

Cora Clementine was the littlest blossom. During her first winter as a tiny tanger, the frost hit early and ice crystals formed all around her. The sunlight beamed down on Cora and was magnified by the crystals. The magnified sunlight magnified the vitamin C crystal inside Cora to keep her from getting sick that cold, icy winter. Now Cora uses the magic crystal to pass power of immunity to the other young clementines so they can grow into powerful, flavorful, nutritious snacks to keep kids healthy!

CORA CLEMENTINE

WHAT TO KNOW

Clementines are a cross between a Chinese mandarin and an orange. They are smaller than oranges and are easy to peel, making them a great snack! Clementines are low in calories and contain fiber, vitamin C, and other important vitamins, minerals, and antioxidants that help support a healthy immune system.

Immunity

JOKE OF THE MONTH

Q: Why did the clementine go to the doctor?

A: It wasn't peeling well.

FUN FACT

Clementines are often called "Christmas oranges" because their limited growing season falls during the winter.
