GENEVA COUNTY SCHOOLS iAchieve Technology Initiative

Google Apps for Education Opt Out Form

All students will be granted access to Google Apps for Education on their school provided iPads with their own student email accounts.

Google Apps for Education has several apps that have educational value for our students. Many of our teachers have been looking for new ways to improve student engagement, and Google Apps for Education is a great way to accomplish that.

Email is one of the apps included in the student Google accounts. Students in grades K-8 will only be able to send/receive emails from Geneva County Schools' accounts. Students in grades 9-12 will be able to send/receive emails from outside of Geneva County Schools for college applications and other various assignments.

If you **DO NOT** want your student to have a school provided email account please complete this form and return it your child's school.

If you decide to limit your child's access in Google Apps for Education, please discuss with your student's teacher(s) any accommodations that will be necessary to complete assignments that rely on access to Google Apps for Education.

_____

Student Name: _____   **Grade: _____**
