~BUS CONDUCT~

Riding a school bus is a privilege. Student cooperation is imperative. Students who do not conduct themselves properly as set forth in the rules and regulations will not be allowed to ride the bus. Severe student misbehavior on the bus can also result in suspension or other disciplinary action. The school bus driver is responsible to the school district to maintain student order and to ensure maximum safety at all times. Therefore he/she is authorized to instruct and otherwise control students as to proper conduct and safety while they are on the bus.

The school administration will be responsible for disciplining students reported to him/her by the driver. Questions and inquiries regarding discipline should be directed to the Transportation Supervisor.

A student's failure to conform to acceptable standards of behavior and courtesy while on a school bus will result in his/her being subject to disciplinary action. Should a student choose to break a rule, the following actions will be taken:

****For any serious, severe, or extremely severe offense, the principal will abide by the discipline outlined on p. 12-16 of the student handbook.**

~STUDENT CONDUCT~

It is the goal of Charleston Middle School to establish an educational climate in which student behavior is exemplary at all times and in which the important processes of education can best be carried out. To accomplish this goal, an atmosphere of harmonious and cooperative relationships built on mutual respect and understanding between students, parents and teachers is necessary.

Significant interruptions of the educational process resulting from overt disrespect shown by students toward faculty members, raucous student behavior and vulgar or otherwise discourteous actions are not permitted.

To provide a safe and orderly learning environment, it is necessary for students to obey any and all instructions of the faculty and administrators. If a student refuses to comply with these instructions, disciplinary procedures will be carried out.

The basic objectives of discipline within the school setting are three-fold:

- To establish conditions under which no student will be permitted to prevent any teacher from teaching or any student from learning.
- To establish and maintain study conditions which are safe and conducive to learning.
- To develop, on the part of each student, the habits and skills that make him/her self-directive and to help him/her realize that he/she is responsible for his/her own behavior.

We will continue to implement a Positive Behavioral Interventions and Supports (PBIS) approach to discipline. PBIS is a **positive way of dealing with students in order to reduce discipline issues** and provide a link in the Response to Intervention process which is mandated in all schools. By addressing behavior early, we hope to increase the classroom instructional time and student time on task.

We encourage all students to behave in socially acceptable ways. We do have in place classroom and school-wide incentives to reward our students for good behavior and good citizenship. However, students who break classroom and/or school rules could be subject to In School Suspension (ISS). Students who fail to follow classroom rules may receive Classroom Referrals from the teacher. These referrals must be signed by the parent and returned to the teacher. Six (6) classroom referrals will result in a Disciplinary Committee Referral, which carries with it a higher level consequence.

In School Suspension (ISS)

We encourage all students to behave in socially acceptable ways and have in place classroom and school-wide incentives to reward our students for good behavior and good citizenship. However, students who break classroom and/or school rules could be subject to isolation in the in school suspension room. Students assigned to ISS complete assignments given by their teachers.

Suspension (OSS)

Out of school (OSS) suspension is a forfeiture of participation in regularly scheduled school activities for the time designated during suspension. In all cases, parents must have a conference with the designated school administrator before the student is allowed to return to classes. A telephone call is not acceptable. Students are not permitted on campus or at any school activity during their suspension period.

Any student suspended from school shall be allowed to make up work. It is the responsibility of the student to turn in make-up work within 3 days of their expected return.

BOARD APPROVED 06/10/10

STUDENT COMPLAINTS OF BULLYING OR HARASSING BEHAVIOR

Students and employees in the E.T.S.D. School District are protected from bullying or harassing behavior by other students or employees. It is the intent of the Board and the administration to maintain an environment free from bullying and harassing behavior. This complaint procedure provides a process for filing, processing and resolving complaints of such conduct. Adherence to these procedures is mandatory. The failure of any person to follow these procedures will constitute a waiver of the right to pursue a complaint at any level, including review by the Board.

I. Definitions

Bullying or harassing behavior is any pattern of gestures or written, electronic or verbal communications, or any physical act or any threatening communication, or any act reasonably perceived as being motivated by any actual or perceived differentiating characteristic that (a) places a student or school employee in actual and reasonable fear of harm to his or her person or damage to his or her property, or (b) creates or is certain to create a hostile environment by substantially interfering with or impairing a student's educational performance, opportunities or benefits.

A "hostile environment" means that the victim subjectively views the conduct as bullying or harassing behavior and the conduct is objectively severe or pervasive enough that a reasonable person would agree that it is bullying or harassing behavior.

Bullying or harassing behavior will not be condoned or tolerated when it takes place on school property, at any school-sponsored function, or on a school bus, or when it takes place off school property when such conduct, in the determination of the school superintendent or principal, renders the offending person's presence in the classroom a disruption to the educational environment of the school or a detriment to the best interest and welfare of the pupils and teacher of such class as a whole.

II. Procedures for Processing a Complaint

Any student, school employee or volunteer who feels he/she has been a victim of bullying or harassing behavior, or has witnessed or who has reliable information that a student, school employee or volunteer has been subject to bullying or harassing behavior shall report such conduct to a teacher, principal, counselor or other school official. The report shall be made promptly but no later than five (5) calendar days after the alleged act or acts occurred. The school official shall complete a "Bullying/Harassing Behavior" complaint form which shall include the name of the reporting person, the specific nature and date of the misconduct, the names of the victim of the misconduct, the names of any witnesses and any other information that would assist in the investigation of the complaint. The report shall be given promptly to the principal or superintendent who shall institute an immediate investigation. Complaints against the principal shall be made to the superintendent and complaints against the superintendent shall be made to the Board chairman.

The complaint shall be investigated promptly. Parents will be notified of the nature of any complaint involving their student. The District official will arrange such meetings as may be necessary with all concerned parties within five (5) working days after initial receipt of the complaint by the District. The parties will have an opportunity to submit evidence and a list of witnesses. All findings related to the complaint will be reduced to writing. The District official conducting the investigation shall notify the victim and parents as appropriate when the investigation is completed and a decision regarding disciplinary action, as warranted, is determined.

If the victim is not satisfied with the decision of the District official, he/she may submit a written appeal to the superintendent. Such appeal shall be filed within ten (10) working days after receipt of the results of the initial decision. The superintendent will arrange such meetings with the victim and other affected parties as deemed necessary to discuss the appeal. The superintendent shall provide a written decision to the victim's appeal within ten (10) working days.

If the victim is not satisfied with the decision of the superintendent, a written appeal may be filed with the Board. Such appeal shall be filed within ten (10) working days after receipt of the decision of the

superintendent. The Board shall, within twenty (20) working days, allow the victim and parents as appropriate to appear before the Board to present reasons for dissatisfaction with the decision of the superintendent. The Board shall provide a written decision within ten (10) working days following the victim's appearance before the Board.

East Tallahatchie School District

BOARD APPROVED 06.10.10

STUDENT BULLYING

The E.T.S.D. School District does not condone and will not tolerate bullying or harassing behavior. Bullying or harassing behavior is any pattern of gestures or written, electronic or verbal communications, or any physical act or any threatening communication, or any act reasonably perceived as being motivated by any actual or perceived differentiating characteristic that (a) places a student or school employee in actual and reasonable fear of harm to his or her person or damage to his or her property, or (b) creates or is certain to create a hostile environment by substantially interfering with or impairing a student's educational performance, opportunities or benefits. A "hostile environment" means that the victim subjectively views the conduct as bullying or harassing behavior and the conduct is objectively severe or pervasive enough that a reasonable person would agree that it is bullying or harassing behavior. Bullying or harassing behavior will not be condoned or tolerated when it takes place on school property, at any school-sponsored function, or on a school bus, or when it takes place off school property when such conduct, in the determination of the school superintendent or principal, renders the offending person's presence in the classroom a disruption to the educational environment of the school or a detriment to the best interest and welfare of the pupils and teacher of such class as a whole.

The E.T.S.D. School District will make every reasonable effort to ensure that no student or school employee is subjected to bullying or harassing behavior by other school employees or students. Likewise, the District will make every reasonable effort to ensure that no person engages in any act of reprisal or retaliation against a victim, witness or a person with reliable information about an act of bullying or harassing behavior. The District encourages anyone who has witnessed or has reliable information that a student or school employee has been subject to any act of bullying or harassing behavior to report the incident to the appropriate school official.

The School Board directs the superintendent or designee to design and implement procedures for reporting, investigating, and addressing bullying and harassing behaviors. The procedures should be appropriately placed in District personnel policy handbooks, school handbooks that include discipline policies and procedures, and any other policy or procedure that deals with student or employee behavior. The discipline policies and procedures must recognize the fundamental right of every student to take "reasonable actions" as may be necessary to defend himself or herself from an attack by another student who has evidenced menacing or threatening behavior through bullying or harassing. Furthermore, the E.T.S.D. School District defines "reasonable action" as promptly reporting the behavior to a teacher, principal, counselor, or other school employee when subjected to bullying or harassing behavior.

Ref: SB 2015; Miss. Code Ann. § 37-

The East Tallahatchie School District has a zero tolerance policy towards the possession and/or use of firearms on any school property or at any school function throughout the district. Any student found to be in violation of this policy will be expelled immediately. *NO EXCEPTIONS.*

EAST TALLAHATCHIE SCHOOL DISTRICT SUSPICION-BASED DRUG AND ALCOHOL POLICY

All students are prohibited from carrying, possessing in any manner, or attempting to possess, using, or selling alcoholic beverages, morphine, marijuana, cocaine, opium, heroin, their derivatives or compounds, drugs commonly called LSD, "pep" pills, tranquilizers, or any other narcotic drugs, barbiturate, substance, ingredient, or compound that, when taken orally, intravenously, inhaled, or consumed in any other manner, may cause the person to be under the influence thereof, or any other controlled substance regulated by law, including any substance that is falsely represented to be a controlled or counterfeit substance.

No student shall act in, aid, abet, assist, distribute, or conceal the possession and/or the consumption, purchase, or the distribution of any illegal drugs or alcoholic beverages by another student or students.

Any student who violates the provisions of the policy will be immediately suspended for ten days and recommended to the Board of Education for Alternative School and/or expulsion for one calendar year.

PROVISIONS

The provisions of this policy shall not apply to any student who is under the care of a licensed physician and who is taking medication under the supervision and direction of such physician unless the student is illegally selling or distributing medications. With regard to prescription medications, refer to the East Tallahatchie School District medication policy.

The provisions of this policy shall apply to all students during the period of time that they are under and/or subject to the jurisdiction of the East Tallahatchie School District, while participating in or going to or from any school-related activity, at any place where an athletic contest or event is taking place, during the course of any field trip, during the course of any trip or activity sponsored by the District, while under the supervision and direction of any teacher, principal or other authority of the District, or when such conduct does or may threaten to interfere with or disrupt the educational process or pose a threat to the safety of the student or others.

REASONABLE SUSPICION TESTING

Subject to the limitations contained in this policy, the District may require any student to submit to a drug and/or alcohol test at the expense of the student's parent/guardian if there is a reasonable suspicion that the student has or is using prohibited drugs and/or alcohol. Reasonable suspicion must be based on specific contemporaneous physical, behavioral, or performance indicators of probably drug and/or alcohol use. The requirement of a drug and/or alcohol test is within the discretion of the District and is not a prerequisite to the administration of punishment under this policy.

The following circumstances shall constitute grounds for reasonable suspicion:

- a. Direct observation and/or confirmation by a District employee of drug and/or alcohol use or possession;
- b. Abnormal or erratic behavior indicating intoxication;
- c. Physical symptoms indicating intoxication including, but not limited to, glassy or bloodshot eyes, slurred speech, loss of balance, poor coordination or reflexes;
- d. First-hand information provided by reliable and credible sources of use, possession, or intoxication;
- e. The presence of a drug or alcohol on the student, detectable by the senses, such as the smell of marijuana or alcohol; or

- f. Possession of illegal drugs, prescription drugs for which the student does not have a prescription, alcohol containers, or drug paraphernalia.

Intoxication means being excited, stupefied, or affected by alcohol or a drug to the point where physical and mental control is diminished.

A report from any source indicating reasonable suspicion that a student may be in violation of this policy should be immediately given to a member of the administrative staff. The administrative staff member must determine that the circumstances constitute reasonable suspicion of drug and/or alcohol use before a student can be requested to take a drug or alcohol test. The administrative staff member is required to write in reasonable detail the facts, symptoms, or observations that form the basis of reasonable suspicion.

Once an administrator finds reasonable suspicion, an administrator shall contact the student's parent/guardian. If the District decides to require submissions to such a test, the student will be immediately removed from school for a drug/alcohol test to be conducted within a five (5) hours period of time.

If a student appears incoherent, semi-conscious, unconscious, or convulsive, or appears to be hallucinating, is in respiratory distress or anaphylactic shock, or is in other mental or physical distress indicating danger or injury to the health and safety of the student, District personnel shall seek immediate medical attention before any other actions under this policy are taken. The health of the student shall be given priority.

DRUG AND ALCOHOL TESTING

Any student required to be tested under this policy will be accompanied by a District employee and a parent/guardian to a professional testing laboratory or to such other place qualified for drug/alcohol testing at the parent's/guardian's sole expense. If District personnel cannot accompany the student for testing, the District may still require the students' parent/guardian to have the testing completed. All breath, urine, and blood specimens will be collected under reasonable and sanitary conditions. Individual dignity and privacy will be preserved to the extent practicable. Accepted standards for testing, labeling, storage, and transportation of specimens will be followed by the testing laboratory, which will request information regarding prescription and non-prescription drugs and any other information that could lead to a false positive test.

A refusal or failure to take a drug and alcohol test under the conditions of reasonable suspicion shall be considered a positive drug and alcohol test result or offense.

A student or parent/guardian may request a retest, but the results will only be considered if scientifically meaningful, timely performed, and in compliance with the professional testing laboratory's guidelines. All positive confirmed test results will be made part of a student's record, but they shall be kept confidential and separated in a secured location with restricted access. All positive initial test results for which the confirmation test is negative or which are determined to be false positive shall not become any part of the student's record or discipline record.

The District shall keep the following records for the periods specified as a part of its drug and alcohol policy:

1. Records of drug and/or alcohol test results that show a student failed both an initial and a confirmation drug/alcohol test (a positive drug test) and the reasonable suspicious findings for the tests must be kept for five (5) years.

2. Records of drug and/or alcohol results that show the student passed an initial or confirmation test (a negative drug test) must be kept for at least one year but shall be part of the student's record.
3. The District may retain such records for statistical analysis and policy evaluations, as it deems appropriate, consistent with confidentiality.

FINDING OF DRUG AND/OR ALCOHOL USE/POSSESSION CONSEQUENCES

If the initial test for drugs and/or alcohol indicates a positive result, the testing laboratory must immediately conduct a confirmation test. If the confirmation test also indicates a positive result, the testing laboratory must report the positive test results to the school principal and the Superintendent or his designee. The school principal will notify the student and parent/guardian in writing of such positive test results and of the consequences of such a report. If the initial test is negative, no further tests will occur unless there is a good reason to suspect the quality of the sample. If the confirmed results are negative, the student will be reinstated.

CONFIDENTIALITY

The results of the student's drug test shall not be released to anyone other than the testing laboratory, the Superintendent and his designee, principal, and other employees or agents of the District who have a need to know such information. Any discipline resulting from the drug test results shall be recorded in the student's discipline record in accordance with the discipline policies and other policies of the District. In order to maintain confidentiality, written records of drug testing will be stored in a secure location with restricted access.

The District will cooperate with law enforcement, but the test results will not be released to law enforcement agencies without a court order or subpoena unless law requires disclosure. Nothing in this policy will prohibit or restrict District officials from making any report required by law to law enforcement agencies or other agencies.

DRUG EDUCATION AND COUNSELING

Before the implementation of this policy, at least annually thereafter, the District shall give training to principals and administrators in drug and alcohol use/abuse recognition and in the implementation of this Policy. Principals and administrators will give professional development to employees of all schools in recognition of drug and alcohol use and abuse, handling procedures, and policy implementation familiarization.

If there is reasonable suspicion that a student has or is using prohibited drugs and/or alcohol, the District may recommend counseling and drug/alcohol education at the student's expense.

NOTICE

Before implementation of this policy, reasonable notice of the policy will be made to all students and parents and/or guardians of students.

This policy is for the discipline and protection of the students of the District and their general welfare. Nothing herein contained shall be construed to avoid any prosecution under any pertinent criminal statute of the State of Mississippi.

This policy shall supersede and take precedence over any other policy or practice that is inconsistent herewith.

EAST TALLAHATCHIE SCHOOL DISTRICT RANDOM DRUG TESTING POLICY

In an effort to protect the health and safety of students involved in extracurricular activities from illegal and/or performance-enhancing drug use and abuse and to curtail the use of such drugs, the Board of Education (the "Board") of the East Tallahatchie School District (the "District") adopts the following policy for random drug testing of all students who participate in extracurricular activities.

STATEMENT OF PURPOSE AND INTENT

Although the Board of Education, administration, faculty, and staff desire that no student use or possess illegal or performance-enhancing drugs; we realize that our power to restrict the possession or use of such drugs is limited. Therefore, this policy governs only the use and possession of performance-enhancing and illegal drugs by students participating in certain extracurricular activities. This policy supplements and complements all other policies, rules, and regulations of the District regarding possession or use of illegal drugs, including, but not limited to, all policies and rules concerning reasonable suspicion of the use or possession of such illegal drugs. The policy also supplements and complements all laws and policies with respect to special education students.

Participation in school-sponsored extracurricular activities in the District is a privilege. Students respect those students who participate in these activities and see them as examples. Participating students represent the District and their community. Accordingly, students in these activities carry a responsibility to themselves, their fellow students, their school, their families, and their community to set the highest possible examples of conduct, sportsmanship, and training, which includes avoiding the use or possession of illegal and performance-enhancing drugs.

The purposes of this policy are six-fold:

1. To educate students about the serious physical, mental and emotional harm caused by illegal drug use.
2. To alert students with possible substance abuse problems to the potential harms that drug use poses for their physical, mental, and emotional well being.
3. To offer students the privilege of competition and participation in extracurricular activities as an incentive to stop using such substances.
4. To ensure that students adhere to a training program or health regimen that prohibits illegal and performance-enhancing drugs.
5. To prevent injury, illness, and harm to students that may arise as a result of illegal and performance-enhancing drug use.
6. To offer students school activities free of the effects of illegal and performance-enhancing drug use.

Illegal and performance-enhancing drug use of any kind is incompatible with the physical, mental, and emotional demands placed upon participants in extracurricular activities and with the positive image these students project to other students and to the community on behalf of the District. To protect the safety, health and well being of all students involved in extracurricular activities, the District adopts this policy for all participants in specified extracurricular activities in grades 7 through 12.

The administration shall adopt regulations to implement this policy.

I. Definitions

"Activity Student" means a member of any middle school or high school sponsored extracurricular organization. This definition includes any student who represents District schools in any extracurricular activity including competition of any kind, such as academic team, band, vocal, choral, cheerleader, and athletics. (See the attached list of activities.)

"Drug test" means a scientifically substantiated method to test for the presence of illegal or performance-enhancing drugs, or the metabolites thereof, performed by an independent testing laboratory.

"Random selection basis" means a mechanism for selecting Activity Students for drug testing that:

- A. results in an equal probability that any Activity Student from a group of Activity Students subject to the selection mechanism will be selected.
- B. does not give the District discretion to waive the selection of any Activity Student selected under the mechanism, and
- C. is administered by a professional drug testing laboratory employed by the District.

"Illegal drugs" means any substance that an individual may not sell, possess, use, distribute, or purchase under either federal or Mississippi law. *"Illegal drugs"* includes, but is not limited to, all scheduled drugs as defined by Miss. Code Ann. Sections 421-29-113, 41-29-115, 41-29-117, 41-29-119, and 41-29-121, all prescription drugs obtained without authorization, and all prescribed and over-the-counter drugs being used for an abusive purpose.

"Performance-enhancing drugs" include anabolic steroids and any other natural or synthetic substance used to increase muscle mass, strength, endurance, speed, or other athletic ability. The term does not include dietary or nutritional supplements such as vitamins, minerals, and proteins that can be lawfully purchased over-the-counter.

"Positive" when referring to a drug test administered under this policy means a toxicological test result that is considered to demonstrate the presence of an illegal or a performance-enhancing drug, or the metabolites thereof, using the standards customarily established by the testing laboratory administering the drug test.

II. Procedures

Each Activity Student shall be given a copy of this policy and of the Student Drug Testing Consent. Both the student and the student's parent or custodial guardian must read, sign, and date the Student Drug Testing Consent. No student shall be allowed to practice or participate in any extracurricular activity to which the policy applies unless the student has returned the fully executed Student Drug Testing Consent. The District reserves the right to supplement and modify the extracurricular activities to which the policy applies.

Each semester, principals and a representative of the independent testing laboratory will present an informational session to students to educate them about the sample collection process, privacy arrangements, drug testing procedures, the consequences of positive drug tests, and related procedures and practices. The purpose of the session is to reassure the Activity Student, to avoid embarrassment or uncomfortable feelings about the drug testing process, and to give notice of the consequences of drug use.

Activity Students will be chosen on a random selection basis from a list of all Activity Students, no matter if the activities are off-season or in-season. The District will determine the number of names to be drawn at random for drug testing. An independent testing laboratory

will select the names of the Activity Students at random and will perform the drug testing. Any Activity Student selected at random must give a urine specimen for testing.

A professional testing laboratory chosen by the District will administer the drug testing. The testing laboratory must use scientifically validated toxicological testing methods, have detailed, written specifications to assure chain of custody of the specimens, and use proper laboratory control and scientific testing. A medical review officer of the testing laboratory shall review all positive test results.

The testing laboratory shall conduct all aspects of the drug-testing program, including the taking of urine specimens, so as to safeguard the student's personal and privacy rights to the maximum degree practicable. The test specimen shall be obtained in a manner designed to minimize intrusiveness to the student. If at any time during the sampling procedure the testing laboratory employee has reason to believe or suspect that a student is tampering with the specimen, the testing laboratory employee may stop the procedure to determine if a new sample should be obtained.

The testing laboratory employee must give each student a form on which the student may list any legally prescribed medications that the student has taken in the preceding thirty days. The student's parent or legal guardian shall be able to confirm the medication list submitted by the student during the twenty-four-hour period following any drug test. The medication list shall be submitted to the laboratory in a sealed and confidential envelope so that District employees shall not see the confidential medication list. If test results are positive for use of prescription drugs that the student did not list, the testing laboratory will contact directly the student's parents or guardian to obtain a list of all prescription medications that the student is taking or has taken for the preceding thirty days and to require the parent or guardian to product verification of prescriptions for the student's prescription medications within 24 hours. If the parents or guardian do not respond to the testing laboratory's calls within 48 hours of its first attempt to contact, the testing laboratory shall have no further duty to attempt to contact the parents or guardian.

If the testing laboratory reports a positive test result for prescription medications to a student's parent or guardian, an Activity Student or his/her parent or guardian may submit additional information to the testing laboratory within 24 hours of notification of the student of the positive test results. The Activity Student will remain eligible for participation in extracurricular activities until the testing laboratory has completed its review of the additional information and made a report of positive test results to the principal and Superintendent.

The professional testing laboratory shall confirm an initial positive test result by a second test of the same specimen by another independent laboratory before a report is made to the District. The laboratory will inform the principal of the school and the Superintendent or his designee of the positive test results. After a report of positive test results is made to the District, the principal will schedule a conference with the student and parent or guardian about the positive drug test results. The principal shall encourage, but not require, the student and his/her parent or guardian to seek drug counseling for the student at the expense of the parent or guardian.

Any student who receives a positive test that is reported to the District must be re-tested within twenty-eight (28) days.

III. Confidentiality

The testing laboratory will notify the principal of the school that the Activity Student attends and will also notify the Superintendent or his designee of any positive test results. To keep positive test results confidential, the principal will notify only the student, the student's

parent or guardian, and the coach/sponsor of the activity or activities in which the student participates of the test results. Test results will be kept in files separate from the student's other educational records, shall be disclosed only to those school personnel who have a need to know, and will not be turned over to any law enforcement authorities.

IV. Consequences

Any Activity Student who tests positive in a drug test under this policy shall be subject to the following consequences:

- A. Immediate removal from activities for twenty-eight (28) calendar days. During this 28-day period, the student must submit at least once, or more often as required, to mandatory drug testing at times determined by the testing laboratory. During the 28-day period, each student is required to be re-tested at least once by the testing laboratory.
- B. If at the end of the 28-calendar-day removal period the testing laboratory determines that the student does not test positive for drugs, the student shall be reinstated in the extracurricular activities.
- C. If the student tests positive at any time during the 28-day removal period, the student shall be recommended for immediate placement in the Alternative School for one calendar year.
- D. If the student is re-instated, but at a later date in another random selection during the same school year tests positive, the student shall be recommended for immediate placement in the Alternative School for one calendar year.
- E. If the student is re-instated, but at a later date in another school year in another random selection tests positive, the student will be removed from the extracurricular activities for a calendar year.

V. Refusal to Submit to Drug Use Test

If an Activity Student refuses to submit to a drug test, the Activity Student shall be considered in violation of his/her consent agreement and shall be barred from the specified extracurricular activities for one calendar year. If, however, the Activity Student reconsiders his/her refusal and submits to a drug test, consisting of a sample of his/her hair, within 24 hours of the initial refusal, the Activity Student may remain eligible for participation in extracurricular activities. In this event, the Activity Student and his/her parents or guardian will bear responsibility for contacting the testing laboratory used by the District and arranging for the laboratory to test the Activity Student's hair sample within the 24-hour period from the time the student initially refused to submit to the initial test. If the testing laboratory has reason or suspicion to believe that the sample taken from such Activity Student has been adulterated or has been tampered with so as to affect test results, the testing laboratory shall deem it a refusal to submit to a drug test.

VI. Appeal

The District will rely solely on the opinion of the independent testing laboratory to determine whether the positive test result was produced by something other than consumption of an illegal or performance-enhancing drug. There shall be no appeal of the test results of the professional testing laboratory to a principal, the Superintendent, or the Board of Education

If, however, the Activity Student has tested positive for a second time so that the student will be transferred to the Alternative School, the student may appeal his/her transfer to alternative school to the Superintendent. East Tallahatchie School District Student Drug Testing Consent Form

Statement of Purpose and Intent

Participation in school-sponsored extracurricular activities in the schools of the East Tallahatchie School District is a privilege. Activity Students have a responsibility to themselves, their fellow students, their schools, their families, and their community to set the highest possible examples of conduct by avoiding the use or possession of illegal or performance-enhancing drugs.

Drug use of any kind is incompatible with participation in extracurricular activities in the East Tallahatchie School District. For the safety, health, and well being of all students, the East Tallahatchie School District has adopted a policy of using an independent testing laboratory to conduct random drug testing of all students at Charleston Middle School and Charleston High School who participate in certain extracurricular activities, whether or not the activity is in off season or in season. (an "Activity Student").

Participation in Extra-Curricular Activities

Each Activity Student shall be given a copy of the Activity Student Random Drug Testing Policy and Student Drug Testing Consent. Both the student and the student's parent or legal guardian must read, sign, and date the Student Drug Testing consent before the student shall be eligible to practice or participate in the listed extracurricular activity. To be eligible to participate in or practice with certain extracurricular activities, the consent shall be (a) to give a urine sample; (b) if chosen on a random selection basis; or (c) at any time requested based on reasonable suspicion of the use or possession of illegal or performance-enhancing drugs. No student shall be allowed to practice or participate in any activity governed by this policy unless the student has returned the properly signed Student Drug Testing Consent.

I have read the "Student Activity Drug Testing Policy" and "student Drug Testing Consent", and I understand that, out of care for my safety and health and the health and safety of others, the East Tallahatchie School District enforces the rules applying to the use or possession of illegal and performance-enhancing drugs. As a member of my school's extracurricular activity, I realize that the personal decision that I make daily about the use or possession of illegal or performance-enhancing drugs may adversely affect my health and well being, possibly endanger those around me, and reflects poorly upon any organization with which I am associated. If I choose to violate this policy regarding the use or possession of illegal or performance-enhancing drugs at any time, whether during in-season or off-season, I understand upon determination of that violation I will be subject to the restrictions on my participation and practice as outlined in the Policy.

RESPONSE TO INTERVENTION

RtI is a comprehensive, problem-solving, and multi-tiered intervention strategy to enable early identification and intervention for ALL students who may be at academic or behavior risk. It is a school-wide process that requires universal screening of all students, the provision of effective instruction in a core curriculum, and the provision of immediate interventions based on student needs. RtI is mandated by State Board Policy 4300. The Mississippi Department of Education shall require an instructional model designed to meet the needs of every student. The model shall consist of three tiers of instruction.

Tier 1: Quality instruction in general education of the Mississippi Curriculum by highly qualified teachers that includes the following:

- Universal screeners of fluency, comprehension, vocabulary, computation, and universal screening for high school students who will be taking the state subject area tests
- Universal screener of behavior
- Instructional delivery supported by scientifically based research
- Differentiated instruction
- Curricula and instructional materials aligned to state standards
- Classroom and behavior management
- A system of behavioral support (school and district level)
- System of instructional leadership
- System of instructional support
- System of classroom observations to determine integrity of implementation; follow up procedures for staff who have not met
- minimal instructional criteria
- Parental/family and community involvement

Students who are successful at Tier 1 are making expected progress in the general education curriculum and are demonstrating social competence.

Tier 2: Strategic/Target Intervention and/or Supplemental Instruction designed for students who are not progressing or responding to Tier 1 efforts. The elements for Tier 2 include:

- Progress monitoring of the target area(s)
- Documentation of progress in target area(s)
- Appropriate decision-making
- Strategic/targeted intervention and supplemental instruction in academics or behavioral/emotional areas
- Documentation of intervention implementation with integrity
- System of instructional support

- System of behavioral support (school and district level)
- Instructional leadership
- Parental/family and community involvement

Tier 3: Intensive interventions that are the academic and behavior strategies and practices designed for students who are having significant difficulties with grade-level objectives in the general education curriculum or who demonstrate significant difficulties with behavioral and social competence. The elements of Tier 3 include:

- Progress monitoring of the target area(s)
- Documentation of progress in target area(s) through graphical display
- Appropriate decision-making
- Strategic/target intervention and supplemental instruction in academic or behavioral/emotional areas
- Documentation of intervention implementation with integrity
- System of instructional support
- System of behavioral support (school and district level)
- Instructional leadership
- Parental/family and community involvement
- Teacher Support Team Process
- Teacher Support Team Outcomes

Tier 3 provides the more intensive interventions needed by some students to make progress academically or to demonstrate social competence in the general education setting. Tier 3 also represents the stage in the RtI process where educators begin to make decisions that may lead to further evaluation and identification for specialized services through Special Education.

In addition to those students who fail to make adequate progress following Tiers 1 and 2, the following students will be referred to the Teacher Support Team for interventions as specified by the following guidelines:

- A student has failed one (1) grade in Grades 1-3
- A student has failed two (2) grades in Grades 4-12
- A student has failed either of the preceding two grades and has been suspended or expelled for more than 20 days in the current school year
- A student scores at the Minimal level on any part of the Grade 3 or Grade 7 Mississippi Curriculum Test 2
