As steward of the ~~County~~ Board of Education's property, the Board of Education ("Board") recognizes that efficient management and full replacement upon loss requires accurate inventory and properly maintained property records.

The Board shall

For purposes of this policy “equipment” means tangible personal property (including information technology systems) having a useful life of more than one (1) year and a per-unit acquisition cost which equals or exceeds the current State threshold amount for equipment.

Capital expenditures, which are expenditures for capital assets, require prior written approval in order to be allowable in certain situations. General purpose equipment, buildings, and land, as well as improvements to land, buildings, or equipment which materially increase their value or useful life, are unallowable as direct charges unless the Federal awarding agency or pass-through entity provides prior written approval. Whereas capital expenditures for special purpose equipment are allowable as direct costs, provided that items with a unit cost of \$5,000 or more have the prior written approval of the Federal awarding agency or pass-through entity.

When defining supplies for inventory purposes, no items will be counted whose total value is less than \$ 5,000 _____.

Examples of computing devices include laptops, smartphones, tablets, etc. Computing devices are classified as equipment if their acquisition cost meets the above-mentioned equipment threshold. Computing devices that do not meet the acquisition cost threshold are considered supplies. Regardless of whether a computing device is classified as an equipment or supply, it must be counted during the inventory.
