

## HCBOE Activity

---

### 7-UP

**Items needed** – 12-pack 7-UP cans or bottles

**What to do:**

- This activity is done to reinforce the seven ingredients of a great introduction.
- Before students enter, place cans of 7-UP randomly around the room. As students arrive, ask them to pick up a can of 7-UP, then take a seat. Ask them why they think the 7-UP cans have been placed around the room. Explain to them that the can is a reminder to them of the seven ingredients of a great introduction.
