

One Walk. One Community.

The Greeneville City Schools' Diversity Team is a group of educators & community members who have dedicated themselves to bettering our students and our school system by having courageous conversations about race and how it impacts our learning and daily lives. This group has participated in book studies, attended national conferences, and presented to Tennessee's educational leaders from across the state. All proceeds from this 5K will stay in our community and be dedicated to helping our children through the GCS' Family Resource Center.
