Introduction

AdvancED's Self Assessment (SA) diagnostic is based on the AdvancED Standards of Quality, which serves as the foundation of the accreditation and continuous improvement process. The SA is a valuable tool for collaboratively engaging staff members and stakeholders in purposeful, honest dialogue and reflection to assess the institution's adherence to the Standards, and guide its continuous improvement efforts. The SA includes the institution's self-ratings of and the evidence cited for each of the indicators, comments that explain the indicator's ratings and an overall narrative for each Standard. The results of the SA are reviewed by the External Review Team as one essential component of the preparation process for the institution's External Review.

Standard 1: Purpose and Direction

The school maintains and communicates a purpose and direction that commit to high expectations for learning as well as shared values and beliefs about teaching and learning.

Overall Rating: 2.67

Indicator	Statement or Question	Response	Evidence	Rating
1.1	The school engages in a systematic, inclusive, and comprehensive process to review, revise, and communicate a school purpose for student success.	The school's process for review, revision, and communication of the purpose statement is documented. The process is formalized and implemented on a regular schedule. The process includes participation by representatives from all stakeholder groups. The purpose statement focuses on student success.	<ul style="list-style-type: none"> •Examples of communications to stakeholders about the school's purpose (i.e. website, newsletters, annual report, student handbook) •Minutes from meetings related to development of the school's purpose •Purpose statements - past and present 	Level 3

1.2	The school's leadership and staff commit to a culture that is based on shared values and beliefs about teaching and learning and supports challenging, equitable educational programs and learning experiences for all students that include achievement of learning, thinking, and life skills.	Commitment to shared values and beliefs about teaching and learning is sometimes evident in documentation. This commitment is sometimes reflected in communication among leaders and most staff. Some challenging educational programs and equitable learning experiences are implemented so that all students achieve some degree of learning, thinking, and life skills. Evidence indicates some commitment to instructional practices that include active student engagement, a focus on depth of understanding, and the application of knowledge and skills. School leadership maintains high expectations for professional practice.	<ul style="list-style-type: none"> •Agendas and/or minutes that reference a commitment to the components of the school's statement of purpose •The school's statement of purpose 	Level 2

1.3	The school's leadership implements a continuous improvement process that provides clear direction for improving conditions that support student learning.	School leaders implement a documented, systematic continuous improvement process for improving student learning and the conditions that support learning. All stakeholder groups are engaged in the process. School personnel maintain a profile with current and comprehensive data on student and school performance. The profile contains analyses of data used to identify goals for the improvement of achievement and instruction that are aligned with the school's purpose. Improvement goals have measurable performance targets. The process includes action planning that identifies measurable objectives, strategies, activities, resources, and timelines for achieving improvement goals. School leaders hold all school personnel accountable for and evaluate the overall quality of the implementation of all interventions and strategies. The process is reviewed and evaluated. Documentation that the process yields improved student achievement and instruction is available and communicated to stakeholders.	<ul style="list-style-type: none">•The school data profile•Agenda, minutes from continuous improvement planning meetings•The school continuous improvement plan	Level 3

Our areas of strength are effectively communicating the schools' purpose and success to all of our stakeholder groups. The school administrators implement a continuous improvement process that provides clear directions for improving conditions that support student engagement and learning. We are currently implementing strategies to sustain communication with our stakeholders. We have meetings with stakeholders and parents to keep them up to date with current student and school data.

Our area of weakness is that of the school's leadership and staff committing to a culture that is based on shared values and beliefs about teaching and learning and supports challenging, equitable educational programs and learning experiences for all students that include achievement of learning, thinking, and life skills. To improve our areas of need, we will continue with ongoing professional development, consistent with assessment data.

Standard 2: Governance and Leadership

The school operates under governance and leadership that promote and support student performance and school effectiveness.

Overall Rating: 2.5

Indicator	Statement or Question	Response	Evidence	Rating
2.1	The governing body establishes policies and supports practices that ensure effective administration of the school.	Policies and practices generally support the school's purpose and direction and the effective operation of the school. Most policies and practices promote effective instruction and assessment that produce equitable and challenging learning experiences for all students. There are policies and practices regarding professional growth of staff. Policies and practices provide requirements and oversight of fiscal management.	<ul style="list-style-type: none"> •Student handbooks •Governing body policies, procedures, and practices •Staff handbooks 	Level 2

Results from the AdvancED Self Assessment for the Vigor High School has determined School's purpose and direction, supervision and evaluation, and autonomous school leadership to be areas of strength. We will continue to maintain and promote student success by aligning the results from the evaluative tools used by leadership to appropriately provide professional development. In addition, we will continue to work collaboratively to accomplish goals for improvement in student learning, instruction, and manage day-to-day operations autonomously. Lastly, Vigor High School is committed to improving purpose and direction by making sure that we monitor our school continuous improvement plan to achieve the school's purpose where all leaders and staff are all accountable for student learning.

Our areas of weakness are engaging stakeholders in support of the school's purpose and establishing policies and support practices that ensure effective administration of the school. To improve engaging stakeholder's in support of the school's purpose and direction, we will work diligently to provide various means of communications to all stakeholders to get their support and input on school based decisions. We currently use school messenger, newsletters, and our school website to communicate with all stakeholders; however, we want to improve in this area to get more stakeholders actively involved and engaged in their child's education. We have started offering flexible meeting times to meet the needs of our working parents and it has helped greatly. The other area of weakness is establishing policies and support practices the ensure effective administration. We want to improve effective instruction and assessment that produce equitable and challenging learning experiences for all students by using best practices and research based strategies. In addition, we want to provide more policies and practices regarding professional growth of all staff.

Standard 3: Teaching and Assessing for Learning

The school's curriculum, instructional design, and assessment practices guide and ensure teacher effectiveness and student learning.

Overall Rating: 2.67

Indicator	Statement or Question	Response	Evidence	Rating
3.1	The school's curriculum provides equitable and challenging learning experiences that ensure all students have sufficient opportunities to develop learning, thinking, and life skills that lead to success at the next level.	Curriculum and learning experiences in each course/class provide all students with challenging and equitable opportunities to develop learning skills, thinking skills, and life skills. There is some evidence to indicate curriculum and learning experiences prepare students for success at the next level. Like courses/classes have equivalent learning expectations. Areas of Strength

After reflection we have determined the following to be our areas of strength:

- (3.2) Using data to monitor student performance and progress
- (3.10) Grading and reporting practices and procedures
- (3.5/3.11) Participating continuous program of professional learning

During our data, department, and/or faculty meetings we are able to review and analyze data to identify students' and teachers' strengths and weaknesses. According to the patterns and trends that are documented, adjustments and plans are made to address the weakest areas. For example, after reviewing our 2016 ASPIRE and ACT results, students were enrolled in intervention classes according to their performance.

The ELA and math teachers signed up to provide instruction in their strongest area and those students are assigned to specified classes.

Interim assessments are given to determine growth or lack thereof and class rosters and lesson plans are adjusted accordingly. Also, teachers attend professional development workshops that are aligned to the school's mission and vision. Direct instruction, technology, and, student engagement are the primary areas that we have focused on this school year. Local and off-site professional learning opportunities have been offered throughout the school year and the teachers have included the strategies and tools during their instructional block.

Sustaining Strengths

We will continue to review data to drive our teaching, professional learning, and student achievement. As new data is given, the time will be scheduled for teachers to meet collaboratively on a consistent basis to review, analyze, and plan accordingly. We will continue to utilize the grading parameters adopted by the Mobile County Public School System as well as conduct instructional audits at the local school to

Self Assessment

evaluate and monitor grading procedures.

Needs of Improvement

After careful reflection, we have determined the following to be needs of improvement:

- (3.3) Including students in their learning
- (3.8) Engaging families in the learning process

We have embarked on a journey to have a 1:1 technology learning environment so that the students become more engaged in their learning through the use of technology. We will continue to use Title I and local school funds to purchase digital tools and attend professional development to stay abreast of new ideas that will assist us in integrating technology. We are in the second and final year of the Digital Literacy Pilot through Discovery Education and will continue to implement the strategies learned.

Improving Areas of Need

In addition to what we are already doing to engage our families, we would offer more flexible times for our parents to attend conferences. We have discussed planning more student-led conferences/ programs, parent-centered activities, and support services throughout the school year to attract more parents. We will continue to send progress reports home, but include an incentive for those students who bring their progress reports back to school signed by a parent. Partnership conferences will be held once per quarter where the teachers will complete a face-to-face meeting with parents to discuss student test results and their academic progress. By getting the parents involved, we increase the likelihood of the students taking responsibility for their learning.

Standard 4: Resources and Support Systems

The school has resources and provides services that support its purpose and direction to ensure success for all students.

Overall Rating: 2.86

Indicator	Statement or Question	Response	Evidence	Rating
4.1	Qualified professional and support staff are sufficient in number to fulfill their roles and responsibilities necessary to support the school's purpose, direction, and the educational program.	Policies, processes, and procedures describe how school leaders are to access, hire, place, and retain qualified professional and support staff. The administrators at CF Vigor are looking to local funds to augment and address shortfalls in staffing for special education as well as intervention personnel. Funds will also be allocated for professional development in matters concerning reading intervention strategies as well as co-teaching techniques.

In terms of improving the performance and daily operations of the school, administrators will look at indicators such as increasing the "student-back-to-class" rate after visiting the nurse; increasing the rate of referral to PST while simultaneously decreasing the subsequent referral to special education; and finally, administrators will review physical education lesson plans to ensure students are receiving rigorous activity and challenges relevant to an active post-secondary lifestyle.

In reference to Standard 5, our area of strength is leadership and communicating comprehensive information about student learning, conditions that support student learning, and the achievement of school improvement goals to stakeholders. To sustain the area of strength, school leadership will continue to monitor student learning and achievement of school improvement goals as well as consistently communicate with stakeholders. The area of improvement is assessing and analyzing data to use as the driving force for instruction. Ongoing professional development will be given to aid in the area of improvement.
