Subject: Contract to Remove & Replace the existing Visitors Bleachers At the Football Stadium

Background Information: The Board has undertaken the task of upgrading the Football Stadium with dedicated funds. The first step is to have the visitors bleachers removed and replaced. There are two reasons for doing this first. They are in deteriorated condition with rusty supports, and warped and cracked seating which requires continual maintenance. In order to replace the Track, and have it meet Florida High School Athletic Association standards, they need to be moved back.

We contacted Seating Constructors USA, who provided us with an all inclusive price to remove and replace the existing bleachers. The new bleachers will be placed on a concrete foundation, made of all aluminum, and meet all building and ADA requirements. Pricing is based on a bid with Palm Beach Board of County Commissioners (bid #10-072/PR in effect through August 22, 2013), which allows us to piggy-back. By doing this we can cut the time required to get this project complete. If approved, the new bleachers will be in place before the first football game this season.

Administrative Consideration (include F.S., Rule, Authority, etc.):

Primary reference: State Board Rule

Strategic Plan Goal Three: To provide, maintain, and improve facilities that directly affect student achievement and safety.

Fiscal Impact: \$105,637

Director of Finance signature: 

Superintendent's Recommendation to School Board: Recommend approval of quote 1205-25 from Seating Constructors USA to remove and replace visitor bleachers at the football stadium.
