Liberty Parents / Students

Chromebook Collection for 2021

Last year we did not collect Chromebooks due to the COVID lockdown and the issues with sanitizing the devices that would have resulted.

This year we must collect Chromebooks for inventory and inspection; therefore all students must return Chromebook, charger, and case by the end of the day, May 28.

If you will be attending Summer School classes, you will retain the Chromebook until the last days of classes, which will be July 21, at which time it will be collected.

We are surveying teachers to determine the last day each student will need to use the Chromebook in class. Students will be notified where and when to turn the Chromebook in.

When returning the Chromebook students will present it for inspection. It must be turned on, displaying the login screen. They will also turn in the charger and case. Any papers or other items must be removed. Items not removed will be discarded.

If you are aware there is a problem with the Chromebook or is missing the charger or case, complete the form linked below. Do not fail to do this as soon as possible.

Look for additional information on the Chromebook return process next week.
