

Go Solutions is more than just a traditional "billing agent." Go serves as a consultant and partner to hundreds of school districts all over the country.

GoClaim can interface with any IEP product and either import services reported into IEP or allow direct provider service entry into the system. Services entered are turned into a claim and submitted to the state Medicaid vendor for district reimbursement for qualified services provided. System access is role-based, allowing districts to decide what access should be assigned to district personnel.

- FERPA and HIPAA compliant
- Automated student file uploads.
- Electronic supervisory documentation.
- Provider Utilization Tracking
- Intuitive calendar service entry
- Medicaid eligibility checks and maintains student eligibility information.
- Audit support

## QUALITY IS THE BEST BUSINESS PLAN.

Some key benefits that Go customers love:

- A system that caters to providers or therapists
- Unlimited trainings included for no additional charge
- Claim reconciliation
- Quick issue resolution with a team dedicated to support
- Access to Medicaid consultants with the expertise to get you your maximum reimbursement
- Warning sign reports on the user dashboard to notify you of any potential losses
- A customizable time saving system with custom notes, ability to set defaults, reports, and assign parameters

# go SOLUTIONS

## THE TOTAL SOLUTION

With over 27 years of experience supporting schools in their fee-for-service and Medicaid administrative claiming programs, Go Solutions, Inc. is recognized as a national leader. With the acquisition and integration of Oasys LLC, Go Solutions has expanded its service offerings by providing an integrated suite of software products that give administrators, educators, and service providers the power of information at their fingertips. Our integrated services offer solutions for the total student and can interface with districts' student management system for complete, seamless data retrieval.

## NEW OASYS OFFERINGS

01

**Waves** - A web based Special Education management system. Enter and maintain IEPs, progress reports, forms, and data.

02

**OASYS RTI** - Manage, track, and report on student interventions—both behavioral and academic. Identify students needing intervention, access flexible reports and customizable forms, monitor progress and more!

04

**Digital Signatures** - Send documents to parents and guardians and have them electronically sign on a smart phone or any other device using their finger.

06

**English Learner Management System (EL)** - Track English learners' ACCESS scores so you can easily compare yearly results. It includes a comprehensive Individualized Learning Plan (ILP) form to cover goals and scores for the student.

03

**State Reporting** - Automatically send Special Education child count data on behalf of school districts right from OASYS, eliminating the need for double entry.

05

**Section 504 Management System** - A system that allows school districts to easily track and maintain all data for district students who use a 504 plan. The system is an add-on to OASYS Special Education Student Management System and includes accommodation plans, customizable forms, and reports all in one easy to use system.

07

**Progress Monitoring** - Capture evidence that enables your IEP team to determine whether the student has achieved his or her goals. This includes a customizable graphing tool, reports for guardians, automatic transfer of goals and objectives from linking form and much more.
