

REMC SERVICES AT HATC

At the Huron Area Technical Center, REMC 10 has hired a student through the On-The-Job Training program in the Information Management Systems program to offer the following services: die cutting and laminating. In collaboration with Tuscola ISD, there are a large variety of die cuts available. To view die cut options, visit www.remc10.org. Click on the "Core Services" tab and navigate to the "Teacher's Corner" page. In the third paragraph, there is a link (indicated with the word "HERE") that will take you to PDF file of all the available die cuts. This service is free if you provide the paper; however, REMC 10 does have construction paper available if requested for a small nominal fee. Along with die cutting, lamination services are also available. We are able to laminate items up to 26 ½ inches wide for a fee of 20¢ per foot in length. For either of these services, the students of IMS can pick up and/or deliver your items. If you are interested in utilizing either of these services, please contact Mrs. Kim Schadd, IMS instructor, at (989) 269-9284 between 8:00 a.m. and 3:30 p.m. for more information.
