

# Hava Bites

A Monthly Food Service Report  
Christopher Gallaga April 2019

## Program Updates

### ✓ April 2019

- **Harvest of our** hydroponic lettuce farm, during ACT testing, went off without a hitch. Chef Chris and Mrs. Donna spent all of lunch on April 12, harvesting and serving lettuce to the Lake Havasu High School Knights, right out in the courtyard. You cannot get closer to the farm than this. The students not only enjoyed the fresh lettuce, on sandwiches, salads, and as a fresh veggie; they were also very curious and inquisitive about the hydroponic system and our general commitment to providing the best nutrition to them. Chef Chris went right back to planting, this time herbs as well as more lettuce.
- **Mrs. Donna** was also busy offering a final lesson and graduating 16 Culinary Thundercats in her 2018/19 kids in the kitchen program.
