Liberty Junior High and High School Study Lab

Starting November 16, Liberty Junior High and High School will be offering a study lab for students that are getting a D or an F in a class or have been identified as a student that needs extra support. Study lab is only available for Liberty Junior High and High School Students (7-12 grade). Study lab will be held Monday-Friday (school attendance days) from 1:30 - 3:10 PM and will be located in the cafeteria.

Liberty staff will supervise the study lab for the entire time and be available to offer assistance to the students while they work. Students will be socially distanced in the cafeteria and will have to continue to wear a mask. Mask breaks can be provided as needed.

Students at school until 1:30 PM will simply report to the cafeteria immediately after the dismissal bell rings.

Students that have early release and have to come back to school for study lab or remote learners that are coming to the school for study lab will:

- Report to the school at **1:45 PM** and park or be dropped off in the gravel parking lot.
- Enter the school through the entrance at the end of the jr high hallway. Students will have their temperature taken before they can enter. If a student has any COVID symptoms they will not be allowed to stay.

Attendance at study lab is strongly encouraged for students that are in danger of failing a class. We hope that offering this extra support and work time will reduce the number of students that may have to be retained (jr high students) or that have fallen off track to graduate on time (high school students).

Transportation to and from study lab is the responsibility of the student or guardian. Please call the school at 645-3389 to let us know what days your student plans on attending study lab or if you have any questions.
