April 24-28	Grade 2 TNReady Test	2
May 1-5	TNReady Achievement	3-8
May 15-19	Kindergarten EOY Testing	K

Parents will be notified of the testing results as they become available. State mandated tests provide a parent report which is sent home as soon as we receive them, providing it is during the school year. Any test results that arrive at the district level during the summer are sent home when the next school year begins.

Additionally, each of our schools will be administering various benchmark exams and universal screener tests throughout the school year. Not all students will be subject to these tests at every testing session. These tests are used to monitor mastery levels and provide data from which to drive classroom instruction as the students prepare for the state mandated tests at the end of the year/course. These school specific tests and dates can be found on the individual school websites. There are links to each school on our system homepage at www.maconcountyschools.com.
