

What is Infinite Campus?

Today, all K12 school districts use a database system for managing student information and maintaining student records. Infinite Campus is a district-wide student information system (SIS) designed to manage attendance, grades, schedules, assessments and other information about the students in the Monroe County Schools. Infinite Campus will replace PowerSchool.

Infinite Campus is a district-wide student information system designed to manage attendance, grades and test scores. Parents will utilize one login to see information on one or multiple children.

Mobile Apps

Get access to Campus Portal information when you want it, anytime, anywhere, from your iOS or Android devices. The Infinite Campus mobile app is easy to use and allows students to view assignments, check their schedules and see their grades.

www.InfiniteCampus.com/Mobile

Parents can use the Infinite Campus mobile app to access student data and stay informed with real-time information. Parents with more than one child can quickly switch from one child's page to another. Simply select the child's name and change to another student.

Campus Portal

The Campus Portal provides students and guardians with real-time access to their information as it is entered by teachers, counselors and staff. It is also accessible from any Apple iOS and Android device. The Campus Portal reduces printing and mailing costs and minimizes lost school-to-home communications.

Parents can use the Campus Portal to receive information on their student's schedule, assignments, grades and attendance. They can also update their phone numbers, email, home address, student demographics and contact information.

The Campus Portal provides parents and students with constant updates on assignments, communications from the schools, grades, attendance and personal household information.

Campus Portal is where students are able to access and submit online assignments. Parents will be able to see their student's active assignments and keep up-to-date with their academic progress.

Security

Only parents and guardians designated with legal rights to student records may receive a Campus Portal account. Each parent/guardian with such rights receives their own separate account. Accounts are NOT shared among more than one parent/guardian within households, i.e., there are no "household"

accounts in the Portal. Each parent/guardian Portal account provides access to information for those students for which the parent/guardian has legal rights to records.

The Campus Portal incorporates the highest level of security. Parents/guardians can see only information related to the students they are authorized to view. The use of strong passwords, forced password reset and session timeouts ensure secure access.
