

Hixson High School

Institute for Health Careers and Medical Advancement

Pathways:

- Nursing Services
- Therapeutic Services
- Sports and Human Performance
- Dental Assisting

Future Ready Institutes Highlights:

- ★ Small Learning Communities - Students will be a member of a smaller learning community containing students with similar career interests.
- ★ Engaging Learning Opportunities - Students will be engaged in project-based learning opportunities with real world connections around the career theme.
- ★ Business and Community Partnerships - Institutes will be connected to local business and community partners which will allow opportunities for students to learn from successful career professionals.
- ★ Post-Secondary Jumpstart - The institute will allow for students to have early postsecondary opportunities and opportunities to earn work ready credentials.
