

## Live, Online Special Education Related Services

With 11 years of experience serving 2.5 million teletherapy sessions, we've got you covered this school year—in school, at home, or both.

PresenceLearning can provide you with a comprehensive set of live, online services designed to support all of these special education related services—and all delivered on our secure, compliant teletherapy and tele-assessment platform, purpose-built for K-12 special education:

### Speech-language pathology

- Therapy
- Assessments
- SLPA Supervision
- Professional Development

### Behavioral & Mental Health Therapy

- Therapy
- Assessments
- Behavior Intervention Groups
- Professional Development

### Occupational therapy

- Therapy
- Assessments
- COTA Supervision
- Professional Development

### Two ways to support schools working with students remotely:

1. Assign caseloads and/or assessments to experienced PresenceLearning clinicians.
2. Train your own teams to serve students remotely with PresenceLearning tools.

Choose one, or a combination of both!

### PresenceLearning Clinicians

Rely on our clinicians to serve your students remotely at home

#### Relevant expertise:

With over 1,300 clinicians, we have the largest network of licensed, masters degree level clinicians, all with school-based experience prior to telepractice

#### Student privacy comes first:

On our award-winning FERPA and HIPAA compliant teletherapy platform built by clinicians for clinicians

#### Parent-friendly communication:

Parent resources make set-up and supervision at home easy

### Teletherapy Essentials for School-Based Clinicians

Equip your teams to serve students remotely with our tools and strategies

#### Professional development:

Our clinical experts train your school-based teams on how to effectively and compliantly deliver teletherapy and tele-assessment to students at home\*

#### Platform use:

On our award-winning FERPA and HIPAA compliant teletherapy platform

#### Parent support:

Parent resources make set-up and supervision at home easy

\*Details on all 3 Teletherapy Essentials offerings and training components on the reverse page.

## Teletherapy Essentials

Includes PresenceLearning platform access and training for clinicians as well as access for support personnel and other educators, to make the most out of remote learning. This offer is designed for:

- Speech-Language therapists for therapy and assessments
- Occupational Therapists for therapy and assessments
- Behavioral & Mental Health professionals
- Physical Therapists
- Other School Educators
- Support Personnel
- Administrators
- Paraprofessionals

## Teletherapy Essentials + Psychoeducational Assessments

Includes PresenceLearning platform access and training plus assessments for those eligible to conduct psychoeducational assessments. This offer is designed for:

- School Psychologists/LSSPs
- Diagnosticians
- Other mental health professionals who conduct Psychoeducational Assessments

## Teletherapy Essentials + Academic Achievement

Includes PresenceLearning platform access and training plus select achievement tests. This offer is designed for teachers and other people who give the achievement portion of assessments, such as:

- SPED Teachers
- SAI Instructors
- Resource Teachers, etc.

*The teletherapy trainings have been incredibly invaluable. I was not taught to do speech in this way and always thought therapy needed to be conducted in person. The team at PresenceLearning showed me this wasn't the case—they were so supportive and answered all my questions so that I could jump right in.*

—Melissa Phillips, CCC-SLP at Lewis Cass ISD

## All 3 Teletherapy Essentials offerings come with these 3 training components

### Teletherapy Foundations

Online, self-guided modules to get you started and familiarize you with the PresenceLearning Platform. Includes comprehensive video tutorials using different activities from the Platform library followed by guided practice

### Clinical Applications

Live training led by PresenceLearning Clinical Experts to apply what you learned in Foundations to real-world scenarios. Training is specific to each therapy type or role.

### Clinical Workshops

Ongoing live workshops led by PresenceLearning Clinical Experts to support you as you go. Register for sessions focused on each discipline—Speech-Language Pathology, Occupational Therapy, Behavioral & Mental Health, as well as Educators and Support Personnel.

## Training Topics
