**From:** David McDermott  
Director of Career, Technical, and Agricultural Education

**Subject: COMPUTER CLASSES**

On October 17-18, 2016, several Houston County School System employees will once again offer basic computer classes free of charge to our adult community. The computer classes will be taught at the Houston County Career Academy, with different material covered each night. Those attending both classes will receive a certificate of completion. The classes will take no more than fifty (50) participants.

Those attending the computer classes will also have the opportunity to tour the Fab Lab. The Fab Lab is a global network of local labs, enabling invention by providing access to tools for digital fabrication. Houston County's lab features a 3-D printer, laser cutters and woodworking equipment.

**Houston County
