Principal/Assistant Principal and Non Classroom Instructional Staff Evaluation Tool

2013-2014

Value Added Model Amendment “A” Approved July 8, 2014. This amendment replaces the VAM calculation process on pages 19-22.

Amended Documentation for Value Added Model Calculation Starting the 2012/13 School Year
I. PERFORMANCE OF STUDENTS ELEMENTS

Student Learning Growth Based on Statewide Assessments Results

Gadsden County School Board Policies, 6.40 and 6.41 (Appendix A), outline procedures for the Assessment of Employees (BP6.40) and Instructional Employee Performance Criteria (BP6.41). In summary, these policies state that the Superintendent shall develop or select a personnel performance assessment system for all staff and that be or his designee shall develop and present, for School Board approval, instructional employee performance criteria and/or measures. Such performance criteria and/or measures shall be consistent with statutory requirements, but may include additional elements as deemed appropriate (Appendix B – SB736). Gadsden’s Board policies are consistent with state statutes and will be revised as relevant subsequent Florida Statutes are developed and/or revised. Florida Statutes informing the Board Policies regarding evaluation and employee performance criteria include but are not limited to F.S. 1001.41, 1008.22, 1008.36, 1012.22, 1012.23, 1012.27, and 1012.34.

The Gadsden County School Leaders/Non-classroom Teacher Evaluation Model proposed in this document is consistent with Florida Principal Leadership Standards (Appendix C), Florida Educator Accomplished Practices (Appendix D), the Gadsden Teacher Evaluation Model (http://www.gcps.k12.fl.us/), statutes governing instructional personnel evaluation (Appendix D - 6A-5.065, Appendix E - 6A-5.030), and the Florida School Leader Assessment (FSLA – Appendix G) model. The focus of the School Leaders/Non-classroom Teacher Evaluation Model is student outcomes and professional practice. State assessment data and the associated state-adopted learning growth model adopted in Rule 6A-6.0411 are used in the evaluation of school leaders and non-classroom teachers, which include academic coaches, guidance counselors, and media specialists.
Regardless of the number of years of data, fifty percent (50%) of school leaders and non-classroom teacher evaluations is based on professional practices and 50% is based on the state-adopted learning growth model. See Table 1 below.

**Confirmation and Procedures for Including Current Year Student Performance Data**

Under the new evaluation process, the 2012/13 school year begins the practice of including the current year of student performance data in school leader/non classroom teacher evaluations.
Percentage of Evaluation Based on Performance of Students

Regardless of the number of years of service as a school leader, academic coach, guidance counselor, or media specialist, 50% of the evaluation is based on student performance and 50% of the evaluation is based on professional practices.

Number of Years of Student Learning Growth Data Applied to Evaluations

As stated previously, under the new evaluation process, the 2012/13 school year begins the practice of including the current year of student performance data in school leader/non classroom teacher evaluations. Year two student performance data component of the evaluation may be the current year student performance data or an average of years one and two, depending on which is higher. Year three student performance data component may be the current year student performance data or an average of years one, two, and three, depending on which is higher. Subsequent years of student performance data component may be the current year student performance data or an average of the three most recent years of student performance data, depending on which is higher. The current year of student performance data is always included as a component of school leaders and non classroom teacher evaluations.

II. INSTRUCTIONAL OR LEADERSHIP PRACTICE ELEMENTS

Research Framework that Supports Student Learning and Effective Instruction

Gadsden County has selected the Florida School Leader Assessment model as the evaluation tool for school leaders. The non-classroom teacher evaluation tool mirrors the FLDOE School Leader Assessment with emphasis on the responsibilities aligned to specific job descriptions. All evaluations are based on research that supports preferred methods and strategies for student
learning and faculty development and are appropriately aligned with the Florida Educator Accomplished Practices (FEAPs), Rule 6A-5.065, F.A.C., or the Florida Principal Leadership Standards (FPLS), Rule 6A-5.080, F.A.C. Evaluation models reflect contemporary research as defined in Florida’s Common Language of Instruction (found on www.fldoe.org/profdev/pa.asp and www.floridaschoolleaders.org) and they reflect research that is aligned with the purpose of the Student Success Act (Section 1012.34 (a), F.S.). Appendix E provides a brief summary of the contributions of research conducted by Danielson, Hattie, Haystead, Marzano, Miller, Reeves, and Robinson to FLDOE evaluation model criteria.

**Observation and Feedback Instrument(s)**

Gadsden has adopted the Florida School Leader Assessment (FSLA) model to evaluate school leaders. FSLA model consists of four (4) domains, ten (10) proficiency areas, and forty-five (45) indicators that are organized into long and short form observation and feedback tools. See Table 2 below.
Table 2: Summary of FSLA Domains

</table>
Rubrics for Distinguishing Among Proficiency Levels in the Practice Elements

The Florida School Leader Assessment (FSLA) is the evaluation model selected by Gadsden County. Consequently, FSLA rubrics are used for distinguishing among proficiency levels. Using these rubrics, school leaders and non classroom teachers are formatively and summatively evaluated as highly effective, effective, needs improvement, or unsatisfactory. Individuals designated as highly effective demonstrate actions relevant to specific indicators that exceed effective levels and constitute models of proficiency for others. Individuals designated as effective demonstrate actions relevant to specific indicators that are sufficient and appropriate reflections of quality work with only normal variations. Individuals designated as needs improvement demonstrate actions relevant to specific indicators that are inconsistent with or of insufficient scope to proficient performance. Individuals designated as unsatisfactory demonstrate actions relevant to specific indicators that are minimal, not occurring, or are having an adverse impact on the learning environment.

Scoring/Weighting System

The FSLA scoring system is used to evaluate school leaders and non classroom teachers. Summative performance is based on 50% leadership practice score and 50% student growth measure score. Using this system, each of the leadership practice domains has the following weights: Domain 1 – 20%, Domain 2 – 40%, Domain 3 – 20%, and Domain 4 – 20%, which accounts for 80% of the leadership practice score. Deliberate practice makes up the remaining 20% of the leadership practice score. The student growth measure score is based on the overall performance school performance score (e.g. principals, assistant principals, counselors) or the overall specific FCAT/EOC performance (e.g. content area coaches and media specialist).
III. PROFESSIONAL AND JOB RESPONSIBILITY ELEMENTS

Professional Responsibility and Ethical Conduct and Behavior Indicators

Professional responsibility and ethical conduct and behavior are covered under Domain 4 indicators of FSLA. Per FSLA, these indicators are based on the FEAPs, Rule 6A-5.065, F.A.C., and FPLS, Rule 6A-5.080, F.A.C. Gadsden County educators are expected to demonstrate personal and professional behavior consistent with quality practices in education. As community leaders, they are expected to stay informed regarding current research in education and to demonstrate their understanding of the research. Gadsden County educators are expected to engage in professional development opportunities that improve personal professional practices and align with the school site and district system-wide strategic student achievement objectives.

Monitoring Administrators Feedback to Instructional Personnel

School leaders and other appropriate staff (e.g. academic coaches) are expected to implement recurring monitoring and feedback processes to ensure priority learning goals are based on FLDOE adopted student academic standards as defined in course descriptions. Indicators for monitoring and timely feedback to instructional personnel on their proficiency are embedded in the FSLA process under Domain 2 and are also a part of the Gadsden County Classroom Teacher Evaluation Model (http://www.gcps.k12.fl.us/). Formal and informal observations outlined in the classroom teacher evaluation model allow leaders and academic coaches to monitor the effectiveness of classroom teachers.

Weighting and Scoring of Indicators on Professional and Job Responsibilities

The Florida School Leaders Assessment (FSLA) model assigns different weights to each of the four domains. Domain 1, Student Achievement, accounts for 20% of the FSLA score. Domain 2, Instructional Leadership, accounts for 40% of the FSLA score. Domain 3, Organizational
Leadership, accounts for 20% of the FSLA score. Domain 4, Professional and Ethical Behaviors, accounts for 20% of the FSLA score.

IV. Summative Evaluation Form(s) and Scoring and Weighting Systems that Define How Student Growth Measures and Proficiency Levels are Calculated and Combined to Obtain a Summative Performance Level

The percentages that each domain contributes to the FSLA score equal 80% of the overall leadership practice score. Deliberate practice accounts for the other 20% of the leadership practice score; and the combined FSLA and deliberate practice scores equate to 50% of the final summative evaluation. The remaining 50% of the summative evaluation is derived from the student growth measure score. See diagram below.
Diagram 1: Percentage Breakdown of Summative Performance Score

Student Growth Measure (50%)

Leadership Practice (50%)

Gains Score (100%)

Deliberate Practice (20%)

Domain 1 (20%)

Domain 2 (40%)

Domain 3 (20%)

Domain 4 (20%)

FSLA (80%) + Deliberate Practice (20%)

*Although the FSLA domains add up to 100%, their total contribution to the Leadership Practice Score is only 80%.

Section VII provides more specific information regarding how to calculate the annual performance score.
V. STATEMENT OF PURPOSE CONSISTENT WITH THE PURPOSE FOR EVALUATION SYSTEMS AS EXPRESSED IN SECTION 1012.34(1)(a),F.S.

The intention of these procedures is to increase student learning growth by improving the quality of instructional, administrative, and supervisory practices. A core belief of Gadsden County Public School District is that public education should provide well-rounded learning experiences that “build a brighter future” for all children. Hence, the rationale driving the Gadsden County Teacher Evaluation Model (GCTEM) and the School Leaders/Non Classroom Teacher Evaluation model is effectively shaping, forming, and improving teacher practices will ensure that students receive high-quality instruction. It is the District’s vision that research-based processes for improving instructional practices, strategic planning, reflection on teaching and professionalism, will increase teacher instructional expertise from year to year. In turn, this will produce sustained gains in student learning.

Student learning outcomes are the foci of the district’s evaluation processes. The instructional and leadership practices that support improving student learning outcomes are grounded in the research of educational leaders such as Robert Marzano, Charlotte Danielson, Douglas Reeves, John Hattie, and Vivian Robinson.

VI. MULTIPLE MEASURES THAT INFORM IMPROVEMENT PROCESSES AND EVALUATION DECISIONS

Multiple measures are used to inform the improvement processes and evaluation decisions. Such measures include but are not limited to evidence presented during evaluation conferences, district formative assessment data, instructional audit data, and individual professional development plans and follow-up. Feedback from parent, student, and teacher surveys and input from relevant
district level administrators also inform appropriate components of the Florida School Leader Assessment.

VII. Performance Levels and the Rubric(s) Used to Differentiate between Performance Levels

School Administrator Performance Evaluation

Gadsden County’s school administrator performance evaluation is based upon the performance of students assigned to their schools [1012.34(3), F.S.] At least 50 percent of a performance evaluation is based upon data indicators of student learning growth assessed annually by statewide assessments or, for subjects and grade levels not measured by statewide assessments, by district assessments as provided in s. 1008.22.

The Deliberate Practice (DP) Score constitutes 20% of the Leadership Practice Score. The Deliberate Practice Score has two to six specific growth targets with progress points. The targets have equal weight upon which the leader’s growth is assessed as Highly Effective, Effective, Needs Improvement, or Unsatisfactory. Tables 3, 4, and 5 summarize how the Deliberate Practice Score is calculated (See Section 2 of the FSLA Scoring Guide).

Table 3: DP Growth Target Rating Rubric

<table>
<thead>
<tr>
<th>Scoring a DP Growth Target</th>
<th>Rating Rubrics</th>
</tr>
</thead>
<tbody>
<tr>
<td>Highly Effective</td>
<td>Target met, all progress points achieved, and verifiable improvement in leaders performance</td>
</tr>
<tr>
<td>Effective</td>
<td>Target met, progress points achieved . . . impact not yet evident</td>
</tr>
<tr>
<td>Needs Improvement</td>
<td>Target not met but some progress points met</td>
</tr>
<tr>
<td>Unsatisfactory</td>
<td>Target not met, nothing beyond 1 progress point</td>
</tr>
</tbody>
</table>
Table 4: Impact of Number of Growth Targets

<table>
<thead>
<tr>
<th>Number of Growth Targets</th>
<th>Maximum Points per Target</th>
<th>Maximum Point Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>Two Targets</td>
<td>150 (300/2)</td>
<td>300 (150 x 2)</td>
</tr>
<tr>
<td>Three Targets</td>
<td>100 (300/3)</td>
<td>300 (100 x 3)</td>
</tr>
<tr>
<td>Four Targets</td>
<td>75 (300/4)</td>
<td>300 (75 x 4)</td>
</tr>
<tr>
<td>Five Targets</td>
<td>60 (300/5)</td>
<td>300 (60 x 5)</td>
</tr>
<tr>
<td>Six Targets</td>
<td>50 (300/6)</td>
<td>300 (50 x 6)</td>
</tr>
</tbody>
</table>

* A DP Score has an upper limit of 300 points with each target having an equal proportion of the total points. Therefore the points for each target will vary based on the number of targets.

Table 5: Target Values Based on Ratings

</tr>
<tr>
<td>U</td>
<td>.0 if 1 progress stage</td>
<td>0</td>
<td>0</td>
<td>0</td>
<td>0</td>
<td>0</td>
</tr>
</tbody>
</table>

* The target values are based on Rating (HE, E, NI, or U) and the Number of Growth Targets.

Tables 6 and 7 provide an example for calculating a Deliberate Practice Score (See Section 2 of the FSLA Scoring Guide).

Table 6: DP Points Based on Three Targets

<table>
<thead>
<tr>
<th>DP Target</th>
<th>Rating</th>
<th>Points (based on Table 11)</th>
</tr>
</thead>
<tbody>
<tr>
<td>DP Target 1</td>
<td>HE</td>
<td>100</td>
</tr>
<tr>
<td>DP Target 2</td>
<td>E</td>
<td>80</td>
</tr>
<tr>
<td>DP Target 3</td>
<td>NI</td>
<td>50</td>
</tr>
<tr>
<td>DP Score</td>
<td></td>
<td>230</td>
</tr>
</tbody>
</table>

*Points available vary based on the total number of growth targets. See Table 11.

Table 7: DP Score Range

<table>
<thead>
<tr>
<th>DP Score Range</th>
<th>DP Rating</th>
</tr>
</thead>
<tbody>
<tr>
<td>240-300</td>
<td>Highly Effective</td>
</tr>
<tr>
<td>161-239</td>
<td>Effective</td>
</tr>
<tr>
<td>41-160</td>
<td>Needs Improvement</td>
</tr>
<tr>
<td>0-40</td>
<td>Unsatisfactory</td>
</tr>
</tbody>
</table>

Based on the above example from FLDOE Scoring Guide, a Deliberate Practice Score of 230 equates to an Effective leader. The DP score is then calculated to represent 20% of the Leadership Practice Score, which is 50% of the overall evaluation.
Calculating the VAM – Value Added Model (See Amendment A for This Section)

The Gadsden County evaluation model calculates the 50% student growth portion of the principal’s evaluation by averaging the (1) percent of learning gains in reading, (2) percent of the lowest 25% learning gains in reading, (3) percent of learning gains in math, (4) percent of the lowest 25% learning gains in math (Table 8).

Table 8: Value Added Calculations for Administrators

<table>
<thead>
<tr>
<th>Column 1</th>
<th>Column 3</th>
<th>Column 3</th>
<th>Column 4</th>
<th>Average of Columns 1-4</th>
</tr>
</thead>
<tbody>
<tr>
<td>Reading Learning Gains</td>
<td>Lowest 25% Reading Learning Gains</td>
<td>Math Learning Gains</td>
<td>Lowest 25% Math Learning Gains</td>
<td>Columns 1+2+3+4/4=Average</td>
</tr>
<tr>
<td>58%</td>
<td>88%</td>
<td>67%</td>
<td>48%</td>
<td>65.25%</td>
</tr>
</tbody>
</table>

**Step 1:** An administrator is given one point for each percentage point earned in learning gains (Columns 1-4). The points from each column are added together—58+88+67+48= 261 points.

**Step 2:** The total percentage points from the four categories (Columns 1-4) is divided by 4: 261/4= 65.25%.

**Step 3:** The averaged percent/point value is translated into a range of scores with pre-determined labels for corresponding levels of performance (Tables 9, 10).

</tbody>
</table>

Following the state model for calculating annual performance levels, Gadsden utilizes a four step process.

Step 1: Enter Leadership Practice Score range from the VAM – Value Added Model (Student Growth Measurement) cut scores (Table 11).
Table 11: Value Added Model Performance Levels/300 Point Scale

<table>
<thead>
<tr>
<th>Performance Score Ranges</th>
<th>Performing Level Rating</th>
</tr>
</thead>
<tbody>
<tr>
<td>Above 239</td>
<td>Highly Effective</td>
</tr>
<tr>
<td>151-239</td>
<td>Effective</td>
</tr>
<tr>
<td>75-150</td>
<td>Needs Improvement</td>
</tr>
<tr>
<td>0-74</td>
<td>Unsatisfactory</td>
</tr>
</tbody>
</table>

Step 2: Add VAM-Value Add Model (Student Growth Measure) Score

Step 3: Translate the total score (leadership practice score and VAM score) into a range of scores with pre-determined labels for corresponding levels of performance (Table 12).

Table 12: Final Performance Score Ranges/Ratings: 600 Point Scale

<table>
<thead>
<tr>
<th>Performance Score Ranges</th>
<th>Performance Rating</th>
</tr>
</thead>
<tbody>
<tr>
<td>480-600</td>
<td>Highly Effective</td>
</tr>
<tr>
<td>301-479</td>
<td>Effective</td>
</tr>
<tr>
<td>150-300</td>
<td>Needs Improvement</td>
</tr>
<tr>
<td>0 to 149</td>
<td>Unsatisfactory</td>
</tr>
</tbody>
</table>

Step 4: Enter the rating on the evaluation form.

To illustrate how the final score is calculated, a 50% Leadership Practice score and a 50% VAM scenario with the Leadership Practice Score being equivalent to 239 and the VAM score being equivalent to 225 (62.5% of students making learning gains – see Table 13) provides a good example. Using this example, the steps for calculating the final score are listed below:

1) The leadership practice score of 239 and the VAM score of 225 will be added together for the final rating: 239 + 225 = 464.

Table 13: Performance Score Ranges/Ratings: 600 Point Scale

<table>
<thead>
<tr>
<th>Performance Score Ranges</th>
<th>Performance Rating</th>
</tr>
</thead>
<tbody>
<tr>
<td>480-600</td>
<td>Highly Effective</td>
</tr>
<tr>
<td>301-479</td>
<td>Effective</td>
</tr>
<tr>
<td>150-300</td>
<td>Needs Improvement</td>
</tr>
<tr>
<td>0 to 149</td>
<td>Unsatisfactory</td>
</tr>
</tbody>
</table>

2) A score of 464 is equivalent to an overall evaluation rating of **Effective**.
VIII. INPUT MECHANISMS

Identification of Supervisory Personnel Performing Evaluations

School leaders and non classroom teachers are evaluated by the Superintendent or his designee as their immediate supervisor.

Parent Input

Annual parent surveys may be used to inform relevant components of school leaders’ and non classroom teachers’ leadership practice scores. Parent feedback and complaints that are submitted to district leadership also inform the leadership practice score.

Faculty Input

Annual faculty surveys may be used to inform relevant components of school leaders’ and non classroom teachers’ leadership practice scores. Faculty feedback and complaints that are submitted to district leadership also inform the leadership practice score.

Identification of any Persons Other than Parents, or Instructional Personnel with Input to the Evaluation

Annual student surveys may be used to inform relevant components of school leaders’ and non classroom teachers’ leadership practice scores. Feedback from district level administrators may also inform the leadership practice score.

Description of Use of a Peer Assistance Process Where Used in the Evaluation Process

Beginning and struggling school leaders and non classroom teachers are provided qualified peer mentors and relevant professional development to improve their professional practices. Individuals designated as a peer mentor are required to hold a certification in school leadership and a minimum of three years of effective performance as a school leader or the appropriate non classroom teacher category.
IX. TRAINING

Systemic Processes of Providing Information on What Administrators Should Know and Be Able to Do Based on Evaluation System

All employees subject to an evaluation are annually trained on evaluation criteria and processes. All individuals with evaluation responsibilities and those who provide input toward evaluations are annually trained on the proper use of the evaluation tool, criteria, and procedures. Such trainings occur no later than the end of the first thirty days of the school year and/or employment and may include site, district, regional (e.g. PAEC) or state level training opportunities.

Systemic Processes for Providing Initial Training and Continuously Improving the Capacities of Workforce and Evaluators

To facilitate understanding and implementation of the performance expectations in evaluation system indicators, systematic processes to provide initial training and continuously improve the capacities of school leaders and teachers have been developed. Florida’s common language for instruction found at www.fldoe.org/profdev/pa.asp informs the training processes identified in Table 14.

### District Process for Providing Training Programs that are Based Upon Guidelines Provided by the Department to Ensure that All Individuals with Evaluation Responsibilities Understand the Proper Use of the Evaluation Criteria and Procedures

In order to ensure that all individuals with evaluation responsibilities understand the proper use of evaluation criteria and procedures, training programs are based upon the guidelines provided by FLDOE. Training programs include the following elements:

- Philosophy, research, and statutes that constitute the foundation of evaluation tools and procedures.
- Assessment components such as timelines, domains, and indicators.
- Conference protocols.
- Documentation tools and processes.
- Assistance and intervention procedures.
- Scoring rubrics and processes.
- Record keeping.
X. CONTINUOUS IMPROVEMENT AND PROFESSIONAL DEVELOPMENT

Use of Performance Evaluation Results to Develop District/School Level Improvement Plans

The district and school improvement plans are developed through needs assessment of data: student performance data, instructional personnel evaluation data and principal evaluation data. Results of personnel evaluations will be used to determine professional learning needs of the district, school, and individual. School improvement plans will consider student performance achievement and the strengths and needs of personnel in the development of action plans, with improved student performance being the guiding goal.

Continuous Quality Improvement of Professional Skills of Instructional Personnel and School Administrators

Continuous improvement and professional growth are the guiding philosophy of Gadsden County Public School District evaluation systems. Feedback to personnel and professional conversations between all stakeholders are critical to professional growth and the continuous improvement professional learning communities. District evaluation systems, student achievement data, school improvement plans, and district-wide strategic plans all inform the district’s professional development plan in ways that lead to continuous quality improvement of instructional and leadership personnel professional skills.

Through the evaluation process, school leaders are provided with timely feedback to support improvement of professional skills needed for effective job performance. Evaluators gather data on specific elements of the Florida School Leader Assessment (FLSA), using rubrics to guide reflective feedback. Feedback is used to improve the quality of future actions or depth of understanding on performance expectations.
The procedures for providing school leaders with feedback that supports improvement in performance are as follows:

- During Step 1, or the Orientation, each school leader engages in personal reflection on the connection between his/her practice, the FPLS, and indicators on the FLSA. This may be completed on the Florida School Leaders Principal Leadership Standards Inventory, when revision to the revised FPLS is completed. Pre-evaluation planning includes the use of the self-assessment and other data or evidence that supports an issue as an improvement priority (e.g. School Improvement Plan, student achievement data, prior evaluations, and evidence of systemic processes that need work). At the Initial Meeting, the school leader and evaluator meet to discuss expectations. The evaluator uses data to provide feedback on strengths and growth needs for the leader to consider in development of the Individual Leadership Development Plan (ILDP).

- A Mid-year Progress Review is held between the school leader and observer. During this review the school leader is prepared to provide a general overview of actions/processes that apply to domains and proficiency indicators. Strengths and progress are recognized and priority growth needs are recognized. The FSLA Feedback and Protocol Form is used to provide feedback on all indicators for which there is sufficient evidence to rate proficiency. Any indicators which the evaluator has identified for a specific status update are reviewed and more specific feedback is provided. Throughout the year, as evidence and observations are obtained that generate specific and actionable feedback, it is provided in a timely manner through face-to-face contact, FSLA feedback forms, email or telephone, or memoranda.
• A year-end meeting is held between the school leader and evaluator in which the FSLA score is explained, and growth on specific targets is reviewed. Priority growth issues that are identified as a result of the FSLA score and that should be considered as a part of the next year’s Individual Leadership Development Plan/Deliberate Practice are reviewed.

The Deliberate Practice Growth Target form, as part of the state model, is used for the Individual Leadership Development Plan. As the Florida School Leaders William Cecil Golden Leadership Development Program Individual Leadership Development Plan process is revised to reflect the Florida Leadership Standards and contains the framework of Deliberate Practice, the Individual Professional Leadership Plan on this resource will be utilized.

The district monitors the implementation of these processes through documentation of signatures on the Individual Leadership Development Plan and on the Mid-Year Review Form by the school leader and evaluator, and through documentation of the collection of evidence and feedback. This documentation may be compiled in a portfolio by the school leader.

The criteria for assessing the impact of professional development include analysis of evaluation results and student growth results. Professional learning for school leaders is developed with district and individual needs as they relate to the Florida Leadership Standards and proficiency areas and indicators of the FSLA. Analysis of specific professional development activities that relate to specific proficiencies and indicators are done to assess the impact on leadership proficiency and to determine if targets were obtained. District-level staff uses data from evaluation results, student performance, and the school improvement plan to assess impact and compile a comparison report. This data is used to plan for future professional learning activities.
Use of Performance Evaluation Results to Develop Professional Development Plans

The district uses approved performance evaluation instruments to identify professional development needs of district educators, which also include school leaders. The district leadership evaluation process is based upon the Florida Staff Development Protocol Standards and utilizes elements from the Florida Principal Leadership Standards, student performance data and other relevant data. Results from summative evaluations are analyzed to identify professional development needs and Individual Leadership Plan may be developed to target identified needs.

At the District level, in planning the content for professional development activities system-wide, the following non-exhaustive list of things may be included but not limited to:

- District wide student performance data
- District grade and ranking
- District wide graduation rate
- District Improvement and Assistance Plan
- District Master Inservice Plan
- District Strategic Plan
- Florida Principal Leadership Standards

At the school level, in planning the content for professional development activities system-wide, the following non-exhaustive list of content may be included but not limited to:

- Research proven instructional strategies
- Core content curriculum
- Graduation rates
- Promotion rates
- Learning gains
- Performance of disaggregated sub-groups
- Participation in accelerated courses
- School grade
- School Improvement Plan
- Summative teacher evaluation results
At the educator level, in planning the content for professional development activities system-wide, the following additional non-exhaustive list of professional development content may be included but not limited to:

- Summative teacher evaluation results
- School-wide VAM score
- Self-assessment
- Identified priority growth issues

**Coordination of Evaluations, School Improvement and Professional Development Planning, Data Collection and Analysis, and Impact Monitoring**

The District uses data from the evaluation systems, School Improvement Plans, professional development activities, and other relevant data sources to evaluate their impact on student achievement. An analysis of this data and other relevant information is used to assist in the development of the District Improvement Plan and to develop educators’ professional learning activities.

**Evaluation System Feedback and Continuous Improvement Processes**

Using student data and evaluation results from the previous year to develop goals and objectives for professional development and improve student achievement for the current school year, Leadership Professional Development Plans (LPDP) are created during the first four weeks of the school year. LPDPs are discussed and decided upon by the administrator and their supervisor. This collaboration determines the amount of professional development that is needed to assist the administrator in improving their professional practice. If a growth area is identified at anytime during the school year, the evaluator and the administrator establish formal and informal conferences to clarify expectations, discuss and identify support strategies, and to establish benchmarks for improvement. The purpose of this type of feedback and continuous improvement process is to ensure that growth areas are promptly identified and administrators are supported in
ways that result in the continued and/or improved academic achievement of all students. Annual trainings have been established to ensure all district evaluation systems are effectively implemented.

**Monitoring and Evaluating the Evaluation System**

As required in 1012.34(2)(h) and subsection (6) of this rule, processes are established for monitoring and evaluating the effectiveness of district evaluation systems. Respective evaluation committees will annually review evaluation systems. Annual reviews will consider recommendations from relevant stakeholders (e.g. evaluators, individuals evaluated, district administrators, negotiation teams, legislative changes, etc.) to revise evaluation systems as needed. Revisions to district evaluation models are to be submitted to appropriate Florida Department of Education (FLDOE) personnel by FLDOE specified deadlines (e.g. May 1 for 2012 revisions to teacher evaluation models). Revisions to evaluation models are disallowed without appropriate district and FLDOE approval.

All school leader, non classroom teacher, and classroom teacher evaluations are completed no later than two weeks after the receipt of school performance data. District administrators designated by the Superintendent (e.g. Assistant Superintendent, Personnel Director, K12 Director, etc.) monitor the timely completion of evaluation per the timelines outlined in each model. District administrators designated by the Superintendent also monitor the personnel file documentation of all district evaluations. See Table 15 for the FSLA Seven Step Timeline.

XI. ANNUAL EVALUATION

School leaders and non classroom teachers are evaluated annually. Should areas of improvement become apparent, it is the evaluator’s responsibility to initiate a conference cycle that results in increased monitoring, collaborative development of training and support strategies, revisions of individual professional plans, and peer assistance where appropriate.

XII. REPORTING PROCESSES THAT MEET THE REQUIREMENTS OF SUBSECTION (7) OF THIS RULE

All Florida Department of Education approved district evaluation documents are posted at [http://www.gcps.k12.fl.us/](http://www.gcps.k12.fl.us/). This website posting provides access to approved evaluation components, including the FSLA evaluation model and the district narrative documenting compliance with FLDOE Review and Approval Checklist for Instructional Personnel and School Administrator Evaluation Systems.
Annual reports regarding the status of the district evaluation system implementation are provided to the Superintendent and Governing School Board. These reports will entail an analysis of evaluation systems’ data as it relates to 1) school leader/teacher performance and student achievement data at each school site; 2) targeted professional development needs; 3) focus of district resources including personnel and monetary; 4) revision of evaluation models; and 5) revision of key district plans that directly or indirectly impact student achievement (e.g. District Improvement Plan, District Professional Development, and District Strategic Plan).

**XIII. SPECIAL PROCEDURES**

Special evaluation procedures and criteria are necessary for the non classroom teacher positions which include academic coaches, guidance counselors, and media specialists. These instructional positions consist of individuals classified as classroom teachers but whose job description does not involve a substantial amount of direct classroom instruction nor does the level of instructional leadership rise to the level of a school leader such as a school principal or an assistant principal. Academic coaches, guidance counselors, and media specialists are subject to the criteria established under SB736 and therefore, their evaluation processes are appropriately aligned with the Florida Educator Accomplished Practices (FEAPs), Rule 6A-5.065, F.A.C., or the Florida Principal Leadership Standards (FPLS), Rule 6A-5.080, F.A.C. The evaluation models for these instructional categories also reflect contemporary research as defined in Florida’s Common Language of Instruction (found on [www.fldoe.org/profdev/pa.asp](http://www.fldoe.org/profdev/pa.asp) and [www.floridaschoolleaders.org](http://www.floridaschoolleaders.org)) and they reflect research that is aligned with the purpose of the Student Success Act (Section 1012.34 (a), F.S.). Although each evaluation model contains its specific four domains, proficiencies, and indicators based on the current performance appraisal; per
SB736 and RTTT requirements, each evaluation tool will have the following evaluation performance levels:

- Highly Effective – performance exceeds the criteria
- Effective – performance meets the criteria
- Needs Improvement – performance requires additional attention to assure an accepted level of proficiency
- Unsatisfactory – performance does not meet the criteria established.

**Guidance Counselor**

The foundation of services provided by Gadsden’s guidance and counseling services is the belief that “counseling and guidance promotes readiness for student achievement” (Florida’s School Counseling and Guidance Framework - [http://www.fldoe.org/workforce/programs/cd_guide.asp](http://www.fldoe.org/workforce/programs/cd_guide.asp)). Effective comprehensive guidance and counseling programs consist of strategies that address readiness for student achievement by focusing on readiness to learn, learning in the curriculum, and measures of student achievement. In this context, the job goal of Gadsden’s guidance counselors is to provide students with educational, personal and vocational counseling and to identify and coordinate all available resources to empower students to reach their full potential.

As with the school leaders’ evaluation tool, the Gadsden’s Guidance Counselor Evaluation tool consists of four domains: Domain 1 - Student Achievement, Domain 2 - Instructional Support, Domain 3 - Organizational Leadership, and Domain 4 - Professional and Ethical Behaviors. Table 16 summarizes how the Guidance Counselor evaluation domains are organized into the following proficiency and indicators.
<table>
<thead>
<tr>
<th>Domain</th>
<th>Proficiency Areas</th>
<th>Indicators</th>
</tr>
</thead>
<tbody>
<tr>
<td>Domain 1: Student Achievement (20%)</td>

</tr>
</tbody>
</table>
The above domains, proficiency areas, and indicators constitute the Gadsden Guidance Counselor Assessment (GGCA) score and 80% of the Guidance Professional Practice score. As with the Florida School Leaders Assessment (FSLA) model, guidance counselors are assigned a Deliberate Practice (DP) score (calculated the same as the FSLA model, which represents 20% of the Guidance Professional Practice score. Guidance counselors’ Student Growth Measure score is also calculated using the same methodology of school leaders in the FSLA model. Diagram 2 summarizes the Gadsden Guidance Counselor Assessment Model scoring categories.

See section VII for more specific information regarding the cut scores and calculation of the overall evaluation.

**Media Specialist**

The core belief of GCPSD is that public education should provide well-rounded learning experiences for all children. Thus, the rationale driving the Gadsden County Library Media Specialist Evaluation Model is to shape, form, and improve library media practices to ensure that students and staff are provided access to highly effective library media programs that ensure that students become effective users of ideas and information.
Following the three core principles of the Florida Educator Accomplished Practices, Gadsden County School District library media specialists create a culture of high expectations for all students by promoting the importance of education and each student’s capacity for academic achievement. Library media specialists will use their skills to design and align library media curricula to the State and Common Core Standards. Media specialists are responsible for planning, organizing, and administering a highly effective library media program and for supporting school-wide efforts to improve reading proficiency. Consequently, the Media Specialists Growth Measure Score is based on school-wide reading gains.

As with the school leaders’ evaluation tool, the Gadsden’s Media Specialists Evaluation tool consists of four domains: Domain 1 - Student Achievement, Domain 2 - Instructional Support, Domain 3 - Organizational Leadership, and Domain 4 - Professional and Ethical Behaviors. Table 17 summarizes how the Media Specialists’ evaluation domains are organized into the following proficiency and indicators.
Table 17: Summary of Media Specialist Evaluation Domains

The above domains, proficiency areas, and indicators constitute the Gadsden Media Specialists Assessment (GMSA) score and 80% of the Media Specialists Professional Practice score. As with the Florida School Leaders Assessment (FSLA) model, media specialists are assigned a Deliberate Practice (DP) score (calculated the same as the FSLA model, which represents 20% of the Media Specialists Practice score. Media Specialists’ Student Growth Measure score is also calculated using the same methodology of school leaders in the FSLA model. Diagram 3 summarizes the Gadsden Media Specialists’ Assessment Model scoring categories.

Academic Coach

The core belief of Gadsden County Public School District is that public education should provide well-rounded learning experiences for all children. Consequently, the rationale driving the Gadsden County Academic Coach Evaluation Model is to improve and sustain student achievement by promoting a culture for learning to include all stakeholders, by enhancing and refining instruction and intervention, providing targeted instructional coaching using the gradual release model, and building capacity for instructional practices across the curriculum.
Research indicates that coaches are effective when their role is clearly defined as primarily working with teachers to provide embedded professional development, when that role is supported by the administration of the school and ongoing professional development pertaining to the role of the coach, and the coach carries out the responsibilities with expertise. The coach is a stable resource for Professional Development throughout the school to generate improvement in all content areas thus impacting student achievement.

Gadsden has three categories of academic coaches: reading, mathematics, and science. The job goals of academic coaches include but are not limited to the following:

- Providing expertise and support in the planning, implementation, and evaluation of assigned curricula, program, or service areas in accordance with the District’s philosophy, goals, and objectives.
- Assisting teachers by modeling best practices and/or lessons.
- Assisting teachers with the implementation of grants and school site or district plan requirements (e.g. District Reading Plan, District Improvement Plan, School Improvement Plan, etc.).
- Assisting teachers with the implementation of new curricula.
- Providing staff development and resources to teachers.
- Evaluating students’ formative and summative performance data.
- Facilitating the development and implementation of instructional calendars.
- Facilitating the development of intervention and support programs for students.

As with the school leaders’ evaluation tool, the Gadsden’s Academic Coaches Evaluation tool consists of the four domains: Domain 1 - Student Achievement, Domain 2 - Instructional Support, Domain 3 - Organizational Leadership, and Domain 4 - Professional and Ethical
Behaviors. Table 18 summarizes how the Academic Coaches evaluation domains are organized into the following proficiency and indicators.

APPENDIX A

CHAPTER 6.00 – HUMAN RESOURCES

ASSESSMENT OF EMPLOYEES

Pursuant to Senate Bill 736 the Superintendent shall develop or select personnel performance assessment systems for all staff.

Each member of the staff shall receive an annual evaluation by his immediate administrative supervisor. The purpose of the evaluation shall be to improve the services of personnel in all departments. The administrative supervisors and department heads shall use the evaluation form provided by the Superintendent.

(1) A copy of each employee’s evaluation report shall be filed in the District Personnel office.

(2) The assessment of all employees shall be based on observations of the individual’s work by his/her immediate supervisor and shall be made at least once each year prior to re-appointment.

(3) The Superintendent shall arrange for the assessment of all principals, supervisors and administrative personnel as required by law.

- Differentiation among four levels of performance – (1) highly effective, (2) effective, (3) needs improvement/developing, and (4) unsatisfactory.

- At least 50% of the evaluation will be based on student learning growth assessed annually and measured by statewide assessments or for subjects not measured by statewide assessments, by district assessments in s.1008.22(8), F.S.

- The student learning growth portion of the evaluation for administrators will include growth data for students assigned to the school over the course of at least three years. If less than three years of data are available, the years for which data are available will be used and the percentage of the evaluation based upon student learning growth will be reduced to not less than 40 percent.

(4) The principal and/or administrator supervising personnel shall arrange for the assessment of all employees under his supervision as required by law.

- Differentiation among four levels of performance – (1) highly effective, (2) effective, (3) needs improvement/developing, and (4) unsatisfactory.

- At least 50% of the evaluation will be based on student learning growth assessed annually and measured by statewide assessments or for subjects not measured by statewide assessments, by district assessments in s.1008.22(8), F.S.
The student learning growth portion of the evaluation for classroom teachers will include growth data for students assigned to them over the course of at least three years. If less than three years of data are available, the years for which data are available will be used and the percentage of the evaluation based upon student learning growth will be reduced to not less than 40 percent.

Statewide assessment data for three years of students assigned to instructional non-classroom personnel will account for 30 percent of these individuals’ evaluation provided three years of data are available; and 20 percent of the evaluation if less than three years of data is available. Other measurable student outcomes and professional practices will account for the remainder of non-classroom personnel evaluations.

(5) Prior to preparing the written report of the assessment, the individual being assessed shall be informed as to the criteria and the procedure to be used.

(6) The written report of the assessment shall be reviewed with the employee and discussed with him/her by the person who made the assessment.

(7) An employee may respond to an assessment in the manner provided by law or other approved procedures.

STATUTORY AUTHORITY: 1001.41, 1012.22, 1012.23, F. S.

LAWS IMPLEMENTED: 1001.43, 1008.36, 1012.22, 1012.27, 1012.34, F. S.

HISTORY: ADOPTED: REVISION DATE(S): 9/15/02 FORMERLY: 4.120; 5.105
APPENDIX B

THE FLORIDA SENATE
2011 SUMMARY OF LEGISLATION PASSED

Committee on Education Pre-K – 12

CS/CS/SB 736 — Educational Personnel
by Budget Committee; Education Pre-K-12 Committee; and Senators Wise, Lynn, Gaetz, and Hays

This bill (Chapter 2011-1, L.O.F.) revises the evaluation, compensation, and employment practices for classroom teachers, other instructional personnel, and school administrators to refocus the education system on what is best for students. The bill aligns with Florida’s successful Race to the Top application to which 62 of the 67 school districts and 53 local unions have supported and agreed to implement.

Performance Evaluations

The current evaluation system for classroom teachers, other instructional personnel, and school administrators relies on a completely subjective review and does not sufficiently, if at all, take the performance of students into consideration in determining the effectiveness of instructional staff and school leaders. The bill revises the evaluation system to focus on student performance. For instructional personnel who are not classroom teachers, a school district may include specific job-performance expectations related to student support and use growth data and other measurable student outcomes specific to the individual’s assignment, as long as the growth accounts for at least 30 percent of the evaluation.

Performance of Students

The bill reinforces Race to the Top, which requires 50 percent of the evaluation for classroom teachers and other instructional personnel to be based on student performance for students assigned to them over a 3-year period. The bill specifies that 50 percent of a school administrator’s evaluation is based upon the performance of the students assigned to the school over a 3-year period.

If less than 3 years of student growth data is available for an evaluation, the district must include the years for which data is available and may reduce the percentage of the evaluation based on student growth to not less than 40 percent for classroom teachers and school administrators and not less than 20 percent for other instructional personnel.

Learning Growth Model

The Commissioner of Education would establish a learning growth model for the Florida Comprehensive Assessment (FCAT) and other statewide assessments to measure the effectiveness of a classroom teacher or school administrator based on what a student learns. The model would use the student’s prior performance, while considering factors that may be outside a teacher’s control, such as a student’s attendance, disability, or English language proficiency.
However, the model may not take into consideration a student’s gender, race, ethnicity, or socioeconomic status.

School districts are required to measure student learning growth based on the performance of students on the state-required assessments for classroom teachers, other instructional personnel, and school administrator evaluations. School districts would be required to use the state’s learning growth model for FCAT-related courses beginning in the 2011-2012 school year. School districts must use comparable measures of student growth for other grades and subjects with the department’s assistance, if needed. Additionally, districts would be permitted to request alternatives to the growth measure if justified.

**Evaluation Criteria**

The remainder of a classroom teacher’s evaluation is based on instructional practice and professional responsibilities. School districts may use peer review as part of the evaluation. The evaluation system must differentiate among four levels: highly effective; effective; needs improvement or, for instructional personnel in the first three years of employment who need improvement, developing; and unsatisfactory. The Commissioner of Education would be required to consult with instructional personnel, school administrators, education stakeholders, and experts in developing the performance levels for the evaluation system.

For instructional personnel who are not classroom teachers, the remainder of the evaluation would consist of instructional practice and professional responsibilities, and may include specific job expectations related to student support.

The remainder of a school administrator’s evaluation would include the recruitment and retention of effective or highly effective teachers, improvement in the percentage of classroom teachers evaluated at the effective or highly effective level, other leadership practices that result in improved student outcomes, and professional responsibilities.

School districts, beginning with the 2014-2015 school year, must administer local assessments that are aligned to the standards and measure student mastery of the content. The school district can use statewide assessments, other standardized assessments, industry certification examinations, or district-developed or selected end-of-course assessments.

Until July 1, 2015, a district that has not implemented an assessment for a course or has not adopted a comparable measure of student growth may use two alternative growth measures to determine a classroom teacher’s student performance: student growth on statewide assessments or measurable learning targets in the school improvement plan. Additionally, a district school superintendent may assign to an instructional team, the student learning growth of the team’s students on statewide assessments.

The bill requires newly hired teachers to be evaluated at least twice in the first year of teaching.
**Performance Pay**

The current salary system is divorced from the effectiveness of the classroom teacher, other instructional personnel, or school administrators. Instead, salary decisions are made on the basis of longevity. The bill comports with Race to the Top by tying the most significant gains in salary to effectiveness demonstrated under the evaluation.

Beginning with instructional personnel or school administrators hired on or after July 1, 2014, the evaluation will determine an individual’s eligibility for a salary increase. The salaries of quality teachers, other instructional personnel, and school administrators would grow more quickly, while those of poor performing employees would not.

The new salary schedule would require a base salary schedule for classroom teachers, other instructional personnel, and school administrators with the following salary increases:

- An employee who is highly effective, as determined by his or her evaluation, would receive a salary increase that must be greater than the highest annual salary adjustment available to that individual through any other salary schedule adopted by the school district.
- An employee who is effective, as determined by his or her evaluation, would receive a salary increase between 50 and 75 percent of the annual salary increase provided to a highly effective employee.
- An employee under any other performance rating would not be eligible for a salary increase.

Current instructional personnel and school administrators could remain on their existing salary schedule, as long as they remain employed by the school district or have an authorized leave of absence. They may also opt to participate in the new performance salary schedule, but the option is irrevocable. Current instructional personnel who want to move to the new performance salary schedule would relinquish their professional service contract.

The bill is consistent with Race to the Top by requiring school districts to provide opportunities for instructional personnel and school administrators to earn additional salary supplements for assignment to a high priority location (e.g., an eligible Title I school or low-performing school), certification and teaching in critical teacher shortage areas, or assignment of additional academic responsibilities.

Beginning with instructional personnel hired on or after July 1, 2011, a district school board may not use advanced degrees in setting the salary schedule unless the advanced degree is held in the individual’s areas of certification.

When budget constraints limit a school board’s ability to fully fund all adopted salary schedules, the bill prohibits the school board from disproportionately reducing performance pay schedules.
Employment

The current system requires school districts to award tenure to a teacher after as little as three years of teaching. This employment is automatically renewed unless the teacher is “charged” with unsatisfactory performance. It takes two or more years to terminate an ineffective teacher. Tenure protects ineffective instructional personnel at the expense of students. The bill furthers the goals of Race to the Top by basing employment decisions on the evaluation of instructional personnel.

The bill eliminates tenure with the exception for those instructional personnel who already possess a professional service contract or continuing contract. Instead, instructional personnel without tenure would be employed on an annual contract, subject to renewal by the district school board. This provision is designed to give school districts greater flexibility in meeting student instructional needs by retaining effective employees and quickly removing poor performing employees.

The probationary contract is extended from 97 days to one year. An employee on a probationary contract may resign or be dismissed without creating a breach of the contract.

Upon successful completion of a probationary contract, a classroom teacher may receive an annual contract. This includes instructional personnel who move from another state or district. Instructional personnel may receive an annual contract if he or she:

- Holds a temporary or professional certificate as prescribed by s. 1012.56, F.S., and State Board of Education rules; and
- Is recommended by the superintendent for the contract and approved by the district school board.

A school district may renew an annual contract; however, a district would be prohibited from renewing an annual contract if the individual receives:

- Two consecutive unsatisfactory evaluations;
- Two unsatisfactory evaluations within a 3-year period; or
- Three consecutive needs improvement or a combination of unsatisfactory and needs improvement evaluations.

Instructional personnel with an annual contract may be suspended or dismissed for just cause. If charges against an employee are not sustained, he or she would be immediately reinstated with back pay.

Instructional personnel who are currently on professional service or continuing contracts would retain their status unless the individual receives two consecutive unsatisfactory evaluations, two unsatisfactory evaluations within a 3-year period, or three consecutive needs improvement evaluations or a combination of unsatisfactory and needs improvement evaluations. In that situation, a school district is not required to automatically renew the professional service contract.
or continuing contract. Likewise, the above evaluation results would constitute just cause for terminating a professional service or continuing contract.

Performance evaluation results would also be used in making decisions related to the transfer and placement of employees and workforce reductions. Specifically, the bill repeals last in first out (LIFO) policies that base retention decisions on seniority. Instead, the individual’s evaluation will inform the school district’s retention decisions.

Finally, each school district must annually report to the parent of a student who is assigned to a classroom teacher or school administrator with two consecutive unsatisfactory evaluations, two unsatisfactory evaluations within a 3-year period, or three consecutive needs improvement or a combination of unsatisfactory or needs improvement.

Other

The bill holds charter schools to the same standard as other public schools with respect to performance evaluations for instructional personnel and school administrators, assessments, performance pay and salary schedules, and workforce reductions.

For school districts that received an exemption under Race to the Top, the bill grants an annual renewable exemption to the requirements for performance pay and the weight given to student growth in performance evaluations, provided specific criteria are met. The exemption sunsets August 1, 2017, unless reenacted by the Legislature.

In conformance with the bill’s new contracting provisions, the bill repeals certain special laws or general laws of local application regarding contracting provisions for instructional personnel and school administrators in public schools.

These provisions were approved by the Governor and take effect July 1, 2011, except as otherwise provided.

Vote: Senate 26-12; House 80-39
APPENDIX C

Florida Principal Leadership Standards

Purpose and Structure of the Standards

Purpose: The Standards are set forth in rule as Florida’s core expectations for effective school administrators. The Standards are based on contemporary research on multi-dimensional school leadership, and represent skill sets and knowledge bases needed in effective schools. The Standards form the foundation for school leader personnel evaluations and professional development systems, school leadership preparation programs, and educator certification requirements.

Structure. There are ten Standards grouped into categories, which can be considered domains of effective leadership. Each Standard has a title and includes, as necessary, descriptors that further clarify or define the Standard, so that the Standards may be developed further into leadership curricula and proficiency assessments in fulfillment of their purposes.

Domain 1: Student Achievement:

Standard 1: Student Learning Results.
Effective school leaders achieve results on the school’s student learning goals.

a. The school’s learning goals are based on the state’s adopted student academic standards and the district’s adopted curricula; and
b. Student learning results are evidenced by the student performance and growth on statewide assessments; district-determined assessments that are implemented by the district under Section 1008.22, F.S.; international assessments; and other indicators of student success adopted by the district and state.

Standard 2: Student Learning as a Priority.
Effective school leaders demonstrate that student learning is their top priority through leadership actions that build and support a learning organization focused on student success. The leader:

a. Enables faculty and staff to work as a system focused on student learning;
b. Maintains a school climate that supports student engagement in learning;
c. Generates high expectations for learning growth by all students; and
 d. Engages faculty and staff in efforts to close learning performance gaps among student subgroups within the school.

Domain 2: Instructional Leadership:

Standard 3: Instructional Plan Implementation.
Effective school leaders work collaboratively to develop and implement an instructional
framework that aligns curriculum with state standards, effective instructional practices, student learning needs and assessments. The leader:

a. Implements the Florida Educator Accomplished Practices as described in Rule 6A-5.065, F.A.C. through a common language of instruction;
b. Engages in data analysis for instructional planning and improvement;
c. Communicates the relationships among academic standards, effective instruction, and student performance;
d. Implements the district’s adopted curricula and state’s adopted academic standards in a manner that is rigorous and culturally relevant to the students and school; and
e. Ensures the appropriate use of high quality formative and interim assessments aligned with the adopted standards and curricula.

Standard 4: Faculty Development.
Effective school leaders recruit, retain and develop an effective and diverse faculty and staff. The leader:

a. Generates a focus on student and professional learning in the school that is clearly linked to the system-wide strategic objectives and the school improvement plan;
b. Evaluates, monitors, and provides timely feedback to faculty on the effectiveness of instruction;
c. Employs a faculty with the instructional proficiencies needed for the school population served;
d. Identifies faculty instructional proficiency needs, including standards-based content, research-based pedagogy, data analysis for instructional planning and improvement, and the use of instructional technology;
e. Implements professional learning that enables faculty to deliver culturally relevant and differentiated instruction; and
f. Provides resources and time and engages faculty in effective individual and collaborative professional learning throughout the school year.

Standard 5: Learning Environment.
Effective school leaders structure and monitor a school learning environment that improves learning for all of Florida’s diverse student population. The leader:

a. Maintains a safe, respectful and inclusive student-centered learning environment that is focused on equitable opportunities for learning and building a foundation for a fulfilling life in a democratic society and global economy;
b. Recognizes and uses diversity as an asset in the development and implementation of procedures and practices that motivate all students and improve student learning;
c. Promotes school and classroom practices that validate and value similarities and differences among students;
d. Provides recurring monitoring and feedback on the quality of the learning environment;
e. Initiates and supports continuous improvement processes focused on the students’ opportunities for success and well-being.
f. Engages faculty in recognizing and understanding cultural and developmental issues related to student learning by identifying and addressing strategies to minimize and/or eliminate achievement gaps.

Domain 3: Organizational Leadership

Effective school leaders employ and monitor a decision-making process that is based on vision, mission and improvement priorities using facts and data. The leader:

a. Gives priority attention to decisions that impact the quality of student learning and teacher proficiency;
b. Uses critical thinking and problem solving techniques to define problems and identify solutions;
c. Evaluates decisions for effectiveness, equity, intended and actual outcome; implements follow-up actions; and revises as needed;
d. Empowers others and distributes leadership when appropriate; and
e. Uses effective technology integration to enhance decision making and efficiency throughout the school.

Standard 7: Leadership Development.
Effective school leaders actively cultivate, support, and develop other leaders within the organization. The leader:

a. Identifies and cultivates potential and emerging leaders;
b. Provides evidence of delegation and trust in subordinate leaders;
c. Plans for succession management in key positions;
d. Promotes teacher–leadership functions focused on instructional proficiency and student learning; and
e. Develops sustainable and supportive relationships between school leaders, parents, community, higher education and business leaders.

Standard 8: School Management.
Effective school leaders manage the organization, operations, and facilities in ways that maximize the use of resources to promote a safe, efficient, legal, and effective learning environment. The leader:

a. Organizes time, tasks and projects effectively with clear objectives and coherent plans;
b. Establishes appropriate deadlines for him/herself and the entire organization;
c. Manages schedules, delegates, and allocates resources to promote collegial efforts in school improvement and faculty development; and
d. Is fiscally responsible and maximizes the impact of fiscal resources on instructional priorities.
Standard 9: **Communication.**

Effective school leaders practice two-way communications and use appropriate oral, written, and electronic communication and collaboration skills to accomplish school and system goals by building and maintaining relationships with students, faculty, parents, and community. The leader:

a. Actively listens to and learns from students, staff, parents, and community stakeholders;
b. Recognizes individuals for effective performance;
c. Communicates student expectations and performance information to students, parents, and community;
d. Maintains high visibility at school and in the community and regularly engages stakeholders in the work of the school;
e. Creates opportunities within the school to engage students, faculty, parents, and community stakeholders in constructive conversations about important school issues.
f. Utilizes appropriate technologies for communication and collaboration; and
g. Ensures faculty receives timely information about student learning requirements, academic standards, and all other local state and federal administrative requirements and decisions.

Domain 4: Professional and Ethical Behavior:

**Standard 10: Professional and Ethical Behaviors.**

Effective school leaders demonstrate personal and professional behaviors consistent with quality practices in education and as a community leader. The leader:

a. Adheres to the Code of Ethics and the Principles of Professional Conduct for the Education Profession in Florida, pursuant to Rules 6B-1.001 and 6B-1.006, F.A.C.
b. Demonstrates resiliency by staying focused on the school vision and reacting constructively to the barriers to success that include disagreement and dissent with leadership;
c. Demonstrates a commitment to the success of all students, identifying barriers and their impact on the well-being of the school, families, and local community;
d. Engages in professional learning that improves professional practice in alignment with the needs of the school system; and
e. Demonstrates willingness to admit error and learn from it;
f. Demonstrates explicit improvement in specific performance areas based on previous evaluations and formative feedback.

SBE Rule 6A-5.080 Revised November 15, 2011  
Rulemaking Authority 1001.02, 1012.34, 1012.55, 1012.986 FS.  
Law Implemented 1012.55, 1012.986, 1012.34 FS. History—New 5-24-05, Formerly 6B-5.0012, Amended 11-15-11.  
https://www.floridaschoolleaders.org/fpls.aspx
APPENDIX D

6A-5.065 The Educator Accomplished Practices.

The twelve essential practices of effective teaching are:

(1) Accomplished Practice One – Assessment.

(a) Accomplished level. The accomplished teacher uses assessment strategies (traditional and alternate) to assist the continuous development of the learner.

(b) Professional level. The professional teacher continually reviews and assesses data gathered from a variety of sources. These sources can include, but shall not be limited to, pretests, standardized tests, portfolios, anecdotal records, case studies, subject area inventories, cumulative records, and student services information. The professional teacher develops the student’s instructional plan that meets cognitive, social, linguistic, cultural, emotional, and physical needs.

(c) Preprofessional level. The preprofessional teacher collects and uses data gathered from a variety of sources. These sources will include both traditional and alternative strategies. Furthermore, the teacher can identify and match the student’s instructional plan with their cognitive, social, linguistic, cultural, emotional, and physical needs.

(2) Accomplished Practice Two – Communication.

(a) Accomplished level. The accomplished teacher uses effective communication techniques with students and all other stakeholders.

(b) Professional level. The professional teacher constantly seeks to create a classroom that is accepting, yet businesslike, on task, and produces results. She/he communicates to all students high expectations for learning, and supports, encourages and gives positive and fair feedback about their learning efforts. This teacher models good communication skills and creates an atmosphere in the classroom that encourages mutual respect and appreciation of different cultures, linguistic backgrounds, learning styles, and abilities.

(c) Preprofessional level. The preprofessional teacher recognizes the need for effective communication in the classroom and is in the process of acquiring techniques which she/he will use in the classroom.

(3) Accomplished Practice Three – Continuous Improvement.

(a) Accomplished level. The accomplished teacher engages in continuous professional quality improvement for self and school.

(b) Professional level. The professional teacher recognizes the need to strengthen her/his teaching through self reflection and commitment to life-long learning. The teacher becomes aware of and is familiar with the School Improvement Plan. The teacher’s continued professional improvement is characterized by participation in inservice, participation in school/community committees, and designing and meeting the goals of a professional development plan.

(c) Preprofessional level. The preprofessional teacher realizes that she/he is in the initial stages of a life-long learning process and that self reflection is one of the key components of that process. While her/his concentration is, of necessity, inward and personal, the role of colleagues and school-based improvement activities increase as time passes. The teacher’s continued professional improvement is characterized by self reflection, work with immediate colleagues and teammates, and meeting the goals of a personal professional development plan.

(4) Accomplished Practice Four – Critical Thinking.
(a) Accomplished level. The accomplished teacher uses appropriate techniques and strategies which promote and enhance critical, creative, and evaluative thinking capabilities of students.

(b) Professional level. The professional teacher will use a variety of performance assessment techniques and strategies that measure higher order thinking skills in students and can provide realistic projects and problem solving activities which will enable all students to demonstrate their ability to think creatively.

(c) Preprofessional level. The preprofessional teacher is acquiring performance assessment techniques and strategies that measure higher order thinking skills in students and is building a repertoire of realistic projects and problem solving activities designed to assist all students in demonstrating their ability to think creatively.

(5) Accomplished Practice Five – Diversity.

(a) Accomplished level. The accomplished teacher uses teaching and learning strategies that reflect each student’s culture, learning styles, special needs, and socio-economic background.

(b) Professional level. The professional teacher establishes a risk-taking environment which accepts and fosters diversity. The teacher must demonstrate knowledge of varied cultures by practices such as conflict resolution, mediation, creating a climate of openness, inquiry and support.

(c) Preprofessional level. The preprofessional teacher establishes a comfortable environment which accepts and fosters diversity. The teacher must demonstrate knowledge and awareness of varied cultures. The teacher creates a climate of openness, inquiry, and support by practicing strategies as acceptance, tolerance, resolution, and mediation.

(6) Accomplished Practice Six – Ethics.

(a) Accomplished level. The accomplished teacher adheres to the Code of Ethics and Principles of Professional Conduct of the Education Profession in Florida.

(b) Professional level. The professional teacher adheres to the Code of Ethics and Principles of Professional Conduct of the Education Profession in Florida.

(c) Preprofessional level. The preprofessional teacher adheres to the Code of Ethics and Principles of Professional Conduct of the Education Profession in Florida.

(7) Accomplished Practice Seven – Human Development and Learning.

(a) Accomplished level. The accomplished teacher uses an understanding of learning and human development to provide a positive learning environment which supports the intellectual, personal, and social development of all students.

(b) Professional level. Drawing upon well established human development/learning theories and concepts and a variety of information about students, the professional teacher provides learning opportunities appropriate to student learning style, linguistic and cultural heritage, experiential background and developmental level.

(c) Preprofessional level. Drawing upon well established human development/learning theories and concepts and a variety of information about students, the preprofessional teacher plans instructional activities.

(8) Accomplished Practice Eight – Knowledge of Subject Matter.

(a) Accomplished level. The accomplished teacher demonstrates knowledge and understanding of the subject matter.
(b) Professional level. The professional teacher has a basic understanding of the subjects she/he teaches and is beginning to understand that her/his subject is linked to other disciplines and can be applied in real world integrated settings. The teacher seeks out ways/sources to expand her/his knowledge. The commitment to learning about new knowledge includes keeping abreast of sources which will enhance teaching. The teacher’s repertoire of teaching skills includes a variety of means to assist student acquisition of new knowledge.

(c) Preprofessional level. The preprofessional teacher has a basic understanding of the subject field and is beginning to understand that the subject is linked to other disciplines and can be applied to real world integrated settings. The teacher’s repertoire of teaching skills includes a variety of means to assist student acquisition of new knowledge and skills using that knowledge.

(9) Accomplished Practice Nine – Learning Environments.

(a) Accomplished level. The accomplished teacher creates and maintains positive learning environments in which students are actively engaged in learning, social interaction, cooperative learning and self-motivation.

(b) Professional level. The professional teacher understands the importance of setting up effective learning environments and begins to experiment with a variety of them, seeking to identify those which work best in a particular situation. The teacher provides the opportunities for student input into behavioral expectations by helping students develop a set of shared values and beliefs, by encouraging them to envision the environment in which they like to learn, by providing occasions for reflection upon the rules and consequences which would create such an environment, and by honoring dissent.

(c) Preprofessional level. The preprofessional teacher understands the importance of setting up effective learning environments and has techniques and strategies to use to do so, including some that provide opportunities for student input into the processes. The teacher understands that she/he will need a variety of techniques and is working to increase her/his knowledge and skills.

(10) Accomplished Practice Ten – Planning.

(a) Accomplished level. The accomplished teacher plans, implements, and evaluates effective instruction in a variety of learning environments.

(b) Professional level. The professional teacher sets high expectations for all students and uses concepts from a variety of concept areas, and plans individually with students and with other teachers to design learning experiences that meet students’ needs and interests. The teacher continues to seek advice/information from appropriate sources including feedback, interprets the information, and modifies plans. Comprehensible instruction is implemented in a creative environment using varied and motivating strategies and multiple resources. Outcomes are assessed using traditional and alternative approaches. Upon reflection, the teacher continuously refines learning experiences.

(c) Preprofessional level. The preprofessional teacher recognizes the importance of setting high expectations for all students and works with other professionals to design learning experiences that meet students’ needs and interests. The teacher candidate continually seeks advice/information from appropriate resources including feedback, interprets the information, and modifies her/his plans appropriately. Planned instruction will incorporate a creative environment and utilize varied and motivational strategies and multiple resources for providing comprehensible instruction for all students. Upon reflection, the teacher continuously refines outcome assessment and learning experiences.

(11) Accomplished Practice Eleven – Role of the Teacher.

(a) Accomplished level. The accomplished teacher works with various education professionals, parents, and other stakeholders in the continuous improvement of the educational experiences of students.
(b) Professional level. The professional teacher establishes open lines of communication and works cooperatively with families, educational professionals and other members of the student’s support system to promote continuous improvement of the educational experience.

(c) Preprofessional level. The preprofessional teacher communicates and works cooperatively with families and colleagues to improve the educational experiences at the school.

(12) Accomplished Practice Twelve – Technology.

(a) Accomplished level. The accomplished teacher uses appropriate technology in teaching and learning processes.

(b) Professional level. The professional teacher uses technology (as appropriate) to establish an atmosphere of active learning with existing and emerging technologies available at the school site. She/he provides students with opportunities to use technology to gather and share information with others, and facilitates access to the use of electronic resources.

(c) Preprofessional level. The preprofessional teacher uses technology as available at the school site and as appropriate to the learner. She/he provides students with opportunities to actively use technology and facilitates access to the use of electronic resources. The teacher also uses technology to manage, evaluate, and improve instruction.

APPENDIX E

Amendment to Rule 6A-5.030
http://www.fldoe.org/board/meetings/2012_03_27/5030.pdf

STATE BOARD OF EDUCATION
Action Item
March 27, 2012

SUBJECT: Amendment to Rule 6A-5.030, Instructional Personnel and School Administrator Evaluation Systems

PROPOSED BOARD ACTION

For Approval

AUTHORITY FOR STATE BOARD ACTION

Sections 1012.34, 1012.98, 1001.42 and 1006.281, Florida Statutes

EXECUTIVE SUMMARY

The Student Success Act (2011) altered requirements for instructional personnel and school administrator evaluation systems as required in Section 1012.34, Florida Statutes. As a result, substantial changes are being proposed to procedures for the review, approval and monitoring of school district systems for personnel evaluations that incorporate contemporary research in effective educational practices and student learning growth. Many of the proposed changes were implemented during the 2011-12 school year by districts participating in the state’s Race to the Top grant, which has provided a basis for lessons learned in successful implementation of the Student Success Act going forward.

This rule amendment establishes procedures for the Department of Education’s review, approval and monitoring of school district systems for personnel evaluations for instructional staff and school administrators and aligns these systems with professional development to support continuous improvement of effective instruction and student achievement. These procedures implement Sections 1012.34 (Assessment Procedures and Criteria), and 1012.98 (School Community Professional Development Act), Florida Statutes, and support associated efforts by school districts in implementing school improvement plans (Section 1001.42, Florida Statutes) and instructional improvement data systems (Section 1006.281, Florida Statutes).

Facilitator/Presenter: Pam Stewart, Chancellor, Division of Public Schools

Rule 6B-4.010 is substantially rewritten as Rule 6A-5.030 to read (see Florida Administrative Code for present text):

Evaluation systems are to be designed and implemented to support continuous improvement of student learning growth by improving the quality of instructional, administrative, and supervisory services in the public schools of the state. This rule provides implementing procedures and criteria for the submission, review and approval of district evaluation systems, as well as monitoring of implementation and reporting on the impact of implementation of evaluation systems and associated professional development on student learning growth and instructional, administrative and supervisory services. This rule applies to all evaluation systems for instructional personnel and school administrators in the public school system.

(1) Submission Process.
(a) Evaluation systems shall be submitted to the Department’s Division of Educator Quality for review and approval accompanied by the document entitled Review and Approval Checklist for Instructional Personnel and School Administrator Evaluation Systems, Form No. EQEVAL-2012. (http://www.flrules.org/Gateway/reference.asp?No=Ref-01023) effective March 2012. The form and documentation required by the form shall be submitted electronically to EdQualityEvalSystems@fldoe.org. This form is incorporated by reference and can be obtained on the Department’s website at www.fldoe.org/profdev/pa.asp.
(b) The time period for submission shall be posted on www.fldoe.org/profdev/pa.asp. The Department will notify districts of the due date of the submission no later than 60 days prior to the date the submission is due and shall allow a district a minimum of 60 days notice to submit the evaluation system.
(c) Districts shall submit an evaluation system for review and approval when an existing evaluation system is amended to address changes in statute or rule, or when a previously approved system is substantially modified as defined in subsection (5) of this rule.
(d) When an evaluation system is modified less than substantially, the district shall inform the Department within 30 calendar days. The district will submit such modifications to EdQualityEvalSystems@fldoe.org.

(2) Content of Approved Evaluation Systems. In order to be approved by the Department, an evaluation system shall:
(a) Contain evidence of each of the elements as described in the Review and Approval Checklist for Instructional Personnel and School Administrator Evaluation Systems, Form No. EQEVAL-2012;
(b) Comply with the requirements for an evaluation system found in Section 1012.34, F.S.; and
(c) Demonstrate that the evaluation system is designed to promote continuous improvement of student learning growth and faculty and leadership development through feedback processes. The system shall include procedures to ensure rater accuracy and reliability, training of employees on proficiency expectations, and monitoring of improvement results in student learning growth and instructional personnel and school leader proficiency on evaluation indicators.

(3) Initial Review Process.
(a) The Department shall review the documentation submitted by the district pursuant to paragraph (1)(a) of this rule to determine whether the district has submitted a complete evaluation system that can be considered for approval.
(b) The Department shall provide each school district a written notice that identifies omitted elements that must be submitted before review of the complete evaluation system can begin.
(c) The Department shall provide written notice to the district within 14 days of receipt of a completed application, that the application is complete. This notice shall be provided electronically to the address noted on the Review and Approval Checklist for Instructional Personnel and School Administrator Evaluation Systems, Form No. EQEVAL-2012.

(4) Approval Process. The Department shall provide written notification of the approval status to the school district superintendent within 90 days of the date the written notice provided in paragraph (3)(c) is provided to the district. The approval status designations and the effect of these designations are as follows:
(a) Approved. An approved system meets all criteria found in paragraph (2). A district may implement the evaluation system(s) after receiving notification of Department approval.
(b) Conditionally Approved. Evaluation systems shall be designated conditionally approved if the school district’s evaluation system meets the requirements of elements I through VII of the Review and Approval Checklist for Instructional Personnel and School Administrator Evaluation Systems, but fails to satisfy one or more of the other requirements for the evaluation systems found on the Review and Approval Checklist, or Section 1012.34, F.S., or paragraph (2)(b) of this rule. The school district’s system designated as conditionally approved shall be revised so that it is in full compliance with all requirements for evaluation systems, and resubmitted to the Department for review and approval. Notice of conditional approval shall contain the time period when the revised evaluation system shall be submitted and shall allow a district a minimum of 14 calendar days to submit. Upon receiving notice of conditional approval, the district may implement all approved portions of the evaluation system.

(c) Denied. A school district evaluation system shall be denied if the school district’s evaluation system does not meet the requirements of paragraph (2) of this rule. A school district’s system designated as conditionally approved shall be denied, if the requirements for evaluation systems are not met within 60 days of the Department’s written notice granting the conditionally approved status. A district may seek an extension of time if the district demonstrates that unforeseeable or uncontrollable circumstances caused a delay. The Commissioner may grant an extension of 30 days. A district may not implement a denied evaluation system until the system is approved or conditionally approved.

(d) Approval Rescinded. A district’s evaluation system approval status may be rescinded based upon monitoring conducted under paragraph (6)(c) of this rule. A system requiring modifications to implementation of elements I through VII of the Review and Approval Checklist for Instructional Personnel and School Administrator Evaluation Systems, Form No. EQEVAL-2012, shall result in an approval status of denied. A system requiring modifications to implementation of elements VIII through XII of the Review and Approval Checklist for Instructional Personnel and School Administrator Evaluation Systems, Form No. EQEVAL-2012, shall result in an approval status of conditionally approved.

(5) Modifications to an Approved Evaluation System. Modifications to an approved evaluation system may be made pursuant to the following:

(a) An evaluation system is "substantially modified" when:
1. A different research framework is adopted as the basis for the system;
2. Scoring and weighting methods are changed;
3. Rubrics defining performance levels or proficiency level expectations are changed;
4. Evaluation measures or metrics are added or deleted from the system;
5. Processes for observation or feedback are changed;
6. There are changes in processes for informing employees of performance expectations expressed in the evaluation system or in training and maintaining evaluators’ proficiency in use of the system; or
7. There are changes in the personnel who may contribute evidence to be used in evaluations.

(b) A substantially modified evaluation system shall be submitted to the Department for approval using Form EQEVAL-2012 and shall not be implemented prior to Department approval.

(c) An evaluation system that has been modified less than substantially shall be submitted to the Department in writing. These modifications shall not be implemented prior to receipt of written notice from the Department confirming that the evaluation system has not been substantially modified. The Department shall provide the district written notice within 21 days of the Department’s receipt of the modified system.

(6) Implementation Monitoring: Districts and the Department shall implement quality control monitoring that identifies the impact of evaluation systems on quality improvements in instructional, administrative, and supervisory services.

(a) The use of data from quality control monitoring shall be used by districts to review and revise organizational policies, infrastructure, practices, procedures, and resource allocations to promote effective implementation and to remove barriers to success. The district monitoring elements shall include:
1. The effectiveness of evaluation system on improvement of student learning growth and faculty and leadership development.
2. The impact of professional development on instructional personnel and school administrators’ proficiency;
3. Procedures to establish, monitor and sustain inter-rater accuracy and reliability;
4. Procedures to establish, monitor and sustain the accuracy of evaluators’ feedback;
5. Frequency and effectiveness of feedback on proficiency on the indicators;
6. Implementation of evaluation system(s) at school and district levels;
7. Use of evaluation data to inform individual, school, and district improvement planning consistent with the requirements of Section 1001.42(18), F.S.;
8. Use of evaluation data to identify professional development priorities consistent with the requirements of Section 1012.98, F.S., and Rule 6A-5.071, F.A.C.;
9. Implementation of assessments that are used to measure student growth and performance for evaluation purposes; and
10. Alignment of evaluation indicators with contemporary research-based practices associated with improving student learning growth and the quality of instructional, administrative, and supervisory services;

(b) The Department’s monitoring elements are found in subparagraph (6)(b)1. a. through g.:
1. Coordination of Data Analysis. In order to assist the Department in monitoring implementation of district evaluation systems and their impact on student learning growth and the quality of instructional, administrative, and supervisory services, a district shall submit the following information 30 days prior to the district’s scheduled review of its district evaluation systems pursuant to subparagraph (6)(b)2.:
   a. Professional development provided on high effect size instructional and leadership strategies;
   b. Data collection processes used to gather evidence of impact of professional development on high effect size instructional and leadership strategies;
   c. Evidence of alignment of professional development and the district’s evaluation indicators;
   d. Data elements included in the district’s Local Instructional Improvement System (LIIS) pursuant to Section 1006.281 F.S., that align professional development proficiencies with evaluation indicators;
   e. Data collection processes used to gather evidence on the quality of school level implementation of state approved initiatives related to student learning growth on Common Core and Next Generation Sunshine State Standards as incorporated by reference in Rule 6A-1.09401, FAC.;
   f. District data collection processes that track the impact of evaluation system implementation on student learning growth and instructional and administrative proficiency on evaluation indicators; and
   g. District use of impact data to modify and improve instructional and administrative evaluation systems.

2. Five Year Continuous Improvement Cycle,
   a. The Department shall publish a schedule for review of district evaluation systems for instructional personnel and school administrators in five-year cycles on the Department’s website at www.fldoe.org/profdev/pa.asp. The cycle of review shall commence in the 2014-15 school year.
   b. Such reviews shall include the results of annual quality control monitoring and systemic change actions taken based on those results, the issues in subparagraph (6)(b)1. of this rule, and the implementation status of the requirements for evaluation systems specified in subsection (2) of this rule.
   c. Such reviews shall include a joint Department and district assessment of the alignment of district evaluation practices for instructional personnel and school administrators on student growth, faculty and leadership development, and professional development on the core standards and expectations.
   d. Where a review identifies barriers to implementation of the evaluation system the district shall develop an action plan to eliminate or mitigate any identified barriers.
   e. The reviews shall result in continued approval of a district’s evaluation systems or modifications to the system based on the monitoring criteria.

(7) Reporting.
   (a) All evaluation systems approved pursuant to this rule shall be posted online by the submitting organization on a district website within 30 days of approval of the evaluation system. The current URL
of the district’s posted documentation shall be provided to the Department by submitting the URL to EdQualityEvalSystems@fldoe.org, and it will be included on the Department’s website, www.fldoe.org/profdev/pa.asp. The district website postings shall provide access to the approved evaluation criteria, including rating rubrics, cut scores, and weighting formulas, evaluation system indicators, feedback processes and forms, and summative evaluation performance levels.

(b) The District’s annual report on the status of evaluation system implementation required by Section1012.34(1)(a), F.S., shall address the monitoring results listed in subsection (6) of this rule.

About Evaluation

For the purpose of **increasing student learning growth** by improving the quality of instructional, administrative, and supervisory services in the public schools of the state, the district school superintendent shall establish procedures for evaluating the performance of duties and responsibilities of all instructional, administrative, and supervisory personnel employed by the school district. Florida Statutes Section 1012.34 (1) (a).

What does this mean?

To accomplish the purpose defined in law, a district evaluation system for school administrator’s must:

1. Be focused on school leadership actions that impact student learning, and;
2. Support professional learning on performance of duties and responsibilities that matter most for student learning, faculty and leadership development.

The evaluation system adopted by the district is:

- Based on contemporary research that reveals educational leadership behaviors that, when done correctly and in appropriate circumstances, have a positive impact on student learning and faculty development.
- Fully aligned with the Florida Principal Leadership Standards – a State Board of Education rule that sets expectations for principal performance (SBE Rule 6A-5.080).

A New Approach to Evaluation: This evaluation system is designed to support three processes:

- **Self-reflection** by the leader on current proficiencies and growth needs (What am I good at? What can I do better?)
- **Feedback** from the evaluator and others on what needs improvement.
- **An annual summative evaluation** that assigns one of the four performance levels required by law (i.e., Highly Effective, Effective, Needs Improvement, or Unsatisfactory).

What is evaluated?

Evaluation of school leaders is based on observation and evidence about certain leadership behaviors AND the impact of a leader’s behavior on others.

The portion of evaluation that involves “impact on others” comes in two components:

1. **Student Growth Measures**: At least 50% of a school leader’s annual evaluation is based on the performance of students in the school on specific state or district assessments (e.g. FCAT, EOC exams).
2. **The Leadership Practice**: This component contributes the remaining percentage of the school leader’s evaluation. Leadership Practice combines results of the Florida School
Leader Assessment (FSLA) and an additional Metric – Deliberate Practice. The FSLA contribution to evaluation is based on observation of the leader’s actions and the leader’s impact on the actions and behaviors of others.

The processes and forms described in the following pages are focused on the Leadership Practice component of evaluation.

**Training and Reflection**

The content of the district evaluation system informs those evaluated and those doing evaluations of the issues to address and the processes to use.

- Those being evaluated use these documents to guide self-reflection on practices that improve your work.
- Evaluators provide both recurring feedback to guide growth in proficiency in district priorities and provide summative performance ratings.
- Those who are both evaluated by this system and evaluate others with it will do both.

Things to know:

1. The Research Framework(s) on which the evaluation system is based. Each research framework is associated with particular approaches to instruction or leadership. The research aligned with the district framework(s) is a useful source of deeper understanding of how to implement strategies correctly and in appropriate circumstances. Evaluators can provide better feedback to subordinates when they understand the research framework.

2. Inter-rater reliability: Evaluators in the district should be able to provide subordinates similar feedback and rating so that there is consistent use of the evaluation system across the district. This is promoted by training on the following:
   - The “look fors” – what knowledge, skills, and impacts are identified as system priorities by inclusion of indicators in the evaluation system.
   - The Rubrics – how to distinguish proficient levels.
   - Rater reliability checks. Processes for verifying raters meet district expectations in using the rubrics.

3. Specific, Actionable, and Timely Feedback Processes: What evaluators observe does not promote improvement unless it is conveyed to employees as specific, actionable and timely manner. Training on how to do so is essential.

4. Conferences protocols and use of forms: Know what is required regarding meetings, conference procedures, use of forms, and records.
5. Processes and procedures for implementing the evaluation system
   a. Evidence gathering: What sources are to be used?
   b. Timeframes, record keeping
   c. Scoring rules

6. Student Growth Measures: What are the districts requirements regarding use of student growth measures in the district’s evaluation system?

7. Sources of information about the evaluation system: Where can evaluators and employees access manuals, forms, documents etc. regarding the evaluation process.

8. Additional metrics: Training on any additional metrics use to supplement the practice portion of evaluation.

**Framework: Leadership Evaluation**

A Multi-Dimensional Framework: This evaluation system is based on contemporary research and meta-analyses by Dr. Douglas Reeves, Dr. John Hattie, Dr. Vivian Robinson, Dr. Robert Marzano and other research findings that identify school leadership strategies or behaviors that, done correctly and in appropriate circumstances, have a positive probability of improving student learning and faculty proficiency on instructional strategies that positively impact student learning.

Additional Metric: Deliberate Practice Guidelines

Deliberate Practice: The leaders work on specific improvements in mastery of educational leadership. This is a separate metric and is combined with the FSLA Domain Scores to determine a summative leadership score.

<table>
<thead>
<tr>
<th>Deliberate Practice (DP)</th>
<th>Proficiency Area(s) and Target(s) for School Leader Growth</th>
</tr>
</thead>
<tbody>
<tr>
<td>Deliberate Practice Priorities: The leader and the evaluator identify 1 to 4 specific and measurable priority learning goals related to teaching, learning, or school leadership practices that impact student learning growth. One or two targets are recommended.</td>
<td></td>
</tr>
<tr>
<td>• The target of a deliberate practice process describe an intended result and will include “scales” or progress points that guide the leader toward highly effective levels of personal mastery;</td>
<td></td>
</tr>
<tr>
<td>• The leader takes actions to make discernible progress on those priority goals; monitors progress toward them, uses the monitoring data to make adjustments to practice, and provides measurable evidence of growth in personal mastery of the targeted priorities.</td>
<td></td>
</tr>
<tr>
<td>• The evaluator monitors progress and provides feedback.</td>
<td></td>
</tr>
<tr>
<td>• The targets are “thin slices” of specific gains sought – not broad overviews or long term goals taking years to accomplish.</td>
<td></td>
</tr>
<tr>
<td>• Deliberate practices ratings are based on comparison of proficiency at a “start point” and proficiency at a designated “evaluation point”. The start point data can be based on a preceding year FSLA evaluation data on a specific indicator or proficiency area, or determined by school leader and evaluator either at the end of the preceding work year or at the start of the new work year in which the DP targets will be used for evaluation.</td>
<td></td>
</tr>
</tbody>
</table>

Relationship to other measures of professional learning: Whereas FSLA indicator 4.5 addresses the leader’s involvement with professional learning focused on faculty needs and indicator 10.2 addresses the leader’s pursuit of learning aligned with a range of school needs, the Deliberate Practice targets are more specific and deeper learning related to teaching, learning, or school leadership practices that impact student learning. The DP learning processes establish career-long patterns of continuous improvement and lead to high quality instructional leadership.

Selecting Growth Targets:

Growth target 1: An issue that addresses a school improvement need related to student learning and either selected by the district or approved by leader’s supervisor. The focus should be on complex issues that take some time to master such as providing observation and feedback of high-effect size instructional practices.

Growth target 2: An issue related to a knowledge base or skill set relevant to instructional leadership selected by leader.

Growth target 3-4: Optional: additional issues as appropriate.

The description of a target should be modeled along the lines of learning goals.

- A concise description (rubric) of what the leader will know or be able to do
- Of sufficient substance to take at least 6 weeks to accomplish
- Includes scales or progressive levels of progress that mark progress toward mastery of the goal.

Rating Scheme

- Unsatisfactory = no significant effort to work on the targets
- Needs Improvement = evidence some of the progress points were accomplished but not all of the targets
- Effective = target accomplished
- Highly effective = exceeded the targets and able to share what was learned with others

Sample:

Target: Leader will be able to provide feedback to classroom teachers on the effectiveness of learning goals with scales in focusing student engagement on mastery of state standards.

Scales:

Level 3: Leader develops and implements a process for monitoring the alignment of classroom assessments to track trends in student success on learning goals.
Level 2: Leader develops and implements a process for routinely visits classes and engaging students in discussion on what they are learning and compares student perceptions with teacher’s learning goals.  
Level 1: Leader can locate standards in the state course description for each course taught at the school and completes the on-line module on Learning Goals (both at www.floridastandards.org) and engages teachers in discussion on how they align instruction and learning goals with course standards.

Notes:
FSLA Proficiency Areas with Indicators

Florida School Leader Assessment
A Multidimensional Leadership Assessment
4 Domains - 10 Proficiency Areas - 45 Indicators

A summative performance level is based 50% on Student Growth Measures (SGM) that conform to the requirements of s. 1012.34, F.S., and 50% on a Leadership Practice Score. In the Florida State Model, the Leadership Practice Score is obtained from two metrics:
- Florida School Leader Assessment (FSLA)
- Deliberate Practice Score

The school leader’s FSLA Score is combined with a Deliberate Practice Score to generate a Leadership Practice Score. The tables below list the school leader performance proficiencies addressed in the four domains of the FSLA and the Deliberate Practice Metric.

Domain 1: The focus is on leadership practices that impact prioritization and results for student achievement on priority learning goals - knowing what’s important, understanding what’s needed, and taking actions that get results.

<table>
<thead>
<tr>
<th>Domain 1: Student Achievement</th>
</tr>
</thead>
<tbody>
<tr>
<td>2 Proficiency Areas – 8 Indicators</td>
</tr>
<tr>
<td>This domain contributes 20% of the FSLA Score</td>
</tr>
</tbody>
</table>

Proficiency Area 1 - Student Learning Results: Effective school leaders achieve results on the school’s student learning goals and direct energy, influence, and resources toward data analysis for instructional improvement, development and implementation of quality standards-based curricula.

Indicator 1.1 – Academic Standards: The leader demonstrates understanding of student requirements and academic standards (Common Core and NGSSS).

Indicator 1.2 – Performance Data: The leader demonstrates the use of student and adult performance data to make instructional leadership decisions.

Indicator 1.3 – Planning and Goal Setting: The leader demonstrates planning and goal setting to improve student achievement.

Indicator 1.4 – Student Achievement Results: The leader demonstrates evidence of student improvement through student achievement results.

Proficiency Area 2 - Student Learning as a Priority: Effective school leaders demonstrate that student learning is their top priority through effective leadership actions that build and support a learning organization focused on student success.

Indicator 2.1 – Learning Organization: The leader enables faculty and staff to work as a system focused on student learning, and engages faculty and staff in efforts to close learning performance gaps among student subgroups within the school.

Indicator 2.2 – School Climate: The leader maintains a school climate that supports student engagement in learning

Indicator 2.3 – High Expectations: The leader generates high expectations for learning growth by all students.

Indicator 2.4 – Student Performance Focus: The leader demonstrates understanding of present levels of student performance based on routine assessment processes that reflect the current reality of student proficiency on academic standards.

Domain 2: The focus is on instructional leadership – what the leader does and enables others to do that supports teaching and learning.

<table>
<thead>
<tr>
<th>Domain 2: Instructional Leadership</th>
</tr>
</thead>
<tbody>
<tr>
<td>3 Proficiency Areas – 17 Indicators</td>
</tr>
<tr>
<td>This domain contributes 40% of the FSLA Score</td>
</tr>
</tbody>
</table>

Proficiency Area 3 - Instructional Plan Implementation: Effective school leaders work collaboratively
to develop and implement an instructional framework that aligns curriculum with state standards, effective instructional practices, student learning needs, and assessments.

| Indicator 3.1 - FEAPs: The leader aligns the school’s instructional programs and practices with the Florida Educator Accomplished Practices (FEAPs) (Rule 6A-5.065, F.A.C.), and models use of Florida’s common language of instruction to guide faculty and staff’s implementation of the foundational principles and practices. |
| Indicator 3.2 - Standards-based Instruction: The leader delivers an instructional program that implements the state’s adopted academic standards (Common Core and NGSSS) in a manner that is rigorous and culturally relevant to the students by aligning academic standards, effective instruction and leadership, and student performance practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals, and communicating to faculty the cause and effect relationship between effective instruction on academic standards and student performance. |
| Indicator 3.3 - Learning Goals Alignments: The leader implements recurring monitoring and feedback processes to insure that priority learning goals established for students are based on the state’s adopted student academic standards as defined in state course descriptions, presented in student accessible forms, and accompanied by scales or rubrics to guide tracking progress toward student mastery. |
| Indicator 3.4 - Curriculum Alignments: The leader implements systemic processes to insure alignment of curriculum resources with state standards for the courses taught. |
| Indicator 3.5 - Quality Assessments: The leader ensures the appropriate use of high quality formative and interim assessments aligned with the adopted standards and curricula. |
| Indicator 3.6 - Faculty Effectiveness: The leader monitors the effectiveness of classroom teachers and uses contemporary research and the district’s instructional evaluation system criteria and procedures to improve student achievement and faculty proficiency on the FEAPs. |

Proficiency Area 4 - Faculty Development: Effective school leaders recruit, retain, and develop an effective and diverse faculty and staff; focus on evidence, research, and classroom realities faced by teachers; link professional practice with student achievement to demonstrate the cause and effect relationship; facilitate effective professional development; monitor implementation of critical initiatives; and secure and provide timely feedback to teachers so that feedback can be used to increase teacher professional practice.

| Indicator 4.1 - Recruitment and Retention: The leader employs a faculty with the instructional proficiencies needed for the school population served. |
| Indicator 4.2 - Feedback Practices: The leader monitors, evaluates proficiency, and secures and provides timely and actionable feedback to faculty on the effectiveness of instruction on priority instructional goals, and the cause and effect relationships between professional practice and student achievement on those goals. |
| Indicator 4.3 - High Effect Size Strategies: Instructional personnel receive recurring feedback on their proficiency on high effect size instructional strategies. |
| Indicator 4.4 -Instructional initiatives: District-supported state initiatives focused on student growth are supported by the leader with specific and observable actions, including monitoring of implementation and measurement of progress toward initiative goals and professional learning to improve faculty capacity to implement the initiatives. |
| Indicator 4.5 - Facilitating and Leading Professional Learning: The leader manages the organization, operations, and facilities to provide the faculty with quality resources and time for professional learning and promotes, participates in, and engages faculty in effective individual and collaborative learning on priority professional goals throughout the school year. |
| Indicator 4.6 - Faculty Development Alignments: The leader implements professional learning processes that enable faculty to deliver culturally relevant and differentiated instruction by generating a focus on student and professional learning in the school that is clearly linked to the system-wide objectives and the school improvement plan; identifying faculty instructional proficiency needs (including standards-based content, research-based pedagogy, data analysis for instructional planning and improvement); aligning faculty development practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals; and using instructional technology as a learning tool for students and faculty. |
| Indicator 4.7 - Actual Improvement: The leader improves the percentage of effective and highly effective teachers on the faculty. |
Proficiency Area 5 - Learning Environment: Effective school leaders structure and monitor a school learning environment that improves learning for all of Florida’s diverse student population.

<table>
<thead>
<tr>
<th>Indicator</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Indicator 5.1 – Student-Centered</td>
<td>The leader maintains a safe, respectful and inclusive student-centered learning environment that is focused on equitable opportunities for learning, and building a foundation for a fulfilling life in a democratic society and global economy by providing recurring monitoring and feedback on the quality of the learning environment and aligning learning environment practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals.</td>
</tr>
<tr>
<td>Indicator 5.2 – Success-Oriented</td>
<td>The leader initiates and supports continuous improvement processes and a multi-tiered system of supports focused on the students' opportunities for success and well-being.</td>
</tr>
<tr>
<td>Indicator 5.3 – Diversity</td>
<td>To align diversity practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals, the leader recognizes and uses diversity as an asset in the development and implementation of procedures and practices that motivate all students and improve student learning, and promotes school and classroom practices that validate and value similarities and differences among students.</td>
</tr>
<tr>
<td>Indicator 5.4 – Achievement Gaps</td>
<td>The leader engages faculty in recognizing and understanding cultural and developmental issues related to student learning by identifying and addressing strategies to minimize and/or eliminate achievement gaps associated with student subgroups within the school.</td>
</tr>
</tbody>
</table>

Domain 3: The focus is on school operations and leadership practices that integrate operations into an effective system of education.

<table>
<thead>
<tr>
<th>Domain 3 - Operational Leadership</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>4 Proficiency Areas – 16 Indicators</strong></td>
</tr>
<tr>
<td>This domain contributes 20% of the FSLA Score</td>
</tr>
</tbody>
</table>

Proficiency Area 6 - Decision-Making: Effective school leaders employ and monitor a decision-making process that is based on vision, mission, and improvement priorities using facts and data; manage the decision-making process, but not all decisions, using the process to empower others and distribute leadership when appropriate; establish personal deadlines for themselves and the entire organization; and use a transparent process for making decisions and articulating who makes which decisions.

<table>
<thead>
<tr>
<th>Indicator</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Indicator 6.1 – Prioritization Practices</td>
<td>The leader gives priority attention to decisions that impact the quality of student learning and teacher proficiency, gathering and analyzing facts and data, and assessing alignment of decisions with school vision, mission, and improvement priorities.</td>
</tr>
<tr>
<td>Indicator 6.2 – Problem-Solving</td>
<td>The leader uses critical thinking and problem-solving techniques to define problems and identify solutions.</td>
</tr>
<tr>
<td>Indicator 6.3 – Quality Control</td>
<td>The leader maintains recurring processes for evaluating decisions for effectiveness, equity, intended and actual outcome(s); implements follow-up actions revealed as appropriate by feedback and monitoring; and revises decisions or implements actions as needed.</td>
</tr>
<tr>
<td>Indicator 6.4 – Distributive Leadership</td>
<td>The leader empowers others and distributes leadership when appropriate.</td>
</tr>
<tr>
<td>Indicator 6.5 – Technology Integration</td>
<td>The leader employs effective technology integration to enhance decision making and efficiency throughout the school. The leader processes changes and captures opportunities available through social networking tools, accesses and processes information through a variety of online resources, incorporates data-driven decision making with effective technology integration to analyze school results, and develops strategies for coaching staff as they integrate technology into teaching, learning and assessment processes.</td>
</tr>
</tbody>
</table>

Proficiency Area 7 - Leadership Development: Effective school leaders actively cultivate, support, and develop other leaders within the organization, modeling trust, competency, and integrity in ways that positively impact and inspire growth in other potential leaders.

<table>
<thead>
<tr>
<th>Indicator</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Indicator 7.1 – Leadership Team</td>
<td>The leader identifies and cultivates potential and emerging leaders, promotes teacher-leadership functions focused on instructional proficiency and student learning, and aligns leadership development practices with system objectives, improvement planning, leadership proficiency needs, and appropriate instructional goals.</td>
</tr>
<tr>
<td>Indicator 7.2 – Delegation</td>
<td>The leader establishes delegated areas of responsibility for subordinate leaders and manages delegation and trust processes that enable such leaders to initiate projects or tasks, plan, implement, monitor, provide quality control, and bring projects and tasks to closure.</td>
</tr>
<tr>
<td>Indicator 7.3 – Succession Planning</td>
<td>The leader plans for and implements succession management in key positions.</td>
</tr>
<tr>
<td>Indicator 7.4 – Relationships</td>
<td>The leader develops sustainable and supportive relationships between school leaders, parents, community, higher education, and business leaders.</td>
</tr>
</tbody>
</table>
Proficiency Area 8 - School Management: Effective school leaders manage the organization, operations, and facilities in ways that maximize the use of resources to promote a safe, efficient, legal, and effective learning environment; effectively manage and delegate tasks and consistently demonstrate fiscal efficiency; and understand the benefits of going deeper with fewer initiatives as opposed to superficial coverage of everything.

**Indicator 8.1 - Organizational Skills:** The leader organizes time, tasks, and projects effectively with clear objectives, coherent plans, and establishes appropriate deadlines for self, faculty, and staff.

**Indicator 8.2 - Strategic Instructional Resourcing:** The leader maximizes the impact of school personnel, fiscal and facility resources to provide recurring systemic support for instructional priorities and a supportive learning environment.

**Indicator 8.3 - Collegial Learning Resources:** The leader manages schedules, delegates, and allocates resources to provide recurring systemic support for collegial learning processes focused on school improvement and faculty development.

Proficiency Area 9 - Communication: Effective school leaders use appropriate oral, written, and electronic communication and collaboration skills to accomplish school and system goals by practicing two-way communications, seeking to listen and learn from and building and maintaining relationships with students, faculty, parents, and community; managing a process of regular communications to staff and community keeping all stakeholders engaged in the work of the school; recognizing individuals for good work; and maintaining high visibility at school and in the community.

**Indicator 9.1 - Constructive Conversations:** The leader actively listens to and learns from students, staff, parents, and community stakeholders and creates opportunities within the school to engage students, faculty, parents, and community stakeholders in constructive conversations about important issues.

**Indicator 9.2 - Clear Goals and Expectations:** The leader communicates goals and expectations clearly and concisely using Florida’s common language of instruction and appropriate written and oral skills, communicates student expectations and performance information to students, parents, and community, and ensures faculty receive timely information about student learning requirements, academic standards, and all other local, state, and federal administrative requirements and decisions.

**Indicator 9.3 - Accessibility:** The leader maintains high visibility at school and in the community, regularly engages stakeholders in the work of the school, and utilizes appropriate technologies for communication and collaboration.

**Indicator 9.4 - Recognitions:** The leader recognizes individuals, collegial work groups, and supporting organizations for effective performance.

Domain 4: The focus is on the leader’s professional conduct and leadership practices that represent quality leadership.

<table>
<thead>
<tr>
<th>Domain 4 - Professional and Ethical Behaviors</th>
<th>Proficiency Area – 4 Indicators</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 Proficiency Area</td>
<td>This domain contributes 20% of the FSLA Score</td>
</tr>
</tbody>
</table>

Proficiency Area 10 - Professional and Ethical Behaviors: Effective school leaders demonstrate personal and professional behaviors consistent with quality practices in education and as a community leader by staying informed on current research in education and demonstrating their understanding of the research, engage in professional development opportunities that improve personal professional practice and align with the needs of the school system, and generate a professional development focus in their school that is clearly linked to the system-wide strategic objectives.

**Indicator 10.1 - Resiliency:** The leader demonstrates resiliency in pursuit of student learning and faculty development by staying focused on the school vision and reacting constructively to adversity and barriers to success, acknowledging and learning from errors, constructively managing disagreement and dissent with leadership, and bringing together people and resources with the common belief that the organization can grow stronger when it applies knowledge, skills, and productive attitudes in the face of adversity.

**Indicator 10.2 - Professional Learning:** The leader engages in professional learning that improves professional practice in alignment with the needs of the school and system and demonstrates explicit improvement in specific performance areas based on previous evaluations and formative feedback.

**Indicator 10.3 - Commitment:** The leader demonstrates a commitment to the success of all students, identifying barriers and their impact on the well being of the school, families, and local community.

**Indicator 10.4 - Professional Conduct:** The leader adheres to the Code of Ethics of the Education Profession in Florida (Rule 6B-1.001, F.A.C.) and to the Principles of Professional Conduct for the Education Profession (Rule 6B-1.006, F.A.C.).
FSLA Process

The Florida School Leader Assessment

Districts implement the Florida School Leader Assessment (FSLA) processes listed below to provide:

- **Guides to self-reflection** on what’s important to success as a school leader
- **Criteria for making judgments** about proficiency that are consistent among raters
- **Specific and actionable feedback** from colleagues and supervisors focused on improving proficiency
- **Summative evaluations** of proficiency and determination of performance levels
The seven steps of the FSLA are described below:

**Step 1: Orientation:** The orientation step can occur at the start of a new work year, at the start of a new school year, or at the start of assignment (or new assignment) as a principal. The depth and detail of orientation may vary based on prior training and whether changes in evaluation model have occurred, but an annual orientation or re-fresher orientation should occur. The orientation step should include:

- District provided orientation and training on the Florida Principal Leadership Standards (FPLS), Student Success Act, applicable State Board of Education rules, Race to the Top (RTTT) requirements, and district specific expectations that are subject to the evaluation system.
- All leaders and evaluators should have access to the content and processes that are subject to the evaluation system. All leaders and evaluators should have access to the same information and expectations. This may be provided by the leader’s review of district evaluation documents, online modules, mentor sessions, or face-to-face training where awareness of district processes and expectations are identified.
- At the orientation step, each school leader is expected to engage in personal reflection on the connection between his/her practice and the FPLS and the indicators in the district evaluation system. This is a “what do I know and what do I need to know” self-check aligned with the FPLS and the district evaluation system indicators.

**Step 2: Pre-evaluation Planning:** After orientation processes, the leader and evaluator prepare for a formal conference to address evaluation processes and expectations. Two things occur:

- Leader’s self-assessment from the orientation step moves to more specific identification of improvement priorities. These may be student achievement priorities or leadership practice priorities. The leader gathers any data or evidence that supports an issue as an improvement priority. This may include School Improvement Plan (SIP), student achievement data, prior faculty evaluations, and evidence of systemic processes that need work.
- The evaluator articulates a perspective on strengths and growth needs for the leader and for student achievement issues at the school.

**Step 3: Initial Meeting between evaluatee and evaluator:** A meeting on “expectations” held between leader and supervisor to address the following:

- Evaluation processes are reviewed and questions answered.
- Perceptions (of both) from Pre-evaluation Planning are shared.
- Domain, Proficiency Areas, Indicators from evaluation system that will be focus issues are identified and discussed.
- Student growth measures that are of concern are discussed.
- Relationship of evaluation indicators to the SIP and district-supported initiatives are discussed.
- Such a meeting is typically face-to-face but may also be via tele-conference or phone. (Meeting issues can be clarified via texts and emails as appropriate.)
Proposed targets for Deliberate Practice (additional metric) are discussed and determined, or a timeframe for selection of Deliberate Practice targets are set. While a separate meeting or exchange of information may be implemented to complete the Deliberate Practice targets, they should be discussed at the Step 3 Conference given their importance to the leader’s growth and the summative evaluation.

**Step 4: Monitoring, Data Collection, and Application to Practice:** Evidence is gathered that provides insights on the leader’s proficiency on the issues in the evaluation system by those with input into the leader’s evaluation.

- The leader shares with supervisor evidence on practice on which the leader seeks feedback or wants the evaluator to be informed.
- The evaluator accumulates data and evidence on leader’s actions or impact of leader’s actions during the routine conduct of work. Such data and evidence may come from site visits, be provided by the leader, from formal or informal observations, or from evidence, artifacts or input provided by others. The accumulated information is analyzed in the context of the evaluation system indicators.
- As evidence and observations are obtained that generate specific and actionable feedback, it is provided to the leader in a timely manner. Feedback may be provided face-to-face, via FSLA forms, via email or telephone, or via memoranda.
- Collegial groups, mentors, communities of practice (CoPs), professional learning communities (PLCs), and lesson study groups in which the leader participates may provide specific and actionable feedback for proficiency improvement.
- These monitoring actions occur before and continue after the mid-year Progress Check (step 5).

**Step 5: Mid-year Progress Review between evaluatee and evaluator:** At a mid-year point, a progress review is conducted.

- Actions and impacts of actions taken on priorities identified in Step 3 Initial Meeting are reviewed.
- Any indicators which the evaluator has identified for a specific status update are reviewed. (The leader is given notice of these indicators prior to the Progress Check, as the feedback expected is more specific than that for the general indicator overview.)
- The leader is prepared to provide a general overview of actions/processes that apply to all of the domains and proficiency areas and may include any of the indicators in the district system. Any indicator that the evaluator or the leader wishes to address should be included.
- Strengths and progress are recognized.
- Priority growth needs are reviewed.
- Where there is no evidence related to an indicator and no interim judgment of proficiency can be provided, a plan of action must be made:
  - If the evaluator decides that the absence of evidence indicates unsatisfactory proficiency because actions or impacts of action should be evident if leader
was proficient, the leader is provided notice that the indicator(s) will be addressed in a follow-up meeting.
- The absence of evidence is explained by lack of opportunity for the evaluator to note anything relevant, and leader is asked to provide follow-up data on the indicator prior to the year-end conference.
- The lack of evidence on one indicator is balanced by substantial evidence on other indicators in the same proficiency area. No follow-up is required until evidence supporting a Needs Improvement (NI) or Unsatisfactory (U) rating emerges.

- Any actions or inactions which might result in an unsatisfactory rating on a domain or proficiency area if not improved are communicated.
- Any indicators for which there is insufficient evidence to rate proficiency at this stage, but which will be a priority for feedback in remainder of the year, are noted.
- **FSLA Feedback and Protocol Form** (or district equivalent) is used to provide feedback on all indicators for which there is sufficient evidence to rate proficiency. Notes or memorandums may be attached to the forms as appropriate to reflect what is communicated in the Progress Check.

**Step 6: Prepare a consolidated performance assessment:** The summative evaluation form is prepared by the evaluator and a performance rating assigned.
- Consider including relevant and appropriate evidence by any party entitled to provide input into the leader’s evaluation.
- Review evidence on leader's proficiency on indicators.
- Use accumulated evidence and rating on indicators to rate each proficiency area.
- Consolidate the ratings on proficiency areas into domain ratings.
- Consolidate Domain ratings, using FSLA weights, to calculate a FSLA score.

**Step 7: Year-end Meeting between evaluatee and evaluator:** The year-end meeting addresses the FSLA score, the Deliberate Practice Score and Student Growth Measures.
- The FSLA score is explained.
- The leader’s growth on the Deliberate Practice targets is reviewed and a Deliberate Practice Score assigned.
- The FSLA Score and Deliberate Practice Score are combined (as per weighting formula) to generate a Leadership Practice Score.
- If the Student Growth Measurement (SGM) score is known, inform the leader how the Leadership Practice Score and SGM Score combine to a summative performance level of Highly Effective, Effective, Needs Improvement, or Unsatisfactory.
- If SGM score is not known, inform leader of possible performance levels based on known Leadership Practice Score and various SGM outcomes.
- If recognitions or employment consequences are possible based on performance level, inform leader of district process moving forward.
- Review priority growth issues that should be considered at next year’s step 2 and step 3 processes.
Scoring Guide for State Model Metrics

Directions for use of this Guide

**MAKING NO CHANGES!**

This guide may be used “as is” if using the state model FSLA and Deliberate Practice metric.

**ALL DISTRICTS WILL NEED TO ADD DISTRICT DECISIONS ON CUT SCORES FOR SCHOOL LEADERS IN SECTION FOUR OF THE SCORING GUIDE**

**MAKING CHANGES IN SCORING, FSLA OR DELIBERATE PRACTICE?**

1. Districts may modify the scoring process described in this guide or use a district developed scoring process (which will be described and included in documentation submitted with Review and Approval Checklist)

2. If any aspects of the FSLA or Deliberate Practice metrics are modified by the district, the district should review scoring processes to determine if any of the scoring processes need adjustment based on district changes to the metrics. Submit a scoring process that works with your modified metrics.

3. If a district employs a phase-in option on the FSLA and/or Deliberate Practice metric, the district will need to amend the scoring process to reflect the phase-in decisions.
Scoring Guide for State Model Metrics

An evaluation system that is aligned with the purpose of Section 1012.34, F.S. and applicable State Board rules (e.g., 6A-5.065, 6A-5.080) has two functions:

- Providing quality feedback during a work year that focuses improvement effort on essential proficiencies.
- Generating an annual summative performance level based on the proficiency exhibited during the work year.

For Florida School Leaders being evaluated using the FSLA, the Florida state model for principal evaluation, the summative annual performance level is based on two factors:

- **Student Growth Measures Score (SGM):** The performance of students under the leader’s supervision represents 50% of the annual performance level. The specific growth measures used and “cut points” applied must conform to Florida Statutes and State Board rules.
- **Leadership Practice Score:** An assessment of the leader’s proficiency on the Florida Principal Leadership Standards (FPLS). This is based on two metrics:
  - The Florida School Leader Assessment (FSLA): A system for feedback and growth based on the leader’s work and impact of that work on others. The FSLA contributes 80% of the Leadership Practice Score.
  - Deliberate Practice (DP): Deep learning and growth on a few very specific aspects of educational leadership. The DP Score contributes 20% of the Leadership Practice Score.

Summary of Scoring Processes

**What this FSLA Scoring Guide Covers:**

Section One: How to “score” the FSLA

Section Two: How to “score” Deliberate Practice

Section Three: Leadership Practice Score

Section Four: Annual Performance Rating
Section One: How to Score the FSLA

District Options: The scoring process for the FSLA is one of a number of alternative scoring methods. Districts using the FSLA may use this scoring process or design a district system for scoring the FSLA. Use of the FSLA and use of the FSLA Scoring system are separate decisions. If using the FSLA scoring process, reference this scoring guide in element II-D in the “Review and Approval Checklist for Instructional Personnel and School Administrator Evaluation Systems” when submitting for review and approval. If your scoring model is adapted or is a district-developed scoring process, include your document(s) that describe your scoring process when you submit for review.

About the FSLA Scoring Process
The state scoring model has these features:

- The performance labels used in Section 1012.34, F.S. for summative performance levels are also used in the FSLA to summarize feedback on domains, proficiency areas, and indicators:
  - Highly Effective (HE)
  - Effective (E)
  - Needs Improvement (NI)
  - Unsatisfactory (U)

- Direct Weighting: The FSLA score is based on ratings for each of four domains, but the system specifically gives added weight to Domain 2: Instructional Leadership. The weights are:
  - Domain 1: Student Achievement: 20%
  - Domain 2: Instructional Leadership: 40%
  - Domain 3: Organizational Leadership: 20%
  - Domain 4: Professional and Ethical Behavior: 20%

- Embedded Weighting: The use of Domain scores to generate an FSLA score results in embedded weighting as the Domains have different numbers of indicators. For example: Domain 1 has eight indicators, Domain 3 has 16 indicators and Domain 4 has four indicators, but each Domain contributes 20% to the FLSA score. The result of this is:
  - Domain 2 indicators have the most impact on the FSLA results due to direct weighing. There are 17 indicators, but the Domain is weighted at 40%, thus magnifying the impact of that domain on the final rating.
  - Domain 4 has the next highest level of impact due to embedded weighting. There are only four indicators in this Domain, but the Domain contributes 20% of the FSLA score.
  - Domain 1 has more impact than Domain 3 since Domain 1 has eight indicators and Domain 3 has 16 indicators, but each Domain contributes 20% of the FSLA score.

- Proficiency on Indicators leads to an FSLA Score.
  - Ratings on indicators (using rubrics in the FSLA) are combined to generate a rating (HE, E, NI, or U) on each Proficiency Area.
  - Ratings on Proficiency Areas are combined (using the tables in this scoring guide) to generate a Domain Rating.
  - Ratings on Domains are combined (using tables in this scoring guide) to generate an FLSA Score.
How to determine an FSLA Score?

Generating a score for the FSLA has four steps:

**Step One: Rate each Indicator.**

Start with judgments on the indicators. Indicators in each Proficiency Area are rated as HE, E, NI, or U based on accumulated evidence.

- The FSLA supports this indicator proficiency rating process with rubrics for distinguishing between the levels (HE, E, NI, or U) that are specific to the indicator.
- To guide the rating decision, illustrative examples of leadership actions and illustrative examples of impacts of leadership actions are provided.
- The rubrics for indicators and the illustrative examples are found in the “long forms” – the Data Collection and Feedback Protocols” posted on [www.floridaschoolleaders.org](http://www.floridaschoolleaders.org) (in the Learning Library, Resources Menu: Evaluation Resources – School Leaders).
- Ratings can be recorded on the long form or the short form (all FSLA forms and supporting resources are found on [www.floridaschoolleaders.org](http://www.floridaschoolleaders.org)).

Rating Labels: What do they mean?

The principal should complete a self-assessment by scoring each of the indicators. The evaluator also will score each of the indicators. In an end-of-the-year conference, their respective ratings are shared and discussed. The evaluator then determines a final rating for each indicator and, using the procedures in this scoring guide, calculates an FSLA score.

Indicator ratings:

When assigning ratings to indicators in the FSLA, the evaluator should begin by reviewing the indicator rubrics. These are “word-picture” descriptions of leadership behaviors in each of the four levels of leadership behavior—“Highly Effective”, “Effective”, “Needs Improvement”, and “Unsatisfactory.” The evaluator finds the level that best describes performance related to the indicator.

The rating rubrics provide criteria that distinguish among the proficiency levels on the indicator. The illustrative examples of Leadership Evidence and Impact Evidence for each indicator provide direction on the range of evidence to consider. The rating for each indicator is the lowest rating for which the “word-picture” descriptors are appropriate and representative descriptions of what was observed about the leader’s performance.

The ratings on the indicators aggregate to a rating on the Proficiency Areas based on tables in this guide. The ratings on the Proficiency Areas within a Domain aggregate to a domain rating, using tables and formulas in this scoring guide.

The FSLA rubrics are designed to give principals a formative as well as a summative assessment of where they stand in all leadership performance areas and detailed guidance on how to improve. While they are not checklists for school visits by the principal’s supervisor, they do reflect the key behaviors about which supervisors and principals should be conversing frequently throughout the year. Moreover, these behavioral leadership descriptions will form the basis for principal and supervisor coaching and mentoring sessions.

Distinguishing between proficiency ratings:
The "Effective" level describes leadership performance that has local impact (i.e., within the school) and meets organizational needs. It is adequate, necessary, and clearly makes a significant contribution to the school. The majority of the leadership workforce will be in the effective area once they have a clear understanding of what the FPLS require and have made the adjustments and growth necessary to upgrade performance. The previous rating system of “satisfactory” and “unsatisfactory” does not provide any guidance as to where those who repeat past performance levels will fall in the shift to research and standards-based assessments. Both school leaders and evaluators should reflect on performance based on the new FPLS and the rubrics of the FSLA.

The "Highly Effective" level is reserved for truly outstanding leadership as described by very demanding criteria. Performance at this level is dramatically superior to “Effective” in its impact on students, staff members, parents, and the school district. Highly effective leadership results from recurring engagement with “deliberate practice.” In brief, the "Highly Effective" leader helps every other element within the organization become as good as they are. In normal distributions, some leaders will be rated highly effective on some indicators, but very few leaders will be rated highly effective as a summative performance level.

The "Needs Improvement" level describes principals who understand what is required for success, are willing to work toward that goal, and, with coaching and support, can become proficient. Needs improvement rating will occur where expectations have been raised and standards made more focused and specific. Professional behavior and focused professional learning will guide school leaders toward increasingly effective performance.

Performance at the “Unsatisfactory” level describe leaders who do not understand what is required for proficiency or who have demonstrated through their actions and/or inactions that they choose not to become proficient on the strategies, knowledge bases, and skills sets needed for student learning to improve and faculties to develop.

**Step Two: Rate each Proficiency Area.**

Ratings on the indicators in a Proficiency Area are combined to assign a proficiency level (HE, E, NI, or U) to a Proficiency Area: The distribution of indicator ratings within a Proficiency Area result in a Proficiency Area Rating. Since the number of indicators in a Proficiency Area varies, the following formulas are applied to assign Proficiency Area ratings. For each Proficiency Area, use the appropriate table.

**For Proficiency Areas 1,2,5,7,9 and 10 with **four **Indicators, each Proficiency Area is rated:**

<table>
<thead>
<tr>
<th>Highly Effective (HE) if: three or more indicators are HE and none are less than E.</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Examples:</td>
<td>HE+HE+HE+HE=HE</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Effective (E) if: at least three are E or higher and no more than one are NI. None are U.</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Examples:</td>
<td>E+E+E+HE=E</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Needs Improvement (NI) if: Criteria for E not met and no more than one is U.</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Examples:</td>
<td>E+E+NI+NI=NI</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Unsatisfactory (U) if: two or more are U.</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Examples:</td>
<td>HE+U+U+HE=U</td>
</tr>
</tbody>
</table>
For the Proficiency Areas with fewer or more than four indicators, use the appropriate table below:

**Table 2**

**For proficiency Area 3 with six Indicators**, each Proficiency Area is rated:

<table>
<thead>
<tr>
<th>Highly Effective (HE) if: four or more indicators are HE and none are less than E.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Examples: HE+HE+HE+HE+HE+HE=HE</td>
</tr>
<tr>
<td>Effective (E) if: at least four are E or higher and no more than two are NI. None are U.</td>
</tr>
<tr>
<td>Examples: HE+HE+E+E+E+E=E       E+E+E+E+NI+NI=E</td>
</tr>
<tr>
<td>Needs Improvement (NI) if: Criteria for E not met and no more than two are U.</td>
</tr>
<tr>
<td>Examples: HE+HE+NI+NI+NI+NI=NI  NI+NI+NI+NI+U+U=NI  E+E+E+NI+NI+NI=NI  HE+HE+E+E+U=NI</td>
</tr>
<tr>
<td>Unsatisfactory (U) if: two or more are U.</td>
</tr>
<tr>
<td>Examples: HE+HE+HE+HE+U+U=U     NI+NI+NI+NI+U+U=U</td>
</tr>
</tbody>
</table>

**Table 3**

**For Proficiency Area 4 with seven Indicators**, each Proficiency Area is rated:

<table>
<thead>
<tr>
<th>Highly Effective (HE) if: five or more indicators are HE and none are less than E.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Examples: HE+HE+HE+HE+HE+E=HE</td>
</tr>
<tr>
<td>Effective (E) if: at least five are E or higher and no more than two are NI. None are U.</td>
</tr>
<tr>
<td>Examples: HE+HE+E+E+NI+NI=NI    E+E+E+E+NI+NI=NI</td>
</tr>
<tr>
<td>Needs Improvement (NI) if: Criteria for E not met and no more than two are U.</td>
</tr>
<tr>
<td>Examples: E+E+E+E+NI+NI=NI     HE+HE+E+E+U+U=NI   HE+HE+HE+HE+HE+HE+U=NI</td>
</tr>
<tr>
<td>Unsatisfactory (U) if: two or more are U.</td>
</tr>
<tr>
<td>Examples: HE+HE+HE+HE+HE+HE+U=U   NI+NI+NI+NI+U+U=U</td>
</tr>
</tbody>
</table>

**Table 4**

**For Proficiency Area 6 with five Indicators**, each Proficiency Area is rated:

<table>
<thead>
<tr>
<th>Highly Effective (HE) if: four or more indicators are HE and none are less than E.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Examples: HE+HE+HE+HE+HE=HE     HE+HE+HE+HE+E=HE</td>
</tr>
<tr>
<td>Effective (E) if: at least four are E or higher and no more than one are NI. None are U.</td>
</tr>
<tr>
<td>Needs Improvement (NI) if: Criteria for E not met and no more than one is U.</td>
</tr>
<tr>
<td>Examples: HE+HE+NI+NI+NI=NI    E+E+NI+NI+U=NI  NI+NI+NI+NI+U=NI</td>
</tr>
<tr>
<td>Unsatisfactory (U) if: two or more are U.</td>
</tr>
<tr>
<td>Examples: HE+HE+HE+U+U=U       NI+NI+NI+NI+U=U</td>
</tr>
</tbody>
</table>
Table 5

For Proficiency Area 8 with three Indicators, each Proficiency Area is rated:

Highly Effective (HE) if: two or more indicators are HE and none are less than E.

Examples: HE+HE+HE=HE  HE+HE+E=HE

Effective (E) if: two or more are E or higher and no more than one is NI. None are U.

Examples: E+E+E=E  E+HE=E  E+HE+NI=E  HE+HE+NI=E

Needs Improvement (NI) if: Criteria for E not met and no more than one is U.

Examples: NI+NI+NI=NI  NI+NI+U=NI  HE+E+U=NI  HE+NI+NI=NI

Unsatisfactory (U) if: two or more are U.

Examples: HE+U+U=U  NI+U+U=U

When you have a rating (HE, E, NI, or U) for each Proficiency Area in a Domain, you then generate a Domain rating.

**Step Three: Rate Each Domain.**

Domains are rated as HE, E, NI, or U based on the distribution of ratings on Proficiency Areas within the Domain. The tables below provide rating criteria for each FSLA Domain.

Table 6

<table>
<thead>
<tr>
<th>Domain Rating</th>
<th>Domain 1: Student Achievement (Two Proficiency Areas)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Highly Effective if:</td>
<td>Both Proficiency Areas rated HE</td>
</tr>
<tr>
<td>Effective if:</td>
<td>One Proficiency Area rated HE and one Effective, or</td>
</tr>
<tr>
<td></td>
<td>Both rated Effective</td>
</tr>
<tr>
<td>Needs Improvement if:</td>
<td>One Proficiency Area rated HE or E and one rated NI or U</td>
</tr>
<tr>
<td></td>
<td>Both Proficiency Areas rated NI</td>
</tr>
<tr>
<td>Unsatisfactory if:</td>
<td>One Proficiency Area rated NI and the other is rated U</td>
</tr>
<tr>
<td></td>
<td>Both are rated U</td>
</tr>
</tbody>
</table>

Table 7

<table>
<thead>
<tr>
<th>Domain Rating</th>
<th>Domain 2: Instructional Leadership (Three Proficiency Areas)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Highly Effective if:</td>
<td>All three Proficiency Areas are HE</td>
</tr>
<tr>
<td></td>
<td>Two Proficiency Areas rated HE and one E</td>
</tr>
<tr>
<td>Effective if:</td>
<td>Two Proficiency Area rated E and one Effective or NI</td>
</tr>
<tr>
<td></td>
<td>All three Proficiency Areas rated E</td>
</tr>
<tr>
<td>Needs Improvement if:</td>
<td>Any two Proficiency Areas rated NI</td>
</tr>
<tr>
<td></td>
<td>One Proficiency Area rated NI, one Proficiency Area rated U and one Proficiency Area rated E or HE</td>
</tr>
<tr>
<td>Unsatisfactory if:</td>
<td>Two or more Proficiency Areas rated U</td>
</tr>
</tbody>
</table>
Table 8

<table>
<thead>
<tr>
<th>Domain Rating</th>
<th>Domain 3: Organizational Leadership (Four Proficiency Areas)</th>
</tr>
</thead>
</table>
| Highly Effective if: | • All four Proficiency Areas are HE  
• Three Proficiency Areas rated HE and one E |
| Effective if: | • Two Proficiency Areas rated E and two rated HE  
• All four Proficiency Areas rated E  
• Three Proficiency Areas rated E and one rated either NI or HE |
| Needs Improvement if: | • Two Proficiency Areas rated E and two rated NI  
• Any three Proficiency Areas rated NI  
• One Proficiency Area rated NI, one Proficiency Area rated U and two Proficiency Area rated E or HE |
| Unsatisfactory if: | • Two or more Proficiency Areas rated U |

Table 9

<table>
<thead>
<tr>
<th>Domain Rating</th>
<th>Domain 4: Professional Behaviors (One Proficiency Area)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Highly Effective if:</td>
<td>If Proficiency Area 10 rated HE</td>
</tr>
<tr>
<td>Effective if:</td>
<td>If Proficiency Area 10 rated E</td>
</tr>
<tr>
<td>Needs Improvement if:</td>
<td>If Proficiency Area 10 rated NI</td>
</tr>
<tr>
<td>Unsatisfactory if:</td>
<td>If Proficiency Area 10 rated U</td>
</tr>
</tbody>
</table>

When you have determined Domain ratings, you then combine those ratings to generate an FSLA score.

**Step 4: Calculate the FSLA Score.**

- In Step One, proficiency ratings for indicators were made based on an assessment of available evidence and the rating rubrics.
- In Step Two, the apportionment of Indicators ratings, using the tables provided, generated a rating for each Proficiency Area within a Domain.
- In Step Three, Domain ratings were generated. All of these steps were based on evidence on the indicators and scoring tables.

At the FSLA scoring stage the model shifts to a weighted point system. Points are assigned to Domain ratings, direct weights are employed, and scores are converted to a numerical scale. The following point model is used:

Table 10

<table>
<thead>
<tr>
<th>DOMAIN RATING</th>
<th>POINTS ASSIGNED</th>
</tr>
</thead>
<tbody>
<tr>
<td>A Domain rating of Highly Effective</td>
<td>3 points</td>
</tr>
<tr>
<td>A Domain rating of Effective</td>
<td>2 points</td>
</tr>
<tr>
<td>A Domain rating of Needs Improvement</td>
<td>1 point</td>
</tr>
<tr>
<td>A Domain rating of Unsatisfactory</td>
<td>0 points</td>
</tr>
</tbody>
</table>

The Domain points are multiplied by the Domain’s direct weight: The rating is entered in column 2 (“Rating”), the points in column 3 (“Points”), and a weighted score calculated in column 5.
Table 11

<table>
<thead>
<tr>
<th>Domain</th>
<th>Rating</th>
<th>Points</th>
<th>Weight</th>
<th>Domain Weighted Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Domain I: Student Achievement</td>
<td></td>
<td></td>
<td>.20</td>
<td></td>
</tr>
<tr>
<td>Domain 2: Instructional Leadership</td>
<td></td>
<td></td>
<td>.40</td>
<td></td>
</tr>
<tr>
<td>Domain 3: Organizational Leadership</td>
<td></td>
<td></td>
<td>.20</td>
<td></td>
</tr>
<tr>
<td>Domain 4: Professional and Ethical Behavior</td>
<td></td>
<td></td>
<td>.20</td>
<td></td>
</tr>
</tbody>
</table>

**Example**

Table 12

<table>
<thead>
<tr>
<th>Domain</th>
<th>Rating</th>
<th>Points</th>
<th>Weight</th>
<th>Domain Weighed Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Domain I: Student Achievement</td>
<td>HE</td>
<td>3</td>
<td>.20</td>
<td>.6</td>
</tr>
<tr>
<td>Domain 2: Instructional Leadership</td>
<td>E</td>
<td>2</td>
<td>.40</td>
<td>.8</td>
</tr>
<tr>
<td>Domain 3: Organizational Leadership</td>
<td>HE</td>
<td>3</td>
<td>.20</td>
<td>.6</td>
</tr>
<tr>
<td>Domain 4: Professional &amp; Ethical Behavior</td>
<td>NI</td>
<td>1</td>
<td>.20</td>
<td>.2</td>
</tr>
</tbody>
</table>

After a Domain Weighted Score is calculated, the scores are converted to a 100 point scale. This process results in a FSLA Score range of 0 to 300 Points.

This table illustrates the conversion of a Domain Weighted value to a 100 point scale.

**Example**

Table 13

<table>
<thead>
<tr>
<th>Domain</th>
<th>Rating</th>
<th>Points</th>
<th>Weight</th>
<th>Weighed value</th>
<th>Convert to 100 point scale</th>
<th>Domain Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Domain 1: Student Achievement</td>
<td>HE</td>
<td>3</td>
<td>.20</td>
<td>.6</td>
<td>x 100</td>
<td>60</td>
</tr>
<tr>
<td>Domain 2: Instructional Leadership</td>
<td>E</td>
<td>2</td>
<td>.40</td>
<td>.8</td>
<td>x 100</td>
<td>80</td>
</tr>
<tr>
<td>Domain 3: Organizational Leadership</td>
<td>HE</td>
<td>3</td>
<td>.20</td>
<td>.6</td>
<td>x 100</td>
<td>60</td>
</tr>
<tr>
<td>Domain 4: Professional and Ethical Behavior</td>
<td>NI</td>
<td>1</td>
<td>20</td>
<td>.2</td>
<td>x 100</td>
<td>20</td>
</tr>
</tbody>
</table>

The Domain scores are added up and an FSLA score determined. The FSLA Score is converted to an FSLA rating of HE, E, NI, or U based on this scale:
Table 14

<table>
<thead>
<tr>
<th>FSLA SCORE</th>
<th>FSLA Proficiency Rating</th>
</tr>
</thead>
<tbody>
<tr>
<td>241 to 300</td>
<td>Highly Effective</td>
</tr>
<tr>
<td>151 to 240</td>
<td>Effective</td>
</tr>
<tr>
<td>75 to 150</td>
<td>Needs Improvement</td>
</tr>
<tr>
<td>0 to 74</td>
<td>Unsatisfactory</td>
</tr>
</tbody>
</table>

The FSLA score is combined with a Deliberate Practice Score to generate a Leadership Practice Score. Section Three provides scoring processes for Deliberate Practice.

The FSLA score will be 80% of the Leadership Score.

The Deliberate Practice Score will be 20% of the Leadership Practice.

(Note: If there is no Deliberate Practice or other additional metric at this time, then the FSLA score is the Leadership Practice Score.)
Section Two: How to Score Deliberate Practice

NOTE: This section applies IF the district is using the state model deliberate practice metric. If deliberate practice is not in use at this time, skip to Section Three.

**Deliberate Practice Score**
- The DP score is 20% of the Leadership Practice Score.
- The DP metric will have 1 to 4 specific growth targets.
- Each target will have progress points (much like a learning goal for students).
- The targets will have equal weight and the leader’s growth on each will be assessed as HE, E, NI, or U.

Table 15

<table>
<thead>
<tr>
<th>Scoring a DP Growth Target</th>
<th>Rating Rubrics</th>
</tr>
</thead>
<tbody>
<tr>
<td>Highly Effective</td>
<td>Target met, all progress points achieved, and verifiable improvement in leaders performance</td>
</tr>
<tr>
<td>Effective</td>
<td>Target met, progress points achieve...impact not yet evident</td>
</tr>
<tr>
<td>Needs Improvement</td>
<td>Target not met, but some progress points met</td>
</tr>
<tr>
<td>Unsatisfactory</td>
<td>Target not met, nothing beyond 1 progress point</td>
</tr>
</tbody>
</table>

A DP Score has an upper limit of 300 points. Each target is assigned an equal proportion of the total points. Therefore the points for each target will vary based on the number of targets.

Table 16

<table>
<thead>
<tr>
<th>Number of growth targets</th>

<td>Needs Improvement</td>
</tr>
<tr>
<td>0 to 74</td>
<td>Unsatisfactory</td>
</tr>
</tbody>
</table>

Summary

80% of the Leadership Practice Score is based on the Florida School Leader Assessment Proficiency Score.

20% of the Leadership Practice Score is based on the Deliberate Practice Growth Score.
Section Three How to Calculate a Leadership Practice Score

A. FLSA SCORE:
   ______ x .80 = ________

B. Deliberate Practice Score:
   ______ x .20 = ______

C. Add scores from calculations A and B above to obtain Leadership Practice Score

Example:

FLSA score of 220 x .80 = 176
DP score of 230 x .20 = 46
Leadership Practice Score is 222.

<table>
<thead>
<tr>
<th>Leadership Score Range</th>

</tbody>
</table>
Section Four How to Calculate an Annual Performance Level

1: Enter Cut scores for Student Growth Measures using a 300 point scale:

Above XXX = Highly effective
XXX to XXX = Effective
XXX to XXX = Needs Improvement
Below XXX = Unsatisfactory

Step 2: Enter Leadership Practice Score: ________________

Step 3: Add SGM score and Leadership Practice Score

Example: SGM score of 212 + Leadership Practice score of 222 = 432 performance score

Performance score of 432 = rating of effective

<table>
<thead>
<tr>
<th>Performance Score ranges</th>
<th>Performance Level Rating</th>
</tr>
</thead>
<tbody>
<tr>
<td>480 to 600</td>
<td>Highly Effective</td>
</tr>
<tr>
<td>301 to 479</td>
<td>Effective</td>
</tr>
<tr>
<td>150 to 300</td>
<td>Needs Improvement</td>
</tr>
<tr>
<td>0 to 149</td>
<td>Unsatisfactory</td>
</tr>
</tbody>
</table>

Step 4: Enter rating on Evaluation form
Data Collection and Feedback Protocol Forms and Evaluation Rubrics

Florida School Leader Assessment

Data Collection and Feedback Protocol Forms for

Domains 1, 2, 3 and 4

These forms provide guidance to school leaders and evaluators on what is expected regarding each indicator.

The forms provide:

- The text of all Proficiency Areas and FSLA indicators
- Rubrics to distinguish among proficiency levels
  - A generic rubric that applies to each indicator and
  - An indicator specific rubric that applies to the individual indicator
- Narratives to assist in understanding the focus and priorities embedded in the FSLA
- Illustrative examples of Leadership Actions and Impacts on Others of Leadership Action that assist in understanding how the issue(s) in an indicator are observed "on the job"
- Reflection questions to guide personal growth
Domain 1 - Student Achievement

Narrative: Student achievement results in the student growth measures (SGM) segment of evaluation represent student results on specific statewide or district assessments or end-of-course exams. The leadership practice segment of the evaluation, through the proficiency areas and indicators in this domain, focuses on leadership behaviors that influence the desired student results.

Proficiency Area 1. Student Learning Results: Effective school leaders achieve results on the school’s student learning goals and direct energy, influence, and resources toward data analysis for instructional improvement, development and implementation of quality standards-based curricula.

Narrative: This proficiency area focuses on the leader’s knowledge and actions regarding academic standards, use of performance data, planning and goal setting related to targeted student results, and capacities to understand what results are being obtained. This proficiency area is aligned with Florida Principal Leadership Standard #1.

Indicator 1.1 - Academic Standards: The leader demonstrates understanding of student requirements and academic standards (Common Core Standards and Next Generation Sunshine State Standards).

Narrative: Standards-based instruction is an essential element in the state's plan of action for preparing Florida’s students for success in a 21st century global economy. This indicator is focused on the leader’s understanding of what students are to know and be able to do. School leaders need to know the academic standards teachers are to teach and students are to master.

Note: Every credit course has specific academic standards assigned to it. Common Core Standards and Next Generation Sunshine State Standards (NGSSS) assigned to each course are found at www.floridastandards.org.

</thead>
<tbody>
<tr>
<td>Effective: Leader’s actions or impact of leader’s actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.</td>
</tr>
<tr>
<td>Needs Improvement: Leader’s actions or impact of leader’s actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.</td>
</tr>
<tr>
<td>Unsatisfactory: Leader’s actions or impact of leader’s actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.</td>
</tr>
</tbody>
</table>

Every faculty meeting and staff development forum is focused on student achievement on the Common Core Standards and NGSSS, including periodic

The link between standards and student performance is in evidence from the alignment in lesson plans of learning goals, activities and assignments to

Common Core Standards and NGSSS are accessible to faculty and students. Required training on standards-based instruction has been conducted, but the link

Classroom learning goals and curriculum are not monitored for alignment to standards or are considered a matter of individual discretion regardless of course
reviews of student work. The leader can articulate which Common Core Standards are designated for implementation in multiple courses.

course standards. The leader is able to recognize whether or not learning goals and student activities are related to standards in the course descriptions.

between standards and student performance is not readily evident to many faculty or students.

Assignments and activities in most, but not all courses relate to the standards in the course descriptions.

description requirements. The leader is hesitant to intrude or is indifferent to decisions in the classroom that are at variance from the requirements of academic standards in the course descriptions.

Training for the faculty on standards-based instruction does not occur and the leader does not demonstrate knowledge of how to access standards.

**Leadership Evidence** of proficiency on this indicator may be seen in the leader’s behaviors or actions. **Illustrative examples** of such evidence may include, but are not limited to the following:

- School leader extracts data on standards associated with courses in the master schedule from the course descriptions and monitor for actual implementation.
- Lesson plans are monitored for alignment with correct standards.
- Agendas, memoranda, etc. reflect leader’s communications to faculty on the role of state standards in curriculum, lesson planning, and tracking student progress.
- Common Core Standards shared by multiple courses are identified and teachers with shared Common Core Standards are organized by the leader into collegial teams to coordinate instruction on those shared standards.
- Other leadership evidence of proficiency on this indicator.

**Impact Evidence** of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. **Illustrative examples** of such evidence may include, but are not limited to the following:

- Lesson plans identify connections of activities to standards.
- Teacher leaders’ meeting records verify recurring review of progress on state standards.
- Students can articulate what they are expected to learn in a course and their perceptions align with standards in the course description.
- Teachers routinely access course descriptions to maintain alignment of instruction with standards.
- Other impact evidence of proficiency on this indicator.

**Scale Levels:** (choose one) *Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:*

</tr>
</tbody>
</table>
Indicator 1.2 – Performance Data: The leader demonstrates the use of student and adult performance data to make instructional leadership decisions.

Narrative: This indicator addresses the leader’s proficiency in use of student and adult performance data to make instructional leadership decisions. What does test data and other sources of student performance data related to targeted academic goals say about what is needed? What does data about teacher proficiency or professional learning needs indicate needs to be done? The focus is what the leader does with data about student and adult performance to make instructional decisions that impact student achievement.

The leader can specifically document examples of decisions in teaching, assignment, curriculum, assessment, and intervention that have been made on the basis of data analysis.

The leader has coached school administrators in other schools to improve their data analysis skills and to inform instructional decision making.

The leader uses multiple data sources, including state, district, school, and classroom assessments, and systematically examines data at the subscale level to find strengths and challenges.

The leader empowers teaching and administrative staff to determine priorities using data on student and adult performance. Data insights are regularly the subject of faculty meetings and professional development sessions.

The leader is aware of state and district results and has discussed those results with staff, but has not linked specific decisions to the data.

Data about adult performance (e.g. evaluation feedback data, professional learning needs assessments) are seldom used to inform instructional leadership decisions.

The leader is unaware of or indifferent to the data about student and adult performance, or fails to use such data as a basis for making decisions.

Leadership Evidence of proficiency on this indicator may be seen in the leader’s behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:

- Data files and analyses on a wide range of student performance assessments are in routine use by the leader.
- Analyses of trends and patterns in student performance over time are reflected in presentations to faculty on instructional improvement needs.
- Analyses of trends and patterns in evaluation feedback on faculty proficiencies and professional learning needs are reflected in presentations to faculty on instructional improvement needs.
- Leader’s agendas, memoranda, etc. reflect recurring attention to performance data and data analyses.
- Other leadership evidence of proficiency on this indicator.

Impact Evidence of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. Illustrative examples of such evidence may include, but are not limited to the following:

- Teachers use performance data to make instructional decisions.
- Department and team meetings reflect recurring attention to student performance data.
- Teacher leaders identify changes in practice within their teams or departments based on performance data analyses.
- Teacher leaders make presentations to colleagues on uses of performance data to modify instructional practices.
- Other impact evidence of proficiency on this indicator.

Leadership Evidence of proficiency on this indicator may be seen in the leader’s behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:

- Clearly stated goals are accessible to faculty and students.
- Agendas, memoranda, and other documents reflect a comprehensive planning process that resulted in formulation of the adopted goals.
- Leader’s presentations to faculty provide recurring updates on the status of plan implementation and progress toward goals.
- Leader’s presentations to parents focus on the school goals for student achievement.
- Other leadership evidence of proficiency on this indicator.

Impact Evidence of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. Illustrative examples of such evidence may include, but are not limited to the following:

- Faculty members are able to describe their participation in planning and goal setting processes.
- Goals relevant to students and teachers’ actions are evident and accessible.
- Students are able to articulate the goals for their achievement which emerged from faculty and school leader planning.
- Teachers and students track their progress toward accomplishment of the stated goals.
- Other impact evidence of proficiency on this indicator.

Scale Levels: (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency.

A consistent record of improved student achievement exists on multiple indicators of student success. Student success occurs not only on the overall averages, but in each group of historically disadvantaged students. Explicit use of previous data indicates that the leader has focused on improving performance. In areas of previous success, the leader aggressively identifies new challenges, moving proficient performance to the exemplary level. Where new challenges emerge, the leader highlights the need, creates effective interventions, and reports improved results.

The leader reaches the required numbers, meeting performance goals for student achievement. Results on accomplished goals are used to maintain gains and stimulate future goal setting. The average of the student population improves, as does the achievement of each group of students who have previously been identified as needing improvement.

Accumulation and exhibition of student improvement results are inconsistent or untimely. Some evidence of improvement exists, but there is insufficient evidence of using such improvements to initiate changes in leadership, teaching, and curriculum that will create the improvements necessary to achieve student performance goals.

The leader has taken some decisive actions to make some changes in time, teacher assignment, curriculum, leadership practices, or other variables in order to improve student achievement, but additional actions are needed to generate improvements for all students.

Evidence of student improvement is not routinely gathered and used to promote further growth. Indifferent to the data about learning needs, the leader blames students, families, and external characteristics for insufficient progress. The leader does not believe that student achievement can improve.

The leader has not taken decisive action to change time, teacher assignment, curriculum, leadership practices, or other variables in order to improve student achievement.

Leadership Evidence of proficiency on this indicator may be seen in the leader’s behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:

- The leader generates data that describes what improvements have occurred.
- Agendas, memoranda, and other documents for faculty and students communicate the progress made and relate that progress to teacher and student capacity to make further gains.

Impact Evidence of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. Illustrative examples of such evidence may include, but are not limited to the following:

- Teachers routinely inform students and parents on student progress on instructional goals.
- Posters and other informational signage informing of student improvements are distributed in the school and community.
- Team and department meetings’ minutes reflect attention to
Evidence on student improvement is routinely shared with parents.
Other leadership evidence of proficiency on this indicator.

Narrative: This proficiency area is aligned with Florida Principal Leadership Standard #2. A learning organization has essential elements regarding the behavior of people in the organization. When all elements are present and interacting, productive systemic change is possible. This proficiency area is focused on the degree to which learning organization elements exist in the school and reflect the following priorities on student learning:

- Supports for personal mastery of each person's job focus on job aspects related to student learning
- Team learning among faculty is focused on student learning
- Processes for exploring and challenging mental models that hamper understanding and progress on student learning are in use
- A shared vision has student learning as a priority
- Systems thinking is employed to align various aspects of school life in ways that promote learning

### Indicator 2.1 – Learning Organization

The leader enables faculty and staff to work as a system focused on student learning and engages faculty and staff in efforts to close learning performance gaps among student subgroups within the school.

Narrative: Are the elements of a learning organization present among the adults in the school? Are the learning organization elements focused on student learning? Is the system in operation at the school engaging faculty in improving results for under-achieving subgroups? This indicator addresses the systemic processes that make gap reduction possible. Is the leader proficient in building capacity for change?

Note: Indicator 5.4 from Florida Principal Leadership Standard #5 addresses actual success in reducing achievement gaps.

Reflection Questions for Indicator 2.1
### Highly Effective

Has your leadership resulted in people continually expanding their capacity to create the results they truly desire? Is there evidence that new and expansive patterns of thinking are nurtured? Are the people who make up your school community continually learning to see the “big picture” (i.e. the systemic connections between practices and processes)?

### Effective

Where the essential elements of a learning organization are in place and interacting, how do you monitor what you are creating collectively is focused on student learning needs and making a difference for all students?

### Needs Improvement

What essential elements of a learning organization have supports in place and which need development?

Understanding that systemic change does not occur unless all of the essential elements of the learning organization are in operation, interacting, and focused on student learning as their priority function, what gaps do you need to fill in your supporting processes and what leadership actions will enable all faculty and staff to get involved?

### Unsatisfactory

What happens in schools that are effective learning organizations that does not happen in this school?

How can you initiate work toward a learning organization by developing effective collaborative work systems (e.g., Data Teams, Professional Learning Communities, Lesson Studies)?

---

### Indicator 2.2 – School Climate: The leader maintains a school climate that supports student engagement in learning.

Narrative: “Climate” at a school is determined by how people treat one another and what is respected and what is not. School leaders who promote a school climate where learning is respected, effort is valued, improvement is recognized, and it is safe to acknowledge learning needs have provided students support for sustained engagement in learning.

<td><strong>Needs Improvement:</strong> Leader’s actions or impact of leader’s actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.</td>
<td><strong>Unsatisfactory:</strong> Leader’s actions or impact of leader’s actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.</td>
</tr>
<tr>
<td>The leader ensures that the school’s identity and climate (e.g., vision, mission, values, beliefs, and goals) actually drives decisions and informs the climate of the school. Respect for students’ cultural, linguistic and family background is evident in the leader’s conduct and expectations for the faculty. The leader is proactive in guiding faculty in adapting the learning environment to accommodate the differing needs and diversity of</td>
<td>The leader systematically (e.g., has a plan, with goals, measurable strategies, and recurring monitoring) establishes and maintains a school climate of collaboration, distributed leadership, and continuous improvement, which guides the disciplined thoughts and actions of all staff and students. Policies and the implementation of those policies result in a climate of respect for student learning needs and cultural, linguistic and family background.</td>
<td>Some practices promote respect for student learning needs and cultural, linguistic and family background, but there are discernable subgroups who do not perceive the school climate as supportive of their needs. The school climate does not generate a level of school-wide student engagement that leads to improvement trends in all student subgroups.</td>
<td>Student and/or faculty apathy in regard to student achievement and the importance of learning is easily discernable across the school population and there are no or minimal leadership actions to change school climate. Student subgroups are evident that do not perceive the school as focused on or respectful of their learning needs or cultural, linguistic and family background or there is no to minimal support for managing individual and class behaviors.</td>
</tr>
</tbody>
</table>
students. School-wide values, beliefs, and goals are supported by individual and class behaviors through a well-planned management system.

Classroom practices on adapting the learning environment to accommodate the differing needs and diversity of students are consistently applied throughout the school.

The leader provides school rules and class management practices that promote student engagement and are fairly implemented across all subgroups. Classroom practices on adapting the learning environment to accommodate the differing needs and diversity of students are inconsistently applied.

Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:

- The leader organizes, allocates, and manages the resources of time, space, and attention so that the needs of all student subgroups are recognized and addressed.
- There are recurring examples of the leader's presentations, documents, and actions that reflect respect for students' cultural, linguistic and family background.
- The leader maintains a climate of openness and inquiry and supports student and faculty access to leadership.
- The school's vision, mission, values, beliefs, and goals reflect an expectation that student learning needs and cultural, linguistic and family backgrounds are respected and school rules consistent with those beliefs are routinely implemented.
- Professional learning is provided to sustain faculty understanding of student needs.
- Procedures are in place and monitored to ensure students have effective means to express concerns over any aspect of school climate.
- Other leadership evidence of proficiency on this indicator.

Impact Evidence of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. Illustrative examples of such evidence may include, but are not limited to the following:

- Classroom rules and posted procedures stress positive expectations and not just “do nots.”
- All student subgroups participate in school events and activities.
- A multi-tiered system of supports that accommodates the differing needs and diversity of students is evident across all classes.
- Students in all subgroups express a belief that the school responds to their needs and is a positive influence on their future well-being.
- Walkthroughs provide recurring trends of high student engagement in lessons.
- Student services staff/counselors' anecdotal evidence shows trends in student attitudes toward the school and engagement in learning.
- Teacher/student/parent survey or questionnaire results reflect a school climate that supports student engagement in learning.
- The availability of and student participation in academic supports outside the classroom that assist student engagement in learning.
- Other impact evidence of proficiency on this indicator.

Scale Levels: (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

</table>

Leadership Evidence of proficiency on this indicator may be seen in the leader’s behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:

- School Improvement Plan targets meaningful growth beyond what normal variation might provide.
- Test specification documents and state standards are used to identify levels of student performance and performance at the higher levels of implementation is stressed.
- Samples of written feedback provided to teachers regarding student goal setting practices are focused on high expectations.
- Agendas/Minutes from collaborative work systems (e.g., Data Teams, Professional Learning Communities) address processes for “raising the bar.”
- Other leadership evidence of proficiency on this indicator.

Impact Evidence of leadership proficiency may be seen in the behaviors or status of the faculty and staff. Illustrative examples of such evidence may include, but are not limited to the following:

- Rewards and recognitions are aligned with efforts for the more difficult rather than easier outcomes.
- Learning goals routinely identify performance levels above the targeted implementation level.
- Teachers can attest to the leader’s support for setting high academic expectations.
- Students can attest to the teacher’s high academic expectations.
- Parents can attest to the teacher’s high academic expectations.
- Other impact evidence of proficiency on this indicator.

Scale Levels: (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

Highly Effective

What strategies have you considered using that would increase the professional knowledge opportunities for colleagues across the school district in the area of setting high academic expectations for students?

Effective

How might you incorporate community members and other stakeholder groups into the establishment and support of high academic expectations?

Needs Improvement

What are 2-3 key strategies you have thought about using that would increase your consistency in creating and supporting high academic expectations for every student?

Unsatisfactory

What might be some strategies you could use to create or support high academic expectations of students?

Indicator 2.4 – Student Performance Focus: The leader demonstrates understanding of present levels of student performance based on routine assessment processes that reflect the current reality of student proficiency on academic standards.

Narrative: Lots of talk about high expectations, goal setting, working hard, rigor, and getting results is important, but leaders need to know where students’ actual performance levels are to be able to track real
progress. Knowing annual test results is useful, but it is not enough. What does the leader do to know whether progress is being made or not and whether “mid-course” corrections are required?

Domain 2 - Instructional Leadership

Narrative: School leaders do many things. Domain 2 of the FSLA addresses a core of leader behaviors that impact the quality of essential elements for student learning growth. The skill sets and knowledge bases employed for this domain generate 40% of the FSLA Score. The success of the school leader in providing a quality instructional framework, appropriately focused faculty development, and a student oriented learning environment are essential to student achievement.

Proficiency Area 3. Instructional Plan Implementation: Effective school leaders work collaboratively to develop and implement an instructional framework that aligns curriculum with state standards, effective instructional practices, student learning needs, and assessments.

Narrative: Proficiency Area 3 is focused on Florida Principal Leadership Standard #3 (FPLS). Aligning the key issues identified in the indicators into an efficient system is the leader's responsibility. This area stresses the leader's proficiency at understanding the current reality of what faculty and students know and can do regarding priority practices and goals.

Indicator 3.1 – FEAPs: The leader aligns the school’s instructional programs and practices with the Florida Educator Accomplished Practices (Rule 6A-5.065, F.A.C.) and models use of the Florida common language of instruction to guide faculty and staff implementation of the foundational principles and practices.

Narrative: Indicator 3.1 is focused on the school leader's understanding of the Florida Educator Accomplished Practices (FEAPs) and ability to use Florida’s common language of instruction. To be effective participants in school, district and statewide communities of practice working collegially for high quality implementation of the FEAPs, educators at the school level must be able to communicate and organize their efforts using the terms and concepts in the FEAPs and the Florida common language of instruction. This indicator is about the school leader's proficiency in making that happen by using a core set of expectations (the FEAPs) and terminology (the common language) to guide and focus teacher discussions on instructional improvements. Florida's common language of instruction is used so that educators in Florida use the core terms in the same way and with a common understanding.

Note: The FEAPs, a FEAPs brochure, and Florida’s common language may be explored at http://www.floridaschoolleaders.org.

#### Leadership Evidence

Illustrative examples of such evidence may include, but are not limited to the following:

- The leader's documents, agendas, memorandum, etc. make reference to the content of the FEAPs and make correct use of the common language.
- School improvement documents reflect concepts from the FEAPs and common language.
- The leader can articulate the instructional practices set forth in the FEAPs.
- Faculty meetings focus on issues related to the FEAPs.
- The leader’s monitoring practices result in written feedback to faculty on quality of alignment of instructional practice with the FEAPs.
- The leader’s communications to parents and other stakeholders reflect use of FEAPs and common language references.
- Other leadership evidence of proficiency on this indicator.

#### Impact Evidence

Illustrative examples of such evidence may include, but are not limited to the following:

- Teachers are conversant with the content of the FEAPs.
- Teachers can describe their primary instructional practices using the terms and concepts in the FEAPs.
- Teachers use the common language and attribute their use to the leader providing access to the online resources.
- School level support programs for new hires include training on the FEAPs.
- FEAPs brochures and excerpts from the common language are readily accessible to faculty.
- Faculty members are able to connect indicators in the district’s instructional evaluation system with the FEAPs.
- Sub-ordinate leaders (e.g. teacher leaders, assistant principals) use FEAPs and common language terms accurately in their communications.
- Other impact evidence of proficiency on this indicator.

Indicator 3.2 - Standards-Based Instruction: The leader delivers an instructional program that implements the state’s adopted academic standards (Common Core and NGSSS) in a manner that is rigorous and culturally relevant to the students by:

- aligning academic standards, effective instruction and leadership, and student performance practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals, and
- communicating to faculty the cause and effect relationship between effective instruction on academic standards and student performance.

Narrative: Florida’s plan of action for educating our children for the 21st century is based on standards-based instruction. Course descriptions specify the standards that are to be learned in each course. All of the course content in courses for which students receive credit toward promotion/graduation is expected to be focused on the standards in the course description. This indicator addresses the leader’s proficiency at making sure all students receive rigorous, culturally relevant standards-based instruction by aligning key practices with the state’s academic standards (Common Core, NGSSS, Access Points). The leader does what is necessary to make sure faculty recognize and act on the cause and effect relationship between good instruction (i.e., research-based strategies, rigorous, culturally relevant,) on the “right stuff” (the state standards adapted based on data about student needs).

Note: Course descriptions and the standards for each course may be explored at [www.floridastandards.org](http://www.floridastandards.org).

<tr>
<td>Leader's actions or impact of leader’s actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders. Processes exist for all courses to ensure that what students are learning is aligned with state standards for the course. The leader has institutionalized quality control monitoring to ensure that instruction is aligned with the standards and is consistently delivered in a rigorous and culturally relevant manner for all students. Teacher teams coordinate work on student mastery of the standards to promote integration of the standards into useful skills. The leader provides quality assistance to other school leaders in effective ways to.</td>
<td>Leader’s actions or impact of leader’s actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations. Processes exist for most courses to ensure that what students are learning is aligned with state standards for the course. Instruction aligned with the standards is, in most courses, delivered in a rigorous and culturally relevant manner for all students. The leader routinely monitors instruction to ensure quality is maintained and intervenes as necessary to improve alignment, rigor, and/or cultural relevance for most courses. Collegial faculty teamwork is evident in coordinating instruction on Common Core standards that are addressed in more than one course.</td>
<td>Leader’s actions or impact of leader’s actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency. Processes exist for some courses to ensure that what students are learning is aligned with state standards for the course. Instruction is aligned with the standards in some courses. Instruction is delivered in a rigorous manner in some courses. Instruction is culturally relevant for some students. The leader has implemented processes to monitor progress in some courses, but does not intervene to make improvements in a timely manner.</td>
<td>Leader’s actions or impact of leader’s actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact. There is limited or no evidence that the leader monitors the alignment of instruction with state standards, or the rigor and cultural relevance of instruction across the grades and subjects. The leader limits opportunities for all students to meet high expectations by allowing or ignoring practices in curriculum and instruction that are culturally, racially, or ethnically insensitive and/or inappropriate. The leader does not know and/or chooses not to interact with staff about teaching using research-based instructional strategies to obtain high levels of achievement for all students.</td>

Indicator 3.3 – Learning Goals Alignments: The leader implements recurring monitoring and feedback processes to insure that priority learning goals established for students are based on the state’s adopted student academic standards as defined in state course descriptions, presented in student accessible forms, and accompanied by scales or rubric to guide tracking progress toward student mastery.

Narrative: “Learning goals” is a high-effect size strategy that uses scales or progressive levels to monitor student growth on the way to mastery of a state academic standard. Learning goals typically take 2-9 weeks of student time to master so are more comprehensive than daily objectives. The essential issue is that the teacher creates “scales” or levels of progress toward mastery of the learning goal. Teacher and students use those scales to track progress toward mastery of the goal(s). This indicator addresses the leader’s proficiency at monitoring and providing feedback on teacher and student use of priority learning goals with scales. The leader is expected to go beyond low levels of monitoring that address whether the teacher provides such goals and attends to the levels of student understanding and engagement with the learning goals. Do the students pursue those goals? Do they track their own progress? Is celebrations of success on learning goals focused on how success was achieved more than that is was obtained?

Note: Beginning in the 2012-13 school year, professional learning about learning goals and sample learning goals may be explored at www.floridastandards.org, www.floridaschoolleaders.org, and www.startwithsuccess.org.

</tr>
</tbody>
</table>
**Indicator 3.4 – Curriculum Alignments: Systemic processes are implemented to ensure alignment of curriculum resources with state standards for the courses taught.**

Narrative: Academic standards are determined at the state level and the curriculum used to enable students to master those standards is determined at the district and school level. Curriculum must be aligned with the standards if it is to support standards-based instruction. Curriculum resources may or may not be fully aligned with the standards assigned to a specific course. The learning needs of students in specific classes may require additional or adapted curriculum materials to address issues of rigor, cultural relevance, or support for needed learning goals. School leaders maintain processes to monitor the appropriateness and alignment of curriculum to standards and intervene to make adjustments as needed to enable students to access curriculum that supports the standards.

Note: Where gaps or misalignments are noted by the processes addressed in this indicator, the leader’s actions relevant to Indicator 8.2 (Strategic Instructional Resourcing) should be addressed.

The leader routinely engages faculty in processes to improve the quality of curriculum resources in regard to their alignment with standards and impact on student achievement and supports replacing resources as more effective ones are available.

The leader is proactive in engaging other school leaders in sharing feedback on identification and effective use of curriculum resources that are associated with improved student achievement.

Parents and community members credit this leader with sharing ideas or curriculum supports that enable home and community to support student mastery of priority standards.

Specific and recurring procedures are in place to monitor the quality of alignment between curriculum resources and standards.

Procedures under the control of the leader for acquiring new curriculum resources include assessment of alignment with standards.

Curriculum resources aligned to state standards by resource publishers/developers are used school wide to focus instruction on state standards, and state, district, or school supplementary materials are routinely used that identify and fill gaps, and align instruction with the implementation level of the standards.

Processes to monitor alignment of curriculum resources with standards in the course descriptions are untimely or not comprehensive across the curriculum.

Efforts to align curriculum with standards are emerging but have not yet resulted in improved student achievement.

Curriculum resources aligned to state standards by text publishers/developers are used school wide to focus instruction on state standards, but there is no to minimal use of state, district, or school supplementary materials that identify and fill gaps, and align instruction with the implementation level of the standards.

There are no or minimal processes managed by the leader to verify that curriculum resources are aligned with the standards in the course descriptions.

**Leadership Evidence** of proficiency on this indicator may be **Impact Evidence** of leadership proficiency may be seen in the
seen in the leader’s behaviors or actions. **Illustrative examples** of such evidence may include, but are not limited to the following:

- Curriculum is presented to faculty and students as the content reflected in course descriptions rather than the content in a textbook.
- School procedures for acquisition of instructional materials include assessment of their usefulness in helping students’ master state standards and include processes to address gaps or misalignments.
- Course descriptions play a larger role in focusing course content than do test item specification documents.
- Agendas, meeting minutes, and memoranda to the faculty make evident a focus on importance of curriculum being a vehicle for enabling students to master standards in the course description.
- Media center acquisitions reflect a systematic effort to build curriculum supports that support student mastery of content standards at various levels of implementation.
- NGSSS and Common Core standards are routinely used to frame discussions on the quality and sufficiency of curriculum support materials.
- Other leadership evidence of proficiency on this indicator.

behaviors or actions of the faculty, staff, students and/or community. **Illustrative examples** of such evidence may include, but are not limited to the following:

- Teachers can describe the strengths and weaknesses of primary texts in regard to alignment with standards in the state course description.
- Students are able to characterize text books and other school provided resources tools as aids in student mastery of course standards.
- Pacing guides focus assignments and activities planned for students on learning goals and state standards rather than coverage of chapters in a text.
- Documents can be presented that inform of the alignment between curriculum resources and standards for the course.
- Teachers can identify supplementary material used to deepen student mastery of standards.
- Parent feedback/questionnaire results indicate recognition that the school is focused on standards-based instruction rather than covering topics or chapters.
- Student feedback/questionnaire results indicate recognition that the curriculum is focused on what students are to understand and be able to do.
- Results on student growth measures show steady improvements in student learning.
- Other impact evidence of proficiency on this indicator.

**Scale Levels:** *(choose one)* Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

**Indicator 3.5 – Quality Assessments: The leader ensures the appropriate use of high quality formative and interim assessments aligned with the adopted standards and curricula.**

Narrative: How do we know what our students already know, what they need to know, and how they are doing as we move forward with instruction? The school leader needs “assessment literacy” to address these questions. Where indicator 1.2 addresses the leader’s proficiency in use of student performance data, this indicator focuses on actions taken at the school site to generate interim assessment data and make sure faculty use formative assessment practices to monitor and adjust instruction. Assessment of student progress toward academic standards is an important aspect of tracking student progress. Leaders need to make use of data on interim and formative assessments to guide goal setting and progress monitoring. They need to provide teachers access to quality assessments and promote teacher use of formative assessments as a routine strategy. The leader needs on-going assessment data to inform a variety of decisions regarding such issues as resource allocations, student and teacher schedules, professional learning impacts, and adjustments in plans.

**Leadership Evidence** of proficiency on this indicator may be seen in the leader’s behaviors or actions. **Impact Evidence** of leadership proficiency may be seen in the behaviors or status of the faculty and staff. Illustrative examples of such evidence may include, but are not limited to the
Documents for faculty use that set clear expectations for the use of formative assessments to monitor student progress on mastering course standards.

- Samples of written feedback provided to teachers regarding effective assessment practices.
- Collaborative work systems' (e.g., data teams, professional learning communities) agendas and minutes reflect recurring engagements with interim and formative assessment data.
- Faculty meeting agendas and minutes reflect attention to formative and interim assessment processes.
- Classroom walkthrough data reveals routine use of formative assessment practices in the classrooms.
- Assessment rubrics are being used by the school.
- Other leadership evidence of proficiency on this indicator.

Teachers can describe interactions with the leader where effective assessment practices are promoted.

- Teachers' assessments are focused on student progress on the standards of the course.
- Teachers attest to the leader’s efforts to apply knowledge and skills of effective assessment practices.
- Teachers can provide assessments that are directly aligned with course standard.
- Teachers attest to the leader’s frequent monitoring of assessment practices.
- Student folders and progress tracking records reflect use of formative data.
- Documents are in use that informs teachers of the alignment between standards and assessments.
- Other impact evidence of proficiency on this indicator.

Indicator 3.6 – Faculty Effectiveness: The leader monitors the effectiveness of classroom teachers and uses contemporary research and the district’s instructional evaluation system criteria and procedures to improve student achievement and faculty proficiency on the FEAPs.

Narrative: School leaders are responsible for monitoring the effectiveness of classroom teachers. This indicator addresses the proficiency and focus of the leader’s monitoring processes to maintain awareness of faculty effectiveness and the use of monitoring data to improve student and faculty performance. The focus here is on monitoring teacher use of strategies supported by contemporary research, teacher proficiency on issues contained in the district’s teacher evaluation system, what teachers do to improve student achievement, and faculty proficiency on the FEAPs.

Note: Indicator 3.1 is focused on the leader’s grasp of the FEAPs whereas this indicator focuses on monitoring the faculties’ grasp of the FEAPs. Indicator 4.2 is focused on the leader’s use of monitoring data to provide timely feedback.

Proficiency Area 4: Faculty Development: Effective school leaders recruit, retain, and develop an effective and diverse faculty and staff; focus on evidence, research, and classroom realities faced by teachers; link professional practice with student achievement to demonstrate the cause and effect relationship; facilitate effective professional development; monitor implementation of critical initiatives; and provide timely feedback to teachers so that feedback can be used to increase teacher professional practice.

Narrative: This proficiency area is aligned with FPLS standard 4. It moves the focus from “what is the current reality” of faculty proficiency to continuous progress toward what the faculty can achieve with effort and focus.

Indicator 4.1 – Recruitment and Retention: The leader employs a faculty with the instructional proficiencies needed for the school population served.

Narrative: The focus of this indicator is on the leader’s actions to staff the school with the best faculty possible for the needs of the school population. It addresses actions taken to anticipate staffing needs, seek out quality applicants, and efforts to retain quality staff once on the faculty.

<tr>
<td>The leader tracks the success of her or his recruitment and hiring strategies, learns from past experience, and revisits the process annually to continually improve the process. The leader engages in a variety of traditional and non-traditional recruitment strategies and then prioritizes based on where they find their most effective teachers. Effective recruiting and hiring practices are frequently shared with other administrators and colleagues throughout the system.</td>
<td>The leader works collaboratively with the staff in the human resources office to define the ideal teacher based upon the school population served. The leader is sensitive to the various legal guidelines about the kind of data that can be sought in interviews. A hiring selection tool that helps interviewers focus on key instructional proficiencies that are aligned with the teacher evaluation criteria is developed and effectively utilized. A hiring process is clearly communicated including how</td>
<td>The leader relies on the district office to post notices of vacancies and identify potential applicants. Efforts to identify replacements tend to be slow and come after other schools have made selections. Interview processes are disorganized, not focused on the schools needs, and do not improve from year to year.</td>
<td>The leader approaches the recruitment and hiring process from a reactive rather than a proactive standpoint. Consequently, the process may not be well thought out, is disjointed, and not aligned with key success criteria embedded within the teacher evaluation documents essential to organizational success. No coherent plan or process is employed to encourage quality staff to remain on the faculty.</td>
</tr>
</tbody>
</table>
Leadership Evidence of proficiency on this indicator may be seen in the leader’s behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:

- The leader maintains an updated assessment of the instructional capacities needed to improve faculty effectiveness and uses that assessment in filling vacancies.
- Samples of hiring documents (e.g., posting notices, interview questions with look/listen fors) that identify highly desirable instructional proficiencies needed in teacher applicants.
- Documentation that the recruitment and select process is subjected to an in-depth review and evaluation for continuous improvement purposes.
- The leader has an established record of retaining effective and highly effective teachers on the staff.
- The leader has a systematic process for selecting new hires and reviews that process for its impact on faculty effectiveness.
- Programs for new and transfer teachers that promote adjustment to the school culture and instructional responsibilities is provided.
- Evidence that the leader has shared successful hiring practices with other administrators and colleagues within the district.
- Other leadership evidence of proficiency on this indicator.

Impact Evidence of leadership proficiency may be seen in the behaviors or status of the faculty and staff. Illustrative examples of such evidence may include, but are not limited to the following:

- Teachers can describe a hiring process that incorporates a specific focus on essential instructional proficiencies needed for the school population served.
- Teachers confirm that a critical part of the hiring process includes an evaluation of the effectiveness of the process.
- Teacher leaders are involved in monitoring staffing needs and providing input to the leader.
- Teachers new to the school can describe effective induction processes that had a positive impact on their adjustment to the school.
- Teacher leaders (e.g. department heads, team leaders) can describe the instructional capacities needed in finding candidates to fill vacancies on the faculty.
- Other impact evidence of proficiency on this indicator.

Scale Levels: (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

</table>

Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:

- Rubrics that distinguish among proficiency levels on evaluation indicators are used by the leader to focus feedback needed improvements in instructional practice.
- Samples of written feedback provided teachers regarding prioritized instructional practices.
- Documentation of an instructional monitoring schedule that supports frequent instructional monitoring by the school's

Impact Evidence of leadership proficiency may be seen in the behaviors or status of the faculty and staff. Illustrative examples of such evidence may include, but are not limited to the following:

- Teachers can attest to regularly scheduled formal and informal observations.
- Teachers report recognition as team members and as individuals.
- Teachers describe feedback from the leader in terms of recognizing instructional strengths and suggestions to take their teaching to a new level.

Indicator 4.2 – Feedback Practices: The leader monitors, evaluates proficiency, and provides timely and actionable feedback to faculty on the effectiveness of instruction on priority instructional goals and the cause and effect relationships between professional practice and student achievement on those goals.
Indicator 4.3 – High effect size strategies: Instructional personnel receive recurring feedback on their proficiency on high effect size strategies.

- The leader implements a schedule that results in frequent walkthroughs and observation of teaching and learning.
- School improvement plan reflects monitoring data analyses.
- Evidence the leader has a system for securing feedback from teachers specific to prioritized instructional practices.
- The leader’s use of time results in at least 2 work days a week spent on monitoring instructional issues (i.e. “watching the game”) and providing specific and actionable feedback on instructional practices.
- The leader provides feedback that describes ways to enhance performance and reach the next level of proficiency.
- Feedback reflects judgment on proficiency, not just a “yes-no” checklist approach.
- Other leadership evidence of proficiency on this indicator.

Teachers report that leader uses a combination of classroom observation and teacher-self assessment data as part of the feedback.

- Feedback to teachers, over the course of the year, is based on multiple sources of information (e.g. observations, walkthroughs, videos, self-reflections, lesson studies, PLCs, assessment data,) and from more than one person.
- Teacher leaders have opportunities to observe colleagues teaching practices and provide feedback.
- Feedback and evaluation data is used by teachers to formulate growth plans.
- Other impact evidence of proficiency on this indicator.

Reflection Questions for Indicator 4.2

### Highly Effective

- How frequently do teachers recognize that your feedback is directly linked to improving both their personal performance and that of the school?
- What might you do to ensure that they see this important connection?

### Effective

- What are some examples of focused, constructive, and meaningful feedback that you provide to your staff? How does this support their learning?

### Needs Improvement

- In what ways do you currently recognize faculty in providing feedback and affirmation to them?
- To what extent do you acknowledge the efforts of teams, as well as that of individuals?

### Unsatisfactory

- How can frequent, focused, and constructive feedback support teachers in improving their instructional practice?

Narrative: Teaching is a complex process. The “right thing to do” varies with conditions in the classroom. However, teachers need proficiency on a core repertoire of high importance strategies. These are strategies all teachers are expected to be able to use effectively. This indicator is focused on the leader’s proficiency in
focusing faculty attention on improvement of those "high effect size" strategies – those with higher probabilities of causing student growth when done correctly and in appropriate circumstances.

Note: Department lists of high-effect size strategies are posted at www.fldoe.org and www.floridaschoolleaders.org

<td>The leader uses a variety of creative ways to provide positive and corrective feedback on the implementation of high effect size strategies. As a result, the correct and appropriate implementation of high effect size instructional strategies across the curriculum and grades is a routine part of the learning environment for all students. The entire organization reflects the leader’s focus on accurate, timely, and specific recognition of correct and appropriate implementation of high effect size strategies. The leader balances individual recognition on high effect size strategies with team and organization-wide recognition.</td>
<td>In addition to the formal feedback consistent with the district evaluation system indicators, the leader provides recurring informal feedback on high effect size strategies to reinforce proficient performance and highlight the strengths of colleagues and staff. The leader has effectively implemented a system for collecting feedback from teachers as to what they know, what they understand, where they make errors, and when they have misconceptions about use of high effect size strategies. Corrective and positive feedback on high effect size strategies is linked to organizational goals. Both the leader and employees can cite examples of where feedback on high effect size strategies is used to improve individual and organizational performance.</td>
<td>The leader adheres to the district evaluation system requirements for providing formal feedback on high effect size strategies, but the feedback is general rather than providing details that improve teaching or organizational performance related to high effect size strategies.</td>
<td>The leader is not aware of the high effect size strategies expected to be used in district schools or fails to communicate them to faculty. Feedback on high effect size strategies is rare, nonspecific, and not constructive.</td>
</tr>
</tbody>
</table>

Leadership Evidence of proficiency on this indicator may be seen in the leader’s behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:

- Professional learning supports on the high effect size strategies are readily available to faculty.
- Samples of written feedback provided teachers high effect size instructional strategies.
- Walkthrough and observation practices are designed to emphasize feedback on use of high effective size strategies.
- School improvement plan includes actions to improve proficiency in high effect size strategies.
- Evidence the leader has a system for securing specific feedback from teachers on their implementation of high effect size strategies correctly and in appropriate circumstances.
- Documentation of an instructional monitoring schedule that supports frequent (every other week) instructional monitoring of high effect size strategies.
- The leader provides feedback that describes ways to enhance performance on high effect size strategies and reach the next level on same.

Impact Evidence of leadership proficiency may be seen in the behaviors or status of the faculty and staff. Illustrative examples of such evidence may include, but are not limited to the following:

- Teachers can attest to regularly scheduled formal and informal observations with feedback on high effect size strategies.
- Teachers report recognition as team members and as individuals for quality work on high effect size strategies.
- Teachers describe feedback from the leader in terms of recognizing instructional strengths and suggestions to take their teaching to a new level.
- Teachers report that leader uses a combination of classroom observation and teacher-self assessment data as part of the feedback on high effect size strategies.
- High effect size strategies provided through various state and district initiatives are employed by teachers to whom the initiatives apply.
- Departments routinely discuss their capacity to implement the high effect size strategies applicable to their subject area.
- Teachers are afforded opportunities to observe mentor teachers using the high effect size strategies.
- Lesson study teams use the process to improve application of high
The leader manages schedules that enable teachers to make observational rounds or view video examples of other teachers using the high effect size strategies.

- Other leadership evidence of proficiency on this indicator.

Indicator 4.4 - **Instructional Initiatives**: District supported state initiatives focused on student growth are supported by the leader with specific and observable actions including monitoring of implementation and measurement of progress toward initiative goals and professional learning to improve faculty capacity to implement the initiatives. Initiatives include:

- **Monitoring Text Complexity**: The school leader monitors teacher implementation of instructional processes involving complex text with embedding of close reading and rereading of complex text as a routine event incorporating these two processes:
  - writing in response to text
  - text-based discussions with students

- **Interventions**: The school leader routinely uses teacher-collected student response data to determine effectiveness of instruction and interventions school-wide, grade-wide, class-wide, and specific to student sub-groups. (MTSS)

- **Instructional Adaptations**: The school leader routinely engages teachers collaboratively in a structured data-based planning and problem-solving process in order to modify instruction and interventions for accelerated student progress and to monitor and evaluate the effect of those modifications. (MTSS)

- **ESOL Strategies**: The school leader monitors the school and classrooms for comprehensible instruction delivered to ESOL students and the utilization of ESOL teaching strategies appropriate to the students in the class. (ESOL)

- **Other District Supported Initiatives**: The school leader monitors the school and classrooms for comprehensive implementation of all other instructional initiatives supported by the district as relevant to this school.

Narrative: The Department of Education and/or district-supported initiatives focused on improving student performance require school leader support to be successful at the school site. This indicator addresses the leader’s proficiency in supporting such initiatives. Indicator 4.4 also focuses on professional learning needed to implement priority initiatives.

Note: District and FLDOE websites provide support and information about priority initiatives.

school leaders. routinely employed with all ELL students. The leader is conversant with the impact the initiative is expected to have and monitors teacher and student implementation of the elements of the initiative. implement the initiatives and is seldom involved in monitoring or providing feedback on the impact of the initiative’s implementation on student growth. be implemented at the school.

Leadership Evidence of proficiency on this indicator may be seen in the leader’s behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:

- The initiatives being pursued are explicitly identified and access to supporting resources is provided.
- Leader’s agendas, memoranda, etc. reflect presentations to faculty on the targeted initiatives.
- A Multi-tiered System of Supports (MTSS) and Response to Intervention (RtI) is fully implemented and the leader monitors regularly to sustain implementation.
- The leader monitors practices in areas where subject specific strategies are expected and provides feedback on the effective use of such strategies (e.g. ESOL strategies)
- Reading Strategies from Just Read, Florida! are implemented.
- The leader can identify all of the initiatives in use and describe how progress is monitored for each.
- Other leadership evidence of proficiency on this indicator.

Impact Evidence of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. Illustrative examples of such evidence may include, but are not limited to the following:

- Classroom teachers describe how they implement the various initiatives.
- Video exemplars that support implementing the initiatives are routinely used by faculty.
- Online resources and technology supports that deepened understanding of the initiatives are used by faculty.
- State or district web-based resources aligned with the initiatives are regularly accessed by faculty.
- Teachers have participated in professional development associated with the initiative and implemented the strategies learned.
- Other impact evidence of proficiency on this indicator.

Indicator 4.5 – Facilitating and Leading Professional Learning: The leader manages the organization, operations, and facilities to provide the faculty with quality resources and time for professional learning and promotes, participates in, and engages faculty in effective individual and collaborative learning on priority professional goals throughout the school year.

Narrative: Indicator 4.5 is focused on what the leader does to engage faculty in meaningful professional learning (which includes being involved in what the faculty is learning). Professional learning on-the-job is an essential aspect of effective schools. School leaders who manage the school in ways that support both individual and collegial professional learning get better outcomes than those who do not. The leader’s personal participation in professional learning plays a major role in making professional learning efforts pay off. This indicator addresses the leader’s role as a leader in professional development.

The leader has demonstrated a record of differentiated professional learning for faculty based on student needs.
The leader has developed a system of job-embedded professional learning that differentiates training and implementation of instructional priorities based on teacher needs, which help retain proficient and highly exemplary staff.
The leader routinely shares professional learning opportunities with other schools, departments, districts, and organizations.

Professional learning includes a plan for the implementation of the prioritized instructional needs (e.g., research-based instruction, data analysis, instructional technology, culturally relevant) aligned to school improvement plan and some effort has been made to differentiate (coaching, mentoring, collaborative teams, coaching) and embed professional development to meet the needs of all faculty members.
The leader is able to use data from evaluation of instructional personnel to assess proficiencies and identify priority needs to support and retain proficient and exemplary faculty members.

Professional learning is typically "one size fits all," and there is little or no evidence of recognition of individual faculty needs or matching of faculty needs to student achievement needs. Consequently, retaining proficient and exemplary staff is problematic.

Leadership Evidence of proficiency on this indicator may be seen in the leader’s behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:
- Documentation that professional learning is determined on the basis of student achievement and teacher competency data.
- Evidence that professional learning includes culturally relevant instructional practices.
- Faculty meetings focus on professional learning related to the schools

Impact Evidence of leadership proficiency may be seen in the behaviors or status of the faculty and staff. Illustrative examples of such evidence may include, but are not limited to the following:
- Staff describes ways that professional learning is culturally relevant to the population served and differentiated to meet their unique instructional needs.
- Lesson study groups and PLCs have explicitly stated goals and a focus for their collegial learning.
instructional priorities.
- The leader examines data on teacher proficiencies and identifies needs that are subsequently addressed by professional learning.
- Technology resources are provided to maximize faculty access to online learning and sharing video exemplars for quality instructional practices.
- Individualized professional development plans approved by the principal are clearly aligned with school improvement priorities.
- Meeting agendas and memorandum to faculty provide evidence of ongoing monitoring of the implementation of critical initiatives (e.g., data analysis, text complexity), standards-based instructional program, multi-tiered system of supports, and differentiated instruction.
- The leader’s documents and agendas provide evidence of guiding faculty toward deeper understanding of the cultures of students in the school and how instruction is adapted to improve student engagement in learning.
- Other leadership evidence of proficiency on this indicator.

- Teachers can articulate a process that helps them develop individualized learning plans.
- Faculty requests for professional learning are filtered to ensure that they relate to identified needs within the school improvement plan.
- Teachers can identify their learning needs as they relate to student learning needs.
- Faculty can demonstrate their use of course descriptions as the source of learning goals and objectives.
- Faculty can provide evidence of culturally relevant and differentiated instruction.
- Other impact evidence of proficiency on this indicator.

## Indicator 4.7 – Actual Improvement: The leader improves the percentage of effective and highly effective teachers on the faculty.

Narrative: An indicator required by 1012.34 F.S., the focus is on whether the accumulated impact of the leader’s actions result in positive trend lines on teacher effectiveness. Evidence gathered from proficiency area #3 provide a base line that, along with teacher rating in the district’s teacher evaluation system and student growth measures, enable assessment of whether actual improvement in teacher’s proficiency is occurring.

- The percentage of teachers rated effective or highly effective increases while the percentage rated needs improvement for two consecutive years declines. Student growth measure and instructional practice ratings are in substantial agreement for at least 75 percent of the faculty.
- There is no evidence of improvement in student growth measures for the majority of the teachers rated as effective, needs improvement, or unsatisfactory.

### Leadership Evidence of proficiency on this indicator may be seen in the leader’s behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:

- Documents generated by or at the direction of the leader establish that the leader tracks the progress of faculty members on student growth measures and identifies those making demonstrable progress.
- Documents generated by or at the direction of the leader establish that the leader tracks the progress of faculty members on high effect size strategies and identifies those making demonstrable progress.
- Documents generated by or at the direction of the leader establish that the leader tracks the progress of faculty members rated as needs improvement or unsatisfactory and can identify specific areas of improvement.
- The leader tracks student growth data and teacher assessment data aligned to learning goals to track actual improvement in teacher performance and maintains records of the percentage of improvement.

### Impact Evidence of leadership proficiency may be seen in the behaviors or status of the faculty and staff. Illustrative examples of such evidence may include, but are not limited to the following:

- The percentage of teachers rated highly effective increases.
- The percentage of teachers previously rated as needing improvement (developing) or unsatisfactory decreases.
- The percentage of teachers ranking at or above the district average on student growth measures increases.
- The percentage of teachers with highly effective rating on high effect size instructional strategies increases.
- Lesson studies produce revised lessons with improved student outcomes.
- Tracking of learning goals produces data and trend lines showing improvement in teacher effectiveness.
- State and district tests show improved student performance.
- VAM scores in teacher assessment show improvement and...
staff showing growth over time.
- Other leadership evidence of proficiency on this indicator.

**Proficiency Area 5: Learning Environment:** Effective school leaders structure and monitor a school learning environment that improves learning for all of Florida’s diverse student population.

Narrative: This proficiency area is aligned with FPLS standard 5. Much of what students’ experience in school is a result of decisions and actions by the adults in the school. Learning environments that are success oriented, student centered, treat diversity as an asset, and focus on eliminating achievement gaps support students’ preparation for fulfilling lives.

**Indicator 5.1 – Student Centered:** The leader maintains a safe, respectful and inclusive student-centered learning environment that is focused on equitable opportunities for learning and building a foundation for a fulfilling life in a democratic society and global economy by providing recurring monitoring and feedback on the quality of the learning environment and aligning learning environment practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals.

Narrative: School leaders who monitor what students experience by being enrolled in the leader’s school have better insights on how to make the system work than those who do not monitor impact of policies and practices on students. It is the leader’s responsibility to know whether student life is equitable, respectful, and supportive of engagement in learning.

**Indicator 5.2 - Success Oriented:** Initiates and supports continuous improvement processes and a multi-tiered system of supports focused on the students’ opportunities for success and well-being.
Narrative: The issues in 5.1 focus on monitoring how school policy and practice affect the quality of student lives. This indicator shifts focus from those broad issues to what happens at the school that creates opportunities for student success and students’ perceptions that school life is organized to do something good for them. School should be rigorous and demanding but also implemented in ways that create recurring opportunities for success.

Indicator 5.3 – Diversity: To align diversity practices with system objectives, improvement planning, faculty proficiency needs, and appropriate instructional goals, the leader recognizes and uses diversity as an asset in the development and implementation of procedures and practices that motivate all students and improve student learning, and promotes school and classroom practices that validate and value similarities and differences among students.

Narrative: “Diversity practices” refers to the capacity of teachers and school leaders to recognize the many variations in students that impact learning growth (e.g., learning processes, prior learning experiences, family and cultural backgrounds); implement practices that respect diversity in learning needs (e.g., multi-tiered system of supports) and make adjustments at the classroom level that make use of student strengths and promote growth needs.

<tr>
<td>The leader shares with others throughout the district strategies that help them put into action their belief that all students can learn at high levels by leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff.</td>
<td>The leader systematically acts on the belief that all students can learn at high levels by leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff. Classroom practices consistently reflect appropriate adjustments based on cultural, racial, ethnic backgrounds of students. The leader's expectations that teachers adapt instructional strategies to meet individual student needs are an accepted part of the shared vision of the leader and faculty.</td>
<td>The leader inconsistently acts on the belief that all students can learn at high levels by sometimes leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff. The leader has taken some actions that set expectations for teachers adapting instructional strategies to meet individual student needs and such individualization is evident in some but not most classes.</td>
<td>The leader limits opportunities for all students to meet high expectations by allowing or ignoring practices in curriculum, instruction, and assessment that are culturally, racially, or ethnically insensitive and/or inappropriate. Takes no actions that set expectations for teachers adapting instructional strategies to meet individual student needs.</td>
</tr>

</table>

Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:

- Documents that support the use of diversity as an asset in the development and implementation of procedures and practices.
- Agendas, memorandum, etc., reflecting recurring attention at

Impact Evidence of leadership proficiency may be seen in the behaviors or status of the faculty and staff. Illustrative examples of such evidence may include, but are not limited to the following:

- Teachers can describe a specific policies, practices, and procedures that validate and value similarities and differences among students.
faculty meetings to capacity to recognize diversity issues and adapt instruction accordingly.

- Leader’s actions in providing professional learning for faculty that deepens understanding of a range of diversity issues and evidence of monitoring for implementation in the classroom of appropriate diversity practices.
- School policies, practices, procedures that validate and value similarities and differences among students.
- The school leader collects and reviews agenda and minutes from departmental or team meetings to monitor attention to diversity issues in pursuit of student learning growth.
- Other leadership evidence of proficiency on this indicator.

- Professional development opportunities are provided for new teachers regarding ways to adapt instruction to address diversity issues in the student body and community.
- Student questionnaire results reflect belief that their individual characteristics are respected by school leader and faculty.
- Parent questionnaire results reflect belief that their individual characteristics are respected by school leader and faculty.
- A multi-tiered system of supports (MTSS) is implemented in the classrooms in ways that respect and make adjustments for diversity factors.
- The school provides an interactive website for students, parents, and the community designed to be “user friendly” and sensitive to diversity issues in the community, providing information of interest to various segments of the school community.
- Other impact evidence of proficiency on this indicator.

Scale Levels: (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

[ ] Highly Effective  [ ] Effective  [ ] Needs Improvement  [ ] Unsatisfactory

<tr>
<td>What procedures might you establish to increase your ability to help your colleagues develop curriculum, instruction, and assessment that reflect and respect the diversity of students and staff?</td>
<td>What strategies might you employ so that you could share with others throughout the district practices that help them put into action your belief that all students can learn at high levels by leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff?</td>
<td>How might you increase the consistency with which you act on the belief that all students can learn at high levels by sometimes leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff?</td>
<td>How might you expand the opportunities for all students to meet high expectations by leading curriculum, instruction, and assessment that reflect and respect the diversity of students and staff?</td>
</tr>
</tbody>
</table>
Narrative: Where indicator 5.3 is focused on the broad array of diversity factors that impact success of individual students and student subgroups, indicator 5.4 focuses on academic growth of specific subgroups whose academic performance lags behind what they are capable of achieving. The leader is expected to prepare the faculty to do what is needed to meet the academic improvement needs of the subgroup(s).

<tr>
<td>The leader has created a self-regulating system based on data that guarantees regular and predictable success of all subgroups, even if conditions change from one year to another. Achievements gaps have been eliminated or substantially minimized with trend lines consistently moving toward elimination of such gaps. Processes to minimize achievement gaps within all impacted subgroups are employed for all subgroups with positive trend lines showing reduction of gaps for all subgroups. The leader consistently applies the process of inquiry and/or has enabled development of processes that generate greater understanding of the school's current systems and their impact on sub-group academic achievement.</td>
<td>Sub-groups within the school and associated with achievement gaps have been identified and some processes are underway to understand root causes. Some actions to minimize the gaps have been implemented but either do not reach all sub-group students or have inconsistent or minimal results.</td>
<td>The leader inconsistently applies the process of inquiry and/or has enabled only limited efforts to develop of processes that generate greater understanding of the school’s current systems and their impact on sub-group academic achievement.</td>
<td>The leader does not identify nor implement strategies to understand the causes of sub-group achievement gaps. No changes in practices or processes have been implemented under the leader’s direction that is designed to address achievement gaps. The leader does not apply the process of inquiry and/or develop processes that generate greater understanding of the school’s current systems and their impact on sub-group academic achievement.</td>
</tr>
</tbody>
</table>

Leadership Evidence of proficiency on this indicator may be seen in the leader’s behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:

- The leader uses statistical analyses identifying academic needs of subgroup members.
- Written goals are developed and provided to faculty that focus on reducing or eliminating achievement gaps for students in underperforming sub-groups and for students with disabilities.

Impact Evidence of leadership proficiency may be seen in the behaviors or status of the faculty and staff. Illustrative examples of such evidence may include, but are not limited to the following:

- Faculty and staff can describe the school-wide achievement goals focused on narrowing achievement gaps and relate how that implement those goals to impact individual students.
- Under-achieving sub-group students are enrolled in advanced classes and presented with high expectations.
• Documents reflecting the leader's work in deepening faculty understanding of cultural and development issues related to improvement of academic learning growth by sub-group students.
• The leader develops school policies, practices, procedures that validate and value similarities and differences among students.
• Leader's actions in support of engaging sub-group students in self-help processes and goal setting related to academic achievement.
• The leader personally engages students in under-performing sub-groups with support, encouragement, and high expectations.
• Leader's actions in aligning parent and community resources with efforts to reduce achievement gaps.
• Other leadership evidence of proficiency on this indicator.

• Teachers can describe specific policies, practices, and procedures that help them use culture and developmental issues to improve student learning.
• Faculty and staff can explain how goals eliminate differences in achievement for students at different socioeconomic levels.
• English language learners, and students with disabilities.
• Teacher records reflecting tracking sub-group student progress on targeted learning goals related to academic achievement.
• Student questionnaire results (from sub-group students) reflecting recognition of school efforts to improve their academic performance.
• Parent questionnaire results from sub-group parents reflecting recognition of school efforts to improve student achievement.
• Lesson study groups focused on improving lessons to impact achievement gap.
• Other impact evidence of proficiency on this indicator.

In what ways might you demonstrate greater understanding of cultures and their impact on the current systems in your school to improve student learning?

Domain 3: Organizational Leadership
Narrative: This domain addresses proficiencies that impact the quality of a broad array of school operations. The focus is applying these proficiencies to improve student achievement, instructional leadership, and professional conduct.

**Proficiency Area 6 – Decision Making:** Effective school leaders employ and monitor a decision-making process that is based on vision, mission, and improvement priorities using facts and data; manage the decision making process, but not all decisions, using the process to empower others and distribute leadership when appropriate; establish personal deadlines for themselves and the entire organization; and use a transparent process for making decisions and articulating who makes which decisions.

Narrative: This proficiency area is aligned to FPLS standard #6. How decisions are made can be as important as what decisions are made. The leader’s proficiency at balancing the various aspects of decision-making is the focus of this area.

**Indicator 6.1 – Prioritization Practices:** The leader gives priority attention to decisions that impact the quality of student learning and teacher proficiency, gathering and analyzing facts and data, and assessing alignment of decisions with school vision, mission, and improvement priorities.

Narrative: Leaders make many decisions. Those that impact student learning and teacher proficiency require priority attention. The focus is the leader’s ability to make sure that decisions on student learning and faculty proficiency are not lost among the lower priority issues or given inadequate attention because of all the other things leaders do.

**Rating Rubric**

**Highly Effective:** Leader’s actions or impact of leader’s actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.

- The leader produces clear, convincing, and consistent evidence that demonstrates an understanding of learning, teaching, and student development to inform all decisions and continuously uses this information to enhance teaching and learning.
- The leader produces clear, convincing, and consistent evidence that, on an ongoing basis, all decisions are made in a way that promotes the school’s vision and mission.
- Effective decision-making practices are frequently shared with other leaders.

**Effective:** Leader’s actions or impact of leader’s actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.

- The leader’s decisions consistently demonstrate an understanding of learning, teaching, and student development.
- The leader produces clear evidence of making most decisions in a way that supports the school’s vision and mission regarding student learning and faculty proficiency.

**Needs Improvement:** Leader’s actions or impact of leader’s actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.

- The leader provides limited evidence that demonstrates understanding of learning, teaching, and student development to inform decisions or is inconsistent in using this information to enhance decisions about teaching and learning.

**Unsatisfactory:** Leader’s actions or impact of leader’s actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.

- The leader provides little or no evidence that demonstrate awareness of learning, teaching, and student development to inform decisions.
- The leader produces little to no evidence of making decisions that are linked to the school’s vision and mission.
- Decisions adverse to student growth and/or faculty development are made.
administrators and colleagues throughout the system.

**Leadership Evidence** of proficiency on this indicator may be seen in the leader’s behaviors or actions. **Illustrative examples** of such evidence may include, but are not limited to the following:

- The school’s vision and mission statement developed under this leader is focused on student growth and improving faculty proficiency.
- Staff evaluations and professional development documents emphasize student learning or faculty proficiency growth.
- Documents showing the development and modification of teacher and student schedules are based on data about student needs.
- Leader’s meeting schedules reflect recurring attention to student learning and faculty proficiency issues.
- Artifacts substantiating school improvement and curriculum review/revision are based on student learning needs or assessments of teacher proficiency.
- Other leadership evidence of proficiency on this indicator.

**Impact Evidence** of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. **Illustrative examples** of such evidence may include, but are not limited to the following:

- Teachers can describe a decision-making process that reflects an emphasis on vision, mission, student learning, and teacher proficiency requirements.
- Teachers can recall decisions that were made resulting in changes to their teaching schedule to support student learning.
- Team and department meeting minutes reflect student learning and faculty proficiency as priority issues.
- Subordinate leaders give priority attention to issues impacting student learning and teacher proficiency.
- Principal’s secretary prioritizes mail based on relation to student learning and faculty growth.
- Office staff handles routine events to protect leader’s time for instructional and faculty development issues.
- Other impact evidence of proficiency on this indicator.

**Scale Levels:** (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

- [ ] Highly Effective
- [ ] Effective
- [ ] Needs Improvement
- [ ] Unsatisfactory

</tbody>
</table>

The leader demonstrates the ability to construct a clear and insightful problem statement with evidence of relevant contextual factors.

The leader identifies multiple approaches for solving a problem and proposes one or more solutions/hypotheses that indicate a deep comprehension of the problem. The solutions are sensitive to contextual factors as well as all of the following: ethical, logical, and cultural dimensions of the problem.

The leader’s evaluation of solutions is comprehensive and includes all of the following: history of the problem, logic/reasoning, feasibility and impact of the solution.

The solution is implemented in a manner that addresses each of the contextual factors of the problem. A thorough review of the results is conducted to determine need for further work.

**Leadership Evidence** of proficiency on this indicator may be seen in the leader’s behaviors or actions. **Illustrative examples** of such evidence may include, but are not limited to the following:

- Samples of problem statements, contextual factors, recommended approaches, proposed solutions, evaluation, and review with consideration for further work are presented.
- A well-established problem-solving process can be described by the leader.
- Data records reveal the range of problems addressed and after-

**Impact Evidence** of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. **Illustrative examples** of such evidence may include, but are not limited to the following:

- Teachers can personally attest to the problem-solving skills of the leader.
- Teachers report a high degree of satisfaction with the problem-solving process established by the leader.
- Teacher and/or students describe participating in problem solving led by the school leader.
implementation data collections.
- Reports and newsletters to stakeholders inform of problems addressed and the impact of solutions implemented.
- Other leadership evidence of proficiency on this indicator.
- Multi-tiered System of Supports (MTSS) is fully operational in classrooms.
- Sub-ordinate leaders are engaged in data-based problem solving.
- Other impact evidence of proficiency on this indicator.

<td>How do you continue to clarify the decision-making process in a dynamic, changing environment?</td>
<td>Why is it necessary for you as a school leader to reevaluate prior decisions and programs in light of emerging research, personal experience, and changing situations?</td>
<td>What will you do from now on to ensure previous decisions and programs are revisited and evaluated on a routine basis?</td>
<td>When do you take time with your leadership team to reflect on decisions that have been made? In what ways do you evaluate decisions on the basis of student achievement?</td>
</tr>
</tbody>
</table>
Indicator 6.4 – Distributive Leadership: The leader empowers others and distributes leadership when appropriate.

Narrative: A school is too complex for one person to make all decisions. Some of the functions of leadership must be shared with others. Developing capacity for success in a workforce requires enabling other people to be responsible for meaningful decisions. The leader’s capacity to share the “right stuff” and distribute decision making among other appropriate staff is the focus here.

</table>

- Innovation and improvement in instructional processes, faculty development, or school operations have resulted from distributive leadership.
  - The leader encourages staff members to accept leadership responsibilities outside of the school building.
  - The leader incorporates teacher and support staff into leadership and decision-making roles in the school in ways that foster the career development of participating teachers.

- The leader creates opportunities for staff to demonstrate leadership skills by allowing them to assume leadership and decision-making roles.
  - The leader supports the decisions made as part of the collective decision-making process.
  - Decision-making delegations are clear: Subordinates know what decisions are made by the leader, which by the leader after input from others, and which are delegated to subordinates to decide.

- Some well-understood leadership roles other than the school principal are functioning and contributing to effective and timely decisions on some school priorities, but there are recurring delays in reaching decisions on other issues.
  - Decisions are often rushed or made without appropriate input due to lack of planning and implementation of development activities by staff members.

- There is no or only minimal evidence that anyone other than the principal has a meaningful role in making timely decisions.
  - The leader rarely seeks input on significant issues from a variety of stakeholder groups (e.g., faculty leaders, teachers, student, parents, community, or business leaders).

Leadership Evidence of proficiency on this indicator may be seen in the leader’s behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:

- Organizational charts or other documents reveal how leadership is distributed and informs who is involved in what.
- School improvement plan process reflects involvement by a variety of parties.
- Evidence of shared decision-making and distributed leadership

Impact Evidence of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. Illustrative examples of such evidence may include, but are not limited to the following:

- Subordinate leaders and teacher leaders report meaningful roles in decision making.
- Minutes, agendas, and other records of meetings held by subordinate leaders reflect their involvement in significant decision making.
is present in leader’s memorandums, e-mails, and other communications.
- Leader’s communication to faculty and stakeholders recognizes the role of those to whom leadership functions were distributed.
- Other leadership evidence of proficiency on this indicator.

- Teachers are able to identify which colleagues have a leadership or decision making role in any given issue.
- Teacher and or parent surveys reflect satisfaction with access to sub-ordinate and teacher leaders rather than requiring access only to the principal.
- Other impact evidence of proficiency on this indicator.

**Scale Levels:** (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

**Indicator 6.5 – Technology Integration:** The leader employs effective technology integration to enhance decision making and efficiency throughout the school. The leader processes changes and captures opportunities available through social networking tools, accesses and processes.
information through a variety of online resources, incorporates data-driven decision making with effective technology integration to analyze school results, and develops strategies for coaching staff as they integrate technology into teaching, learning, and assessment processes.

Narrative: Technology was a separate standard in the 2005 Florida Principal Leadership Standards (FPLS). By 2011 the state had made great strides toward accepting technology into the schools. In the 2011 FPLS, technology moved from a separate general “pro-technology” standard to focused applications of technology embedded in several standards. This indicator focuses on technology integration and the leader’s use of technology to improve decision-making processes in several priority areas.

### Proficiency Area 7. Leadership Development: Effective school leaders actively cultivate, support, and develop other leaders within the organization, modeling trust, competency, and integrity in ways that positively impact and inspire growth in other potential leaders.

Narrative: This proficiency area aligns to Standard 7. Leaders are developed by other leaders. This is a process critical to an organization’s capacity to improve over time and sustain quality processes. This proficiency area focuses on what leaders do to develop leadership in others.

#### Indicator 7.1 – Leadership Team: The leader identifies and cultivates potential and emerging leaders, promotes teacher-leadership functions focused on instructional proficiency and student learning, and aligns leadership development practices with system objectives, improvement planning, leadership proficiency needs, and appropriate instructional goals.

Narrative: The FPLS are based on a presumption that the school leader works with and through a team of other people to insure coordination and focus of school operations and improvements. Leadership teams get things done!

<td>Leader’s actions or impact of leader’s actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.</td>
<td>Leader’s actions or impact of leader’s actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.</td>
<td>Leader’s actions or impact of leader’s actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.</td>
<td>Leader’s actions or impact of leader’s actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.</td>
</tr>
<tr>
<td>The participants in the school’s leadership team function independently with clear and efficient implementation of their role(s) and work in a collegial partnership with other leadership team participants to coordinate operations on student growth and faculty development. Leadership development processes employed by the school leader are shared with other school leaders as a model for developing quality leadership teams. The leader has specifically identified at least two emerging leaders in the past year, and has entered them into the ranks of leadership training or provided personal mentoring on site. Other school leaders cite this leader as a mentor in identifying and cultivating emerging leaders.</td>
<td>Those who are assigned or have accepted leadership functions have consistent support from the school leader in focusing their efforts on instructional improvement and faculty development. The leader has specifically identified and cultivated potential and emerging leaders for the major functions of the school. The leader has personally mentored at least one emerging leader to assume leadership responsibility in instructional leadership or at an administrative level, with positive results.</td>
<td>The leader has identified staff for leadership functions, follows district personnel guidelines for accepting applications for new leaders, but has not implemented any systemic process for identifying emergent leaders, or is inconsistent in application of such a process. The leader provides some training to some of the people assigned leadership functions, but does not involve staff other than those in the designated roles.</td>
<td>The leader does not recognize the need for leadership by other people. Staff with leadership titles (e.g., department heads, team leaders, deans, assistant principals) has little or no involvement in processes that build leadership capacities. Persons under the leader’s direction are unable or unwilling to assume added responsibilities. There is no or only minimal evidence of effort to develop leadership potential in others.</td>
</tr>

**Leadership Evidence** of proficiency on this indicator may be seen in the leader’s behaviors or actions. Illustrative examples **Impact Evidence** of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or...
Illustrative examples of such evidence may include, but are not limited to the following:

- Organizational charts identify the leadership roles and team members.
- The leader has a system for identifying and mentoring potential leaders.
- The leader can cite examples in which s/he coached several emerging leaders to assume greater levels of responsibility within the organization.
- Minutes, e-mails, and memorandums reflecting exchanges among leadership team members are focused on school improvement goals, student growth, and faculty development.
- The leader’s communications to faculty and stakeholders reflect recognition of the leadership team.
- Other leadership evidence of proficiency on this indicator.

Teachers at the school can describe informal and formal opportunities to demonstrate and develop leadership competencies.

- Teachers at the school report that leadership development is supported and encouraged.
- Current leadership team members can describe training or mentoring they receive from the school leader regarding leadership.
- Teachers can describe processes that encourage them to be involved in school improvement and prepare for leadership roles.
- Other impact evidence of proficiency on this indicator.

Scale Levels: (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

- [ ] Highly Effective
- [ ] Effective
- [ ] Needs Improvement
- [ ] Unsatisfactory

Narrative: Leadership teams engage other skilled people in the business of the school. However, involvement does not insure effective organizations. This indicator focuses on the distribution of responsibility and whether sub-ordinate leaders have been delegated all that is needed to succeed.

**Indicator 7.2 – Delegation: The leader establishes delegated areas of responsibility for sub-ordinate leaders and manages delegation and trust processes that enable such leaders to initiate projects or tasks, plan, implement, monitor, provide quality control, and bring projects and tasks to closure.**

<tr>
<td>Staff throughout the organization is empowered in formal and informal ways. Faculty members participate in the facilitation of meetings and exercise leadership in committees and task forces; other employees, including noncertified staff, exercise appropriate authority and assume leadership roles where appropriate. The climate of trust and delegation in this organization contributes directly to the identification and empowerment of the next generation of leadership.</td>
<td>There is a clear pattern of delegated decisions, with authority to match responsibility at every level in the organization. The relationship of authority and responsibility and delegation of authority is clear in personnel documents, such as evaluations, and also in the daily conduct of meetings and organizational business.</td>
<td>The leader sometimes delegates, but also maintains decision-making authority that could be delegated to others. Clarity of the scope of delegated authority is inconsistent from one delegation to another. Actions taken by those to who tasks are delegated are sometimes overruled without explanation.</td>
<td>The leader does not afford subordinates the opportunity or support to develop or to exercise independent judgment. If delegation has occurred there is a lack of clarity on what was to be accomplished or what resources were available to carry out delegated tasks.</td>
</tr>
</tbody>
</table>

**Leadership Evidence** of proficiency on this indicator may be seen in the leader’s behaviors or actions. **Illustrative examples** of such evidence may include, but are not limited to the following:

- A Responsibility Matrix or chart of “who does what” provides evidence that the leader trust others within the school by identifying how leadership responsibilities are delegated to other faculty members on his or her staff.
- The leader’s processes keep people from performing redundant activities.
- The leader has crafted “job descriptions” for sub-ordinate leaders’ roles that clarify what they are to do and have the delegated authority to do.
- Communications to delegated leaders provide predetermined decision-making responsibility.
- Documents initiating projects and tasks identify personal responsibility for success at the beginning of the project.
- Delegation and trust are evident in personnel evaluations.
- Delegation and trust are evident in the school improvement plan

**Impact Evidence** of leadership proficiency may be seen in the behaviors or status of the faculty and staff. **Illustrative examples** of such evidence may include, but are not limited to the following:

- Teachers report that areas of delegated responsibility include authority to make decisions and take action within defined parameters.
- Faculty and staff can cite examples of delegation where the leader supported the staff member’s decision.
- Faculty report that building leaders express high levels of confidence in their capacity to fulfill obligations relevant to the shared task of educating children.
- Staff to whom responsibility has been delegated in turn delegates appropriate aspects of their tasks to other staff thus expanding engagement.
- Other impact evidence of proficiency on this indicator.
as a variety of school staff are identified as being directly responsible for various components of the planning effort.
• Meeting minutes provide evidence of delegation and trust being extended to select members of the faculty.
• Other leadership evidence of proficiency on this indicator.

Indicator 7.3 – Succession Planning: The leader plans for and implements succession management in key positions.

Narrative: When the leader is off campus – who is in charge? When the leader changes jobs or retires, who is prepared to take over? What about the school’s sub-ordinate leaders? Who takes over for them? Succession planning is building relationships and preparation processes for involving others in ways that prepare them to move into key positions as they become vacant.

<tbody>
<tr>
<td>In addition to the practices at the effective level, the leader systematically evaluates the success of the succession program, making adjustments as needed and engaging sub-ordinate leaders in succession management processes in their own areas of responsibility. Central office personnel rely upon this leader to share highly successful succession planning practices with other leaders throughout the district.</td>
<td>The leader proficiently implements a plan for succession management in key positions that includes identification of key and hard-to-fill positions for which critical competencies have been identified. In conjunction with central office staff, the leader identifies and evaluates applicant pools, collects information on competency levels of employees in identified applicant pools and identifies competency gaps. Based on an analysis of these gaps, the leader develops and uses programs and strategies for smooth succession including temporary strategies for getting work done during vacancy periods.</td>
<td>Inasmuch as the leader understands the need to establish a plan for succession management, the plan remains simply that - a plan - as thoughts about the plan and its component parts have yet to be implemented. The leader primarily relies on central office staff to identify and evaluate applicant pools, the competency levels of employees in identified applicant pools, and the competency gaps. Little to no effort on the part of the leader is made to increase the competency level of the potential successor leaders within the faculty or such efforts are limited in scope.</td>
<td>The leader takes little or no actions to establish a plan for succession management. Staff are hired to fill vacancies in key positions that do not possess the critical instructional capabilities required of the school, which compromises the school’s efforts to increase student academic achievement, and no processes to remedy the trend are taken.</td>
</tr>
</tbody>
</table>

Leadership Evidence of proficiency on this indicator may be seen in the leader’s behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:

- Documents generated by or at the direction of the leader establish a clear pattern of attention to individual professional development that addresses succession management priorities.
- The leader has processes to monitor potential staff departures.
- The leader accesses district applicant pools to review options as soon as district processes permit.
- Informal dialogues with faculty routinely explore their interests in expanded involvement and future leadership roles.
- Leader has documents or processes to inform potential leaders of the tasks and qualifications involved in moving into leadership roles.
- A succession management plan that identifies succession problems, key and hard-to-fill positions for which critical competencies have been identified, and key contacts within the school community.

Impact Evidence of leadership proficiency may be seen in the behaviors or status of the faculty and staff. Illustrative examples of such evidence may include, but are not limited to the following:

- Select teachers can attest to having been identified into applicant pools for leadership in key and hard-to-fill positions that may develop in the future.
- Select teachers report that the principal has identified various competency levels needed for key or hard-to-fill leadership positions.
- Select teachers describe providing the leader feedback as to gaps in their personal competency for which the leader has developed professional learning experiences.
- Teachers can describe transparent processes for being considered for leadership positions within the school.
- Sub-ordinate leaders engage other faculty in competency building tasks that prepare them for future leadership roles.
- Other impact evidence of proficiency on this indicator.

Narrative: This is a fundamentally important skill set. Leaders get quality work done through other people.

Indicator 7.4 – Relationships: The leader develops sustainable and supportive relationships between school leaders, parents, community, higher education, and business leaders.

The skill set of relationship building, including networking and engaging others in a shared vision, are hallmarks of quality leaders.

Reflection Questions for Indicator 7.4
Proficiency Area 8. School Management: Effective school leaders manage the organization, operations, and facilities in ways that maximize the use of resources to promote a safe, efficient, legal, and effective learning environment; effectively manage and delegate tasks and consistently demonstrate fiscal efficiency; and understand the benefits of going deeper with fewer initiatives as opposed to superficial coverage of everything.

Narrative: This proficiency area aligns with Standard 8. A school is an "organization." School leaders manage implementation of many rules, regulations, and policies. However, the "organization" is the people working together to provide learning to students. What leaders do to manage those people and the environment in which they work is the focus of this area.

Indicator 8.1 – Organizational Skills: The leader organizes time, tasks, and projects effectively with clear objectives, coherent plans, and establishes appropriate deadlines for self, faculty, and staff.

Narrative: Time, tasks, and projects all need organization to have the desired impact. This indicator focuses on the key aspects of organization essential to school success.

<tr>
<td>The leader uses project management as a teaching device, helping others understand the interrelationship of complex project milestones throughout the organization. The leader uses complex project management to build system thinking throughout the organization. Project plans are visible in heavily trafficked areas, so that accomplishments are publicly celebrated and project challenges are open for input from a wide variety of sources. Successful project results can be documented.</td>
<td>Project management documents are revised and updated as milestones are achieved or deadlines are changed. The leader understands the impact of a change in a milestone or deadline on the entire project, and communicates those changes to the appropriate people in the organization. Task and project management and tracking of deadlines are routinely monitored with an emphasis of issues related to instruction and faculty development.</td>
<td>Project management methodologies are vague or it is unclear how proposed project management tools will work together in order to help keep tasks and projects on time and within budget. The impact of changes in an action plan or deadline is inconsistently documented and communicated to people within the organization.</td>
<td>There is little or no evidence of time, task or project management focused on goals, resources, timelines, and results.</td>
</tr>
</tbody>
</table>

Leadership Evidence of proficiency on this indicator may be seen in the leader’s behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:

Impact Evidence of leadership proficiency may be seen in the behaviors or status of the faculty and staff. Illustrative examples of such evidence may include, but are not limited to the following:
- Examples of projects that have been adjusted based on the input from a variety of sources.
- Examples of timely completion of learning environment improvement projects focused on issues like safety, efficiency, effectiveness, or legal compliance.
- Examples of multiple projects and timelines managed by the leader by strategically delegating time, resources, and responsibilities.
- School Improvement Plan implementation records reveal planning of tasks with clear stages of progress and timelines to measure progress.
- Leadership responsibility matrix or chart describes how management of tasks and projects are allocated and reflects monitoring tasks.
- School financial information showing meeting deadlines and procedures and processes for assessing the adequacy of fiscal resources budgeted to tasks. (Is there a way to recognize when funds will run short or if there will be an excess which can be repurposed?)
- Examples of “systems planning tools” (e.g., tree diagram, matrix diagram, flowchart, PERT Chart, Gantt Chart) are used that display the chronological interdependence of the project events that unfold over time.
- Tasks and reports for parties outside the school are monitored for timely completion.
- Other leadership evidence of proficiency on this indicator.

<td>Have there been instances in which you failed to meet deadlines or where expenditures resulted in budget overruns? What did you learn from that experience and how did you apply lessons from it?</td>
<td>When resources are limited, what actions do you take as the school leader to allocate them most efficiently?</td>
</tr>
</tbody>
</table>

---
Narrative: Team learning is an essential element in a learning organization. Does the leader provide needed supports to collegial learning? Are barriers to success removed? Everyone working in isolation reduces the probability of improvements. Collegial processes need resource support. This indicator assesses the leader's proficiency at providing that support.

</tr>
<tr>
<td>The leader leverages knowledge of the budgeting process, categories, and funding sources to maximize the impact of available dollars on collegial processes and faculty development. Results indicate the positive impact of deployed resources in achieving a culture of deliberate practice focused on school improvement needs. The leader has established processes to support collegial processes and faculty development through grants, business or higher education partnerships, and/or community resourcefulness.</td>
<td>The leader has established routines regarding allocation of time and facility resources that result in wide faculty participation in collegial processes and faculty development. School fiscal resources are allocated to support collegial processes and faculty development. Clear delegations of responsibility are evident that involve highly effective faculty in sustaining collegial processes and faculty development.</td>
<td>The leader lacks proficiency in using budget, work schedules, and/or delegation of involvement to focus time and resources on collegial processes and faculty development. There is a lack of sustained and focused resource allocation on these issues.</td>
<td>The leader has little or no record of making plans or keeping commitments to provide resources or build schedules of events that support collegial processes and faculty development.</td>
</tr>
</tbody>
</table>

**Leadership Evidence** of proficiency on this indicator may be seen in the leader's behaviors or actions. **Illustrative examples** of such evidence may include, but are not limited to the following:

- School financial information identifies resources employed in support of collegial learning.
- Procedures for collegial groups to reserve rooms for meetings are provided to all faculty.
- Protocol for accessing school resources to support collegial learning needs.
- School Improvement Plan reflects role(s) of collegial learning teams.
- Leader's memorandums, e-mails, and other documents reflect support for team learning processes both on-campus and via digital participation on communities of practice.

**Impact Evidence** of leadership proficiency may be seen in the behaviors or status of the faculty and staff. **Illustrative examples** of such evidence may include, but are not limited to the following:

- Teachers routinely recount examples of collegial work, team learning or problem solving focused on student achievement.
- Lesson study groups, PLC’s, and other forms of collegial learning teams are operational.
- School-wide teacher questionnaire results reflect teacher participation in collegial learning groups.
- Teachers' professional learning plans incorporate participation in collegial learning.
- Department, team, or grade level meetings devote a majority of their time to collegial learning processes.
- Other impact evidence of proficiency on this indicator.

**Indicator 8.3 – Collegial Learning Resources:** The leader manages schedules, delegates, and allocates resources to provide recurring systemic support for collegial learning processes focused on school improvement and faculty development.
Master schedules are modified to promote collegial use through common planning times.

Other leadership evidence of proficiency on this indicator.

**Scale Levels:** (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

- [ ] Highly Effective
- [ ] Effective
- [ ] Needs Improvement
- [ ] Unsatisfactory

**Evidence Log** (Specifically, what has been observed that reflects current proficiency on this indicator? The examples above are illustrative and do not reflect an exclusive list of what is expected):

</table>
Narrative: The “voice of the school” represents a core set of communication processes that shape perceptions about the school—the leader’s communications central among them. The leader must manage the “voice of the school” so clear, coherent and accurate information flows to faculty, students, and stakeholders. The perceptions of those involved in the success of the school need to be heard, acknowledged, and understood.

**Indicator 9.1 – Constructive Conversations: The leader actively listens to and learns from students, staff, parents, and community stakeholders and creates opportunities within the school to engage students, faculty, parents, and community stakeholders in constructive conversations about important issues.**

Narrative: Skillful “speaking” is important. So is skillful listening. People can engage in conversation on many things, but some things are more important to school improvement than others. Making sure speaking and listening occurs on the important issues is a leader’s task.

**Proficiency Area 9. Communication: Effective school leaders use appropriate oral, written, and electronic communication and collaboration skills to accomplish school and system goals by:**

- Practicing two-way communications, seeking to listen and learn from and building and maintaining relationships with students, faculty, parents, and community;
- Managing a process of regular communications to staff and community keeping all stakeholders engaged in the work of the school; and
- Recognizing individuals for good work; and maintaining high visibility at school and in the community.
adjustments to actions.
planned and implemented.
on controversial issues that need to be addressed in the interest of school improvement.

Indicator 9.2 – Clear Goals and Expectations: The leader communicates goals and expectations clearly and concisely using Florida’s common language of instruction and appropriate written and oral skills, communicates student expectations and performance information to students, parents, and community, and ensures faculty receives timely information about student learning requirements, academic standards, and all other local, state, and federal administrative requirements and decisions.

Narrative: Proficiency in the competencies addressed in this indicator impacts success on many other indicators. The most successful school leaders are able to provide clear goals and expectations on every aspect of school operations and instructional leadership. You need to do the "school leader's two step.” Having clear goals and expectations is step one, communicating them so others can act on them is step two.

<tr>
<td>Clear evidence communication on goals and expectations is present, including open forums, focus groups, surveys, personal visits, and use of available technology. Ensures that all community stakeholders and educators are aware of the school goals for instruction, student achievement, and strategies and progress toward meeting these goals. The leader coaches others within the district to effectively employ the Florida common language of instruction in communicating school goals and expectations.</td>
<td>The leader conducts frequent interactions with students, faculty, and stakeholders to communicate and enforce clear expectations, structures, and fair rules and procedures. Utilizes a system of open communication that provides for the timely, responsible sharing of information with the school community using a variety of formats in multiple ways through different media in order to ensure communication with all members of the school community. Is proficient in use of the Florida common language of instruction to align school goals with district and state initiatives.</td>
<td>Expectations and goals are provided and communicated in a timely, comprehensible and actionable form regarding some student and faculty performance issues. Designs a system of open communication that provides for the timely, responsible sharing of information to, from, and with the school community on goals and expectations, but it is inconsistently implemented. Has a limited capacity to employ Florida’s common language of instruction in aligning school goals and expectations with district and state initiatives.</td>
<td>Expectations and goals regarding student and faculty performance are not provided or are not communicated in a timely, comprehensible and actionable form. The leader’s actions demonstrate a lack of understanding of the importance of establishing clear expectations, structures, rules, and procedures for students and staff. Uses terms in the Florida common language of instruction incorrectly thus misleading others.</td>
</tr>
</tbody>
</table>

Leadership Evidence of proficiency on this indicator may be seen in the leader’s behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:

- Evidence of visibility and accessibility (e.g., agendas of meetings, newsletters, e-mail correspondence, appointment book, etc.) is provided.
- Evidence of formal and informal systems of communication that include a variety of formats (e.g., written, oral) in multiple ways through different media (e.g., newsletter, electronic) used to communicate goals and expectations for how to accomplish the goals.
- School safety and behavioral expectations are accessible to all.
- Dissemination of clear norms and ground rules for standards-based

Impact Evidence of leadership proficiency may be seen in the behaviors or status of the faculty and staff. Illustrative examples of such evidence may include, but are not limited to the following:

- Faculty routinely access www.floriodaстанdards.org to align course content with state standards.
- Staff survey results reflect awareness and understanding of priority goals and expectations.
- Parent survey results reflect understanding of the priority academic improvement goals of the school.
- Parents’ communications to the school reflect understanding of the goals and expectations that apply to their children.
- PTSA/Booster club operations and participation addresses support for
• School Improvement Plan is based on clear actionable goals.
• Leader is able to access Florida’s common language of instruction via online resources.
• Other leadership evidence of proficiency on this indicator.

School academic goals.
• Student survey results reflect understanding of goals and expectations that apply to the students.
• Sub-ordinate leaders use Florida’s common language of instruction.
• Other impact evidence of proficiency on this indicator.

</tr>
</tbody>
</table>
Indicator 9.3 – Accessibility: Maintains high visibility at school and in the community, regularly engages stakeholders in the work of the school, and utilizes appropriate technologies for communication and collaboration.

Narrative: Leaders need to be seen by those they are to lead...and those who are asked to engage in rigorous effort on the leader’s goals need access to the leader. While leaders must manage their time, they must also make sure those who need access can get it in reasonable ways and timeframes. In a 21st century technological society use of social networking and other technologies to promote accessibility is a valuable leadership competency.

</table>

**Leadership Evidence** of proficiency on this indicator may be seen in the leader’s behaviors or actions. **Illustrative examples** of such evidence may include, but are not limited to the following:

- Leader’s work schedule reflects equivalent of two work days a week in classrooms and interacting with students and teachers on instructional issues.
- Meeting schedules reflect frequency of access by various stakeholders.
- Executive business partnerships engaging local business.

**Impact Evidence** of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. **Illustrative examples** of such evidence may include, but are not limited to the following:

- School office staff have effective procedures for routing parents and stakeholders to appropriate parties for assistance and informing the leader when direct involvement of the leader is necessary.
- Subordinate leaders’ involvement in community events where school issues may be addressed.
leaders in ongoing support of school improvement.

- E-mail exchanges with parents and other stakeholders.
- Websites or weblogs provide school messaging into the community.
- Leader’s participation in community events.
- Leader has established policies that inform students, faculty, and parents on how to get access to the leader.
- Leader monitors office staff implementation of access policies to insure timely and responsive accessibility.
- Other leadership evidence of proficiency on this indicator.

- “User friendly” processes for greeting and determining needs of visitors.
- Newspaper accounts reflecting leader’s accessibility.
- Teacher and student anecdotal evidence of ease of access.
- Parent surveys reflect belief that access is welcomed.
- Office staff handles routine requests for access in ways that satisfy stakeholders’ needs without disrupting leader’s time on instructional issues, but gives school leader timely notice when his/her personal involvement should occur without delay.
- Other impact evidence of proficiency on this indicator.

Indicator 9.4 – Recognitions: The leader recognizes individuals, collegial work groups, and supporting organizations for effective performance.

Narrative: Leading is about enabling others to succeed. Recognition of the successes and contributions of others is a key leadership function. Recognition from the leader is motivating and focusing. The recognition needed is more than “good job.” It identifies what people did to generate the success being recognized. Recognizing the way in which people succeed encourages them to continue those practices and informs others “by what methods” they may do the same.

Domain 4 - Professional and Ethical Behavior

Narrative: This domain is focused on the professional integrity and dedication to excellence of the school leader. The indicators in this domain focus on behaviors essential to success as a school leader.

**Proficiency Area 10 - Professional and Ethical Behaviors:** Effective school leaders demonstrate personal and professional behaviors consistent with quality practices in education and as a community leader by staying informed on current research in education and demonstrating their understanding of the research, engage in professional development opportunities that improve personal professional practice and align with the needs of the school system, and generate a professional development focus in their school that is clearly linked to system-wide strategic objectives.

Narrative: There are two broad proficiency areas that are the focus of evaluation of behavior and ethics. One is approached as Proficiency Area 10 of the FSLA which is focused on Florida Principal Leadership Standard #10 (FPLS). The indicators in proficiency area 10 address resiliency, professional learning, commitment, and conduct. The other major professional behavior area, Deliberate Practice, is a separate metric, scored separately and, when combined with the overall FLSA score, generates the Leadership Practice Score.

**Indicator 10.1 - Resiliency:** The leader demonstrates resiliency in pursuit of student learning and faculty development by:

- staying focused on the school vision,
- reacting constructively to adversity and barriers to success,
- acknowledging and learning from errors,
- constructively managing disagreement and dissent with leadership,
- bringing together people and resources with the common belief that the organization can grow stronger when it applies knowledge, skills, and
- productive attitudes in the face of adversity.

Narrative: The lead indicator in this FSLA domain is focused on resiliency. Leadership takes strength of character and a capacity to “weather the storm(s)” to get quality results. It includes learning from mistakes and sticking with it until you get it right.

<td>The leader ignores or subverts policy decisions or initiatives focused on student learning or faculty development that are unpopular or difficult.</td>
</tr>
<tr>
<td>The leader offers frank acknowledgement of prior personal and organizational failures and clear suggestions for system-wide learning resulting from those lessons.</td>
<td>Non-defensive attitude exists in accepting feedback and discussing errors and failures.</td>
<td>The leader sometimes implements unpopular policies unenthusiastically or in a perfunctory manner.</td>
<td>Dissent or dialogue about the need for improvements is absent due to a climate of fear and intimidation and/or apathy.</td>
</tr>
<tr>
<td>The influence of previous evaluations has a positive impact not only on the leader, but on the entire organization.</td>
<td>There is evidence of learning from past errors. Defined structures and processes are in place for eliciting input.</td>
<td>The leader tolerates dissent, but there are minimal to no systemic processes to enable revision of levels of engagement, mental models, and/or misconceptions.</td>
<td>No evidence or reference to previous leadership evaluations is present in the leader’s choices of tasks and priorities.</td>
</tr>
</tbody>
</table>

Leadership Evidence of proficiency on this indicator may be seen in the leader’s behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:

- The leader offers frank acknowledgement of prior personal and organizational failures and clear suggestions for system-wide learning resulting from those lessons.
- The leader builds resilience in colleagues and throughout the organization by habitually highlighting and praising “good mistakes” where risks were taken, mistakes were made, lessons were learned, and both the individual and the organization learned for the future.
- The leader demonstrates willingness to question district authority and policy leaders appropriately with evidence and constructive criticism, but once a district decision is made, fully supports, and professionally implements organizational policy and leadership decisions.
- The leader recognizes and rewards thoughtful dissent.
- The leader’s previous evaluations are explicitly reflected in projects, tasks, and priorities.
- The leader offers evidence of learning from dissenting views
- Improvement plans reflect changes in leadership practices. (either from one year to the next or amending of current plans based on new insights).
- The leader accepts and implements leadership and policy with fidelity

Impact Evidence of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students, and/or community. Illustrative examples of such evidence may include, but are not limited to the following:

- Faculty, staff, parents, and community members express perceptions that their concerns and dissent receive fair consideration and are welcome input from the leader even when they disagree with policies or practices being implemented.
- Faculty or students share anecdotes of practices/policies they previously challenged or resisted but, due to principal’s resilience, they have changed ways of working without acting in dysfunctional or harmful ways to others within the organization.
- The principal’s resilience in pursuit of school improvements has generated a school climate where faculty and staff feel comfortable voicing concerns and disagreements and perceive that their concerns are treated as a basis for deepening understanding.
- Previously resisted policies and practices are now perceived by faculty or students as appropriate and are being implemented with fidelity.
- Results of staff, student, or community questionnaire regarding the leader’s vision and impact on school improvement efforts.
- Changes advocated by the leader and implemented despite resistance have had a positive impact on student growth.
- Faculty and staff describe the school leader as unwavering in...
and district and state initiatives are represented by the leader in a thorough way citing the student data, research base, and performance goals relevant to these initiatives.

- Other leadership evidence of proficiency on this indicator.
- Other impact evidence of proficiency on this indicator.

Indicator 10.2 – Professional Learning: The leader engages in professional learning that improves professional practice in alignment with the needs of the school and system and demonstrates explicit improvement in specific performance areas based on previous evaluations and formative feedback.

Narrative: Professional learning is addressed in several FSLA indicators, each from a different perspective. Indicator 4.5 is focused on what the leader does to engage faculty in meaningful professional learning (which includes being involved in what the faculty is learning). Indicator 4.4 focuses on professional learning needed to implement priority initiatives. Indicator 4.6 addresses alignment of faculty professional learning with improvement of instruction. The Deliberate Practice metric concentrates on a very few issues where the leader drives for deep learning and personal mastery of a few “thin slices.” Indicator 10.2 is focused on the impact of the leader’s professional learning – does the leader’s learning result in improved performance?

<tr>
<td>Leader’s actions or impact of leader’s actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.</td>
<td>Leader’s actions or impact of leader’s actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.</td>
<td>Leader’s actions or impact of leader’s actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.</td>
<td>Leader’s actions or impact of leader’s actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.</td>
</tr>
<tr>
<td>Performance improvements linked to professional learning are shared with other leaders thus expanding impact. The leader approaches every professional learning opportunity with a view toward multidimensional impact. Knowledge and skills are shared throughout the organization and with other departments, schools, and districts. Rather than merely adopting the tools of external professional learning, this leader creates specific adaptations so that learning tools become part of the culture of the organization and are “home-grown” rather than externally generated. The leader provides evidence of leverage, applying each learning opportunity throughout the organization. This leader creates forms, checklists, self-assessments, and other tools so that concepts learned in professional development are applied in the daily lives of teachers.</td>
<td>The leader routinely shows improvement in areas where professional learning was implemented. The leader engages in professional learning that is directly linked to organizational needs. The priority is given to building on personal leadership strengths. The leader personally attends and actively participates in the professional learning that is required of other leaders in the organization. The leader personally attends and actively participates in the professional learning required of teachers. There is clear evidence of the actual application of personal learning in the organization. Where learning has not been applied within the organization, this leader rigorously analyzes the cause for this and does not continue investing time and money in professional learning.</td>
<td>The leader demonstrates some growth in some areas based on professional learning. The leader actively participates in professional learning, but it is reflective of a personal agenda rather than addressing the strategic needs of the organization. The leader attends professional learning programs, but does not fully engage in it and set an example of active participation. The leader has given intellectual assent to some important learning experiences, but can give only a few specific examples of application to the organization.</td>
<td>There is no or only minimal impact of professional learning on the leader’s performance. The leader might introduce a professional learning program, but does not participate in the learning activities along with the staff. The leader is not strategic in planning a personal professional learning focus aligned with the school or district goals. Even on those rare occasions when the leader engages in professional learning, the purpose appears to be merely collecting information rather than reflecting on it and applying it to the organization. Professional learning is an expense, not an investment in constructive improvements.</td>

</table>
teachers and leaders throughout the organization, programs that lack clear evidence of success when applied in the organization.

### Leadership Evidence

Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:

- The leader is an active participant in professional learning provided for faculty.
- The leader's professional growth plan includes professional learning topics that are directly linked to the needs of the school or district.
- Evidence the leader has applied lessons learned from the research to enhance personal leadership practices.
- Case studies of action research shared with subordinates and/or colleagues.
- Forms, checklists, self-assessments, and other learning tools the leader has created that help the leader apply concepts learned in professional development.
- Membership and participation in professional learning provided by professional organizations.
- The leader shares professional learning with other school leaders.
- Other leadership evidence of proficiency on this indicator.

### Impact Evidence

Evidence of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students, and/or community. Illustrative examples of such evidence may include, but are not limited to the following:

- Teachers' anecdotal evidence of the leader's support for and participation in professional learning.
- The frequency with which faculty members are engaged in professional learning with the school leader.
- Changes in student growth data, discipline data, etc., after the leader's professional development.
- Teachers can articulate professional learning shared by the leader after the leader's professional learning was implemented.
- Other impact evidence of proficiency on this indicator.

### Scale Levels:

(choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

- [ ] Highly Effective
- [ ] Effective
- [ ] Needs Improvement
- [ ] Unsatisfactory

Indicator 10.3 – Commitment: The leader demonstrates a commitment to the success of all students, identifying barriers and their impact on the well-being of the school, families, and local community.

Narrative: Leaders are committed to carrying out the role of school leader in ways that benefit others: Students – faculty – community. Barriers to having that impact are not seen as reasons to give up but as problems to be solved.

The messaging and support systems of the effective principal are expanded to engage parents and the community at large in participating in actions that promote student success and mitigate or eliminate multiple barriers to success. The principal's actions on behalf of students form a foundation of mutual respect between students, faculty and the community.

There are programs and processes within the school that focus all students on the importance of success in school and multiple tiers of support to assist them in overcoming barriers to success. Positive slogans and exhortations to succeed are supported with specific and realistic guidance and supports on how to succeed and overcome barriers. The school's vision of success for all students is shared with the community at large.

The leader demonstrates professional concern for students and for the development of the student's potential but implementation of processes to identify barriers to student success have limited scope and have resulted in actions to mitigate those barriers and provide supports for success only for some students. There are gaps in processes that engage all faculty in understanding the student population and the community in which they live. Some student sub-groups do not perceive the school as focused on their best interests.

Leadership Evidence of proficiency on this indicator may be seen in the leader's behaviors or actions. Illustrative examples of such evidence may include, but are not limited to the following:

- Agenda, memorandum, and other documents show a recurring emphasis on student success with specific efforts to remove barriers to success.
- Agenda, memorandum, and other documents show a recurring emphasis on deepening faculty understanding of the students and the community in which they live.
- The leader can describe the challenges present in the students' lives and provide specific examples of efforts undertaken to support student success.
- Barriers to student achievement or faculty development are identified in the SIP, and strategies are implemented to address them.
- Other leadership evidence of proficiency on this indicator.

Impact Evidence of leadership proficiency may be seen in the behaviors or actions of the faculty, staff, students and/or community. Illustrative examples of such evidence may include, but are not limited to the following:

- Student results show growth in all sub-groups.
- Faculty members' anecdotal evidence describes a leader focused on and committed to student success.
- Parent and community involvement in student supports are plentiful and address the needs of a wide range of students.
- Student work is commonly displayed throughout the community.
- News reports in local media draw attention to positive actions of students and school.
- Other impact evidence of proficiency on this indicator.
Scale Levels: (choose one) Where there is sufficient evidence to rate current proficiency on this indicator, assign a proficiency level by checking one of the four proficiency levels below. If not being rated at this time, leave blank:

<tbody>
<tr>
<td>Leader’s actions or impact of leader’s actions relevant to this indicator exceed effective levels and constitute models of proficiency for other leaders.</td>
<td>Leader’s actions or impact of leader’s actions relevant to this indicator are sufficient and appropriate reflections of quality work with only normal variations.</td>
<td>Leader’s actions or impact of leader’s actions relevant to this indicator are evident but are inconsistent or of insufficient scope or proficiency.</td>
<td>Leader’s actions or impact of leader’s actions relevant to this indicator are minimal or are not occurring, or are having an adverse impact.</td>
</tr>
<tr>
<td>There is clear, convincing, and consistent evidence that the school leader abides by the spirit, as well as the intent, of policies, laws, and regulations that govern the school and the education profession in the state of Florida, and inspires others within the organization to abide by that same behavior. The leader clearly demonstrates the importance of maintaining the respect and confidence of his or her colleagues, of students, of parents, and of other members of the community, as a result the leader achieves and sustains the highest degree of ethical conduct and serves as a model for others within the district.</td>
<td>There is clear evidence that the leader values the worth and dignity of all people, the pursuit of truth, devotion to excellence (i.e., sets high expectations and goals for all learners, then tries in every way possible to help students reach them) acquisition of knowledge, and the nurture of democratic citizenship. The leader’s primary professional concern is for the student and for the development of the student’s potential. Therefore, the leader acquires the knowledge and skills to exercise the best professional judgment and integrity. The leader demonstrates the importance of maintaining the respect and confidence of his or her colleagues, of students, of parents, and of other members of the community. As a result the leader adheres to the prescribed ethical conduct.</td>
<td>The leader’s behaviors enable recurring misunderstanding and misperceptions about the leader’s conduct and ethics as expressed in the Code and Principles. There are segments of the school community whose developmental needs are not addressed and leadership efforts to understand and address those needs is not evident. The leader has only a general recollection of issues addressed in the Code and Principles and there is limited evidence that the school leader abides by the spirit, as well as the intent, of policies, laws, and regulations that govern the school and the education profession in the state of Florida.</td>
<td>The leader’s patterns of behavior are inconsistent with the Code of Ethics, Rule 6B-1.001, or disciplinary action has been initiated based on violation of the Principles of Professional Conduct, Rule 6B-1.006.</td>
</tr>

EVALUATION FORM: ANNUAL PERFORMANCE LEVEL

This form is used to calculate a Summative Performance Level

Name: ________________________________________________________________

School: ___________________________ School Year: ________________

Evaluator: ___________________________ District: ______________________

Evaluator’s Title: ______________________ Date Completed: ______________

Examine all sources of evidence for each of the four domains, using the results from the FSLA process as it applies to the school leader’s performance. Incorporate the Deliberate Practice Score. Refer to the Scoring Guide to rate FSLA and Deliberate Practice... Assign an overall evaluation of the school leader’s performance, sign the form and obtain the signature of the school leader.

A. Leadership Practice Score
   FSLA score _____ x .80 = _____
   Deliberate Practice Score x .20 = _____
   Combined score is Leadership Practice Score: ______________

B. Student growth Measure Score: ________________

C. Performance Score: __________________________

</tr>
<tr>
<td>Indicator 3.5 – Revise curriculum, program, or service delivery based on assessments.</td>
</tr>
<tr>
<td>Indicator 3.6 – Plan and prepare programs and activities considering students’ culture, learning style, special needs, and socio-economic background.</td>
</tr>
<tr>
<td>Indicator 3.7 – Serve on school / district committees for the planning and implementation of programs and / or services.</td>
</tr>
</tbody>
</table>
| Indicator 3.8 – Plan and prepare strategies which support school
improvement plans and the District mission.

**Indicator 3.9** – Select, develop, modify, and/or adapt materials and resources which support learning objectives and address varying learning styles, backgrounds, and special needs.

**Indicator 3.10** – Participate, as requested, in the planning and use of educational facilities that will support the objectives of the District.

### Proficiency Area 4 – Administrative / Management

**Indicator 4.1** – Establish and maintain a positive, organized, and safe environment.

**Indicator 4.2** – Establish and maintain effective and efficient record keeping procedures.

**Indicator 4.3** – Use technology resources effectively.

**Indicator 4.4** – Manage time effectively.

**Indicator 4.5** – Assist teachers in establishing routines and procedures and working with students on consistently following them.

**Indicator 4.6** – Develop routines and efficient techniques for minimizing time required for administrative and organizational activities.

**Indicator 4.7** – Manage materials and equipment effectively.

**Indicator 4.8** – Assist in identifying program or service needs and in developing the budget for the assigned area of responsibility.

### Proficiency Area 5 – Intervention / Direct Services

**Indicator 5.1** – Demonstrate knowledge and understanding of assigned curriculum, program or service area.

**Indicator 5.2** – Provide assistance and coordination in curriculum development, alignment, implementation, and evaluation.

**Indicator 5.3** – Model principles of learning and effective teaching in instructional delivery.

**Indicator 5.4** – Assist school administrators and teachers in understanding programs and implications for instructional practice.

**Indicator 5.5** – Model the use of a variety of instructional strategies appropriate for teaching students from diverse backgrounds with different learning styles and special needs.

**Indicator 5.6** – Disseminate and interpret current trends and research related to curriculum, instruction, technology, and related areas.

**Indicator 5.7** – Use appropriate materials, technology, and resources to help teachers to implement effective instructional strategies.

**Indicator 5.8** – Assist teachers in providing appropriate instruction and modifications for students with special needs, including exceptional education students and students who have limited proficiency in English.

**Indicator 5.9** – Provide support and assistance to teachers in implementing teaching strategies, identifying appropriate activities, organizing and managing the classroom, selecting materials, and addressing needs of individual students.

**Indicator 5.10** – Facilitate the implementation of programs, activities, and strategies designed to achieve school improvement objectives.

### Proficiency Area 6 – Staff Development

**Indicator 6.1** – Plan, implement, and evaluate in-service for teachers, administrators, and other school staff.

**Indicator 6.2** – Engage in continuing improvement of professional knowledge and skills.

**Indicator 6.3** – Assist others in acquiring knowledge and understanding of particular area of responsibility.

**Indicator 6.4** – Keep abreast of development in instructional methodology, learning theory, curriculum trends, and content.

**Indicator 6.5** – Conduct a personal assessment periodically to determine professional development needs with reference to specific assignment.

Amendment A

School Leaders and Non Classroom Teachers Evaluation

Amended Documentation for Value Added Model Calculation Starting the 2012/13 School Year

Florida Statute requires student learning growth, as measured by statewide assessments or district assessments for non state assessed content areas, accounts for at least 50% of the evaluation of educators (Section 1012.34(3(a)1). Districts are also required to use Florida’s Value Added Model (VAM) to calculate educators’ affect on student learning growth. Students are expected to increase their achievement from the previous year.

In an effort to develop a fair method of incorporating student learning growth into school leaders and non classroom teachers’ evaluations, the Florida Value Added Model accounts for factors outside the educator’s control and does not rely on a single test score. The educator’s VAM score represents their impact on student learning, after accounting for other factors that impact learning (e.g. student characteristics, classroom characteristics, and school characteristics). An example of a student characteristic would be the English Language Learner status of a student. Class size is an example of a classroom characteristic and a school’s Title I status represents a school characteristic.

FLDOE provides each district with encrypted student and teacher data files which contain the VAM estimate scores. A score of “0” indicates that students performed no better or worse than expected. A positive score indicates that students performed better than expected; and a negative score indicates that students performed worse than expected. The District Aggregation VAM data (1yr) for reading, mathematics, and Algebra provided the foundation for calculating the following cut scores for 2012/13 VAM calculations (*). Until the state provides mandated cut scores for all districts, VAM scores will be evaluated annually to determine each year’s VAM cut scores.

</tr>
</thead>
<tbody>
<tr>
<td>Assigned Ratings</td>
<td>4</td>
<td>3.49</td>
<td>2.49</td>
<td>1.49</td>
</tr>
</tbody>
</table>
Calculating Overall Rating

- Professional Practice Score: 50%
- VAM Estimate Rating Score: 50%

Formula: \[ \text{PPS} (.50) + \text{VAM} (.50) = \text{Final Rating} \]

\[ \text{IPS} = 2.8, \text{VAM} = -0.34 \]

\[ 2.8 (.50) + (-0.34) (.50) = \text{Final Rating} \]

\[ 1.4 + (-1.2) = 0.2 \]

Final Rating = 0.2 = Effective Category

<table>
<thead>
<tr>
<th>RATINGS Categories</th>
<th>Highly Effective</th>
<th>Effective</th>
<th>Needs Improvement/Developing</th>
<th>Unsatisfactory</th>
</tr>
