

2013 ANNUAL REPORT

Alabama Southern Community College

MESSAGE FROM THE PRESIDENT

DR. REGINALD SYKES

Two thousand thirteen was a strong year for our institution. Alabama Southern Community College saw growth in both enrollment and credit hour production

for the fall 2013 semester. This means our students are taking and passing more of our courses. I am proud of our faculty and staff for their recruitment and retention efforts. Out of the 25 community colleges throughout the state, Alabama Southern was one of only nine to see an enrollment increase.

With the implementation of success centers on our Monroeville and Thomasville campuses, scholarships for returning students and more opportunities than ever before for student engagement on campus, we are proud that students are choosing to remain at ASCC and graduate with us.

Alabama Southern was privileged to host former U.S. Congressman Jo Bonner as our 2013 special guest and speaker at our forty-seventh annual commencement ceremony in May. This year, 328 students received a degree or certificate and were honored for their achievements and success.

Whether in the classroom or in one of our technical labs, students at Alabama Southern receive an excellent education paired with hands-on learning opportunities. All of this would not be possible without the hard work and dedication of our faculty and staff. It is my privilege to work with this outstanding group of educators.

Throughout the rest of this publication, you'll see the on-going efforts and accomplishments that we made last year and will continue to make as we strive to offer our students and community the opportunities they deserve to be successful and achieve their goals.

Sincerely,

A handwritten signature in black ink that reads "Reginald Sykes". The signature is fluid and cursive.
