Are you currently on financial aid? \_\_\_\_\_ yes \_\_\_\_\_ no \_\_\_\_\_

**The Honors Program is open to all students. Any student may attempt an Honors class/contract with permission of the instructor in his or her regularly scheduled class and acceptance by the Honors mentor for that class/contract.**

**Students must maintain a B average in their regularly scheduled class and successfully complete their Honors contract work within one semester in order for Honors credit to be awarded. A student will not receive Honors credit for a course in which they earn less than a B average. Grades will be assigned on the same basis as for the other students in the class; the Honors contract work will be done in addition, and will be evaluated on a Satisfactory/Unsatisfactory basis.**

**Students interested in graduating from the Honors Program as an Honors Program Graduate must successfully complete 12 or more hours of Honors Contract credit and a minimum of 2 hours of Honors Seminar. Permission for continued participation in the program will be granted by the Honors Council based upon the student's overall scholarship, leadership, and character.**

**Signature for Honor Student Status**

I have read, understand, and accept the requirements to become an Honors student at Alabama Southern Community College. I understand that it now my responsibility to contact the Honors mentors for any contract I wish to take.
