TO-MAGIC-O

Tomato

FUN FACTS

Spanish explorers introduced the tomato to Europe in the 1600s. The tomato arrived in America in the late 1700s.

Adventuresome gardeners, like Thomas Jefferson, helped it gain in popularity. By 1835, tomatoes were widely eaten. The average person in the U.S. consumes about 88 pounds of tomatoes each year! Tomatoes are the most popular garden vegetable crop in Texas.

The oldest of the superheroes, To-magic-o became a tomato superhero thousands of years ago. An ancient emperor commanded nutrition magician Vita-clese to create a natural food to satisfy all the kingdoms. The magician combined a stone bowl of vitamin C, a wooden spoon of vitamin K and a pinch of potassium, vitamin A, folate and other nutrients to make a bright red ball he bound together with fiber. Then he gave the ball super tasty powers of versatility and called it To-magic-o. Today To-magic-o is highly respected in Healthyville and she can transform into thousands of shapes and colors to make good nutrition super tasty for anyone in the world.
