Introduction

AdvancED's Self Assessment (SA) diagnostic is based on the AdvancED Standards of Quality, which serves as the foundation of the accreditation and continuous improvement process. The SA is a valuable tool for collaboratively engaging staff members and stakeholders in purposeful, honest dialogue and reflection to assess the institution's adherence to the Standards, and guide its continuous improvement efforts. The SA includes the institution's self-ratings of and the evidence cited for each of the indicators, comments that explain the indicator's ratings and an overall narrative for each Standard. The results of the SA are reviewed by the External Review Team as one essential component of the preparation process for the institution's External Review.

Standard 1: Purpose and Direction

The school maintains and communicates a purpose and direction that commit to high expectations for learning as well as shared values and beliefs about teaching and learning.

Overall Rating: 3.0

Indicator	Statement or Question	Response	Evidence	Rating
1.1	The school engages in a systematic, inclusive, and comprehensive process to review, revise, and communicate a school purpose for student success.	The school's process for review, revision, and communication of the purpose statement is documented. The process is formalized and implemented on a regular schedule. The process includes participation by representatives from all stakeholder groups. The purpose statement focuses on student success.	<ul style="list-style-type: none"> •Examples of communications to stakeholders about the school's purpose (i.e. website, newsletters, annual report, student handbook) •Communication plan to stakeholders regarding the school's purpose •Minutes from meetings related to development of the school's purpose •Documentation or description of the process for creating the school's purpose including the role of stakeholders •Purpose statements - past and present 	Level 3

Indicator	Statement or Question	Response	Evidence	Rating
1.2	The school's leadership and staff commit to a culture that is based on shared values and beliefs about teaching and learning and supports challenging, equitable educational programs and learning experiences for all students that include achievement of learning, thinking, and life skills.	Commitment to shared values and beliefs about teaching and learning is evident in documentation and decision making. This commitment is regularly reflected in communication among leaders and staff. Challenging educational programs and equitable learning experiences are implemented so that all students achieve learning, thinking, and life skills necessary for success. Evidence indicates a commitment to instructional practices that include active student engagement, a focus on depth of understanding, and the application of knowledge and skills. School leadership and staff share high expectations for professional practice.	<ul style="list-style-type: none"> •Agendas and/or minutes that reference a commitment to the components of the school's statement of purpose •The school's statement of purpose 	Level 3

1.3	The school's leadership implements a continuous improvement process that provides clear direction for improving conditions that support student learning.	School leaders implement a documented, systematic continuous improvement process for improving student learning and the conditions that support learning. All stakeholder groups are engaged in the process. School personnel maintain a profile with current and comprehensive data on student and school performance. The profile contains analyses of data used to identify goals for the improvement of achievement and instruction that are aligned with the school's purpose. Improvement goals have measurable performance targets. The process includes action planning that identifies measurable objectives, strategies, activities, resources, and timelines for achieving improvement goals. School leaders hold all school personnel accountable for and evaluate the overall quality of the implementation of all interventions and strategies. The process is reviewed and evaluated. Documentation that the process yields improved student achievement and instruction is available and communicated to stakeholders.	<ul style="list-style-type: none">•The school data profile•Agenda, minutes from continuous improvement planning meetings•Communication plan and artifacts that show two-way communication to staff and stakeholders•The school continuous improvement plan	Level 3

Alba Middle has a clear mission and purpose statement that is indicative of student success. The mission is periodically reviewed and changed as needed to reflect the school's culture. School success is communicated to parents and stakeholders in a number of ways. Alba's mission/purpose focuses on student success and achievement.

Alba exhibits a school culture that is built on shared values and teaching philosophy. The school aims to provide learning experiences for all students that help facilitate student achievement and prepare students to be college and career ready. In addition to the various programs at Alba, the school demonstrates a commitment to achievement through student engagement, instructional practices and curriculum standards. After school activities and clubs are provided and allow students to create and explore various interests.

Review of School Improvement Plans, grade level meeting minutes and professional development all verify that Alba leadership implements a plan for continuous improvement that supports student achievement. Student achievement data is analyzed quarterly and used to drive instruction. School performance data is shared local with all stakeholders (parents, faculty, students and community).

School culture and leadership is imperative to student success. In order to maintain strength in these areas, the culture will be monitored continuously. The leadership will insure that everyone is committed to having high expectations to promote improvement and provide valuable learning experiences for all students. Alba leadership along with all stakeholders will continue to monitor and strive to improve indicators associated with Standard 1.

Standard 2: Governance and Leadership

The school operates under governance and leadership that promote and support student performance and school effectiveness.

Overall Rating: 2.83

Indicator	Statement or Question	Response	Evidence	Rating
2.1	The governing body establishes policies and supports practices that ensure effective administration of the school.	Policies and practices support the school's purpose and direction and the effective operation of the school. Policies and practices promote effective instruction and assessment that produce equitable and challenging learning experiences for all students. There are policies and practices regarding professional growth of all staff. Our school operates under governance and leadership that promote and support student performance and school effectiveness. Overall Alba Middle School in coordination with Central Office, exhibit strengths in all indicators with the exception of indicator 2.5. Central Office does an exceptional job establishing policies and support practices that ensure operative administration of our school responsibly and successfully. They also guarantee that our school leadership has the autonomy to meet goals for achievement and instruction and to manage everyday operations efficiently. Alba Middle School leadership engages stakeholders actively in support of the school's purpose and direction and also provides rigorous professional growth resulting in improved professional practice and student success.

As stated above, our need for improvement is identified in indicator 2.5. Although we have great community support and financial involvement, there is a minimal degree of collaboration and a limited sense of authentic community. Unfortunately, communication efforts with stakeholders are limited or stalled and participation and engagement with these groups are lacking. School practices allow for some stakeholder contribution; however, it is usually monetary and needs personal community input.

In order to maintain areas of strength, our school implements a continuous school improvement plan. This plan is led by a committee of students, stakeholders, teachers, administrators and central office personnel collaborating together and exercising equitable and challenging learning experiences for all students. Quarterly meetings are held in order to evaluate strengths and weaknesses of our students and preparations are made to address these areas of improvement. After school tutoring, Odyssey, BYOD, and credit recovery programs allow students every opportunity to succeed.

To improve areas of need, we must encourage our community leaders to have an active voice in the school's daily functions. We will invite them to participate as committee members in the governing body of our school. Stakeholders should be actively involved in most aspects of the school and not just for financial support.

Standard 3: Teaching and Assessing for Learning

The school's curriculum, instructional design, and assessment practices guide and ensure teacher effectiveness and student learning.

Overall Rating: 2.75

Indicator	Statement or Question	Response	Evidence	Rating
3.1	The school's curriculum provides equitable and challenging learning experiences that ensure all students have sufficient opportunities to develop learning, thinking, and life skills that lead to success at the next level.	Curriculum and learning experiences in each course/class provide all students with challenging and equitable opportunities to develop learning skills, thinking skills, and life skills. Alba Middle school does an excellent job monitoring and making adjustments to the curriculum, instruction and assessment of students. Alba follows a set curriculum. It also individualizes activities based on student needs. Alba uses several assessments which include STAR tests, ASPIRE interims, and end-of-the-quarter assessments. Teachers meet to create assessments and align them to curriculum pacing guides set by the district. School leaders monitor instructional practices by completing classroom observations and ensuring the lessons are aligned with the board approve curriculum. Alba also has mentoring programs for new teachers to support instructional improvement. These areas of strength will continue to be monitored on a quarterly basis to ensure Alba meets the needs of the students. Teachers will turn in lesson plans weekly and classroom observations will be made on a regular basis. New teachers will also continue to meet with veteran teachers as well as participate in professional development throughout the year. Student needs will continue to be assessed and individualization will occur to support academic achievement.

Along with our strengths, Alba has areas in which it can improve. Alba lacks a formal program where each student is awarded an adult advocate. In addition, the school does not have a full-time EL teacher, nor do the majority of teachers issue a learning style test. Alba will create a program in which teachers rotate during homeroom to discuss ongoing issues. These teachers will develop a relationship with the students over time and will be able to gain insight as to the needs, learning, and life skills of each student. An EL teacher visits students frequently. Students that do not speak English are paired with another student that speaks their home language to help with the transition. Students that are struggling will be given a learning style test to determine which style of learning can best support their unique needs.

After examining the Standard 4 indicators, an overall score of 3 was determined. Alba has resources and provides services that support its purpose and direction to ensure success for all students. Our school is staffed according to defined policies with qualified personnel according to system standards. Instructional time, material resources, and fiscal resources are sufficient to support the purpose and direction of the school at an appropriate level. The school maintains facilities, services, and equipment to provide a safe, clean and healthy environment for all students and staff. Students and school personnel are provided a range of media and information resources 24 hours a day/365 days of the year to support the school's educational programs as well as the personal interests of the students and staff. In fact, our strength would be our technology infrastructure that is needed for the school's teaching, learning, and operational needs. Evidence further indicates that support services are sufficient to meet the physical, social, and emotional needs of the student population we serve. Our concern would be that parents need more involvement in the process of providing counseling, assessment, referral, educational and career planning services to meet the needs of all students at our school.

The groundwork to establish an exemplary school wide technology infrastructure was started several years ago. To maintain adequate access for our students and teachers, Alba provides four computer labs with online scheduling at the point of need. Plans are in place to ensure that computers are replaced as warranties expire and that the equipment is serviced within those warranty plans. In addition, teachers can supplement the BYOD initiative with a supply of devices that can be checked out from the library. While teachers are currently provided a laptop and iPad for classroom and professional use, plans are in place to increase classroom technology for student use according to our annual needs assessments.

We feel our weakness would not be the services that our students receive through counseling and referrals; but, the lack of interaction between the school and our parents about educational and career planning services for all students. Parental support is the missing piece of the puzzle. Our students would benefit from open communication and interaction from both the school, community stakeholders and their parent/guardians as they assess current and future educational and career planning goals. Future plans to increase parental support and interaction will be addressed by the leadership team in conjunction with community stakeholders on the ACIP Plan.

Alba Middle School requires professional and support staff to continuously collect, analyze, and apply learning from a range of data sources. After careful consideration and discussion of Standard 5 indicators, the committee considers this a significant strength. Testing data is discussed during data meetings, PST meetings, department meetings, and among collegial collaborative meetings. Data sources related to student learning, instruction, program effectiveness, and learning conditions are as follows: PST meetings, department meetings, the ACIP quarterly review, STAR results and the generated progress tracking reports, and the annual Aspire results. CFAs (Common Formative Assessments) are given throughout the quarter as a means of monitoring student mastery of the quarterly objectives, which allows teachers to adjust their ongoing instructional practices. Behavior 360, used along with the PST data, helps with interventions. Aspire data is utilized to target students, particularly the bottom 25% identified as "at risk," so that teachers may collaborate to identify weaknesses and develop strategies to implement best instructional practices.

To sustain this strength, Alba's administration will continue to provide professional development opportunities at the beginning and throughout the school term for faculty and support staff members. The school will continue to use a large number of accessible data sources to gather evidence of school achievement. The school improvement plan, ACIP, will be continuously reviewed and updated based on the needs of our students.

Self Assessment

Peter F. Alba Middle School

Leadership monitors and communicates comprehensive information about student learning, conditions that support student learning, and the achievement of school improvement goals to all stakeholders. However, Alba received a low rating in this area from parent surveys. Currently, multiply delivery methods of communication include, parent partnership conferences to disseminate Aspire results to parents, ACIP quarterly review meetings with parent and students in attendance, various types of electronic communications, such as Alba's Web page, Facebook, and Twitter. To improve stakeholder communication, Alba will increase the utilization of School Messenger to inform parents of upcoming school events and other important news. Alba will also outreach to the local community by including news and events in the local published newsletter.
