Social K-5 Health	Social 6-12	Math, K-5 Music Art	Science K-5 Business FACS Careers & Guidance	Math 6-12	PE World Language	ELA K-5

Planning for the purchasing cycle:

1. In March of the year previous to purchase, analyze your content areas' ELOs and LTs. Will everything remain the same for the following year(s)?
2. Begin the search for possible materials. <<include writing time?!>>
3. In May/June/July, plan who will pilot which materials, along with meeting dates prior to February of the purchase year to discuss and evaluate.
4. In March of the purchase year, begin compiling and filling out the appropriate budget forms for materials being requested. Don't forget about training time required for new materials.
5. By April 15 of the purchase year, turn in requests to Renee Kerzman.
6. Plan for training and implementation to take place during the summer after the purchase year.
