Dear Parents/Guardians:

The Gateway Early Head Start and Head Start Program is committed to protecting students' and staff's health. To protect our community and be in compliance with the Department of Education regulations for all schools in the State of New Jersey, all drinking water outlets at the center have been tested.

Testing is completed and you can see the results from the laboratory testing on page two.

Anything below 15.5 ppb is safe and all outlets at this site have tested well below the 15.5 ppb (parts per billion).

For additional information, refer to the Department of Environmental Protection's website at: <http://www.nj.gov/dep/watersupply/dwc-lead-schools.html>.

Sincerely,

Bonnie Eggenburg  
Vice President and Director for Gateway Head Start and Early Head Start
