Weekly Reader and Science Spin Subscriptions

We ask that each student bring \$7.50 (cash only) in a sealed envelope labeled with his/her name to purchase a 32-issue subscription to the Scholastic Weekly Reader and Science Spin magazines. These magazines are AZ College and Career Standards aligned, and are an integral part of our social studies and science programs. The subscriptions include the magazines in a digital format accessible in the classroom with many interactive activities. We have used them for years, and love their engaging educational approach to such subjects as Presidents' Day, the U.S. flag, insects, space, etc. It's a great value. Students will be taking home their magazines and activities to share with families.
