### The Five Oceans of the World #416

Sopris West Six Minute Solutions #416

There are five oceans in the world. These five oceans are really just **(one)** big ocean. The continents separate the **(oceans)**.

The Pacific Ocean is the largest. **(It)** covers almost half of the earth. **(The)** Pacific is the deepest ocean. It **(is)** also the stormiest one. The Pacific **(lies)** next to the west coast of **(North)** and South America. It is a **(warm)** ocean.

The Atlantic Ocean is the **(second)** largest. It has the most coastline. **(It)** also has the saltiest water. The **(Atlantic)** lies between Europe, Africa, and the **(Americas)**. It borders the East Coast of **(the)** U.S. It extends between the **(Arctic)** and Antarctic.

The Indian Ocean is **(the)** third largest. It is mostly south **(of)** the equator. The Indian Ocean touches **(four)** continents.

The Arctic Ocean is sometimes **(called)** the North Polar Sea. Some people **(consider)** this ocean to be part of **(the)** Atlantic. It is filled with ice. **(It)** is the smallest of the world's **(oceans)**. It is also the shallowest. The **(Arctic)** Ocean lies next to the state **(of)** Alaska.

The Antarctic Ocean is larger **(than)** the Arctic Ocean. It is sometimes **(called)** the South Polar Sea. This ocean **(is)** made up of the southern waters **(of)** three other oceans. The Antarctic surrounds **(the)** continent of Antarctica. It is filled **(with)** ice just like the Arctic Ocean.

### The Five Oceans of the World #416

Sopris West Six Minute Solutions #416

There are five oceans in the world. These five oceans are really just **(the, of, one)** big ocean.

The continents separate the **(this, stormiest, oceans)**.

The Pacific Ocean is the largest. **(It, Covers, Consider)** covers almost half of the earth. **(Has, The, Warm)** Pacific is the deepest ocean. It **(is, east, pacific)** also the stormiest one. The Pacific **(mostly, lies, west)** next to the west coast of **(south, North, up)** and South America. It is a **(one, americas, warm)** ocean.

The Atlantic Ocean is the **(there, second, separate)** largest. It has the most coastline. **(Surrounds, It, Southern)** also has the saltiest water. The **(Atlantic, smallest, three)** lies between Europe, Africa, and the **(Americas, larger, also)**. It borders the East Coast of **(atlantic, north, the)** U.S. It extends between the **(Arctic, four, lies)** and Antarctic.

The Indian Ocean is **(some, made, the)** third largest. It is mostly south **(south, to, of)** the equator. The Indian Ocean touches **(shallowest, four, alaska)** continents.

The Arctic Ocean is sometimes **(a, five, called)** the North Polar Sea. Some people **(really, u, consider)** this ocean to be part of **(oceans, continents, the)** Atlantic. It is filled with ice. **(It, World, Ocean)** is the smallest of the world's **(ice, these, oceans)**. It is also the shallowest.

The **(other, shallow, Arctic)** Ocean lies next to the state **(of, just, third)** Alaska.

The Antarctic Ocean is larger **(than, and, big)** the Arctic Ocean. It is sometimes **(earth, are, called)** the South Polar Sea. This ocean **(called, arctic, is)** made up of the southern waters **(world's, the, of)** three other oceans. The Antarctic surrounds **(people, waters, the)** continent of Antarctica. It is filled **(deepest, water, with)** ice just like the Arctic Ocean.
