

Instructions to access 2016-2017 District and School Accountability

- Go to <http://reports.mde.k12.ms.us/Default.aspx> (it is linked as bullet above on same website page titled “Report Card”)
- Select “Accountability”
- Select “2016-17” from the dropdown
- Select “2017 Accountability Report”
- Open the file
- Select “Districts” to view the district results
- Select “700 Point Schools” to view the Kindergarten-8th grade school results
- Select “1000 Point Schools” to view the 9th-12th grade school results

*All Kindergarten-Grade 8 schools in the state are ranked on a 700 point scale. High Schools are ranked on a 1000 point scale. Each district is on a separate 1000 point scale. Each tab on the spreadsheet is in descending order of total points. To see each school's state rank for total points, subtract the row number by one since the top row includes the column headings. To only see DeSoto County schools, select “Enable Editing” at the top of the spreadsheet. Then for each, filter the “District Name” column to “DeSoto County School District.”
