

Unified Basketball Philosophy

Dedicated to promoting social inclusion through shared sports training and competition experiences, Unified Sports joins people with and without intellectual disabilities on the same team. It was inspired by a simple principle: training together and playing together is a quick path to friendship and understanding.

Lawrence High School has embraced this philosophy and entered the Spring 2016 basketball league. The league is sanctioned by New York State and supported by the Special Olympics and Nassau county Boces.

We are very proud of our team and hope you are able to take the time to support our athletes. Team members include:
