

**3<sup>rd</sup> Grade Parent Resources**

**4<sup>th</sup> Nine Weeks**

<b>Teaching Videos</b>	<b>Focus Skill for Lesson</b>
 	Identify Quadrilaterals (3.G.1)  Classifying Polygons (3.G.1)
 	Understand that shapes in different categories (e.g., rhombuses, rectangles, and others) may share attributes (e.g., having four sides), and that the shared attributes can define a larger category (e.g., quadrilaterals). (3.G.1)  Recognize rhombuses, rectangles, and squares as examples of quadrilaterals, and draw examples of quadrilaterals that do not belong to any of these subcategories. (3.G.1)
  	Two-Step Word Problems Using the Four Operations (3.OA.8)

WATCH VIDEO

Decompose quadrilaterals to understand perimeter as the boundary of a shape. (3.MD.8; 3.G.1)

WATCH VIDEO

Measure side lengths in whole number units to determine the perimeter of polygons. (3.MD.8; 3.G.1)

WATCH VIDEO

Explore perimeter as an attribute of plane figures and solve problems. (3.MD.8; 3.G.1)

WATCH VIDEO

Determine the perimeter of regular polygons and rectangles when whole number measurements are missing. (3.MD.8; 3.G.1)

WATCH VIDEO

WATCH VIDEO

WATCH VIDEO

WATCH VIDEO

WATCH VIDEO

Solve word problems to determine perimeter with given side lengths.

WATCH VIDEO

Use all four operations to solve problems involving perimeter and missing measurements.

WATCH VIDEO

Construct rectangles from a given number of unit squares and determine the perimeters.

WATCH VIDEO

Construct rectangles with a given perimeter using unit squares and determine their areas.

Solve a variety of word problems with perimeter.

Solve a variety of word problems involving area and perimeter using all four operations. (3.MD.8; 3.G.1)
