The Board has determined that reasonable regulation of school attire and personal adornment is within its authority and consistent with its responsibility. Adornment is within its authority and consistent with its responsibility to provide an appropriate environment for learning. ### GIFTED/EXCEL PROGRAM

The Murray County School District endorses the philosophy that education is a means by which each individual has the opportunity to reach his or her fullest potential. We believe that all students have a right to educational experiences that challenge the level of their individual development, whether it is below, at, or beyond the level of their age peers. Special programs for gifted students are one outgrowth of this commitment.

Students in grades K-12 who demonstrate a high degree of intellectual, academic, and/or creative abilities may be nominated for evaluation to determine eligibility to participate in the program for Gifted Students. Referrals for consideration may be made by teachers, parents/guardians, counselors, administrators, peers, self, and other individuals with knowledge of the student's abilities. The State Board of Education determines eligibility criteria for placement in this program. For a summary of those criteria or for further information about Murray County's Program for Gifted Students, please contact the Gifted Program teacher at your child's school or contact:

## When an Emergency Happens at School

*"Committed to student success...no exceptions, no excuses!"*

Your first reaction may understandably be to call or rush to your child's school. However, that may not be the safest option for you **OR** your child. To assure that school staff and first responders are able to address the emergency, please follow these tips:

- Monitor School Connect for alerts and instructions
- Check to District Website. Alerts and information may be posted for parents and students.

- Please **do not** call the school as school officials will be addressing the emergency
- Please **do not** go to the school unless instructed. Additional traffic and confusion may put your child at additional risks and hinder efforts of first responders.
- **Once an emergency is declared, the building administrator may direct that no student be released until an all clear is given by school officials.**

Students, upon arriving at school, should immediately exit their vehicles and enter the building. At the end of the school day (unless a student has an after-school scheduled activity) students should go immediately to their vehicles and promptly exit campus. No lingering or loitering in the student parking will be allowed. Violation of this protocol may result in loss of driving privileges, and other discipline at the discretion of administration.

All students **MUST** pay for, and prominently display a parking pass, which currently cost \$40 annually. This amount shall not be subject to any proration based upon when during the school year it is purchased or any student's "part-day" schedule. (The cost is subject to change from time to time without advance notice).

Each student is responsible for any item in the vehicle. The school reserves the right to enter and search any vehicle at any time.

**Students are not to share or exchange parking permits.** Any inappropriate items found in a vehicle will be the responsibility of the student. For student protection, random vehicle searches may be made throughout the school year.

## **STUDENT RECORDS**

Murray County Schools will comply with the Family Educational Rights and Privacy Act (FERPA) regarding student records. See FERPA section of this student handbook.

## **TARDINESS**

Each school has established a starting time. Any student arriving after the scheduled starting time is tardy. It is important that students arrive on time and attend all classes during the day. Allowances are made for late arrival of buses. Repeated tardiness may be referred to a social worker.

## **TESTING**

Test schedules are subject to change. It is not uncommon for the State Department of Education or the local school system to modify test schedules after the beginning of the school year. The most current information regarding testing will be posted on the pupil services website at [www.murray.k12.ga.us](http://www.murray.k12.ga.us) at the pupil services link.

The Murray County School System administers standardized tests in accordance with the state guidelines. Tests include: GKIDS for Kindergarten, ACCESS for ELL, GAA, Georgia Milestones End-of-Grade Assessment for grades 3-8, and Georgia Milestones End-of-Course Assessment for grades 9-12. Benchmark testing is used to guide instruction in core courses.

## **TEXTBOOK AND INSTRUCTIONAL MATERIAL**

Textbooks or other resources will be made available to students in class, online, or to take home each night. School textbooks are the property of the state of Georgia and students are responsible for protecting issued textbooks from loss, theft, and damage. Students will be charged the replacement cost for textbooks that have been lost or damaged.

## **VISITORS**

All visitors must report to the office before conducting any business they may have at the school, and may be asked for photo ID. Visitors will be issued a visitors pass or badge. Students are asked not to bring visitors to school at any time. Parents are always welcome and are encouraged to make appointments with the secretary to see a teacher, an administrator, or visit classes. All conferences will be scheduled during the teacher's planning period, before or after school. Conferences should be arranged at least one day in advance. Individuals who enter schools without permission are subject to criminal trespass laws.

## **VOLUNTEERS**

Volunteers are greatly appreciated. However, due to Georgia Law, all volunteers supervising students other than their own child, must complete mandated reporter training, and submit to a criminal background check (at their expense) prior to acting as volunteers. Check with the school office to see if this law applies to you.

## **WITHDRAWALS**

Any student withdrawing from school for any reason is to report to the office for the proper forms. A parent or guardian must accompany the student. All books must be returned and fines paid in order to clear the records. To facilitate this process, the Guidance Office should be notified a few days before the withdrawal date if possible. The parent or guardian must provide the reason for withdrawal, and in the case of transfer, the name of the school the student will be attending. The parent or guardian must provide the new home address and the last date the student will be in attendance at the school.

## MURRAY COUNTY SCHOOLS CODE OF STUDENT CONDUCT AND DISCIPLINE PROCEDURES

### STATEMENT OF PURPOSE

The purpose of the schools within the Murray County School district is to provide the best learning opportunity possible. Our standards of student behavior during school hours, on school property, and at school related functions are designed to create the expectations that students will behave themselves in such a way as to facilitate a learning environment for themselves and other students. We expect students to:

1. Respect each other
2. Respect school district employees
3. Obey student behavior policies adopted by the Board of Education
4. Obey rules established by individual schools

Good order and discipline may be described as the absence of distractions and disturbances, which interfere with the optimum functioning of the student, the classroom, the school, school related functions, and the safe operation of school buses. It is also the presence of a friendly, yet businesslike, rapport in which students and school personnel work cooperatively toward mutually accepted goals. We ask your cooperation in sharing this responsibility for maintaining a proper learning environment.

### POSITIVE BEHAVIOR SUPPORT

#### SCHOOL LEVEL INTERVENTION PROCESS

The Murray County Board of Education supports a framework of tiered interventions for students experiencing behavioral challenges. All schools within this school district are operational in the Positive Behavioral Support and Intervention Framework and Strategies. Students displaying behaviors designated in the code of conduct will be provided tiered interventions with accordance with the Murray County Schools Pyramid of Behavior Interventions. Each school has a pyramid of interventions that is based on the system framework. All students are provided Tier 1 interventions. Students that experience behavioral challenges following implementation of Tier 1 interventions with fidelity are provided Tier 2 interventions. If Tier 1 and Tier 2 interventions and consequences are not successful in decreasing student's disruptive behavior and preserving instructional time, Tier 3 interventions are then implemented.

The Code of Conduct provides a systematic process of behavioral correction in which inappropriate behaviors are followed by interventions and consequences while appropriate behaviors are recognized and reinforced. Disciplinary actions are designed to teach students self-discipline and to help them replace inappropriate behaviors with those that are consistent with the school and system behavioral expectations.

#### CODE OF CONDUCT MATRIX AND PROGRESSIVE DISCIPLINE

The Murray County School System code of Conduct is designed to provide administrators and teachers a guideline for implementing interventions and consequences when student behavior does not align with the school system's behavioral expectations. The interventions and consequences are progressively more intense if student misbehavior continues. The code of conduct is built on a progressive discipline philosophy and is designed to create the expectation that the degree of consequences imposed by each school will be in proportion to the severity of the behavior of the student, the previous discipline history of

the student, and other relevant factors while also ensuring that each student receives the due process mandated by law.

#### STATEMENT OM AUTHORITY OF SCHOOL LEADERSHIP

The principal is the designated leader of the school, and along with the staff, is charged by the superintendent with the safe and orderly operation of the school. In case of disciplinary violations not covered by code of conduct, the principal may impose corrective measures, which he or she believes to be in the best interest of the student involved and the school.

The Code of Conduct is a guideline for school leaders to use when providing interventions and consequences for student misbehavior. Based on the circumstances of a disciplinary violation, principals have the authority and discretion to impose interventions and consequences more intensive than indicated for each behavior in the Code of Conduct.

## DISCIPLINE PROCEDURES

The following code of conduct (“code”) and discipline procedures have been prepared in accordance Federal and Capital State Law, Georgia Department of Education Rules and the Murray County Board of Education Policy procedures for Murray County Schools. It contains information for school personnel, students, and parents on the progressive discipline guidelines. Included are an outline of student offenses and the various possible dispositions relating to these offenses. Disciplinary action resulting in more than ten days out of school suspension will include appropriate hearings and reviews, and in all cases, the rights of individuals will be ensured and protected. Disciplinary actions will be administered as fairly and consistently as individual circumstances allow. **The severity of the violation of a code of conduct may necessitate any necessitate more punishment than is outlined in the student handbook and is at the discretion of school administration. Behaviors may occur that significantly deviate from the standard of conduct acceptable and expected of Murray County students. If such behaviors occur, the school administration is authorized to assign appropriate punishment even though the violation is not specifically listed in this code of conduct.** It should be noted that there would be instances when students who violate the student code of conduct receive different punishments. **The codes and associated punishments are intended as guidelines only, and except to the extent otherwise required by law or rule, it is within the discretion of administration and or tribunal to deviate (i.e. greater or lesser punishment), on a case by case basis, as particular circumstances may warrant.** Parent contact will be made in all cases where a disciplinary violation results in punishment being administered by a school administrator. Parent contact may include, but is not limited to, the following:

Telephone calls, telephone messages, written notifications sent home with student, written notification through the mail, or face to face-parent conference. Public schools are required to administer progressive discipline; therefore in determining appropriate punishment a student’s past disciplinary record must be considered. Additionally school administrators will consider the severity of the violation and the impact of the behavior on the learning environment of the school.

The Student Discipline Code of Conduct provides a systematic process of behavioral correction in which inappropriate behaviors are followed by consequences. Disciplinary actions are designed to teach students self-discipline and to help them substitute inappropriate behaviors with those that are consistent with the character traits from Georgia’s Character Education Program

The following disciplinary actions may be imposed for any violation of this student discipline code of conduct:

- Warning and/or Counseling with a school administrator or counselor
- Loss of privileges
- Isolation
- Temporary Removal from class or activity
- Notification of Parents
- Parent Conferences
- Detention/Saturday School
- Placement in an Alternative Education Program
- Short-term Suspension
- Referral to a Tribunal for Long-Term suspension or expulsion
- Expulsion from Murray County Schools
- Suspension or Expulsion from the School Bus

- Officials: Georgia law requires that certain acts of misconduct be referred to the appropriate law enforcement

officials. The school will refer any act of misconduct to law enforcement officials when school officials determine such referral to be necessary or appropriate.

- Any and all other consequences or combination of consequences determined appropriate by school administration.

School officials may search a student if there is reasonable suspicion the student is in possession of an item that is illegal or against school rules. Student’s vehicles brought on campus; student bags (including book bags and purses), electronic devices, school lockers, desks, and other school property are subject to inspection and search by school authorities at any time without further notice to students or parents. Students are required to cooperate if asked to open bags, lockers, or any vehicle brought on campus, or to allow inspection of electronic devices. Metal detectors, audio and video surveillance devices, and drug or weapon sniffing dogs may be utilized at school or at any school function, including activities which occur outside normal school hours or off the school campus at the discretion of administrators.

#### **COMPLAINTS OF DISCRIMINATION/HARRASSMENT**

Complaints made to the School District regarding alleged discrimination or harassment on the basis of race, color or national origin in violation of Title VI, on the basis of sex in violation of Title IX or on the basis of disability in violation of Section 504 of the Rehabilitation Act of 1973 or the Americans With Disabilities Act will be processed in accordance with the following procedure:

1. Any student, employee, parent or other person with a complaint or report alleging a violation as described above shall promptly notify, in writing or orally, either the principal for his/her school or the District's coordinator, who shall be the Director of Administrative Services, at 1006 Green Road, Chatsworth, Georgia, 30705, (706) 695-4531. If the complaint is oral, either the coordinator or school principal to whom the complaint is made shall promptly prepare a memorandum or written statement of the complaint as made to him or her by the complainant and shall have the complainant read and sign the memorandum or statement if it accurately reflects the complaint made. If the complaint is made to a school principal, he or she shall be responsible for notifying the appropriate coordinator of

the complaint. This policy applies to complaints alleging discrimination carried out by employees, other students or third parties; the District will conduct adequate, reliable and impartial investigation of the complaints, including the opportunity to present witnesses and other evidence; and the District will endeavor to take steps, believed necessary in its discretion, to prevent recurrence of any harassment and to correct discriminatory effects on the complainant and others, if appropriate.

2. If the alleged offending individual is the coordinator or the principal, the complaint shall either be made by the complainant to the Superintendent or, if the complaint is initially made to the school principal, reported by the principal to the Superintendent. If the alleged offending individual is the Superintendent, the complaint shall be made to the designated coordinator, who shall, without further investigation, report the complaint to the Board chairperson.

3. The coordinator or his or her designee shall have fifteen (15) work days to gather all information relevant to the complaint made, review the information, determine the facts relating to the complaint, review the action requested by the complainant, and attempt to resolve the complaint with the complainant and any other persons involved. The coordinator or designee shall prepare a written response to the complaint detailing any action to be taken in response to the complaint and the time frame in which such action will be taken and copies of this response shall be furnished to the complainant, the appropriate coordinator and the principal or his or her designee. 4. If the complaint is not resolved at the conclusion of this fifteen (15)-day period or if the complainant is not satisfied with the resolution of the complaint, the complainant shall have the right, within five work days of receiving a copy of the written response, to have the complaint referred to the Superintendent of Schools. If the alleged offending individual is the Superintendent, the complainant may have the complaint referred to the Board of Education, rather than the Superintendent.

5. The Superintendent shall have fifteen (15) work days to review the complaint and the response of the coordinator or designee and attempt to resolve the complaint. The Superintendent shall furnish to the complainant a written response setting forth either his or her approval of the action recommended by the coordinator or designee or the action to be taken by the School District in response to the complaint in lieu of that recommended by the coordinator or designee and the time frame in which such action shall be taken.

6. This policy is not intended to deprive any student or parent of any right they may have to file a complaint under any other applicable policy of the local board or to contact the Office of Civil Rights or other appropriate state or federal agency with regard to any allegations that the School District has violated the statutes described above.

7. The School District shall be responsible for distributing and disseminating information relevant to this policy and procedure to students, parents and employees through appropriate procedures.

### **SECTION 504 DISABILITY GRIEVANCE PROCEDURES**

Any student or parent or guardian ("grievant") may request an impartial hearing due to the school system's actions or inactions regarding your child's identification, evaluation, or educational placement under Section 504. Requests for an impartial hearing must be in writing to the school system's Section 504

Coordinator; however, a grievant's failure to request a hearing in writing does not alleviate the school system's obligation to provide an impartial hearing if the grievant orally requests an impartial hearing through the school system's Section 504 Coordinator. The school system's Section 504 Coordinator will assist the grievant in completing the written Request for Hearing. The Section 504 Coordinator may be contacted through the school system's central office. ### **NOTIFICATION: ASSURANCE OF ACCESS**

The Murray County School District endorses the philosophy that education is a means by which each individual has the opportunity to reach his or her fullest potential. We believe that all students have a right to educational experiences that challenge the level of their individual development, whether it is below, at, or beyond the level of their age peers. Special programs for gifted students are one outgrowth of this commitment. Students in grades K -12 who demonstrate a high degree of intellectual, academic, and/ or creative abilities may be nominated for evaluation to determine eligibility to participate in the Program for Gifted Students. Referrals for consideration may be made by teachers, parents or guardians, counselors, administrators, peers, self, and other individuals with knowledge of the student's abilities. The State Board of Education determines eligibility criteria for placement in this program. For a summary of those criteria or for further information about Murray County's Program for Gifted Students, please contact the Gifted Program teacher at your child's school or: Spencer Gazaway, Gifted Program Coordinator

The requirements of this subsection shall apply to a child between his or her sixth and sixteenth birthdays who has been assigned by a local board of education or its delegate to attend an alternative public school program established by that local board of education, including an alternative public school program provided for in Code Section 20-2-154.1, regardless of whether such child has been suspended or expelled from another public school program by that local board of education or its delegate, and to the parent, guardian, or other person residing in this state who has control or charge of such child. Nothing in this Code section shall be construed to require a local board of education or its delegate to assign a child to attend an alternative public school program rather than suspending or expelling the child.

(b) Any parent, guardian, or other person residing in this state who has control or charge of a child or children and who shall violate this Code section shall be guilty of a misdemeanor and, upon conviction thereof, shall be subject to a fine not less than \$25.00 and not greater than \$100.00, imprisonment not to exceed 30 days, community service, or any combination of such penalties, at the discretion of the court having jurisdiction. After two reasonable attempts to notify the parent, guardian, or other person who has control or charge of a child of five unexcused days of absence without response, the school system shall send a notice to such parent, guardian, or other person by certified mail, return receipt requested, or first class mail. Public schools shall provide to the parent, guardian, or other person having control or charge of each child enrolled in public school a written summary of possible consequences and penalties for failing to comply with compulsory attendance under this Code section for children and their parents, guardians, or other persons having control or charge of children. The parent, guardian, or other person who has control or charge of a child or children shall sign a statement indicating receipt of such written statement of possible consequences and penalties; children who are age ten years or older by September 1 shall sign a statement indicating receipt of such written statement of possible consequences and penalties. After two reasonable attempts by the school to secure such signature or signatures, the school shall be considered to be in

(c) Local school superintendents in the case of private schools or home study programs and visiting teachers and attendance officers in the case of public schools shall have authority and it shall be their duty to file proceedings in court to enforce this subpart.

#### **\*\*\*FERPA NOTICE**

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days of the day the School receives a request for access. Parents or eligible students should submit to the School principal [or appropriate school official] a written request that identifies the record(s) they wish to inspect. The School official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate or misleading. Parents or eligible students may ask the School to amend a record that they believe is inaccurate or misleading. They should write the School principal [or appropriate official], clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the School decides not to amend the record as requested by the parent or eligible student, the School will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the School as an administrator, supervisor, instructor, or support staff

member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the School has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the School discloses education records without consent to officials of another school district in which a student seeks or intends to enroll. FERPA requires a school district to make a reasonable attempt to notify the parent or eligible student of the records request unless it states in its annual notification that it intends to forward records on request.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the School to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

**Family Policy Compliance Office
