

Student account information

Student Accounts: The Child Nutrition Program is self-supporting and oversees the collection of all cash transactions at each school site.

The cafeteria uses a software program for cash collection. Each student is assigned an individual account number that is used throughout the school year. When a student's account number is entered into the register, the account information appears on the register screen for the cashier.

Pre-payments are appreciated but single purchases are also welcomed. Individual account information is available from the cafeteria manager at each school.

A student who does not have lunch/breakfast money will be permitted to charge the meal(s) provided that he/she does not owe money for more than five (5) unpaid meals.
