Notice

All Covington County Schools have been inspected by an EPA-approved asbestos inspector and maintain a management plan file in the school office as required under the AHERA regulations. The file is available to any parent to view.

The majority of our asbestos material is non-friable and is in the form of floor tiles. These materials are well maintained and are not a health hazard to the students. The law requires that we make this notice to all employees, students and staff annually.

We are glad to provide a healthy atmosphere for students and staff.

Covington County Board of Education
