Gadsden Educational Technology Conference

GETC 2008

Theme: *"Producing Digital Educators for Today's Learners"*

July 7 - 10, 2008
8 am - 4 pm

♦ **Who**: The Gadsden County Schools' Media and Technology Department invite you to join us for a week of exploring the wonders of integrating technology into the curriculum.

♦ **What**: We have designed Gadsden's educational technology conference to provide instructional personnel with best practices in the use of computer technologies in the classroom. We are planning sessions that will provide you with a wealth of practical skills and serve as a springboard for great ideas for activities, projects, and methods that will benefit not only you, but our students as well.

♦ **When**: The summer conference is a one-week, full-day course for instructional personnel who have an interest in learning about some of the latest computer-related technologies and how to use them to enhance instruction and learning.

♦ Pre-registration through ePDC (PAEC) is required.
   ** **Link located on district/school's home page**

♦ Only full-time instructional personnel who are committed to attending each of the <u>four </u>conference days need apply.

♦ Pre-registration ends June 6th.
   ** **No late pre-registrations will be accepted!**

♦ The conference committee will select participants on June 9th.

♦ Selected participants will be notified by June 13th.
   ** **Notifications will be sent via the Gadsden County's (Novell) email system**

♦ *Conference participation will be by invitation only!*
