

ANIMAL ADAPTATIONS

MASTERY

Pick an animal. Identify 3 adaptations for this animal.

UNDERSTANDING

Compare and contrast a mammal and a reptile that share the same biome. Why would we need to compare these two animals?

INTERPERSONAL

Imagine that you are moving from Tennessee to Alaska. Use your book and a friend to find 3 environmental differences to which you will need to adapt.

SELF-EXPRESSIVE

Create an imaginary animal and draw 3 specific adaptations this animal has in its biome that you have chosen.
