INTERNAL ORGANIZATION

The board shall meet and conduct its annual meeting in November of each year at which time it will elect officers and organize.

BOARD MEMBER AUTHORITY

Members of the board shall have authority only when acting as a board legally in session. The board shall not be bound in any way by any statement or action on the part of an individual member except when such statement or action is in pursuance of specific instruction of the board.

ETHICS

The board adopts the following statement of ethics to guide members:

- I. As a member of the Board of School Commissioners, representing all the citizens of my school district, I recognize the following:
 - A. My fellow citizens have entrusted me with the educational development of the children and youth of this community.
 - B. The public expects my first and greatest concern to be in the best interest of each and every one of these young people without distinction as to who they are or what their background may be.
 - C. The future welfare of this community, of this state, and of the nation depends in the largest measure upon the quality of education we provide in the public schools to fit the needs of every learner.
 - D. My fellow board members and I must take the initiative in helping all the people of this community to have all of the facts all of the time about their schools, to the end that they will readily provide the finest possible school program, school staff, and school facilities.
 - E. Legally the authority of the board is derived from the state, which ultimately controls the organization and operation of the school system and which determines the degree of discretionary power left with the board and the people of this community for the exercise of local autonomy.
 - F. I must neither neglect my personal obligation to the community and my legal obligation to the state, nor surrender these responsibilities to any other person, group, or organization; but that, beyond these, I have a moral and civic obligation to the nation which can remain strong and free only so long as public schools in the United States of America are kept free and strong.
- II. In view of the foregoing consideration, my constant endeavor shall be the following:
 - A. I shall devote time, thought, and study to the duties and responsibilities as a school board member so that I may render effective and creditable service.
 - B. I shall work with my fellow board members in a spirit of harmony and cooperation in spite of differences of opinion that arise during vigorous debate of points at issue.

- C. I shall base my personal decision upon all available facts in each situation; to vote my honest conviction in every case, unswayed by partisan bias of any kind; thereafter to abide by and to uphold the final majority decision of the board.
- D. I shall remember at all times that as an individual I have no legal authority outside the meetings of the board, and to conduct my relationships with the school staff, the local citizenry, and all media of communication on the basis of this fact.
- E. I shall resist every temptation and outside pressure to use my position as a school board member to benefit either myself or any other individual or agency apart from the total interest of the school system.
- F. I shall recognize that it is as important for the board to understand and evaluate the educational program of the schools as it is to plan for the business of school operation.
- G. I shall bear in mind under all circumstances that the primary function of the board is to establish the policies by which the schools are to be administered, but that the administration of the educational program and the conduct of school business shall be left to the employed superintendent of schools and his or her professional and nonprofessional staff.
- H. I shall welcome and encourage active cooperation by citizens, organizations and the media of communication in the district with respect to established policy on current school operation and proposed future developments.
- I. I shall support my state and national school boards associations.
- J. Finally, I shall strive step by step toward ideal conditions for most effective school board service to my community, in a spirit of teamwork and devotion to public education as the greatest instrument for the preservation and perpetuation of our representative democracy.

BOARD OFFICERS

The officers of the board shall be a president and vice president who shall be elected by the board members at the annual meeting, and whose term of office shall be for a period of one year. Officers will assume duty immediately following their election.

The board shall appoint as its executive officer the superintendent who shall also be the Secretary of the Board of School Commissioners. As secretary, he or she shall conduct all correspondence of the board, keep and preserve all of its records, receive all reports required by the board, and ascertain that such reports are in proper form, complete and accurate. In case the office of the superintendent is temporarily vacant, or when the superintendent is absent by reason of the nature of business under consideration, or otherwise, the board may recognize the acting superintendent in this capacity.

Duties

The president, or in her or his absence the vice president, shall preside at all meetings of the board, preserve order and decorum and decide all points of order, subject to an appeal by the board. He or she shall be entitled to vote on all questions.

The president shall appoint all special committees unless the board declares otherwise.

In the absence of both the president and vice president, a president pro tempore shall be elected who shall in such cases perform all the duties of the president.

Committee meetings may be called by any member of the board or by the superintendent. The board president shall preside over the Committee of the Whole during its meetings. The purpose of the board sitting as a Committee of the Whole is to study various school system related matters. Its purpose is not to take official action. The committee may take no formal action during such a committee meeting. All formal actions must be taken in a duly advertised regular or special called meeting of the board.

When the board sits as a Committee of the Whole, its general duties are advisory and not executive. The superintendent or his designee shall serve as ex-officio member of all such committee meetings. All Committee of the Whole meetings shall be open to the public, properly advertised and minutes shall be maintained.

An Ad Hoc Committee shall be assigned a very specific area of study and a definite term of existence, not to exceed ninety (90) days. Ad Hoc Committee meetings shall be arranged by consent. Needs warranting consideration may be suggested by the board president, individual board members or the superintendent.

The general duties of an Ad Hoc Committee shall be advisory and not executive. Ad Hoc Committees do not have authority to direct the action of administrators or other employees. The superintendent or his designee shall serve as ex-officio members of all Ad Hoc Committees. All Committees will report their findings and recommendations to the board before the committee's designated expiration date.

Advisory Committees

The board upon recommendation of the superintendent may appoint Advisory Committees whose membership may be other than that of elected board members. Such Advisory Committees will make recommendations to the board and operate only within the parameters established by the board. Advisory Committees shall report their findings to the superintendent for dissemination to the board. Any dissemination of information by Advisory Committees shall be made only with prior approval by the superintendent and the board. Advisory Committees will be dissolved at the discretion of the board upon the superintendent's recommendation.
