Introduction

AdvancED's Self Assessment (SA) diagnostic is based on the AdvancED Standards of Quality, which serves as the foundation of the accreditation and continuous improvement process. The SA is a valuable tool for collaboratively engaging staff members and stakeholders in purposeful, honest dialogue and reflection to assess the institution's adherence to the Standards, and guide its continuous improvement efforts. The SA includes the institution's self-ratings of and the evidence cited for each of the indicators, comments that explain the indicator's ratings and an overall narrative for each Standard. The results of the SA are reviewed by the External Review Team as one essential component of the preparation process for the institution's External Review.

One strength is that the process of evaluating data and setting goals includes representatives from all stakeholder groups. An area of improvement is that the media through which the data is shared with all stakeholders could be expanded. To sustain our area of strength, we will continue to reach out to community partners to spread our mission and goals. To address our area of need, we will have artifacts detailing our data and continuous improvement goals in media that all stakeholders may access including an updated link to the plan on our website.

A strength is that we regularly evaluate and refine our policies. An area that needs improvement is having more stakeholders participate in the decision-making process and development of school policies. In order to sustain that strength, we will improve our communications with stakeholders in order to reinforce policies and inform them about revisions including the use of School Messenger automated phone system. To improve the area of need, we will call upon more parent representatives to provide input on school procedures/policies through surveys and parent meetings.

A strength is that an effort is made school-wide to individualize instruction, especially with the implementation of Bring Your Own Device (BYOD). An area of weakness is that not all instructors use common grading and reporting policies, processes, and procedures. In an effort to sustain our strength, we will expand our inventory of technological tools that can provide necessary diagnostic information and prescribe specific curricula to students based on their individual needs. To improve our area of need, we will provide opportunities for teachers to collaborate on evaluating standards and developing common grading practices.

A strength is that systematic processes and procedures for collecting, analyzing, and applying learning from multiple data sources are used consistently. An area of improvement is that not all professional and support staff members are assessed and trained in a professional development program related to the evaluation, interpretation, and use of data. We will sustain the strength by exploring other data sources and monitoring the use of data to inform instructional decisions. To address the area of improvement, we will include paraprofessionals in the data evaluation process more often.
