSD will assess the overall effectiveness of professional development in the area of instructional technology standards and the impact of technology on student achievement.</p>	<p>A. Establish minimum levels of teacher technology proficiency for replication and adaptation across the state</p> <p>B. Incorporate instructional technology assessment into current teacher and administrator evaluation processes</p> <p>C. Administer a statewide needs assessment to teachers and administrators to determine current levels and types of professional development that must be offered</p> <p>D. Administer evaluations to determine the effectiveness and impact of the professional development offered to teachers and administrators</p> <p>E. Encourage teachers to create and maintain technology portfolios showing examples of their students' work and documenting use of technology in their classrooms</p> <p>F. Develop an on-line professional development tracking system of teachers and administrators</p>

II. ACTION LIST

- Colleton County School District will hire or appoint full-time leadership for the use of technology, including that for assistive technology, to increase student learning.
- Colleton County School District will utilize the expertise of staff members and faculty in schools.
- A school technology coach should be hired or appointed in every school.
- An assistive technology specialist and an assistive technology assessment team should be hired or appointed in this district.
- Colleton County School District will submit to the SDE an annual technology plan that documents site-based input and includes a plan for professional development that outlines the technology education offerings and requirements, including assistive technology.
- District and school administrators should submit to their supervisors an annual professional development plan that includes technology goals aligned with ISTE NETS-A and that is reviewed as part of the administrator's annual evaluation.
- Colleton County School District will provide training to district- and building-level administrators so that they can effectively assess a teacher's ability to integrate technology, including assistive technology, into the curriculum.
- Colleton County School District will provide training for assistive technology teams in assistive-technology assessment, options, and curriculum integration.
- Colleton County School District will provide training for teachers in using assistive technology tools.
- Colleton County School District will provide training in the evaluation of software in order to make decisions that ensure the promotion of higher-order thinking skills for all students, including those with special needs.
- Colleton County School District will provide training in accessibility issues involving applicable state and federal legislation.
- District reports and evaluations of professional development initiatives and reports on the use of technology grant funds should show an increase in access to professional development.

III. IMPLEMENTATION ACTION STEPS

Colleton County School District

- Submit a technology plan, including a professional development plan, to the Office of Technology for approval.
- Administer a district technology professional development assessment to administrators and teachers to evaluate current training need areas and to create the district technology professional development plan on the basis of current needs
- Participate in ongoing, sustained professional development offerings, maintaining a log and a journal for each course, workshop, event, conference, and so forth, to place in portfolios
- Submit teacher technology proficiency assurance forms to the Office of Technology by the announced deadline
- Initiate partnerships with community entities to create greater access to technology, including assistive technology, and a community learning environment
- Administer needs assessments to identify areas of weakness and follow up with assessments that measure the impact of professional development in technology
- Evaluate and adjust technology professional development plans as indicated by needs assessments

Colleton County Schools

- Submit a technology plan, including a professional development plan, to the local district office
- Hire or appoint a school technology coach who is knowledgeable about assistive technologies for each school and will submit training and needs reports to the regional technology specialist
- Evaluate teacher and administrator portfolios to measure the impact of professional development in technology
- Administer needs assessments to identify areas of weakness and follow up with assessments that measure the impact of professional development in technology
- Monitor and adjust professional development in technology as indicated by needs assessments

IV. FUNDING CONSIDERATIONS

Colleton County School District

- Committee development of professional development plans
- Committee development of district and school technology plans
- Professional development needs-assessment tools
- Evaluation tools to measure the impact and effectiveness of technology professional development
- Evaluation experts to help show the impact of programs and initiatives
- High-quality sustained professional development programs offered via innovative delivery methods
- Scientifically based research

Colleton County Schools

- Committee development of district and school technology plans
- School technology leader salary
- Professional development needs-assessment tool
- Evaluation tools to measure the impact and effectiveness of technology professional development
- Evaluation experts to help show the impact of programs and initiatives
- Scientifically based research

V. EVALUATION

			JAN. 2005	JAN. 2006	JAN. 2007	JAN. 2008	JAN. 2009
<p>2.4 Colleton County School District will provide schools with information and training in technology integration so that teachers can use research-based best-practice instructional methods throughout the curriculum.</p>							
<p>2.5 Colleton County School District will assess the overall effectiveness of professional development in the area of instructional technology standards and the impact of technology on student achievement</p>							

TECHNOLOGY DIMENSION 3

INSTRUCTIONAL CAPACITY

GOAL

Colleton County School District will use current and emerging technology to create learner-centered instructional environments that enhance academic achievement.

SNAPSHOT OF CURRENT TECHNOLOGY USE

Colleton County School district current instructional capacity includes:

- Internet access for all classrooms.
- Cisco Routers and 100/1000 Mb Switches at all schools. Most 10/100 hubs have been removed.
- Well-equipped computer labs at all schools with network printers.
- Multiple Internet capable computers in many classrooms.
- WAN access to network remediation software via 100 Mb connections at all schools which includes:
 - Orchard
 - Larson's Math
 - Star Reader and Star Math
 - Benchmarking
 - SAT Prep Software
 - CCC
 - Accelerated Reader
- Intouch Software (via the Internet) for student and parent access to student records (i.e. Grades, Transcripts, Attendance, Discipline, etc.)
- E-mail and Web Servers at many schools.

OPERATIONAL PLAN

I. OBJECTIVES AND STRATEGIES

GOAL: Colleton County School District will use current and emerging technology to create learner-centered instructional environments that enhance academic achievement.

OBJECTIVES	STRATEGIES
<p>3.1 Colleton County School District will develop a technology framework for local planning that addresses the steps necessary to create a technology-rich environment that will foster increased achievement by all students, including those with special needs.</p>	<p>A. Ensure that curricular design, instructional strategies, and learning environments integrate appropriate technologies (including the range of assistive technology options) to significantly impact teaching and learning</p> <p>Facilitate the use of technologies to support and enhance instructional methods (including the use of hardware, software, and assistive technology) that develop higher-level thinking, decision-making, and problem-solving skills</p>
<p>3.2 Colleton County School District will provide teachers with the technology resources, including assistive technology, necessary to increase academic achievement by engaging students in active learning.</p>	<p>Provide teachers with access to knowledgeable personnel, productivity tools, on-line services, media-based instructional materials, and primary sources of data in settings that enrich and extend teaching goals</p>
<p>3.3 Colleton County School District will provide students with access to current and emerging technology resources that will extend their learning beyond the traditional classroom setting and schedule.</p>	<p>Provide students with access to technology, on-line services, and media-based instructional materials, allowing them to select appropriate tools that will enrich and extend their learning</p>
<p>3.4 Colleton County School District will provide and support a variety of multimedia equipment and software for teaching and learning.</p>	<p>A. Communicate via the district technology plan a vision for multimedia infrastructure designed to support instruction</p> <p>B. Establish a system for identifying, specifying, prioritizing, and managing equipment for multimedia development in direct support of curricular and professional development objectives</p>

II. ACTION LIST

- Colleton County School District will conduct technology-planning meetings to address curricular design, instructional needs of all teachers, instructional strategies, and appropriate learning environments.
- Colleton County School District will conduct technology-planning meetings to address the inclusion of appropriate assistive technology into curricular design, instructional strategies, and learning environments (general and special education).
- Colleton County School District will pursue funding opportunities such as grants to provide funds to acquire and maintain hardware and software for use in classroom instruction.
- Colleton County School District will pursue funding opportunities such as grants to acquire and maintain assistive technology for use in classroom instruction and home access when appropriate.

III. IMPLEMENTATION ACTION STEPS

Colleton County School District

- Conduct technology curriculum planning meetings
- Include an instructional technology plan and an assistive technology plan in the technology plan to be submitted to the Office of Technology for approval
- Create methods of gauging technology readiness
- Evaluate hardware and software for desirable student outcomes and standardize selection when appropriate
- Designate technology leaders
- Participate in ongoing, sustained professional development offerings, maintaining a log and a journal for each course, workshop, event, conference, and so forth, to place in portfolios
- Submit teacher technology proficiency assurance forms to the Office of Technology by the announced deadline
- Initiate partnerships with community entities to create greater access to technology and a community learning environment
- Pursue funding opportunities such as grants to acquire and maintain hardware, instructional software, and assistive technology
- Pursue the delivery of courses for students and professional development courses for teachers via innovative methods

Colleton County Schools

- Conduct technology curriculum planning meetings
- Submit a technology plan, including a professional development plan, to the local district office
- Hire or appoint a school technology coach who is knowledgeable about assistive technologies for each school and will submit training and needs reports to the regional technology specialist

III. IMPLEMENTATION ACTION STEPS

- Interview students to assess information literacy and the integration of technology into the classroom
- Pursue funding opportunities such as grants to acquire and maintain hardware, instructional software, and assistive technology

IV. FUNDING CONSIDERATIONS

Colleton County School District

- Committee development of district and school technology plans
- Evaluation tools to measure the impact and effectiveness of the integration of technology with regard to student achievement
- Evaluation experts to help show the impact of programs and initiatives
- Scientifically based research
- Distance learning
- Eighth-grade proficiency measurement
- School technology leader implementation
- Professional development

Colleton County Schools

- Committee development of district and school technology plans
- School technology leader implementation
- Professional development needs-assessment tools
- Evaluation tools to measure the impact and effectiveness of the integration of technology with regard to student achievement
- Evaluation experts to help show the impact of programs and initiatives
- Scientifically based research
- Professional development

V. EVALUATION

Objectives	Possible Baseline Data	Possible Data Sources to Be Used for Ongoing Evaluation and End-of-Program Report	Outcomes (Include "action list" items achieved.)				
			JAN. 2005	JAN. 2006	JAN. 2007	JAN. 2008	JAN. 2009
<p>3.1 Colleton County School District will develop a technology framework for local planning that addresses the steps necessary to create a technology-rich environment that will foster increased achievement by all students, including those with special needs.</p>	<ul style="list-style-type: none"> • Statewide achievement test scores • Technology readiness and access surveys • District report cards • Teacher technology proficiency proviso forms • Teacher and administrator portfolios • School technology and improvement plans • Technology assessments • Documentation of offerings provided via innovative delivery methods 	<ul style="list-style-type: none"> • Statewide achievement test scores • District report cards • Technology readiness and access surveys • Teacher technology proficiency proviso forms • Observations and interviews • Anecdotal records • Documented access to on-line resources • Technology assessments • Documentation of offerings provided via innovative delivery methods 					
<p>3.2 Colleton County School District will provide teachers with the technology resources, including assistive technology, necessary to increase academic achievement by engaging students in active learning.</p>							
<p>3.3 Colleton County School District will provide students with access to current and emerging technology resources that will extend their learning beyond the traditional classroom setting and schedule.</p>							
<p>3.4 Colleton County School District will provide and support a variety of multimedia equipment and software for teaching and learning.</p>							

TECHNOLOGY DIMENSION 4

COMMUNITY CONNECTIONS

GOAL

Colleton County School District will increase student achievement through the use of technology, including assistive technology, by maximizing community involvement and community partnerships.

SNAPSHOT OF CURRENT TECHNOLOGY USE

Currently, Colleton County Schools maximizes community involvement and community partnerships in the area of technology by:

- Intouch Software
 - This software allows parents and students to access student records via the Internet. This is a secure link that uses a high level of security.
- Media Center Access
 - School media centers are open to students and the general public after hours for homework and for other needs.
- The Technology Center Training Lab
 - Many community and business organizations use The Technology Center Training Lab.
 - This lab includes 21 new computers with a network printer and computer projection unit.

OPERATIONAL PLAN

I. OBJECTIVES AND STRATEGIES

GOAL: Colleton County School District will increase student achievement through the use of technology, including assistive technology, by maximizing community involvement and community partnerships.

OBJECTIVES	STRATEGIES
<p>4.1 Colleton County School District will establish community technology partnerships and collaborations by providing tools, resources, and training that support student transition, achievement, and outcomes. (The term <i>community</i> includes parents, businesses, state and local agencies, nonprofit groups, and institutions of higher education.)</p>	<ul style="list-style-type: none"> A. Form district-community partnerships to provide students with real-world experiences in the use of technology, including assistive technology, that enhance academic achievement B. Form district-community partnerships to help research and evaluate school and district technology projects C. Provide recognition/reward programs and/or incentives for partnerships showing impact D. Write community-collaborative technology grants to develop and fund the use of technology to improve teaching and learning E. Form district-community partnerships to facilitate the use of technology, including assistive technology, in the public schools and to improve outcomes for students transitioning from school to work or higher education
<p>4.2 Colleton County School District will fully utilize all available resources by fostering collaboration and cooperation among state-supported organizations, institutions, and initiatives.</p>	<ul style="list-style-type: none"> A. Identify all of the organizations, institutions, and initiatives that are currently focused on instructional technology applications B. Compile a database of institutions willing to partner with high-need school districts by creating a message board on the South Carolina: Teaching, Learning, Connecting (SCTLC) Web portal (http://www.sctlc.com) where potential partners can communicate with one another and generate ideas C. Partner with other school districts as well as community entities to collaborate in order to provide assistive technology demonstration,

I. OBJECTIVES AND STRATEGIES

GOAL: Colleton County School District will increase student achievement through the use of technology, including assistive technology, by maximizing community involvement and community partnerships.

OBJECTIVES	STRATEGIES
	loan, and assessment for students with special needs
<p>4.3 Colleton County School District will provide after-hours training and community access to labs, media centers, and classrooms.</p>	<p>A. Create and publish flexible schedules of after-hours technology access and training for students, parents, teachers, and community members</p> <p>B. Create opportunities for access to facilities for after-hours assistive technology training for students, parents, teachers, and community members</p>
<p>4.4 Colleton County School District will ensure that all their buildings are linked by the Internet to the State Library's DISCUS databases and to the Web sites of universities, museums, and other institutions to facilitate virtual communication between home, school, and community.</p>	<p>Host an electronic list through the SCTL Web portal for school districts and community entities interested in collaborative initiatives</p>

II. ACTION LIST

- Colleton County School District will initiate and increase community collaborations that give students, teachers, and members of the local community increased access to and training in technology, including assistive technology.
- Schools should develop a rubric to measure the success of their community partnerships.
- Colleton County School District will publish school lab schedules showing after-hours technology access and training.
- Colleton County School District will maintain logs of professional development, community offerings, and internship opportunities in technology.
- Colleton County School District will maintain logs of partnerships and their role in helping research and evaluate technology projects.
- Colleton County School District will publicize successful collaborations with outside entities

II. ACTION LIST

in the demonstration, loan, and assessment of assistive technology.

- Colleton County School District will post successful technology grant applications on the Internet for others to use as models
- Colleton County School District will develop lists of possible partner organizations, institutions, and initiatives that may include the following:
 - South Carolina Commission on Higher Education
 - Distance education learning centers (DELCS)
 - Instructional Television (ITV)
 - School Technology Initiative
 - Math and Science Hubs
 - South Carolina: Teaching, Learning, Connecting (SCTLC) Web portal
 - South Carolina Assistive Technology Advisory Committee
 - South Carolina Assistive Technology Project
 - South Carolina Commission for the Blind
 - South Carolina Department of Disabilities and Special Needs
 - South Carolina Department of Education
 - South Carolina Educational Television
 - South Carolina State Library
 - South Carolina Vocational Rehabilitation Department
- Colleton County School District will plan and coordinate regular meetings of representatives of collaborative groups to determine how they can best cooperate to meet the professional development needs of Colleton County educators.
- Colleton County School District will lead the formation of consortia among local education agencies, business and industry, public entities, private organizations, museums, libraries, colleges, and private schools for the full utilization of technology and assistive technology expertise.
- Colleton County School District will publish a list of successful consortia, partnerships, and initiatives on the SDE Web site and the SCTLC Web portal.
- Colleton County School District will provide increased access and use of school facilities for after-hours technology training.
- Colleton County School District will provide flexible technology training schedules to the SDE.
- Colleton County School District will provide information about assistive technology training opportunities on the SDE Web site and through the SCTLC Web portal.
- Colleton County School District will utilize its Web site to publish a list of volunteers for possible technology partnerships to benefit that district's schools.

III. IMPLEMENTATION ACTION STEPS

Colleton County School District

- Submit a technology plan, including a professional development plan, to the Office of Technology for approval
- Encourage flexible lab, media center, and classroom hours among schools, including opportunities for community members to see and try assistive technology
- Initiate partnerships with community entities to create greater access to technology and a community learning environment
- Initiate partnerships with community entities to research technology projects
- Include members of the community in writing technology grants to develop and fund better teaching and learning through technology, including assistive technology
- Utilize the Web site to publish a list of volunteers for possible technology partnerships
- Measure access and use of school technology facilities

Colleton County Schools

- Submit a technology plan, including a community partnership plan, to the local district office
- Distribute parent and community information through report cards
- Develop, implement, and publicize flexible lab, media center, and classroom hours, including opportunities for community members to see and try assistive technology.
- Initiate partnerships with community entities to create greater access to technology and a community learning environment
- Initiate partnerships with community entities to research technology projects
- Include members of the community in writing technology grants to develop and fund better teaching and learning through technology, including assistive technology

IV. FUNDING CONSIDERATIONS

Colleton County School District

- Evaluation experts to help show impact of community programs and initiatives
- High-quality sustained community training technology programs offered via innovative delivery methods
- Community and apprentice internships
- Facility operation beyond the regular school day
- District survey administration, collection and analysis, and reporting
- Grant-writing experts and workshops

Colleton County Schools

- Evaluation experts to help show the impact of community programs and initiatives
- High-quality sustained community training technology programs offered via innovative delivery methods
- Community internships
- Facility operation beyond the regular school day
- School survey administration, collection and analysis, and reporting

TECHNOLOGY DIMENSION 5

SUPPORT CAPACITY

GOAL

Colleton County School District will expand and support technology resources to assist educators and learners in meeting the state academic standards.

SNAPSHOT OF CURRENT TECHNOLOGY USE

Currently, Colleton County School District is working to expand and support its technology in an effort to assist educators and learners in meeting the state academic standards. CCSD prides itself on a well-developed network infrastructure. Colleton County Technology Center is currently working to expand the bandwidth between schools. There is not enough technology support staff to meet demands of the district.

OPERATIONAL PLAN

I. OBJECTIVES AND STRATEGIES

GOAL: Colleton County School District will expand and support technology resources to assist educators and learners in meeting the state academic standards.

OBJECTIVES	STRATEGIES
<p>5.1 Colleton County School District will ensure that all students, including those with special needs, and teachers have access to electronic information resources.</p>	<p>A. Maintain a technology inventory that includes the status of current network/Internet access, workstations and other devices available for access, software applications available for addressing state academic standards, peripherals, and other factors related to universal access to network resources</p> <p>B. Conduct needs assessments (1) to identify required network components, workstations, and other devices needed for network access, including assistive technology devices, and (2) to identify and evaluate software applications required to meet academic needs as well as peripherals and other resources required to create universal access to network resources</p> <p>C. Create a district strategic plan for acquiring and</p>

I. OBJECTIVES AND STRATEGIES

GOAL: Colleton County School District will expand and support technology resources to assist educators and learners in meeting the state academic standards.

OBJECTIVES	STRATEGIES
	<p>implementing the technology, including assistive technology, that is required to provide universal access to network resources</p> <p>D. Develop the district strategic plan with input from all segments of the school community—students, teachers, therapists, administrators, parents, community members, community agencies, and local businesses—and include in the plan a mechanism for review and revision as needed</p> <p>E. Seek school and district funding from available local, state, and federal sources, including E-rate, grants, and bonds</p>
<p>5.2 Colleton County School District will ensure that their schools have an integrated, secure network infrastructure with dynamic bandwidth capacity to support fully converged networks that allow for communication, data collection and distribution, and distance learning.</p>	<p>A. Communicate in the district technology plan a vision for multimedia infrastructure designed to support instruction</p> <p>B. Establish a system for identifying, specifying, prioritizing, and managing equipment for multimedia development in direct support of curricular and professional development objectives</p> <p>C. Ensure the installation, maintenance, and support of multimedia-capable teacher stations in classrooms including data projectors to support large-group instruction</p> <p>D. Research and implement an integrated network infrastructure capable of utilizing all distribution modules</p> <p>E. Use bundled distribution packages as a primary means of distribution to manage fully converged networks</p> <p>F. Install and maintain networks, virus protection, and Internet filtering according to industry standards by implementing systemic, state-of-the-art network security tools at all levels of access to LANs, WANs, and other networks</p> <p>G. Assess LAN/WAN technology currently</p>

I. OBJECTIVES AND STRATEGIES

GOAL: Colleton County School District will expand and support technology resources to assist educators and learners in meeting the state academic standards.

OBJECTIVES	STRATEGIES
	<p>implemented to determine SNMP (simple network management protocol) compliance</p> <p>H. Implement a district network management tool that performs automated software installation</p>
<p>5.3 Colleton County School District will have qualified technical staff, including one networking engineer per WAN or per ten LANs, one networking technician per LAN, and one end-user support technician per every five hundred users.</p>	<p>A. Develop statewide minimum staffing requirements and job descriptions, with a state-guided salary schedule, for the positions of networking engineer, networking technician, educational technology director, and support technician</p> <p>B. Provide state-level network support for district engineers</p> <p>C. Appoint a district network manager who will lead a committee in identifying and evaluating network management tools that will meet the needs of the district</p>
<p>5.4 Colleton County School District will implement a disaster recovery plan for all points of failure in LANs and WANs, including redundant data storage, robust automated backup, and immediate hardware recovery.</p>	<p>A. Ensure that disaster recovery plans are included in the district technology plan</p> <p>B. Ensure that schools will have electrical distribution systems that provide isolated circuits in all classrooms and redundant power sources for mission-critical equipment</p> <p>C. Implement a district management application that monitors bandwidth on the LAN and WAN and provides network failure alarms that can be accessed remotely</p>
<p>5.5 Colleton County School District will implement an obsolescence and upgrade plan to replace and recycle equipment and software.</p>	<p>Ensure that the obsolescence and upgrade plans are included in the district technology plan</p>
<p>5.6 Colleton County School District will increase their ability to design Web pages and Web-based instruction that are accessible to students and staff with special needs in accordance with</p>	<p>Provide training in basic Web page accessibility principles to staff, teachers—and, when appropriate, students—who design Web pages as part of the curriculum</p>

I. OBJECTIVES AND STRATEGIES

GOAL: Colleton County School District will expand and support technology resources to assist educators and learners in meeting the state academic standards.

OBJECTIVES	STRATEGIES
<p>Section 508 of the Rehabilitation Act of 1973 as amended by the Workforce Improvement Act of 1998.</p>	

II. ACTION LIST

- Colleton County School District will have access to a database with a complete technology inventory, including assistive technology, showing the type of equipment/device, its location, its use, peripherals to which it has access, applications to which it has access, and other relevant information.
- Colleton County School District will maintain a needs-assessment document showing technology-based resources and applications required to address the mission of the district, including networking, hardware/devices, and software applications as well as assistive technology.
- Colleton County School District will include in their local budgets line items for technology, including assistive technology, with sufficient funding to implement the designated strategies.
- Colleton County School District will publish a procedure for the perpetual review of equipment used in multimedia development processes. Reviews should quantify equipment and processes by their impact on teaching and learning.
- Colleton County School District will maintain a strategic plan for acquiring and implementing technology, including assistive technology, for universal access to network resources. This document should show the strategies for addressing the identified needs, the persons responsible for addressing and completing each strategy, and the resources/funds necessary to fully implement the strategies.
- District technology plans should include a strategic vision for building a multimedia infrastructure to support instruction.
- District technology plans should include a disaster recovery plan.
- District technology plans should include an obsolescence and upgrade plan, including strategies to refurbish, resell, recycle, or donate obsolete devices.
- District policies outlined in district technology plans should include security accountability, virus protection, and Internet filtering guidelines.
- District technology plans should provide for outlets and amperage and for meeting industry standards and building codes.

II. ACTION LIST

- Colleton County School District will use professional discussion groups to share the results of their research about the implementation of integrated network infrastructures and bundled distribution practices.
- Colleton County School District will have records to show that they have assessed their current LAN/WAN technology.
- District network managers should provide the district office with quarterly reports of statistics on bandwidth utilization.
- Colleton County School District will use the SDE Technology Counts on-line survey to report on their use of network management tools.
- Colleton County School District will ensure that new school construction provides for isolated power in each classroom, computer lab, telecommunications closet, and work area.
- Colleton County School District will provide UPS (uninterruptible power supply) systems for all critical equipment.
- Colleton County School District will use the minimum staffing and salary requirements for the positions specified in objective 4.3.
- Colleton County School District will have a network manager in place.
- District staff, teachers, and students should be aware of basic Web accessibility guidelines when designing Web pages.
- Colleton County School District will designate a Web accessibility resource person to coordinate training and information sharing among district personnel.

III. IMPLEMENTATION ACTION STEPS

Colleton County School District

- Maintain technology inventories, including assistive technology
- Conduct needs assessments to identify required technology, including assistive technology
- Create a strategic technology plan that includes strategies for acquiring, managing, and implementing required technology, including assistive technology
- Implement a district disaster recovery plan and an obsolescence and upgrade plan
- Seek funding from local, state, and federal sources
- Encourage and publicize flexible access schedules
- Create a vision for a multimedia infrastructure
- Encourage schools to provide multimedia-capable workstations
- Research and implement an integrated network infrastructure
- Use bundled distribution packages to manage fully converged networks
- Install and maintain secure networks
- Employ staff for adequate network maintenance and support
- Implement a district management application that monitors bandwidth on the LAN and WAN
- Ensure that schools have adequate electrical distribution systems
- Publish procedures and schedules for review of equipment and software used in multimedia development including rubrics for judging impact on teaching and learning
- Provide schools with the necessary guidance and training in creating Web pages to ensure that electronic information is accessible to students and teachers with special needs

Colleton County Schools

- Create a strategic technology plan that includes strategies for acquiring and implementing required technology, including assistive technology
- Seek funding from local, state, and federal sources
- Create flexible schedules for access to technology
- Provide multimedia-capable workstations
- Install and maintain secure networks
- Employ staff for adequate network maintenance and support
- Provide adequate electrical distribution systems

IV. FUNDING CONSIDERATIONS

Colleton County School District

- Total cost of ownership (TCO) calculation to determine the allocation per student per year necessary to keep the pace with the need for access to network resources [Consortium for School Networking's TCO tool available on-line at <http://www.classroomtco.org>]
- Technology committee meetings to develop products such as the multimedia infrastructure plan and the disaster recovery plan
- Materials to publish an updated technology plan
- Multimedia teacher workstations including data projectors
- Hardware and software to secure all LANs and WANs to comply with district, state, and industry standards
- Technology director, networking engineer, and networking technician
- Equipment inventory assessment program
- Isolated circuit plan
- Support planning
- Technology needs assessments and surveys

Colleton County Schools

- Total cost of ownership (TCO) calculation to determine the allocation per student per year necessary to keep the pace with the need for access to network resources [Consortium for School Networking's TCO tool available on-line at <http://www.classroomtco.org>]
- Technology committee meetings to develop products such as the multimedia infrastructure plan and the disaster recovery plan
- Materials to publish an updated technology plan

			JAN. 2005	JAN. 2006	JAN. 2007	JAN. 2008	JAN. 2009
<p>5.1 Colleton County School District will ensure that all students, including those with special needs, and teachers have access to electronic information resources.</p>	<ul style="list-style-type: none"> • Statewide achievement test scores • District report cards • Professional development tracking and surveys • District, school, and community surveys • School technology and improvement plans • Documented access to technology resources • Technology needs assessments • SDE Technology Counts on-line survey • Budget data • State personnel reports 	<ul style="list-style-type: none"> • Statewide achievement test scores • District report cards • Professional development tracking and surveys • Observations and interviews • Documented access to technology resources • District, school, and community surveys • School technology and improvement plans • Documented access to technology resources • Technology needs assessments • SDE Technology Counts on-line survey • Budget data • State personnel reports 					
<p>5.2 Colleton County School District will ensure that their schools have an integrated, secure network infrastructure with dynamic bandwidth capacity to support fully converged networks that allow for communication, data collection and distribution, and distance learning .</p>							
<p>5.3 Colleton County School District will have qualified technical staff, including one networking engineer per WAN or per ten LANs, one networking technician per LAN, and one end-user support technician per every five hundred users.</p>							
<p>5.4 Colleton County School District will implement a disaster recovery plan for all points of failure in LANs and WANs, including redundant data storage, robust automated backup, and immediate hardware recovery.</p>							
<p>5.5 Colleton County School District will implement an obsolescence and upgrade plan to replace and recycle equipment and software.</p>							

V. EVALUATION

Objectives	Possible Baseline Data	Possible Data Sources to Be Used for Ongoing Evaluation and End-of- Program Report	Outcomes (Include "action list" items achieved.)				
			JAN. 2005	JAN. 2006	JAN. 2007	JAN. 2008	JAN. 2009
<p>5.6 Colleton County School District will increase their ability to design Web pages and Web-based instruction that are accessible to students and staff with special needs in accordance with Section 508 of the Rehabilitation Act of 1973 as amended by the Workforce Improvement Act of 1998.</p>							

Cumulative Benchmarks

Note: These targets and benchmarks will be monitored and adjusted annually in the report to the people of Colleton County. **These Benchmarks have been DIRECTLY aligned to the State's Technology Plan.**

2004–05

Learners and Their Environment

- Thirty percent of the county's students will possess effective communication skills and technology literacy as evidenced by presentations at technology conferences and fairs.

Professional Capacity

- Sixty percent of Colleton School District teachers will possess technology proficiency as evidenced by teacher technology proficiency assurance forms and integrating technology into the curriculum to teach the state curriculum standards.

Instructional Capacity

- Thirty percent of Colleton County's teachers will integrate technology and information literacy skills into their teaching of the South Carolina academic standards as evidenced by the technology proficiency assurance forms and teacher portfolios.
- Thirty percent of Colleton County's students will meet the information literacy and technology skills for their grade level as found on the SDE's performance matrix for information literacy and technology education.

Community Connections

- Colleton County will have an 8 percent yearly increase in community collaborations that result in better teacher and student access to technology, better teacher and student use of technology, more teacher and student real-world experiences in technology-related fields, more research and evaluation of technology projects, and more community collaboration technology grants submitted and dollars funded.
- Colleton County's elementary, middle, and high schools will provide access to technology-related facilities after hours for parents, teachers, and community members.

Support Capacity

- Colleton County School District will include in our technology plan an assessment of our current technology needs, our current technology inventory, and our current technology support strategies.

2005–06

Learners and Their Environment

- Forty percent of the Colleton County's students will possess effective communication skills and technology literacy as evidenced by teacher and student technology portfolios and by presentations at technology conferences and fairs.

Professional Capacity

- Plans and funding will be developed to begin the process of hiring a technology coach at Colleton County High School.

Instructional Capacity

- Forty percent of Colleton County's students will meet the information literacy and technology skills for their grade level as found on the SDE's performance matrix for information literacy and technology education.

Community Connections

- Colleton County will have an 8 percent yearly increase in community collaborations that result in better teacher and student access to technology, better teacher and student use of technology, more teacher and student real-world experiences in technology-related fields, more research and evaluation of technology projects, and more community collaboration technology grants submitted and dollars funded.
- Colleton County's elementary, middle, and high schools will provide access to technology-related facilities after hours for parents, teachers, and community members.

Support Capacity

- Colleton County School District will include in our technology plan an assessment of our current technology needs, our current technology inventory, and our current technology support strategies.

2006–07

Learners and Their Environment

- Fifty percent of the county's students will possess effective communication skills and technology literacy as evidenced by presentations at technology conferences and fairs.

Professional Capacity

- Plans and funding will be developed to begin the process of getting technology coaches at the district's 3 middle schools.
- A technology coach will be hired and in place at Colleton County High School

Instructional Capacity

- Fifty percent of teachers will integrate technology and information literacy skills into their teaching of the South Carolina academic standards as evidenced by the technology proficiency assurance forms and teacher portfolios.
- Fifty percent of students will meet the information literacy and technology skills for their grade level as found on the SDE's performance matrix for information literacy and technology education.

Community Connections

- Colleton County will have an 8 percent yearly increase in community collaborations that result in better teacher and student access to technology, better teacher and student use of technology, more teacher and student real-world experiences in technology-related fields, more research and evaluation of technology projects, and more community collaboration technology grants submitted and dollars funded.
- Colleton County's elementary, middle, and high schools will provide access to technology-related facilities after hours for parents, teachers, and community members.

Support Capacity

- Colleton County School District will include in our technology plan an assessment of our current technology needs, our current technology inventory, and our current technology support strategies.

2007–08

Learners and Their Environment

- Sixty percent of the county's students will possess effective communication skills and technology literacy as evidenced by presentations at technology conferences and fairs.

Professional Capacity

- Plans and funding will be developed to begin the process of getting technology coaches at the district's 7 elementary schools.
- Technology coaches will be hired and in place at the 3 middle schools.

Instructional Capacity

- Sixty percent of teachers will integrate technology and information literacy skills into their teaching of the South Carolina academic standards as evidenced by the technology proficiency assurance forms and teacher portfolios.
- Sixty percent of students will meet the information literacy and technology skills for their grade level as found on the SDE's performance matrix for information literacy and technology education.

Community Connections

- Colleton County will have an 8 percent yearly increase in community collaborations that result in better teacher and student access to technology, better teacher and student use of technology, more teacher and student real-world experiences in technology-related fields, more research and evaluation of technology projects, and more community collaboration technology grants submitted and dollars funded.
- Colleton County's elementary, middle, and high schools will provide access to technology-related facilities after hours for parents, teachers, and community members.

Support Capacity

- Colleton County School District will include in our technology plan an assessment of our current technology needs, our current technology inventory, and our current technology support strategies.

Appendix 1: No Child Left Behind Action Plan

1. A description of how your district will use federal funds including Enhancing Education through Technology (E2T2) competitive and/or formula funds to improve the academic achievement, including the technology literacy, of all students attending the schools served and to improve the capacity of all teachers teaching in these schools to integrate technology effectively into curricula and instruction.

Can be found on pages 77-81 of this document.

2. A description of your school district's specific goals for using advanced technology to improve student academic achievement aligned with challenging state academic content and student academic achievement standards. This explanation should include a description of the curriculum and teaching strategies that integrate technology effectively into curricula and instruction, based on an intensive review of relevant research.

Can be found on pages 13-18 of this document.

3. A description of the steps your district will take to ensure that all students and teachers in schools served by the local education agency have increased access to educational technology.

Can be found on pages 28-32 of this document.

4. A description of how your district will use the E2T2 competitive and/or formula funds (including the combining of these funds with monies from other federal, state, and/or local sources) to help ensure that students in high-poverty and high-needs schools have access to technology and to ensure that teachers are prepared to integrate technology effectively into curricula and instruction.

Can be found on pages 77-81 of this document.

5. A description of how your district will provide ongoing, sustained professional development for teachers, principals, administrators, and school library media personnel serving the local education agency, to further the effective use of technology in the classroom or library media center, including, if applicable, a list of the entities that will be partners with the local education agency involved in providing the ongoing, sustained professional development.

Can be found on pages 56-63 of this document.

6. A description of the type and costs of technologies to be acquired for your technology program through the use of E2T2 competitive and/or formula funds, including supporting sources such as services, software, and digital curricula. Your explanation should include specific provisions for interoperability among the components of such technologies.

Can be found on pages 77-81 of this document.

7. A description of how your district will integrate technology (including software and other electronically delivered learning materials) into curricula and instruction to support standards-based learning and provide a timeline for such integration.

Can be found on pages 77-81 of this document.

8. A description of how your district will encourage the development and utilization of innovative strategies for the delivery of specialized or rigorous academic courses and curricula through the use of technology, including distance learning technologies, particularly for those areas that would not otherwise have access to such courses and curricula due to geographical isolation or insufficient resources.

Can be found on pages 28-32 of this document.

9. A description of how your district will ensure the effective use of technology to promote parental involvement and increase communication with parents, including a description of how parents will be informed of the technology being applied in their child's education. Explain how these strategies will allow parents to reinforce at home the instruction their child receives at school.

Can be found on pages 33-39 of this document.

10. A description of how programs in your district will be developed, where applicable, in collaboration with adult literacy service providers, to maximize the use of technology.

Can be found on pages 33-39 of this document.

11. A description of the process and accountability measures that your district will use to evaluate the extent to which the activities in your technology plan, including those activities funded under the E2T2 program, are effective in integrating technology into curricula and instruction, increasing the ability of teachers to teach, and enabling students to meet challenging state academic content and student academic achievement standards.

Can be found on pages 13-48 of this document.

12. A description of the supporting resources (such as services, software, other electronically delivered learning materials, and print resources) that will be acquired to ensure successful and effective uses of technology.

Can be found on pages 40-48 of this document.

Appendix 2: Teacher Technology Proficiency Proviso Professional Development Plan

**Colleton
County** School District

I. Requirements

Proviso 1.40 (SDE: Teacher Re-certification — Technology)

To ensure the effective and efficient use of the funding provided by the General Assembly in Par IA, Section 1 X.C. for school technology in the classroom and internet access, the State Department of Education shall approve teacher technology competency standards required by local school districts as part of the Teacher Professional Development Plan. Approval of the teacher technology standards by the Department shall be a prerequisite for expenditure of district technology funds. Teachers must demonstrate proficiency in these standards and be validated by the school district.

Adopting ISTE Teacher Technology Standards

The South Carolina Department of Education endorses and advocates that districts adopt and follow the standards developed by the International Society for Technology in Education. Colleton County School District has adopted these standards. The National Council has adopted these competencies for Accreditation of Teacher Education (NCATE) for pre-service teachers. Reflecting fundamental concepts and skills for using technology in classrooms, these national standards are being adopted by many states for in-service teachers. The ISTE standards can be viewed online at:

<http://www.iste.org/>

The ISTE standards should be incorporated into and/or tied to the professional development component of each district's technology plan. Thus, acquiring competencies becomes a goal for that section of the plan.

Guidelines for District Teacher Technology Professional Development Plans

- Districts must adopt teacher technology standards that are in alignment with the ISTE Standards.
- Districts must develop a Teacher Professional Development Plan that addresses how they will prepare teachers to meet the ISTE teacher technology standards.
- The standards and the Teacher Professional Development Plan must be incorporated into or tied to the district's overall district technology plan. As district technology plans are

revised, the teacher technology standards and the Teacher Professional Development Plan should be incorporated into the updated district technology plan.

- Districts must submit to the Office of Technology their district technology plans as they are revised and updated. Teacher technology standards and Teacher Professional Development Plan must be submitted for approval to the Office of Technology if these are NOT part of the district technology plan.
- The SDE will review the submitted plans. SDE will provide approval for those plans that meet guidelines or will provide recommendations for any necessary revisions.
- Districts must provide assurance forms to the Office of Teacher Certification that each teacher is proficient in technology prior to the conclusion of that teacher's certification validity period.

Each Teacher Professional Development Plan must include:

- Teacher technology standards adopted by the district.
- Professional development offerings to prepare teachers to meet the teacher technology standards.
- Assessment strategies. Include copies of assessment tools and descriptions of how they are used. Assessment tools include, but are not limited to pre-/post- tests, self-assessments, observations, and portfolios. The Office of Technology is researching the possibility of offering an online assessment by districts during the next fiscal year.
- Timeline of district implementation of Teacher Professional Development Plan.
- Identify district contact person(s) for management and implementation of the Teacher Professional Development Plan.

Renewal Cycle Clarification

"Validation cycle is the same as renewal cycle for certificates. Therefore, those teachers who renewed during the 1999-2000 cycle (which ended 30 Jun 2000), must meet P1.40 requirements by 30 Jun 2005; those teachers in the 2000-2001 cycle, must meet the requirements by 30 Jun 2006; those teachers in the 2001-2002 cycle, must meet the requirements by 30 Jun 2007; and so on. However, we are encouraging districts to implement their technology staff development plans as soon as they can so teachers can meet the requirements in the next 5 years".

Renewal cycle: Due:

1999-2000 teachers 2005 (5 years)
2000-2001 teachers 2006 (6 years)
2001-2002 teachers 2007 (7 years)
2002-2003 teachers 2008 (8 years)
2003-2004 teachers 2009 (9 years)

II. Colleton County Adopted Competencies (adopted 5/9/2001)

Colleton County School District has adopted a set of technology competencies that

teachers and staff must demonstrate during their next certification validity period. These competencies assure that teachers and staff will be proficient in the use of technology both in general and in learning activities for students. In addition, these competencies will comply with ISTE National Educational Technology Standards.

The South Carolina Department of Education endorses and advocates that school districts adopt and follow the standards developed by the International Society for Technology in Education (ISTE). Those standards are related to a set of performance profiles and proficiency indicators. Click one of the links below to go to the National Educational Technology Standards (NETS) web pages.

[ISTE National Educational Technology Standards \(NETS\)](#)

[ISTE Teacher Technology Performance Profiles](#)

III. Technology Competencies for Educators: Essential Knowledge and Skills

The following list includes specific technology competencies for Colleton County School District staff. For teachers, these are the competencies that must be demonstrated prior to next recertification.

1		System Operation Skills
1.1		Start up and shut down computer system and peripherals
1.2		Identify and use icons, windows, menus, and shortcuts on the desktop
1.3		Select and start multiple applications
1.4		Save/Copy/Delete/Rename/Backup files on Local (A:,C:) and Network Drives (H:,R:,S:)
1.5		Use various printing options including network printing if applicable
1.6		Insert and eject floppy disk and CD-ROM
1.7		Use the mouse right and left click buttons
1.8		Create/Delete/Rename/Move/Copy Folders and Subfolders
2		Basic Hardware
2.1		Setup computer system and connect peripheral devices including mouse, keyboard, printer to their proper ports
2.2		Protect and care for floppy disks

2.3	Care and Cleaning of computers and printers
2.4	Using the application Help resources to diagnose and correct common problems
2.5	Installing and upgrading an application
3	Word Processing
3.1	Enter, edit, cut, copy, paste and move a block of text
3.2	Save (and Save As), open, and print documents
3.3	Change text format and style, set margin, line spacing, tabs
3.4	Check spelling, grammar, word usage
3.5	Create numbered or bulleted lists
3.6	Insert clip art into document
4	Internet
4.1	Start and navigate the Internet using Netscape or Microsoft Internet Explorer
4.2	Type a specific URL on the address line and go to a specific web site
4.3	Add a URL to a "favorites" or "bookmarks" list
4.4	Access a "search engine" (i.e. Yahoo, Lycos, etc) and find sites related to a specific topic
4.5	Understand and follow the district's "Acceptable Use Policy" located on the district web site
4.6	Use District's Electronic Mail and be able to compose, send, retrieve, read, reply, and forward e-mails
4.7	Send and Receive attachments using e-mail
4.8	Subscribing to specialized e-mail lists relevant to professional information needs
4.9	Connect to the district's web site (www.colleton.k12.sc.us)
5	Instructional Applications
5.1	Coordinate use of hardware, software and peripheral devices within the classroom
5.2	Teach, support, and supervise student use of technology
5.3	Integrate technology resources into lessons and learning activities
5.4	Integrate local information resources into lessons and learning activities
5.5	Integrate Internet resources into lessons and learning activities
5.6	Actively encourage and provide for appropriate student use of all technology resources

**Additional competencies will be added as needed*

Colleton County School District provides remediation for teachers and administrators who have difficulty attaining the minimum technology competencies listed in the above table. Remediation will be in the form of periodic staff development. This staff development will be conducted by:

Beth Frank, Technology Coordinator
Linda Wasko, Regional Technology Specialist

IV. Assessment

Colleton County School District conducts ongoing assessment to measure technology integration into the classroom curriculum. Specific assessment will be done to meet the requirements of Proviso 1.40 for all teachers.

Methods of Assessment:

- A.** Successful completion of Professional Development offering that meets the current ISTE standards. See V. Professional Development Offerings listed below.
- B.** Direct observation by approved district staff using the competencies listed above. Teachers may be observed during staff development workshops or may invite the evaluator to their classroom to demonstrate their proficiency.

V. Professional Development Offerings

The following technology integration professional development opportunities are available to our teachers and administrators:

A. Computer Applications in the Classroom with a Multimedia Focus

"Computer Applications in the Classroom with a Multimedia Focus" is designed to enable classroom teachers to access educational resources via the internet, gain experience with electronic mail, use programs in the Windows 98 environment, become familiar with some of the research related to the effective use of technology in the classroom, and develop lessons utilizing spreadsheets, word processing, desktop publishing and presentation graphics.

****covers ISTE standards***

Instructor: Douglas Bullock
Location: District Technology Center
Cost: \$76 Registration Fee
Class Schedule: Fall & Spring
Dates: TBA
Times: TBA
Contact: <http://www.colleton.k12.sc.us/StaffDev/Courses/Intro2.html>

B. Advanced Computer Applications for the Classroom Teacher

"Advanced Computer Applications for the Classroom Teacher" is designed to enable classroom teachers to better use and control technology in the classroom. This control will be accomplished through gaining experience with the "control panel", knowledge of common problems, effective troubleshooting procedures, and understanding of updated hardware drivers. Advanced use of technology in the classroom will be accomplished through the continued exploration of Microsoft Office programs and commands, becoming familiar with some of the research related to the effective use of the internet in the classroom, manipulation of graphics, and the development and uploading of a personal Web Site. Creating a personal Web Site will be a significant part of this course.

****covers ISTE standards***

Instructor: Douglas Bullock
Location: District Technology Center
Cost: \$76 Registration Fee
Class Schedule: Fall & Spring
Dates: TBA
Times: TBA
Contact: <http://www.colleton.k12.sc.us/StaffDev/Courses/Advanced.html>

C. Using the Computer as a Tool for Teaching Critical Thinking Skills

"Using the Computer as a Tool for Teaching Critical Thinking Skills" is designed to enable classroom teachers to use various applications to improve their students' critical thinking skills. This course will use Adobe Pagemill, Photoshop, and Microsoft Visual Basic as applications to improve critical thinking skills. Teachers will learn to create a Web Quest based on a theme they teach. Photoshop will be used to help teachers learn to create and manipulate graphics in a layered environment. Visual Basic will be used to teach critical thinking using a step by step method of programming.

****covers ISTE standards***

Instructor: Denise Edwards
Location: District Technology Center
Cost: \$76 Registration Fee
Class Schedule: TBA
Dates: TBA
Times: TBA
Contact: <http://www.colleton.k12.sc.us/StaffDev/Courses/superadvanced.html>

Along with the above offerings the district holds frequent workshops on technology for all staff members. These workshops are developed from the ITSE standards and by survey/requests.

VI. Timeline of District Implementation of Teacher Professional Development Plan

The Colleton County School District will use the following timeline for the Implementation of the Teacher Professional Development Plan.

Activity	Person(s) Responsible	When/By
Hold organizational planning meeting	Douglas Bullock	9/1/2000
Develop instrument for teacher competencies based on all ISTE standards	Douglas Bullock	1/1/2001
Develop a schedule of professional development offerings to meet competencies	Douglas Bullock	1/1/2001
Create a professional development delivery schedule	Douglas Bullock	1/1/2001
Deliver continuous professional development	Douglas Bullock	N/A
Assess staff to determine proficiency in adopted competencies using ISTE standards	Douglas Bullock	7/1/2001-7/1/2005
Submit Superintendent's assurance form to the Office of Teacher Certification confirming a teacher is	Douglas Bullock Charles Gale	Each 6/30 starting in 2001

proficient in technology prior to the conclusion of his/her validity period		
Conduct annual review and update of District Technology Plan and Teacher Professional Development Plan	Douglas Bullock	Each 7/1 starting in 2001

VII. Contact Information

For further information please contact:

Name:	Beth Frank
Title:	Technology Coordinator
District:	Colleton County School District
Mailing Address:	200 Jefferies Boulevard Walterboro, SC 29488
Phone number:	843-549-1591
Fax number:	843-549-2244

Date Plan Written:	May 8, 2001
Date Plan Expires:	June 30, 2008

Appendix 3: Acceptable Use Policy

Acceptable Use Policy for Colleton County Schools

Student Access Policy to Networked Information Resources

Students are encouraged to use telecommunications to explore educational topics, conduct research, and communicate with others. Access to computers, however, also makes available material that may not be appropriate for student's age or course of study. The District will attempt to restrict access to inappropriate materials and will require parental consent for all students to access the Internet. A signed Internet User Permission slip must be on file at the appropriate site prior to using the Internet.

No student will engage in the following activities while using the Internet:

1. *Sending, displaying, or requesting offensive message or pictures.*
2. *Using obscene language.*
3. *Harassing, insulting, or attacking others.*
4. *Damaging computers, computer systems, or computer networks.*
5. *Violating copyright laws.*
6. *Using others' passwords.*
7. *Trespassing in others' folders, work, or files.*
8. *Intentionally wasting limited resources.*
9. *Employing the network for commercial purposes*

Sanctions may include:

1. *Loss of access to computers.*
2. *Disciplinary action for inappropriate language or behavior consistent with School Board Policies.*
3. *Notification of law enforcement agencies when criminal conduct is suspected.*

Every Student That Uses This Lab Must Have Turned In The Following Permission Form To The Media Center
CCSD Student Internet Use Permission Form

I understand and will abide by the District Rules for Student Access to Networked Information Resources. I further understand that any violation of the regulations will not be tolerated and may constitute a criminal offense. If I commit any violation, my access privileges may be revoked, school disciplinary action may be taken, and appropriate legal action may be pursued.

User's Full Name (please print): _____

User's Signature: _____

Date: _____

PARENT OR GUARDIAN

As the parent or guardian of this student, I have read the District Rules for Student Access to Networked Information Resources. I understand that this access is designed for educational purposes only. Although the School District has taken precautions to eliminate inappropriate material, I recognize it is impossible for the School District to restrict access to all such materials. Therefore, I agree that my child would be responsible for any non-educational materials that he or she acquires on the network. With these understandings, I give my permission to issue an account for my child to use the Internet at school.

Parent or Guardian's Name (please print) _____

Parent or Guardian's Signature: _____

Date: _____

Every Teacher That Uses This Lab Must Have Turned In The Following Permission Form To The Media Center Employee Acceptable Use Policy for Colleton County Schools

Employee Access to Networked Information Resources

Employees are encouraged to use telecommunications to explore educational topics, conduct research and communicate with others in a professional capacity. Access to Networked Information Resources is a privilege extended to employees for educational purposes. Colleton County student use of these resources for educational purposes will take precedence. The Colleton County School District requires that each employee attend an orientation and sign an Acceptable Use Agreement form prior to using the Networked Information Resources.

Employees will not engage in the following activities while using Networked Information Resources.

1. *Sending, displaying, or requesting offensive message or pictures.*
2. *Using obscene language.*
3. *Harassing, insulting, or attacking others.*
4. *Damaging computers, computer systems, or computer networks.*
5. *Violating copyright laws.*
6. *Using others' passwords.*
7. *Trespassing in others' folders, work, or files.*
8. *Intentionally wasting limited resources.*
9. *Employing the network for commercial purposes*

Sanctions may include:

1. *Loss of access to computers*
2. *Disciplinary action for inappropriate language or behavior consistent with School Board Policies.*
3. *Notification of law enforcement agencies when criminal conduct is suspected.*

Employee Acceptable Use Policy

I have read, understand, and will abide by the Colleton County School District Policy. I further understand that any violation of this policy is unethical and may constitute a criminal offence. Should I commit any violation, my access privileges may be revoked and I may be subject to other disciplinary actions prescribed by law or School Board Policy. I understand that one of my duties will be to monitor student use of the Networked Information Resources during periods of classroom access.

I clearly understand that it is my responsibility to closely monitor students while they are accessing the Internet.

Network/Internet--Terms and Conditions of Use

Internet Orientation:

Acceptable Use - Acceptable use always is ethical, reflects honesty, and shows restraint in the consumption of shared resources. It demonstrates respect for intellectual property, ownership of information, system security mechanisms, and the individual's rights to privacy and freedom from intimidation, harassment, and unwarranted annoyance. Access to computer systems and networks owned cooperated by the Colleton County School District imposes certain responsibilities and obligations on users and is subject to Colleton County School District policies

and local, state, and federal laws. Use of other networks or computing resources must comply with the rules governing those networks owned or operated by the Colleton County School District.

Privileges - The use of the networks and their resources is a privilege, not a right, and inappropriate use may result in the severe restriction of privileges. The principal or his/her designee will deem what is inappropriate use and his/her decision is final. Also, the principal, or his/her designee, retains the right to close and account at any time as required. The administration, faculty, and staff of the Colleton County School District may request that the principal deny, revoke, or suspend specific user accounts, require payment for any damages to the system, and bring criminal charges if deemed necessary. The contents of any material created in conjunction with the use of this network should not interfere with educational purposes and may be reviewed by any staff members responsible for the user at any time. Parents, or legal guardians, have the right to request to see the content of any material created or accessed by their child/children.

Network Etiquette - The user is expected to abide by the generally accepted rules of network etiquette. These include, but are not limited to, the following:

- * Be polite. Use appropriate language. Abusive, vulgar, or any other inappropriate language is not allowed.
- * Sharing personal home addresses and phone numbers and those of other students or colleagues is prohibited.
- * Consider all Internet activities as public. Communications relating to or in support of illegal activities may be responded to the authorities.
- * Report to your teacher as soon as you find something you think is not right or makes you feel uncomfortable.
- * Assume that all communication and information accessible via the network as private property and therefore copyrighted.
- * Your password is your private possession and should be treated as such.
- * Teachers and administrators have the right to monitor transmissions.

The following list represents some of the inappropriate uses that are not permitted by the Colleton County School District:

- * Commercial advertising, or unethical/illegal solicitation.
- * Accessing a file or web site that contains pornographic or obscene pictures, videos, stories, or other material: making copies of such material, or distributing or exposing others to such material.
- * Using copyrighted material without permission.
- * Sending or receiving messages that are obscene, profane, racist, sexist, inflammatory, threatening, or slanderous toward others.
- * Creating and or placing a computer virus on the network or any workstation.
- * Sending messages or information with someone else's name on it or misrepresenting the source of information you enter or send.
- * Sending or receiving messages or information that is inconsistent with the school's conduct code or assists others to violate that code.
- * Harassing others or requesting or distributing addresses, home phone numbers, or other personal information which could then be used to make inappropriate calls or contacts.
- * Sending chain letters or engage in "spamming" (sending an annoying or unnecessary message to large numbers of people.)
- * Purchasing something, which requires you to submit a credit card number, or obligates the student or school to another party.
- * Attempting to access and/or alter information in restricted areas of any network or in any way violate the confidentiality rights of other users on any network.
- * Failing to report abuses or other conditions that may interfere with the appropriate and efficient use of school resources.

Users are required to report any of the following to his/her teacher or the building network administrator as soon as the following are discovered:

- * Any message, files, Web sites, or user activities that contain materials that are in violation of this policy.
- * Any messages, files, Web sites or user activities that solicit personal information about you or someone else, or request a personal contact with you or another user. (Asks for your address, phone number, credit card number, Social Security number, or to meet you.)
- * Attempts by any user to abuse or damage the system or violate the security of the network and its resources.
- * Any illegal activity or violation of school policy.
- * Any error messages or problems which indicate that the system is not working properly.

Warranty - The Colleton County School District makes no warranties of any kind, whether expressed or implied, for the service it is providing. The Colleton County School District will not be responsible for any damages you suffer. This includes loss of data resulting from delays, non-deliveries, misdirected deliveries, or service interruptions obtained via the Internet is at your own risk. The Colleton County School District specifically denies any responsibility for the accuracy or quality of information obtained through its services.

Security - Security on any computer system is a high priority, especially when the system involves many users. If you feel you have identified a security problem on the network, you must notify a staff member or building network system administrator. Do not demonstrate the problem to other users. Attempts to log on to any network as a system administrator will result in cancellation of user privileges. Any user identified as a security risk or having a history of problems with other computer systems may be subject to severe restriction or cancellation of privileges.

Vandalism - Vandalism is defined as any malicious attempt to harm or destroy the data of another user, Internet, or other networks that are connected to any of the Internet backbones. This includes, but is not limited to, the uploading or creation of computer viruses, deletion or alteration of other user files or applications, removing protection from restricted areas, or

The unauthorized blocking of access to information, applications, or areas of the network. Vandalism will result in cancellation of network privileges.

User Privacy - The Colleton County School District reserves the right to examine, restrict, or remove any material that is on or passes through its network, just as it does any other work or material generated or brought to school by staff or students. Access to electronic information related to any student or staff member will be governed by the same policies that would apply to that information if it were not in electronic form.

Colleton County Employees

I have read, understand, and will abide by the above Acceptable Use Agreement. I further understand that any violation of the regulations above is unethical and may constitute a criminal offense. Should I commit any violation, my access privileges may be revoked and I may be subject to other disciplinary actions prescribed by law or other school policies.

I clearly understand that my responsibility is to monitor students accessing the Internet during my class periods.

Appendix 4: How E-Rate Areas Have Been Addressed

1. The district technology plan must establish clear goals and a realistic strategy for using telecommunications and information technology to improve education and library services.

Can be found on pages 28-32 of this document.

2. The district technology plan must have a professional development strategy to ensure that staff members knows how to use the new technologies to improve education.

Can be found in Appendix 2 (page 56) of this document.

3. The district technology plan must include an assessment of the telecommunications services, hardware, software, and other services that will be needed to improve education.

Can be found on pages 13-48 of this document.

4. The district technology plan must provide for a sufficient budget to acquire and maintain the hardware, software, professional development, and other services that will be needed to implement the strategy for improved education. Specifically, how does the district intend to fund those items of equipment, software, services, and training *not* covered by the E-rate discount? It is recommended that a plan for hardware refreshment be built into all district technology plans.

Can be found in Appendix 6 & 7 (pages 77-81) of this document.

5. The district technology plan must include an evaluation process that enables the district and its schools to monitor progress toward the specified goals and make midcourse corrections in response to new developments and opportunities as they arise.

Can be found on pages 13-48 of this document.

Appendix 5: Report on Last Year's Progress toward Goals, Objectives, Strategies, Benchmarks, Actions, and Outcomes

Below is a listing of individual items that were accomplished last year 2003-04 by the Colleton County School District Technology Center. All Goals, Objectives, Strategies, Benchmarks, Actions, and Outcomes from the district's previous Tech Plan have been met. Specific details can be found below as they pertain to the 2003-04 Technology Plan Update Goals, Objectives, Strategies, Benchmarks, Actions, and Outcomes.

- ParaPro testing has begun at the Technology Center. Under NCLB, Para-professionals involved in student instruction are required to pass a test demonstrating basic skills. The Technology Center has been designated as the local testing site for district employees. Cheryl Rourke has been instrumental in getting this process started in our district. Ms. Rourke schedules and monitors this three hour computerized test. To date 11 employees have completed this test.
- Technology Center Staff attended an Elementary Scheduling meeting hosted by the SDE to discuss procedures to report teacher's highly qualified status as required for NCLB. Elementary schools will be required to maintain in SASI full student schedules beginning in August. A full-day training session for all elementary SASI coordinators has been scheduled for August 4th.
- Technology Center Staff have setup and inventoried 20 new computers for the computer lab at Northside Elementary School.
- Technology Center Staff set up SASI summer school for Colleton County High School.
- Technology Center Staff reconfigured the NDS to remove Hampton Street Education Center.
- Technology Center Staff submitted CATE (Career and Technology Education) data to the SDE using the SWEET data extraction tool.
- Technology Center Staff installed a fiber backbone at Forest Circle Middle School.
- Technology Center Staff installed Text Link, a textbook inventory program, at Colleton County High School.
- Technology Center Staff repaired a 6509 switch by replacing the power supply.
- Technology Center Staff installed ABACUS data at all schools.
- Technology Center Staff conducted SASI data test queries for the South Carolina Department of Education.
- Technology Center Staff conducted a test video file for the South Carolina Department of Education.
- Technology Center Staff provided the finance director with 2001-2002 Osiris class rosters to be used with the upcoming audit.
- Technology Center Staff has completed the necessary work to setup the Internet circuit at the new Edisto Beach Elementary School facility.
- Technology Center Staff have assisted the finance department with resolving problems with the new CSI software.
- Technology Center Staff has placed the 2003-2004 employee workday calendars on the district web site.
- Technology Center Staff have moved the following computers in preparation for the new school year:
 - Alternative School computers from the Education Center to Colleton Middle School Annex
 - Preschool Center computers from Hampton Street Education to the Educational Center
 - Preschool Center computers from Hampton Street Education to Hendersonville Elementary
 - Computers from Colleton Middle Annex to Colleton Middle School
- Technology Center Staff has begun the "technology" inventory process at each school. The technology inventory has been completed at the following sites:
 - Edisto Beach Elementary
 - Hendersonville Elementary
 - Education Center
 - Colleton Middle School Annex
 - Cottageville Elementary
 - Ruffin Middle
 - Black Street Elementary
 - Special Services
 - Food Service
- Technology Center Staff revised the current student registration form to accommodate changes requested by district schools.

- Technology Center Staff assisted the Finance Director with the process for the remote entry of purchase orders.
- Technology Center Staff assigned Special Education students to the appropriate school for next year in SASI based on program offering as requested by the Director of Special Services.
- Technology Center Staff assigned students completing the Preschool program to the appropriate school for next year in SASI.
- Technology Center Staff provided reports to the superintendent with 2003-04 projected enrollments by school and grade.
- Technology Center Staff provided reports to the Title One Director with projected enrollment with school, grade and ethnic breakdowns for the 2002-03 and the 2003-2004 school years.
- Technology Center Staff setup the Internet circuit at the new Edisto Beach Elementary School facility. Network cables have been terminated and faceplates have been installed. A fiber cable has been installed and terminated between the school and the library to allow for internet access to the library. Computers have been moved from the old school building and setup at the new building.
- Technology Center Staff have been working to update the Novell Directory, Email and E/Pop to accommodate the addition, deletion and transfer of district employees.
- Technology Center Staff created/update group email list for each school to allow school administration to easily communicate with their staff via a single email.
- ParaPro testing sessions were given on July 23rd and 24th. Ten employees participated in the testing.
- Technology Center Staff attended State Department training regarding data collection requirements of the Unsafe School Choice Option (USCO) and the Uniform Management Information Reporting System as required by No Child Left Behind.
- Technology Center Staff attended a training workshop on the state Ed Tech grant application process.
- Technology Center Staff provided the Maintenance Director with quotes for the insurance adjuster on the cost of replacing computer equipment destroyed in the fire at Colleton County High School.
- Technology Center Staff assisted the finance department with setting up users at all schools to be able to access the new CSI software. This will allow the schools to remotely enter purchase orders and employee absentee reports.
- Technology Center Staff developed a Purchase Order Requisition Request form for the finance department.
- Technology Center Staff installed the new 5.5 version of SASIxp at all schools and the district. Supplemental releases were all installed to correct known errors with the new version release.
- Technology Center Staff updated the "Who to Contact" page on the district website.
- Technology Center Staff configured a computer lab at Forest Circle Middle School in preparation for a district training session.
- Technology Center Staff worked with a representative from Hart, Inc. to resolve problems with the Orchard software at Black Street Elementary School and to install the Orchard software at Forest Hills Elementary School. The Orchard software will be operational by the first day of school at both schools.
- Technology Center Staff installed network cabling in the mini-auditorium at Colleton County High School so that staff development sessions can be conducted at this location.
- Technology Center Staff installed new network cables to accommodate changes to the office at Cottageville Elementary School.
- Technology Center Staff setup a computer for the new Adult Education Director.
- Technology Center Staff installed Larson Math program at Forest Circle Middle School.
- Technology Center Staff provided Food Service with SASIxp student data to be imported into the Food Service program.
- Technology Center Staff corrected a problem with SASIxp Course History for Colleton County High School.
- Technology Center Staff corrected a problem with SASIxp fee information for Colleton County High School.
- Technology Center Staff corrected a problem with SASIxp Staff Info at Forest Circle Middle School.
- Technology Center Staff reconfigured district backup routines.
- Technology Center Staff installed and terminated fiber runs at Colleton Middle School.
- Technology Center Staff completed the final New Year Rollover in SASIxp to close out the 2002-03 school year and to complete setup for the 2003-04 school year.
- Technology Center Staff conducted a training session with all school registrars on new SASI data requirements and beginning of year procedures.
- Technology Center Staff conducted training with all SASIxp Elementary School Registrars regarding the setup and entry on schedules for elementary students as required by the SDE Office of Teacher Quality and NCLB.

- Technology Center Staff installed network cable at the following locations:
 - Ruffin Middle School Media Center
 - Forest Hills Elementary School
 - Forest Circle Middle School
 - Colleton Middle School
- Technology Center Staff has begun the “technology” inventory process at each school. The technology inventory has been completed at the following sites:
 - Forest Hills Elementary
 - Thunderbolt Career and Technology Center
- Technology Center Staff visited every school in the district to resolve computer problems either the week before school started or during the first week of school. Staff members visited classrooms to assist teachers with accessing the school network, Classxp and the district email.
- Technology Center Staff developed an Access database to assist the Assistant Superintendent with the School Choice process.
- Technology Center Staff have been working to update the Novell Directory, Email and E/Pop to accommodate the addition, deletion and transfer of district employees.
- Technology Center Staff created/update group email list for each school to allow school administration to easily communicate with their staff via a single email.
- Technology Center Staff has been working with Special Services to get the new Special Education program, Tranquility, installed and operational.
- Technology Center Staff provided assistance to correct an Automated Login problem at Hendersonville.
- Technology Center Staff hosted a finance department CSI training session. During this training, school personnel were able to login to CSI and be instructed on the necessary procedures for entering employee absentee reports.
- Technology Center Staff hosted a training session for Special Services on Tranquility.
- Technology Center Staff installed the SASIxp version 5.5 supplemental release 3 at all school and at the district.
- Technology Center Staff assisted elementary schools with the creation and entry of complete schedules for all elementary students. Elementary course were also created for each school.
- Technology Center Staff updated the employee directory for the State Department of Education.
- Technology Center Staff worked with a representative from Hart, Inc. to resolve problems with the Orchard software at Black Street Elementary School and to install the Orchard software at Forest Hills Elementary School. The Orchard software is operational at both schools.
- Technology Center Staff installed new network cabling for the cafeteria check-out lines at Hendersonville Elementary School at the request of the Food Services department. Food Services reports that the lunch check- out computers are now working properly.
- Technology Center Staff installed Accelerated Reader, Star Reader, Star Math, and Accelerated Math at Cottageville Elementary School.
- Technology Center Staff installed a new hard driver for Colleton County High School’s Integrate server.
- Technology Center Staff installed and terminated fiber runs at Colleton Middle School and the Education Center.
- Technology Center Staff installed network cable at the following locations:
 - Black Street Elementary School
 - Colleton Middle School
- Technology Center Staff replaced switches at the following schools.
 - Cottageville Elementary School
 - Forest Hills Elementary
 - Colleton Middle School
 - Forest Circle Middle School
 - Ruffin Middle School
 - Thunderbolt Career and Technology Center
- Technology Center Staff completed a complete walk through at Colleton County High School prior to the beginning of school. Staff members went room to room at the high school to address any computer needs that existed. Technology Center Staff has also completed a second walk through to address new problems since school has started.

- Technology Center Staff assisted the Finance Department with the recent State Department of Education audit. The Technology Center was asked to provide various reports from Osiris for the 2001-02 school year.
- The State Department of Education has reviewed and approved the district's Technology Plan Update for the 2003-2004 school year.
- Technology Center Staff worked with East Education representative Harry Harris to provide updated SASI files for the benchmarking program.
- Technology Center Staff attended State Department of Education meetings to receive information on this year's Precode Project, 45 Day Report Card data requirements and SCRAPI.
- Technology Center Staff has received notification that the district has been approved for part of our ERATE request for the current year. Further documentation has been submitted to the SLC in support of the as yet unfunded 471 applications.
- Technology Center Staff submitted the following SASIxp reports to the SDE via the SWEET query program
 - Highly Qualified Teacher Data
 - Report Card Address data collection
- Technology Center Staff have been working to update the Novell Directory, Email and E/Pop to accommodate the addition, deletion and transfer of district employees.
- Technology Center Staff installed the SASIxp version 5.5 South Carolina supplemental release 1 and 2 at all school and at the district SASIxp.
- Technology Center Staff resolved EFA/EIA data entry problems in SASIxp.
- Technology Center Staff installed a Windows server for Colleton Middle School. This server will be used for implementing the Integrate Pro program at CMS.
- Technology Center Staff installed and terminated fiber runs at the Preschool School Center
- Technology Center Staff installed network cable at the following locations:
 - Colleton Middle School
 - Black Street Elementary School
- Technology Center Staff purchased new anti-virus software for the district email server. This software will scan both incoming and outgoing emails for viruses.
- Technology Center Staff replaced switches at the following schools.
 - Forest Circle Middle School
- Technology Center Staff continues to assist with the new CSI installation. New user are being added and desktop configuration are being completed for new users.
- Technology Center Staff installed nine new computers at Northside Elementary School.
- Technology Center Staff installed network connections for the Adult Education office.
- Technology Center Staff provided Food Services with exported student data files from SASIxp.
- Technology Center Staff installed a larger hard drive for the district's email and web server. New anti-virus software for the district email server has been installed that will scan both incoming and outgoing emails for viruses.
- Technology Center Staff installed network cabling for the newly remodeled Colleton Middle School Media Center.
- Technology Center Staff submitted the following SASIxp reports to the SDE via the SWEET query program
 - 45 Day Quarterly Data Collection (209 Queries)
 - End of Course Examination Program (EOCEP)
 - Academic Plan for Students (APS)
- Technology Center Staff submitted the 45 day Membership and Attendance and Cumulative Class Reports to the State Department of Education.
- Technology Center Staff installed the SASIxp Precode update for all district schools.
- Technology Center Staff submitted the ERATE form 472. Technology Center Staff also completed the ERATE Form 479 for the state CIO office.
- Technology Center Staff provided the finance department with class size data for all classes in grades 1 – 3.
- Technology Center Staff worked with East Education representative Harry Harris to provide updated SASI files
- Technology Center Staff provided the following 2003 PACT scores reports for Ruffin Middle School:
 - Science and Social Studies reports for district 5th grade students during 2002-03 school year
 - ELA, Math, Science and Social Studies scores for Ruffin Middle School students.
- Technology Center Staff set up Microsoft Access reports for the personnel office to generate the district personnel directory.

- Technology Center Staff installed network cable at the following locations:
 - Bells Elementary Schools
 - Colleton Middle School
 - Forest Circle Middle School
- Technology Center Staff addressed configuration and hardware issues in computer labs at Colleton Middle School and Forest Circle Middle School.
- Technology Center Staff configured new computers installed in a computer lab at Thunderbolt Career & Technology Center.
- Technology Center Staff installed Accelerated Reader, Accelerated Math, Star Reader and Star Math software at Bells Elementary School, Colleton Middle School and Ruffin Middle School.
- Technology Center Staff continues to work with Special Services to bring Tranquility to a fully operational level. PCAnywhere has been installed at Special Services to address speed issues for data access from Special Services to The Technology Center.
- Technology Center Staff attended the EdTech Conference.
- Technology Center Staff provided training to Thunderbolt Career & Technology Center staff on the use of the Ghost imaging software.
- Technology Center Staff made changes to the SASIxp program at each school to allow for easy identification of students who participate in the Community In Schools (CIS) program.
- Technology Center Staff resubmitted the 45 day Membership and Attendance and Cumulative Class Reports to the State Department of Education.
- Technology Center Staff installed the following SASIxp updates at all district sites
 - SASIxp Supplemental Release 4
 - South Carolina supplemental release 3
 - South Carolina state template
 - Precode update for Science and Social studies
- Technology Center Staff conducted a meeting of all school SASI coordinators on the entry of Precode data.
- Technology Center Staff worked with East Education representative on the installation of the Test Linx software for benchmark testing.
- Technology Center Staff provided updated SASI files for elementary and secondary benchmarking.
- Technology Center Staff meet with Cisco engineers and Systems and Service to plan for the upgrade of the district internet access lines.
- Technology Center Staff attending a meeting at Dorchester District 2 regarding area school calendars for the 2004-05 school year.
- Technology Center Staff corrected problems with the Accelerated Reader software at Black Street Elementary and Cottageville Elementary schools.
- Technology Center Staff installed a math software program at Bells Elementary school.
- Technology Center Staff assisted with the installation and configuration of two new computer labs at Thunderbolt Career and Technology Center.
- Technology Center Staff applied for and received the SCDOE E2T2 Formula Grant. The grant amount of \$65,843.54 will be provided to the district each year for the next three years. Funds from this year's grant will be used to replace the training lab at the Technology Center, provide a computer lab for Edisto Beach Elementary School and replace computers in the Media Center at Colleton County High School.
- The new Packeteer program was purchased and installed at the Technology Center. This program will allow Technology Center Staff to monitor the speed and access of the Internet from within the district.
- Technology Center Staff submitted the SASIxp 2nd Quarterly Data Reports to the State Department via the SWEET program.
- Technology Center Staff completed ERATE 486 forms for the current funding year. Form 470s were completed for the upcoming funding year.
- Technology Center Staff is working with Food Services to identify additional students who may qualify for the National School Lunch Program. The number of students qualifying for NSLP at each school determines the funding discounts available to the district through Erate.
- Technology Center Staff assisted with the development of the draft school calendar for the 2004-2005 school year. The draft calendar has been placed on the district website.

- Technology Center staff submitted "PRECODE" information to the SCDOE for all elementary and middle schools. This is the information that the SCDOE uses to automatically fill in standardized testing forms before they are sent to the schools.
- Technology Center Staff assisted with the development of the draft school calendar for the 2004-2005 school year. The draft calendar has been placed on the district website.
- Technology Center Staff attended training on Microsoft Access and Database Design.
- Technology Center Staff serviced 48 work orders this month.
- Technology Center Staff reconnected fiber optic cable at the Preschool Center to provide the mobile classroom with Internet access.
- Heritage Trust Federal Credit Union made a donation of 30 Pentium III computers to the Technology Center. These computers were used to replace a computer lab at Colleton County High School.
- Technology Center Staff has been working with System and Service engineer to begin the process of upgrade the district's Internet access speed. The project will take place in three phases. The second of these three phases has been completed. Total project completion is expected this month with the installation of the new 7200 router at the Technology Center.
- ParaPro testing was conducted at The Technology Center this month. Cheryl Rourke administered the test to seven individuals.
- The latest version Norton Antivirus has been installed on all district servers. Workstations district wide are being updated to the this new version.
- Technology Center Staff met with the Maintenance director concerning technology plans for the new wings at Forest Hills Elementary and Forest Circle Middle.
- Technology Center Staff provided additional information for ERATE 472 forms submitted earlier this year.
- Technology Center staff submitted "PRECODE" information to the SCDOE for all Colleton County High School. This is the information that the SCDOE uses to automatically fill in standardized testing forms before they are sent to the schools.
- Technology Center Staff attended training on Microsoft Excel and FrontPage.
- Technology Center Staff completed the ERATE 471 application for the 2004-2005 funding year. Item 21 attachments have been submitted. Additional supporting documentation for the 471 applications was requested by the SLC and has been submitted.
- The district street attendance zone database was updated with new roads identified by the county 911 office. The attendance zone web site as well as school and district zone listings were also updated.
- Technology Center Staff completed the New Year rollover for SASIxp. This process promoted students to the appropriate schools for the 2004-2005 school year as well as promoted students to the next grade level.
- Technology Center Staff installed three updates to SASI version 5.5 – 55SR5, 55SC4 and 55SC5.
- Systems and Services completed the internet upgrade project this month. A new Cisco 7000 was installed at The Technology Center. The Cisco 3600 router was moved to Colleton County High School. Configuration issues affecting Internet access at Colleton County Memorial Library were also resolved.
- Technology Center Staff hosted training for the special education program, Tranquility. Personnel from Special Services along with 36 special education teachers from across the district were trained on the use of this program. Technical training was also provided to Technology Center Staff.
- Technology Center Staff installed 17 new computer purchased by Special Services. These computers were installed for various special education teachers across the district.
- Technology Center Staff installed the latest version of the district email software, I-Mail and installed 2 additional updates.
- Technology Center Staff worked with the Gifted and Talented coordinator to input required data into SASI for district students qualifying for gifted and talented services.
- Technology Center Staff attended a State Department of Education meeting regarding truancy reporting and regulations.
- A new Novell server was installed at the Technology Center.
- The following reports/data collections were submitted to the State Department of Education during the month:
 - 3rd Quarter Data Collection via SWEET
 - Precode Update
 - CATE Placement Report

- 135 Day Membership and Attendance Report
- 135 Cumulative Class Report

- Technology Center Staff attended training on Microsoft Excel and Front Page.
- Technology Center staff conducted a walk-through at Forest Circle Middle to assess current technology within the school. A plan was developed for the installation of 21 new Dell computers and the move of other school computers to provide students and teachers with better access to the school technology resources. A summary of the major benefits of this plans are:
 - 12 new computers were installed in the Library Media Center
 - 6 new computers were installed to the 8th grade Honors English classroom
 - 3 new computers were installed in teacher classrooms
 - 6 additional computers were installed in the math lab
 - 3 additional computers were added to the 7th grade Honors English classroom
 - Various other computers were shifted in order to provide teachers with better teacher workstations capable of running SASIxp and in preparation for future software programs.
 - 21 old computers were removed from Forest Circle Middle School.
- Technology Center staff delivered 19 new Dell computers to Ruffin Middle School.
- Technology Center staff picked up old computers from Forest Circle Middle School and Ruffin Middle School and brought these back to the Technology Center. The computers were then disassembled in order to use the parts for repairs.
- Technology Center staff hosted district personnel training for budget prep training conducted by the Finance Department.
- Technology Center staff visited the following locations to install the latest Symantec anti-virus software to all computers on site
 - Forest Hills Elementary School
 - Colleton Middle School
 - District Office
- The district street attendance zone database was updated with new roads identified by the county 911 office. The attendance zone web site as well as school and district zone listings were also updated.
- Technology Center staff inventoried new computers that were purchased during the month.
- The following reports/data collections were submitted to the State Department of Education during the month:
 - HSAP Day 1 SWEET query
- Technology Center staff assisted schools with various technology purchases as they completed their end of year purchases.
- The Technology Center has processed orders for 118 new computers during the month of May. These new computer have been received and in the process of being installed at the appropriate location. To date, 58 computers have been inventoried, installed, and configured. The remaining 61 computers will be installed during June. These computers have been used to replace out dated computers in the classrooms and to replace a computer lab. Computers were installed at Northside (16), Black Street (19), Cottageville (18), District Office (2), and Special Services (2). Old computers have been removed from the schools and have been stripped for parts or discarded.
- Technology Center staff, with the assistance of Doug Bullock, created the on-line Total Teacher survey. This survey uses the program Cold Fusion to allow users to enter data directly into an Access database via the Internet. Results were used to evaluate the Total Teacher program. 323 teachers completed the survey.
- Technology Center staff revised the Needs Assessment Survey for 2004. The survey was placed on the district web site. 377 teachers and staff members completed the survey.
- Technology Center staff began the process of updating/verifying the district's technology equipment inventory. This process has been completed at Cottageville, Forest Hills, Forest Circle Middle, Hendersonville, Colleton Middle School, Colleton Annex Learning Center, Northside Elementary and the Education Center. We will continue to work on this project throughout the summer.
- ParaPro testing was conducted at The Technology Center on May 24, 2004. Cheryl Rourke administered the test to thirteen individuals.
- The following reports/data collections were submitted to the State Department of Education during the month:
 - PACT Day 1 SWEET query
- Technology Center staff completed the State Department of Education 135 day verification report.
- Technology Center staff installed an updated version of Screen Door, the district Internet filtering software.

- ❑ Technology Center staff met with the Preschool Coordinator regarding the Early Childhood data collection. Elementary school personnel, as well as Preschool center staff, were given instruction for entering the required data. Data must be entered in SASI for extraction with the 4th quarter data collections.

Appendix 6: Colleton School District 2004-05 Budget
