Hawkins County Schools

Child Find Program

The Mission for Hawkins School System
is to "Educate and Graduate Each Student."

Hawkins County Schools Child Find Program

The Hawkins County School System is committed to providing opportunities for all children to be successful during their educational program. The school system provides information to parents and guardians concerning programs offered to assist children who have special needs. An early intervention program may occur as early as 3 years of age with continuous intervention through age 21.

PURPOSE

The purpose of child find is to locate and evaluate children who are suspected of having a disability. If it is determined that the disability interferes with learning, special education and/or related services may be recommended. Related services may include (but are not limited to) Speech/ Language Therapy, Occupational Therapy and Physical Therapy.

WHO MAY REFER CHILDREN?

Referrals for screening may be made by parents, teachers, physicians, public service agencies, or other concerned individuals.

WHAT IS THE CHILD FIND PROCESS?

Step 1

A screening process may occur to determine the possibility of delays in the development of the child.

Step 2

An evaluation may occur to assess eligibility for pre-school special education programs and to identify the child's strengths and needs.

Step 3

Once eligibility has been established, an individualized program is planned by an IEP (Individual Educational Program) Team, which includes the parent/guardian of the child.

Educational intervention may continue when the child enters school, and may be maintained through the age of 21, depending on the child's individual needs.
